## SAND IN THE INTAKE PIPE.

**Large Accumulations Discovered by the Divers—How Seriously This May Curtail the Service.**

The latest discovery in connection with the broken intake pipe is that immediately north of the first manhole south of Hanlan's crib there is an accumulation of three feet of sand in the pipe.

City Engineer Keating regards this as very ominous. Just how far this accumulation extends cannot easily be ascertained. The work of the divers is very hazardous, as they cannot on account of sharp angles signal as under ordinary conditions when working below water. Pumping was rigorously carried on all Tuesday night and yesterday, and good work was done in the removal of the sand.

The pipe has now been lowered 3 feet 6 inches below the normal water mark. Mr. Keating is sanguine that in a short time the repairs to the pipe will be complete, but the trouble is to get the sand from the pipe. Some accumulation is sure to remain, and according to the extent of this will be the diminution of the water current along the intake pipe. It is quite certain, in the engineer's opinion, that the supply will be reduced and that the pressure will fall short of what it was before the break occurred and the inrush of sand took place.

This may prove a serious detriment to the full service to the public, to say nothing of the lessened pressure on the mains in case of fire. Otherwise satisfactory progress in the work of repairing is being made. Further examination of the manholes by divers will be made again this morning.

No complaints had reached the City Engineer or Medical Health Officer yesterday of any serious consequences to health from the breakage of the pipe. The Street Commissioner's Department is fully occupied in the delivery of uncontaminated water. There was 9 feet 4 inches in the reservoir yesterday noon.

## POLICE HEAR NO. 19.

**As a Result a Phonograph Artist and His Wife are Now in Jail on a Serious Charge.**

Mr. and Mrs. George Barry of Buffalo, who have been running phonographs in the Main Building throughout the Show, were arrested yesterday charged with disseminating immorality. Their "capper," a young man named Sinclair from Newmarket, was also taken in.

Barry was stationed with his instrument in the eastern portico of the Main Building, and his wife was stationed inside. Sinclair busied himself in mingling with the crowd and making friends with foolish young men, whom he would instruct to ask for "No. 19" when they listened to the phonograph. Cylinder "No. 19" was, it is alleged, a screed containing the vilest filth that ever emanated from a mortal brain, and it did a rushing business. The police got onto the game yesterday morning, and arrested Barry and his wife about 12.30. Their alleged agent, Sinclair, was caught later and bailed out by one of the officials of his town, who happened to be on the grounds.

**Fruit Exporters Convene**

At the convention of the Fruit Buyers and Exporters' Association in the Board of Trade rotunda yesterday, a letter from the Canadian Pacific and Grand Trunk railway authorities was read offering a reduction of 33 1-3 per cent. from the tariff rates between Toronto and points west, and 25 per cent. off tariff rates from points east of Toronto; the 25 per cent. reduction to be applied also on shipments from points east of Toronto, and the reduction to be made not at the time of shipment into cold storage, but reshipment from there to ultimate destination.

These officers were elected: President, Mr. A. E. W. Peterson, Toronto; vice-president, Mr. Sam Nesbitt, Brighton; secretary, Mr. G. A. Cooper; executive committee, J. C. Smith, Burlington; Frank Everist, Toronto; J. M. Shuttleworth, Brantford; W. Dixon, Hamilton; David Canteloн, Clinton.

**City Narrowly Saved.**

A few days ago the eyes of the world were turned on Toronto. Through the break in the conduit every citizen was in danger. The St. Leon Mineral Water Co. grasped the situation at a glance. They at once announced a 20 per cent. discount off their water while the break lasted. They have gone still further, and to relieve the thirsty thousands will keep their store open on Sundays until the conduit is repaired. Note the address, 101 1-2 King-street west. Telephone 1321. Come with the crowds.

**Personal.**

Dr Cochrane of the Radnor Water Company of Montreal is at the Queen's Hotel.

Miss Maud Gordon of the Toronto Conservatory of Music has returned from her summer's vacation at River du Loup.

Malcolm Maclean, Walkerton's respected postmaster, is in town attending the Fair.

Capt. Rolph of Markham, Ont., has arrived at the Fair with his herd of fine Jerseys, numbering 16 head.

Mr. Henry Cargill, M.P. for East Bruce, came down from Cargill, Ont., yesterday in connection with his stud of horses competing at the Fair.

Mr. D. R. Wilkie, cashier of the Imperial Bank, and Mr. Duncan Coulson, general manager of the Bank of Toronto, have left for Quebec in order to attend the Bankers' Association, which meets in that city this week.

At St. Luke's Church yesterday Miss Lillie M. Minn, daughter of Captain W. C. Minn, of 21 Howland-avenue, was married to Mr. W. D. Thompson of the Dominion Bank, Oshawa. The ceremony was performed by Rev. Canon Osler, uncle of the groom, assisted by Rev. Mr. Mockridge.

Lillie, daughter of Mr. W. W. Hanes of this city, was married at 382 Bathurst-street yesterday to Mr. B. F. Davis of Gananoque. The bride was attired in white silk and carried a bouquet of orange blossoms. Miss Bella Davis, sister of the groom, acted as bridesmaid. Rev. Canon Sweeny, rector of St. Philip's Church, conducted the ceremony. The groom was assisted by Mr. L. Pedler.

Mr. Norman Macdonald, barrister, St. Thomas, and a member of the firm of Macdonald & Robinson, was found dead in his library on Monday evening. Deceased was one of the cleverest young lawyers in the province, and came into prominence as counsel for Hendershott and Welter, recently executed for murdering the former's nephew. Mr. Macdonald leaves a widow and two children. He carried life insurance aggregating about $30,000.

## INDUSTRIAL EXHIBITION.

(Continued from Page 2.)

heavy Percherons, draft horses, race horses, ponies and animals of all sizes, that the roadster combines the best qualities of all. Certainly some very handsome-looking animals are shown, not the least attractive of which are the horses shown by that well-known merchant and stock breeder, Mr. Henry Cargill, M.P. Mr. Cargill's stock farm is situated at Cargill, Ont., which, as its name indicates, has been built up entirely by Mr. Cargill, who owns most of the property in that neighborhood and has represented the East Riding of Bruce in the Canadian Parliament since.

Although not a man who tires the House with many long speeches, he never neglects the interests of his constituents, and has given his unflinching support to the interests that elected him. It might be interesting here to tell the story of the naming of the village of Cargill. Mr. Cargill settled there in 1871, and two years later, seeing the importance of securing railway facilities, Mr. Cargill offered to deed the Walkerton, Grey and Bruce, which ran through the property, a free site and build the company a station for nothing if they would give him in return railway facilities. The company agreed, and out of compliment to the donor named the station "Cargill." In addition to farming and stock-breeding, Mr. Cargill conducts a large lumbering business, owning the extensive pine limits known as Greenock's Swamp. He conducts in this connection a sawmill and sash and door factory, run by steam, and a flour mill, run by water power. "Hylhurst," the pretty name which Mr. Cargill's residence bears, is situated nine miles equi-distant from Paisley and Walkerton, and is considered the handsomest residence west of Hamilton. The stock farm in connection is 500 acres in extent, and there are 50 head of horses and 70 thoroughbred Shorthorn cattle on the farm. All the stock is bred from thoroughbreds imported from Scotland, and Mr. Cargill exports them for the English market, where they are killed for beef, the Shorthorn being of this description of cattle. Nearly all the horses on this farm have been sired by "Gen. Jackson," the champion stallion who has won in past years the first prize at the Fair against all stallions and silver medal in his own class. The string sent down to the Fair this year from "Hylhurst" consists of nine horses, including the roadster brood mare Olive C., with colt, Harry W., sired by Toletto, by Damo, by Jerome Eddy, 2.16 1-2. Perhaps the handsomest horses in the string are a driving pair of black mares, Sunol and Cricket, admirably matched, 15 hands, which won first and second prizes two years ago singly, first last year as a pair and second prize this year as pair. Capt. J., a fine black 3-year-old gelding, 16 1-2 hands, is also entered for single roadster, and is sure to win a prize. Miss Jackson is a promising 1-year-old bay filly entered in her class. Julia, a fine filly, won first prize in the 2-year-old class yesterday, which speaks for itself. Victoria, a 3-year-old mare, is a neat-limbed animal that looks fit to drive in any carriage. She, like the others, is the get of the famous Gen. Jackson.

**The Whaley-Royce Exhibit.**

We have frequently called attention to the Whaley-Royce exhibit, and herewith is given a description of the various styles shown in Music Pavilion and at their salesrooms, 158 Yonge-street. But, prefatory to that description, which, owing to space limits, is necessarily very brief, it is but doing the merest justice to Messrs. Whaley-Royce to compliment them upon the exemplary and masterly manner in which they have come before the public at the Exhibition and demonstrated how thoroughly they understand their business. Touching on their pianos in general, it may be said that they combine all the desirable properties of their best foreign competitors, with a number of most prized features, covered by patents and used exclusively in the instruments made by Whaley-Royce. They have received the highest possible encomiums from distinguished musicians, and really deserve all of these. The power, purity and richness of their tone; the subtleness of its quality and the sustained and uniform excellence of these instruments, place them in the very first rank of high-grade pianos. Observe how distinctly are the styles varied in the following description of the Whaley-Royce exhibit: Style 1, Circassian walnut; style 2 rosewood, and style 4, blistered walnut; these call for no particular comment. Style 6, blistered walnut, however, has a patent separable case, tone liberator and a metallic key bottom support, two inventions of great value and ingenuity. Style 6, French burl, with an automatic (self-playing) attachment, which can be worked by foot treadle, crank or electricity. An extraordinary variety of music can be obtained by this invention. Style H, English oak, with mandolin attachment. Style H, in olive green plush, an entirely new and original style of finish; trusses and panels and white enamel, bronze and gold. There are four pedals in this piano, the two extra being a sustaining and practice pedal. Style M, in Italian burl walnut, with three pedals, is an instrument of imperial magnificence and one representing the highest degree of piano construction in Canada.

**Relief of Lucknow.**

The "Relief of Lucknow" by Hand and Teale's Parisian Spectacular Co. has amazed and delighted thousands at the Fair during the last two weeks. It is cause for congratulation that the firm to score such an immense hit among the many spectacles that have been given should be a Canadian firm.

**Farmers' Institute of Ontario.**

The Ontario Department of Agriculture begins this morning to distribute 20,000 copies of the most important reports issued under its direction. This report contains (1) the minutes, essays and discussions of the annual meeting of the Central Farmers' Institute, (2) the first report of the Superintendent of Farmers' Institutes and, (3) a large number of papers selected from those read at the local meetings of these institutes. These papers are classified as agriculture, dairy, live stock, orchard, etc., and contain abundance of information.

The report contains the full list of regulations regarding Farmers' Institutes recently passed by the Lieut.-Governor-in-Council.

**Dakota Indians Sullen.**

Chamberlain, S.D., Sept. 11.—The Brule Sioux at Rosebud Agency have as yet made no attempt to carry out their threat to burn the agency buildings, but have left the agency without disbanding, which is significant of their temper. The settlers living along the border of the reservation are still very uneasy.

Cannot Be Beat.—Mr. D. Steinbach, Zurich, writes: "I have used Dr. Thomas' Eclectric Oil in my family for a number of years, and I can safely say that it cannot be beat for thee ure of croup, fresh cuts and sprains. My little boy has had attacks of croup several times, and one dose of Dr. Thomas' Eclectric Oil was sufficient for a perfect cure. I take great pleasure in recommending it as a family medicine, and I would not be without a bottle in my house."

About the Student's Piano

It is needless to say that great interest has been manifested by musicians in our recent announcement that we will sell our

Mason & Risch Student's Upright Piano AT $300 NET

The principal difference between this instrument and those of the same size sold by us at higher figures is purely one of case-work and varnish. Many pianos are veneered with woods of great cost, and then receive six to eight coats of most expensive varnish. This beautifies the instrument and renders it much more costly, but does not add to its tone or durability.

The Student's Piano is finished in plain walnut, oil finished, but possesses all the well-known characteristics of tone, touch and durability which have made our instruments famous.

Please observe that we do not use fictitious catalog prices, but openly advertise this instrument at a figure which everyone can believe to be honest.
