FLORENCEVILLE, July 25th, 1861.

MR. EDITOR,

Sir,—Please insert the following scheme in your paper for three months.

Hitherto we have always expected our representatives to do some great thing or other for us without our fairly showing up what was wanted. Now I propose something for them to do, and something for the people to require carried out.

Scheme to build two or more bridges across the Saint John River, one at Florenceville and the other at Woodstock, to form connections with the thoroughfares through from the United States; this scheme will not increase our taxes, will not diminish our revenue, but on the contrary, give us free access to either side of the River, and open up and connect this side to the great farming country east of us, increase our population four hundred families to a Bridge, and open the way by the expenditure of twenty thousand and prestige of each Bridge, to the introduction of thousands into the country.

Applied to one Bridge at Florenceville. Let Government grant Forty thousand acres of land in two blocks called Peel and Florenceville Bridge Grants, let it be farming land and chosen on the east side of the River opposite here, for the purpose of raising a fund out of to build the Bridge and afterwards paying off the debt, and interest in Twenty years by the immediate settlement thereof as follows—let the Government after granting the Land either by the Board of Works or otherwise give the land in security to English capitalists subject to certain conditions, viz, the immediate settlement of it and sale to the settlers at three shillings per acre more or less for the payment of the debt in Twenty years, and let the Government pay the Interest of Twenty thousand Pounds yearly which at 5 per cent will be one thousand Pounds and take instead the addition to our revenue four hundred families and their increase will make. Any one will understand that at three shillings per acre, Forty thousand acres will amount to six thousand pounds and as a sinking fund with interest payable annually left in the hands of the settlers, or otherwise placed to compound at simple interest will in Twenty years, (more or less) pay off the debt and any one will understand that in Twenty years forty thousand acres of cultivated land, with broad fields, stocks, crops, houses and wealth, like William town, Jacksontown, &c, &c, will be a magnificent realization, and will also understand that the busy heads and hands of 400 families and their increase producing and consuming must replace fourfold the yearly interest. These are plain uncontrovertible facts proved out by the first settlement of the County and its advancement up to the present time; and the feasibility of this is now fully proved out of late by the large emigration and settlement on lands adjoining where we want those blocks, viz. Glassville, Knowville, &c., &c, &c., by a class of people respectable and possessing considerable means, and now is the time to stimulate such immigration. The true way to get wealth into the country is to get in the people and cultivate the soil. Let no sectional feelings arise to impede the building of those Bridges. The same principle applied will build bridges at whatever point required on the River and in place of Taxing us in the least will double the value of our property—this scheme must appeal to every man owning property on either side. With these bridges, (and it a mere question of time for the strip of land on this side must be connected with the great country east of us someday) with these Bridges, I say, in ten years time we will show as fine a country as the sun can shine on—without them and the start such enterprise would give us the mind of the ingenious and enterprising citizen of the world whose steps may accidentally stray this way unatracted by any object will be lost in trying to ascertain to what species of the human race we belong. Let us wake up. Canadian enterprise brought from England millions to build her bridges, surely New Brunswick's security and enterprise can command thousands, and if every man or woman too, for I believe in many cases that the women of this county are more enterprising than the men, I say that if every man, woman and child that reads this article will talk it out, and talk it up we are as sure to get these bridges inside of five years as the grass to grow or water run. The power is in the head and hands of the people.

Yours &c., JOHN D. BAIRD.

RENFREW HOUSE!

THE Subscriber having leased that new and commodious Hotel lately erected by W. T. A NATIONAL STANDARD BOTH IN ENGLAND AND AMERICA.

WORCESTER'S SERIES OF DICTIONARIES.

CONSISTING OF

Worcester's School Dictionary, - -	$0 38
Worcester's Elementary Dictionary, - -	0 75
Worcester's Comprehensive Dictionary, -	1 12
Worcester's Academic Dictionary, - -	1 75
Worcester's Universal and Critical Dictionary,	3 50
Worcester's Quarto Dictionary, - -	7 50

☞ A liberal discount will be made to the trade, to Teachers, and to Schools.

THESE Dictionaries have received the approval of the most eminent literary men, both in England and America. The Royal Quarto Dictionary, although first published in 1860, has already become the standard work in most of the literary institutions in the country; while the smaller works, especially the Comprehensive and the Primary School Dictionaries have been extensively introduced into the best Academies and Common Schools in the United States.

They are now the *Authorised Dictionaries for New Brunswick,* as will be seen by the following certificate:

EDUCATION OFFICE,
Fredericton, August 22nd, 1861

The Board of Education having authorized Worcester's Dictionaries for the use of the Public Schools in New Brunswick, I have much pleasure in recommending the Work to the favorable consideration of Teachers.

JOHN BENNET, Chief Supt.

WORCESTER'S ROYAL QUARTO DICTIONARY,

(Illustrated.)

1854 PAGES - - - 1000 ILLUSTRATIONS.

This is entirely a new Work, and all the new words, synonymes, and illustrations will be found in their proper places. Attention is particularly called to the following Testimonials, selected from hundreds received of the same import:—

From H. R. H. Prince Albert, in an Autograph Letter to the Hon. Ed. Everett, dated Buckingham Palace, May 9th, 1860.

My Dear Mr. Everett: I have to acknowledge the receipt of the very handsome copy of Dr. Worcester's Dictionary, which you have been good enough to send me; and I must beg of you also to assure the publishers that I am very sensible of the kind feeling which they manifested towards me. It is very gratifying to see that the parent language receives such valuable aid for its development and the preservation of its purity in your country.

From the Rev. W. Whewell, Master of Trinity College, Cambridge, Author of "History of the Inductive Sciences."

I have repeatedly consulted the Dictionary since it has been in my possession, and have seen reason to think it more complete and exact than any of its predecessors.

From Joseph Bosworth, D. D., Professor of Anglo-Saxon, University of Oxford.

It is the most complete and practical, the very best as well as the cheapest Dictionary that I know.

From Charles Dickens, England.

It is a most remarkable work, of which America will be justly proud, and for which all who study the english language will long have reason to respect your name, and to be grateful to you.

From E. Ryerson, D. D., Superintendent of Public Instruction in Upper Canada.

I have for several years used Webster, as the best Dictionary of its kind—always excepting its orthography—but I regard and recommend for our schools and public institutions, Worcester's Dictionary, as a very great improvement upon that of Webster's pictorial edition.

From the Most Rev. John Hughes, D. D., Archbishop of New York.

I regard it (the Quarto) as one of the best, if not the very best published in our language.

From the Rev. A. F. Ciampi, President of the College of the Holy Cross, Worcester, Mass.

The work is great, and destined not unlikely, to supersede other English Dictionaries now in use. Its definitions of religious terms are singularly fair and impartial. The collection of syonymes is most appropsiate and altogether suitable to the want of the student.

From the London "Literary Gazette."

The lapse of a few months will be sufficient to establish Worcester's Dictionary as the acknowledged standard of reference among the scholars of England and America.

From the London "Athenæum."

* * * To conclude, the volumes before us show a vast amount of diligence; but with Webster, it is diligence in combination with fancifulness; with Worcester in combination with good sense and judgment. Worcester is the safer and safer book, and may be pronounced *the best existing English Lexicon.*

☞ For sale at all the principal Book Stores.

THOS. L. EVANS respectfully announces, that he has removed from his SHANTY to those commodious premises in

WATER STREET,

erected by Mr. JAMES McCOY, where he solicits the continuation of the former patronage of his friends, and invities attention to his new stock of

CHOICE LIQUORS,

which for quality and price cannot be surpassed by any House in the Trade.

—I HAVE—

PORT, SHERRY AND MADEIRA

of a very rare and superior quality. They are sure, wholesome, and every way suitable for either Dinner or Invalids. Five years old. The extensive and increasing demand for these wines is a sure proof of their restorative quality, and the attention of really good judges of Wine is directed to the above. This is a most favorable opportunity a first Class Wines of rare quality and flavour, at a price usually asked for a very inferior quality.

☞ Call and examine for yourselves.

This House has no connection with any person or persons, as I am sole proprietor.

THOMAS LOYD EVANS.

Woodstock, Dec. 11, 1860. Proprietor.
