MOTT'S BROMA. The following observations having reference to the preparation of Broma, appeared in a late number of the Boston Medical Journal:—

"A few years since a great manufacturer of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully succeeded. Hospitals, infirmaries, and households generally, should always be provided with it. When gruel, arrow-root, groats, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility, the Broma is sometimes relished. It is believed that those who use it as a beverage will have manifest diatetic advantage over the consumers of tea and coffee. We see it stated that during the last summer those individuals who were continually using Chocolate or Broma neither had attacks of cholera or dysenteric affections, while others of the same families, taking their daily potations in tea, coffee, or simple cold water, were the sufferers, if any.—We cannot vouch for the truth of this, but it has recalled to mind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been farther observed that persons who were taking cod liver oil for chronic difficulties, during the prevalence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these statements, to have secured those who took them from the assaults of the pestilence. It is certainly a point well worth while to determine, whether the chocolate drinkers have been secure in other infected cities."

Mott's Broma has now been before the public for a considerable period, and along with the commendations of the Medical Faculty of this and the neighbouring Provinces, it has received the approbation of all classes of consumers.—It is held to be an article of standard reputation, and the demand for it is constantly increasing.

LIFE AND FIRE INSURANCE. The Undersigned has been appointed Agent for the "[illegible] Mutual Life Insurance Company of Trenton," United States, and having [illegible] taking the Agency received satisfactory proof of the good standing and respectability of the Institution, he begs to inform the public generally that he is now prepared [illegible] risks at moderate rates of premium, and to receive proposals for Life Policies, which will be forwarded to the Directors, and if accepted, Policies will be [illegible] returned. The Capital Stock of this Company is now $50,000, well secured in good [illegible] gages on [illegible] and Cash in Bank—and [illegible] very large and [illegible] from it commencement in 1848, a very successful business.

In the Life Department they issued the first year, ending 1st [illegible] 1849, 800 Policies—a number which very few Companies ever [illegible] reached in the same time. The benefit of the mutual system in Life Assurance is apparent, and is more favourable to all Policy holders in this Society, [illegible] each year's profits, being deducted from the Premium then payable, which are lower than any of the English Companies and [illegible]—all the particulars of which are fully set forth in the Pamphlets which the Agent has for distribution, with blank forms and every other information, together with the Medical Examiner's certificate gratis. [illegible] to insure are invited to call on the Agent, who will give them every information.

Medical Examiner, R. S. Black, [illegible] D.

The Agency of the above Company has been in operation in this Province about 4 years, has [illegible] progress, without [illegible] having a claim, the rates [illegible] generally lower than any other London or Scotch Company, and the proportion of profit divided [illegible] red greater by the terms [illegible] per cent. [illegible] to the Stockholders [illegible] both a Stock and mutual Society without any risk to the Assured. [illegible] declared in May [illegible] some cases of [illegible] per cent. per annum [illegible] of Forty. And on two Policies at [illegible] three annual premiums only had been paid, the bonus added was over 62 per cent. on the amount paid [illegible] the mortality among the lives assured [illegible] found to be 21 per cent. [illegible] The above [illegible] in favour of this Society [illegible] not be controverted, and should recommend it to the favourable consideration of all parties intending to insure. Policies effected on the participating principle allowed to come in on the payment of 3 annual premiums. Thirty days allowed for the renewal of Policies after becoming due, and Policies expired can be renewed within six months, if the parties health is not impaired and the payment of a small fine—a credit of half the premium when amounting to a certain sum, [illegible] for [illegible] five years. No extra charge made for crossing to and from England in steamers or first class sailing vessels at any season, by advising the Agent of the parties intention. Policies are sent out by next steamer after arrival of Proposals. The attention of the Public of this Province generally and of Wesleyans in particular, is requested to the favourable terms and privileges offered by the Society as above enumerated. It is admitted by all that it is the duty of every person having others dependent on him to provide for them while they are in health [illegible] and in no way can this be done so [illegible] y as by paying according to their means [illegible] y on a Life Policy. It has often been proven to be of much benefit to widows and orphans, [illegible] very uncertain are both life and health, of which we have had many sad proofs, that delays in such matters are dangerous. [illegible] Applicants will receive every information and attention to their requests by the Agent in Halifax, who [illegible] all necessary Blanks, and Medical Examiner attends free of expense to the applicant. TO INTENDING EMIGRANTS FROM NOVA SCOTIA. The Canada Company would submit to the serious consideration of parties who may contemplate leaving Nova Scotia whether the Western Section of Canada (formerly the Province of Upper Canada) does not offer every inducement for them to settle there, rather than that they should proceed to the United States. In Upper Canada they will find a most healthy climate, the soil very fertile, and abundance of excellent Land to be obtained upon easy terms from the Government and Canada Company. The great success which has attended Settlers in Upper Canada is abundantly evidenced by the prosperous condition of the Farmers throughout the Country, and is also shown by the success of many Natives of New Brunswick and Nova Scotia who have settled in many Townships of the Country:—and the individual progress made by several thousands of people who have taken Lands from the Company, corroborates the success which has attended settlement in Upper Canada. The Canada Company's Lands are offered by way of Lease for Ten Years, or for Sale Cash down. The plan of 1-5th Cash and Balance in Instalments, being done away with.

The Rents, payable 1st February each Year, are about the Interest, at six per Cent., upon the Cash Price of the Land. Upon most of the Lots, when Leased, no Money is required down; whilst upon the others, according to locality, One, Two, or Three Years' Rent must be paid in advance, but these payments will free the Settler from further Calls, until the Second, Third or, Fourth year of his Term of Lease.

The Settler has secured to him the right of converting his Lease into a Freehold, and of course, stopping payments of further Rents, before the expiration of the Term, upon paying the purchase Money specified in the Lease.

The Lessee has thus guaranteed to him the entire benefit of his Improvements and increased value of the Land he occupies, should he wish to purchase. But he may, if he pleases, refuse to call for the Freehold; the option being completely with the Settler.

A Discount, after the rate of Two per Cent., will be allowed for anticipated payment of the purchase Money for every unexpired year of Lease, before entering the Tenth Year. The Lessee has also secured to him the benefit of the Settler's Saving's Bank Account.

Printed Papers containing full and detailed particulars, may be procured gratis from every Post Master in Nova Scotia, as likewise from the Rev. E. Evans, Halifax, of whose permission the Company avail themselves to refer inquiring parties to him, as a gentleman long resident in Western Canada, and who, possessing Maps, will afford information respecting the Company's Lands, and upon Canada generally.

ABDOMINAL SUPPORTERS, TRUSSES, INHALING TUBES, &C.

M. HERBERT is now manufacturing ABDOMINAL SUPPORTERS on the latest and most improved principles. It has been asserted by a Medical Gentleman of the largest experience in Pulmonary Complaints, that one third of the cases of Pulmonary Consumption, with a host of other diseases, originate in the falling of the bowels caused by the relaxation of the Abdominal Muscles, such as:—Weakness and Loss of Voice and Disease of the Air-pipes, Short Breath and Wheezing Breathing, Palpitation of the Heart, Sinking feeling, and All Gone at the Pit of the Stomach, Diseases of the Liver, Breaking away of the Bowels themselves, Piles, Gravel, Pain and Weakness, threatening Disease of the Spine, Swelling of the Lower Extremities, with various diseases peculiar to Ladies, &c. &c.

The greatest number of these diseases cannot be cured without, but in general may be cured with, Abdominal support, &c.,—which all the above Supporters are pre-eminently calculated to afford.

M. Herbert's Abdominal Supporters have been inspected by most of the Medical Gentlemen of Halifax, and were highly approved of by all who examined them. They weigh but a few ounces—allow the most unrestrained motion of the body—whilst the only feeling produced by them is that of support and comfort.

M. Herbert is also manufacturing Rupture Trusses, which are constructed on principles the most modern and improved.

He will also keep on hand Valvular Inhaling Tubes. These instruments are valuable auxiliaries to the Braces and Supporters, for all Contractions of the Chest—flat chest, stooping chest, pains in the chest; in cases of Cough; in all cases after Pleurisy or Inflammation of the Lungs; in all cases of Asthma; in all cases of Loss of Voice, Weak Voice, Hoarseness and Weak Throat; in all cases where the Breast bone or Ribs contract or fall down upon the Heart, and prevent its free action; in all cases of shortness of Breath, and when the chest does not expand well; in the cases of all persons who are in any way predisposed to diseased Lungs by family taint, or by sickness or confinement in bed; in many cases of Dyspepsia, &c. &c. &c.

All the above with Herbert's Ladies', Gentlemen's and Children's Chest Expanding Braces, are for sale wholesale and retail at M. Herbert's Establishment, No. 6 Argyle Street.

LADIES! ELASTIC CHEST EXPANDING STAYS.

HERBERT'S ORIGINAL MANUFACTURE. THE very favourable manner in which the Chest Expanding Braces, [illegible] by the Subscriber have been received, and the benefit many persons have stated they have derived from their use, has induced him to give his attention to remove the inconvenience so constantly alleged by Ladies to the Braces, that they were not sufficient to make their dresses sit well, and he now offers the CHEST EXPANDING STAYS as an article well calculated to remove this objection altogether. They embrace all that is essential in stays to make the Dress sit well, with expansion of the Chest and support of the Spine.

The attention of Ladies is respectfully invited to the above.

M. HERBERT.

DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA.

THE WONDER AND BLESSING OF THE AGE! THE MOST EXTRAORDINARY MEDICINE IN THE WORLD. This Extract is put up in Quart Bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the patient.

We have manufactured 1,500,000 Bottles of this Sarsaparilla during the past year, and are now putting up 5,000 Bottles per day; using more of the Sarsaparilla Root in one month than all the other manufacturers of Sarsaparilla in one year.

This Extract has cured more of the following diseases than all the other advertised medicines together have done:—

Scrofula, or King's Evil,	Salt Rheum, and all Diseases arising from an injudicious use of Mercury
Obstinate Cutaneous Eruptions,	Ascites, or Dropsy, Exposure, or Imprudence in Life. It invariably cures
Pimples or Pustules on the Face.	Rheumatism,
Blotches, Biles, Chronic Sore Eyes,	Indigestion or Dyspepsia,
Ring Worm or Tetter,	Neuralgia, General and Nervous Debility,
Scald Head,	Palpitation of the Heart,
Enlargement and Pain of the Bones and Joints,	Liver Complaint and Inflammation of the Kidneys.
Stubborn Ulcers,	
Syphilitic Disorders,	
Lumbago,	

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigour.

The number of Diseases mentioned above, as cured by this preparation of Sarsaparilla, may seem large; but we are, nevertheless, prepared to prove, by an extensive array of certificates, that such is the fact. A fraction of the evidence which we possess concerning each disease, would be received before any judicial tribunal as complete demonstration. It must be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin and causes; for they all spring directly or indirectly from a corrupt fountain. If the blood were in a pure, healthy, and active state, it would drive all these complaints from the system, and chronic disease would be impossible.

HOPE FOR THE AFFLICTED.

Halifax, N. S., May 13.

Mr. Samuel Story, 3rd.,
Agent S. P. Townsend's Sarsaparilla

Sir,—Having been afflicted for the last twelve months, with an affection on the lungs, which prevented me attending to my work as well as I could wish, during which time I was under three Doctors' hands, and must say, I derived no benefit whatever, and began to despair of ever getting better. I was induced to try S. P. Townsend's Sarsaparilla, that you are agent for, by seeing it advertised, and after using 2 bottles, found immediate relief, and am now able to attend to my work as usual. I sincerely believe it has been the means of restoring me. I have also been afflicted with the Piles for the last seven years, and when I began using your valuable Sarsaparilla, to my astonishment, I was cured.

STILL THEY COME.

Cornwallis, July 5th, 1850.

Mr. S. Story, 3rd.,
General Agent for Dr. S. P. Townsend's Sarsaparilla, for British Provinces.

Dear Sir,—My wife has been declining in health for the last fifteen years with weakness and general debility, but the last 12 months she had been getting worse and worse, being under 3 doctors' hands, and taking various kinds of Medicines, but found she was getting no better, being troubled with palpitation of the heart, &c.—Her frame became emaciated, and her appetite and strength failed, and she was considered, as she undoubtedly was, in the last stage of Consumption. I was informed kindly by one of her doctors that he could do nothing more for her and did not wish to put me to any more expense. As a last resort I purchased a bottle of your valuable Sarsaparilla, from your agent in Kentville, Mr. B. Calkin, at the same time expecting it would be of no use. But I am free to confess that I was disappointed: my wife commenced using it, and before one bottle was exhausted she experienced a decided relief. She has used about 7 bottles, and her health and strength are restored and appetite good, and rests well at night. I earnestly recommend it to suffering mankind as a valuable Medicine. You are at liberty to publish this. Respectfully yours,

SAMUEL STARR.

IMPROVED OBLIQUE INGUINAL TRUSSES.

M. HERBERT respectfully informs Medical Gentlemen and the public generally, that he manufactures and has now on hand IMPROVED OBLIQUE INGUINAL TRUSSES, according to the construction of T. P. Teale, Esq., F. L. S., Surgeon to the Leeds General Infirmary, and which are so highly spoken of in the Medical Gazette, February 1, 1850. For the information of those who cannot refer to the above work, it may be stated that these Trusses consist of "an elastic steel girdle, a pad of varying form, according to kind of hernia, and a spiral spring acting directly on the pad; elements which exist in various trusses heretofore known, are here combined in the construction of one." The "mode of attachment between the spiral and the pad renders any other fastening unnecessary. An uniform pressure throughout the whole extent of the pad is thus obtained; and the spiral, acting to a universal joint, allows the girdle to adapt itself to the varying movements of the body without disturbing the pad."

A full description of these invaluable Trusses cannot be given in an advertisement; but it may be stated that they have been shown to several of the most distinguished Medical Practitioners of this City, who have expressed their unqualified approval of them.

YOU MAY BE CURED YET!

HOLLOWAY'S OINTMENT.

CURE OF RHEUMATISM AND RHEUMATIC GOUT.

Extract of a Letter from Mr. Thomas Brunton, Landlord of the Waterloo Tavern, Coatham, Yorkshire, late of the Life Guards, dated September 28th, 1848.

To Professor Holloway,

Sir,—For a long time I was a martyr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines, I was so bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in, I thought I would give them a trial. I did so. I rubbed the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pills night and morning. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven months, without any symptoms of the return of my old complaint.

Besides my case of Rheumatic Gout, I have lately had proof that your Pills and Ointment will heal any old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pills and Ointment, which soundly healed it when nothing else would do it. For your information I had the honour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen years a corporal. I was two years in the Peninsular War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd September, 1833. The Commanding Officer at that time, was Colonel Lygon, who is now a General. I belonged to the troop of Captain the Honourable Henry Baring.

(Signed) THOMAS BRUNTON.

CURE OF A BAD LEG OF TWENTY-ONE YEARS' STANDING.

Extract of a Letter from Mr. Andrew Brack, Blacksmith, Eyemouth, near Berwick, dated the 10th of August, 1848.

To Professor Holloway.

Sir,—With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the pain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your Pills and Ointment, which I purchased from Mr. I. Davidson, Druggist, Berwick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful cure.

(Signed) ANDREW BRACK.

AMPUTATION OF TWO TOES PREVENTED.

Extract of a Letter from Mr Oliver Smith Jenkins, dated Falkirk, August 13th, 1848.

To Professor Holloway,

Sir,—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fall of a large stone my right foot was seriously bruised, which ultimately got so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Ointment and Pills, which I did, and was by their means in three weeks enabled to resume my usual occupation, and at this time my toes are perfectly cured. (Signed) OLIVER SMITH JENKINS.

AN EXTRAORDINARY CURE OF A DESPERATE SKIN DISEASE.

On the 21st July, 1848, the Editor of the "Mofussilite" Newspaper, published in India, inserted the following Editorial article in his paper. "We know for a fact, that Holloway's Pills and Ointment act in a most wonderful manner upon the constitution, as an eccentric Coolie, called Elias, employed in our Establishment, was affected with myriads of Ringworms, which defied all the Meerut Doctors, and promised to devour the poor man before he was under ground; we tried 'Holloway' upon him, and in a month he was perfectly restored to his former condition and cleanliness of skin. The effect was miraculous."

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and Stiff-joints,	Sore Nipples,
Burns,	Elephantiasis,	Sore throats,
Bunions,	Fistulas,	Skin Diseases,
Bite of Moschetoes and Sandflies,	Gout,	Scurvy,
Coco-bay,	Glandular swellings,	Sore Heads,
Chiego-foot,	Lumbago,	Tumours,
Chilblains,	Piles,	Ulcers,
