Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty at the close:

Grain—The market was dull and featureless to-day. The opening was little higher on stronger cables and offerings of May were liberal, that option being sold by one large elevator concern, which was also a buyer of July, and by the commission houses. Pit traders were inclined to sell on predictions of rain and cooler weather in Kansas and Oklahoma to-morrow. Northwest interests were moderate buyers in this market. There is a good deal of uneasiness in the market and we are inclined to believe that it will continue to be a narrow scalping affair for the present, but we are inclined to advise taking the long side on any good dip.

Ennis & Stoppani wired to J. L. Mitchell:

Wheat—Opened higher and somewhat excited due to covering by shorts, who were influenced by the failure of predicted showers to materialize in some of the southwestern states. On the advance, however, the supply increased, and after the first few minutes of trading exceeded the demand to such an extent as to cause a decline to yesterday's final figures. During the remainder of the session the market was uninteresting, fluctuating within a narrow range and traders were inclined to buy moderately at close. This course was due to the general uncertainty which was felt by reason of the continuous reports from the various sections of the winter wheat belt, and, altho the situation remains very bearish, professional traders are prepared to run at the least sight of danger to the growing crop. Foreign markets were firmer, the cause assigned being unfavorable crop news.

Corn and oats were firm, with a fair trade, the same class of support being in evidence as absorbed the offerings yesterday.

Melady & Co. had the following at the close:

Wheat—Liverpool cables closed with an advance of ⅝c to ¾c, influenced by continued claims of damage to winter wheat on the continent and the political disturbance in Danubian territory. The local market started higher owing to continued hot, dry weather southwest, but the forecast for rain and snow, with lower temperatures for tonight and to-morrow, brought considerable selling pressure, particularly in May wheat. Looks like elevator people were selling May and buying the distant months, May going to a wider discount under July. Crop reports were more cheerful and prospects of drought being broken, deprives the market of considerable strength in its surroundings. Cash markets were dull, but a shade firmer. Wheat is a waiting market to see if damage will occur to winter wheat, but we still think wheat a sale on bulges.

Corn—Cables were higher and estimated receipts for to-morrow were small. Cash markets were firm, and the locals were inclined to work for an advance. The possible railroad strike might create a shortage of contract here in May when navigation opens, which would draw from local stocks. The market was very dull and looks like a scalping affair at present.

Oats ruled stronger and there was pretty good buying in the distant months, which could easily sell higher.

BLAME ON FREIGHT CREW.

Official Statement of Cause of Accident at Myrtle.

The C. P. R. official statement of Monday's accident is:

"About 9.50 a. m. March 25, two freight trains came together two miles east of Myrtle, unfortunately resulting in death of Fireman C. Jones and Brakeman H. Howe, and causing personal injuries to Engineer Kyles and Brakeman R. Jones, also serious damage to 5 freight cars and to locomotives.

"The trains had orders to meet at Myrtle, but it seems the crew of eastbound freight train overlooked their orders, and on account of heavy fog prevailing at the time they did not see each other in time to avert the collision."

This definitely places the blame on the eastbound train, in charge of Engineer Kyles and Conductor Cook, who, in running their train beyond Myrtle, instead of holding it at that station, crashed into the extra, which evidently had right of way.

The railways have issued orders forbidding any rate of travel beyond the regular time allowed by instructions.

TADENAC CLUB'S PRESERVE.

Game Committee Leaves Request to the House.

Opposition to the wish of the Tadenac Club was strong in the fish and game committee yesterday. The club wants to purchase 17,000 acres from the government at a nominal sum for private club purposes.

John Gama voiced the feeling of residents of Freeman Township, where the club property lies, against any further enlargement of their bounds.

After some discussion it was decided to leave the question to the house.

J. A. Auld said he would trust the government to strike out the clause after the stand they had taken on such matters.

54 LOADS AT CITY YARDS FAIR TRADE FOR BEST CATTLE

Common to Medium Grades Inclined to Be Slow at Easier Prices.

Receipts of live stock at the city market as reported by the railways since Friday last were 54 car loads, composed of 831 cattle, 489 hogs, 480 sheep, 277 calves and 6 horses.

The quality of fat cattle, taken altogether, was fairly good, as there were a few good loads and some very choice lots of well finished animals. Trade was inclined to be slow, with prices generally a little easier.

Had there been a heavy run, there would certainly have been a slump in prices. Some of the drovers who had paid too high prices in the country were complaining of prices offered; in fact, a few refused to sell.

Exporters.

Not many offered and few wanted, as space on ocean boats is scarce. A few lots weighing 1200 to 1300 lbs. each sold at $4.90 to $5.35, the latter price being paid in only one or two instances for extra choice Easter cattle. Bulls sold from $3.75 to $4.25 per cwt.

Butchers.

There were some odd cattle of prime quality, as will be seen by prices given below, brought Easter market prices, but these were the exception and not the rule, as regards prices paid. Best loads sold at $4.65 to $5 per cwt; fair to good $4.30 to $4.60, medium butchers' and good cows $3.85 to $4.25; fair cows $3.40 to $3.75, canners and common cows sold at $1.50 to $2.75 per cwt.

Feeders and Stockers.

Harry Murby reports little doing, as there are not many offering, altho there is considerable demand springing up for both stockers and feeders. Short-keep feeders are quoted at $4.60 to $4.85 per cwt. Steers 1000 to 1100 lbs. each are worth from $4.30 to $4.60 per cwt. Stockers, 600 to 700 lbs. each, are worth from $3.25 to $3.75, according to quality.

Milch Cows.

About 40 or 50 cows were on sale, none of which were of extra quality. Market was slower than usual and prices ranged from $30 to $55 each. One car load was sold at an average of $39 each.

Veal Calves.

Deliveries large, the bulk being of the common kind, few choice veal calves being on sale. Prices ranged from $3.50 to $6.50. A prime new milk-fed calf would bring $7 per cwt.

Sheep and Lambs.

Prices for good quality were firm. Export ewes $5 to $5.50, rams $4 to $4.5 per cwt., yearling lambs, ewes and wethers sold from $7.25 to $7.60 for the bulk, and one choice lot $7.85 per cwt., common stuff sold from $5.50 to $6.50 per cwt.

Hogs.

Receipts light, prices steady, at about $6.90 for selects and $6.65 for lights and fats.

THE NEW FRENCH REMEDY.

TRADE THERAPION MARK

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1

is a remarkably short time, often a few days only, removes all discharges, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2

for impurity of blood, scurvy, pimples, spots, blotches, painsand swelling of joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3

for exhaustion, sleeplessness, impaired vitality, and all distressing consequences of dissipation, worry, overwork, late hours, excesses, &c. It possesses surprising power in restoring strength and vigour to those suffering from enervating influences of long residence in hot, unhealthy climates.

THERAPION is sold by the principal Chemists throughout the world. Price in England 2/9 per packet. In ordering, state which of the three numbers required, and observe above Trade Mark, which is a fac-simile of word 'THERAPION' as it appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

Sold by Lymans Bros. & Co., Toronto, & E. Fougera & Co., New York. Price 1 dollar. Postage 4 cts.

THERE IS MONEY IN COAL.

The Alabama Consolidated made profits in one year exceeding $2,800,000. The Sunday Creek Coal Company earned over $824,000 in one year. The Colorado Fuel and Iron Company in 1902 earned over $13,000,000 for that year. The Consolidated Coal and Coke Company in the same year also earned over $13,000,000. The Pittsburg Coal Company has made as much as $675,000 in a single month, and other prominent Coal Companies have made equal profits.

YES, THERE IS MONEY IN COAL.

COAL HAS MADE MANY RICH.
WHY NOT INVEST WHATEVER YOU CAN SPARE IN THIS STOCK?

The magnitude of the operations of this company will be realized when it is taken into consideration that the company controls a territory of coal lands comprising about 17,500 acres, located in the Nicola Valley, B.C., only about 160 miles from the City of Vancouver, B.C., and about 100 miles north from the United States boundary line. The quality of the coal is excellent, and there is a supply estimated to last for over 400 years. The stock-holders who get in on the ground floor will be very fortunate, as in a comparatively short time they should find their money increased a hundred-fold.

THE SHARES OF THIS COMPANY OFFERED AT A PROSPECT'S PRICE CARRY AN INTEREST IN A PRACTICALLY PROVEN PROPERTY, ESTIMATED TO BE OF VERY GREAT VALUE—AND UNDER THE MANAGEMENT OF MEN OF CHARACTER AND ABILITY AND THE GUIDANCE OF CAPABLE MINING EXPERTS PURCHASES LOOK ADVISABLE.
