Annual Reports of the City Waterworks Department.

A Revenue of $65,541 87, and Assets of $670,385 22—Where the Expenses Come In—Inspectors to Call at Side Doors.

Simultaneously with the fire yesterday afternoon the gentlemen who control the city's fire extinguishing element were meeting in the City Hall, Chairman Jones, Commissioner Powell, Mayor Spencer, Secretary Ellwood, Engineer Moore and Inspectors Platt and Plastow being present.

J. R. Peel's claim for $140 for a fountain borrowed from him by the water commissioners for use at the Western Fair was laid over.

ANNUAL REPORTS.

O. Ellwood, secretary, read his annual report. The total revenue had been $65,541 87, an increase of $4,261 69 over last year. The operating expenses of the department had been $17,217 40 leaving a surplus revenue of $48,324 47. During the year 436 services had been laid at an average cost of $8 28, making a total of 6,170 services. There were now in use 95 meters and sixteen hydraulic hoists with register attachments. The collections had been good, the prepayments for water rates being in excess of the arrears.

FINANCES.

The detailed statement of revenue and expense was submitted. The former amounted to $65,541 87—$52,915 35 as water rates from consumers, $12,305 as rates from city and $321 52 as interest. The expense account was made up as follows:

Workshop account	$ 2,935 01
Pump house maintenance	3,249 62
Grounds and dam maintenance	5,522 43
Expense	1,162 69
Office salaries	1,064 48
Other salaries not included in special accounts	1,793 00
Insurance	186 00
Printing and advertising	538 51
Stationery and postage	164 76
Pump house extension, part of account	501 40
Buildings and repairs, part of account	400 00
Total	$17,217 40

Engineer Moore read his annual report. The supply of water had been sufficient to meet all demands, the numerous rains in the early part of the summer keeping the demand for water considerably below the average quantity used for lawn and street watering purposes. The placing of meters on the services in the city had also reduced the quantity of water used. The springs and pond were clean and in good order. The steam pumping machinery was also in good shape and was run 402 hours during the year. The hydraulic pumping machinery had been run continuously throughout the year and had done good service. The reservoir was clean and in good condition. The water power of the river had given excellent service. Six new hydrants had been put in, making a total of 394. They and the valves were in good order. The number of mains laid was 11,911.

Chairman Jones in his annual report regretted the loss of the valuable services of Chairman Geo. C. Davis, who had resigned. He testified with pleasure to the diligence manifested by all the officials and employes.

All the reports were received and filed and 1,000 copies will be printed.

The inspectors were instructed to in future go to the side instead of the front door in making their house to house inspection.

The commissioners decided to visit Springbank to-morrow afternoon and make their regular inspection.
