GRAMMAR SCHOOL.—On Tuesday last, the day on which the School was re-opened, the Rev. Dr. I. W. D. GRAY, the President of the Board of Directors, attended at the School-house for the purpose of distributing the Prizes which had been adjudged at the Examination which took place on the 29th June last. The successful candidates were—

George B. K. Blatch, of the highest class, who, in addition to his Classical proficiency, attracted notice at the Examination on account of his Mathematical attainments.

George James Chubb, of the same class, who, in addition to his Classical attainments, exhibited, at the Examination, a considerable readiness in reading and parsing *Hebrew*.

George Sidney Smith, the best of seven boys constituting the second class.

Alfred Fairweather and Henry E. Allison, equal, the best of thirteen boys constituting the third class.

Charles Wm. Brown, the best of four boys constituting the fourth class.

Douglas W. Raymond, the best of eight boys constituting the fifth class.

George F. Matthew and John Barclay Boyd, equal, the best of six boys constituting the sixth class.

James Malcolm, John D. Wilmot, and Botsford Caldwell, the best in three several divisions of the seventh or Grammar class.

The Principal, after stating to the Rev. President that he had found the practice of proposing rewards for excelling in particular branches attended with much benefit to the School generally, presented prizes to the following young gentlemen:—

To Gilbert D. Waterbury, for repeating, *memoriter*, without error, *all the Latin Prosody Rules*.

John Edward Boyd, for excelling in the *French Class*.

George James Chubb, for the best Theme on *Industry*.

George Sidney Smith, for the best *prose version* of Byron's Siege of Corinth.

John Edward Boyd, for the best *Letter*.

John Edward Boyd, and Robert Snedea, for excelling in Practical Geometry.

George B. K. Blatch, for excelling in Mathematics.

A. B. L. Street, for many tokens of general improvement, and especially for his attention to *Natural History*.

Charles M'Gregor, George Hamilton, Edward Allison, and George Allison, for excelling in the *Geographical Classes*.

Douglas W. Raymond, Thomas M. Drummond, George F. Matthew, Donald A. Cameron, and Charles U. Hanford, for excelling in the "*Use of the Globes*."

Charles E. Raymond, for excelling in *Mapping*.

Douglas W. Raymond, George C. Irish, Thomas M. Raymond, and Richard Dormody, for excelling in the History Class.

Richard Dormody, and Allan McLean, for excelling in the English Grammar Class.

The following young gentlemen were also honored with prizes on account of their good conduct, regular attendance and general merit—

Robert G. Crozier, Robert W. Boyle, Walter Scammell, Henry Poyntz, Frederick H. Fowler, Thomas M. Drummond, Robert Reid, and H. Carleton Boyd.

The weather during the whole of last week was unusually warm and dry, highly favorable for cutting and making hay. The fog which has prevailed since Sunday has considerably cooled the atmosphere. To-day the weather has again become clear.

On Sunday morning 6th inst. a destructive fire broke out in a moulding-shed in Mr. Scoullar's ship-yard at Oromocto, which destroyed that building, with about one-third of a new ship on the stocks, a large quantity of ship timber, &c.; a large store, with dwelling house and two barns, belonging to Mr. Abner Seeley, were also destroyed—the whole loss amounting to about £2000. There was insurance on an interest in the ship to the amount of £300. It is thought that the fire was the work of an incendiary.

The Hon. Messrs. LaFontaine and Sullivan have left Montreal for Washington. The *Minerve* states that the object of their visit is to come to an understanding with the American authorities upon certain points relative to free trade between Canada and the United States.

Steam Explosion and Loss of Life.—On the 7th inst., the Steam Saw Mills of Messrs. Botsford & Ferguson, Pugwash, Cumberland, were partially destroyed by an explosion of one of the large boilers. The accident occurred just after the return of the men from dinner. The exploded boiler was thrown from its bed—one portion driven several hundred yards into the harbor—the other forced a considerable distance into a pile of deals on the wharf. The roof of the engine house was blown up, and the heavy tall chimney blown away, the bricks falling in every direction. A man named Michael McKenny, from New Brunswick, about 35 years of age, was killed instantly. Douglas, the fireman, is terribly scalded and his life is despaired of. The engineer was seriously hurt, and others more or less.—*New-Brunswicker.*

QUICK WORK.—We are informed that at the Steam Saw-mills of James Kirk, Esq. in Portland, 333 thousand feet of trimmed lumber were manufactured in the last six days from two gangs of saws. The mill is under the superintendence of Mr. Joseph C. Littlehale, and the performance we believe to be unequalled by any of our numerous fine Saw Mills.—*Chronicle.*

The United States steamer Jefferson, Capt. Howard, which lately descended from the Lakes to Quebec, arrived at Halifax last Wednesday, in 5 days from Quebec, and after receiving a supply of coal would proceed to N. York. She is stated to be a trim looking vessel, and is propelled on the screw principle.

The American steamer Hermann had a passage of 15 days from Southampton to New York, and arrived on the 5th inst. The Cunard steamer America, in 13 days from Liverpool, including the stoppage at Halifax, arrived at New York on the 4th.

Judge Jones died suddenly at his residence in Toronto on Sunday 31st ult, of apoplexy—thus creating a vacancy on the bench, which will probably be filled by the Hon. Mr. Sullivan.

There seems to be a panic in Montreal just now about incendiarism. Since May there have been 31 fires, "many of them the work of incendiaries," and at a meeting of the inhabitants held in the Bonsecours Market on Thursday evening last, it was resolved that patrols of individuals sworn in as special Constables, should guard the property of their respective districts. Colonel Gugy attributed the prevalence of incendiarism to the abundance of idle children and lucifer matches.—[Quebec Morn. Chronicle.

The weather has recently been quite too warm for the well-being of the vegetable crops, the temperature for the last two days having ranged from 70 to 90 degrees of Fahrenheit's thermometer, no rain having fallen for a fortnight, and the brightness of the sun's rays being scarcely obscured by a cloud.—[Halifax Guardian, Aug. 11.

Bishop Hughes on the Irish agitation.—The Freeman's Journal, the organ of Bishop Hughes in New York, puts forth at this moment a remarkable article on the subject of revolution in Ireland. It takes very just views of the folly and madness of armed resistance to the existing government, denounces the revolutionists as the worst enemies of Ireland, and implores the Irish of this country not to hasten and deepen the ruin of the mother country, by helping on the work of rebellion, which is now so industriously fanned by some of the editors and vote-seekers of our city.—[N. York Observer.

GENERAL TAYLOR.—Speaking of the call of 200 sea-captains at New Orleans, to make his acquaintance, Gen. Taylor remarked to a friend of ours, that it was one of the most gratifying occurrences of his life. They were the bone and sinew of the country, he said: "not a man of them wanted office."—*Jour. of Com.*

VISIT OF FATHER MATHEW.—Intelligence has been received that Father Mathew will leave for New York in the packet ship New World, during the present month.

A law among the Arabs permits a man to divorce any of his wives who do not make good bread.

IS YOUR LIVER DISEASED?

You may find relief if you will but try in time. Our agent has just received the following:

New Jersey, Bordentown, Oct. 25, 1845.

MR. SETH W. FOWLE,

Dear Sir:—I am well aware that persons of every age and sex, and condition in life, in every part of the country have used, and been benefitted by

DR. WISTAR'S BALSAM OF WILD CHERRY.

My own life has been saved by it. My father's and my mother's family were both consumptive. My father, mother, and a sister, died with that fatal disease. For some years, I have been predisposed to it myself. About one year ago I was quite sick for a number of weeks, confined to my bed when the pain in my side would allow me to lay. My physician pronounced my disease Liver Complaint; my liver was very much enlarged, I raised blood several times: the pain in my side was so severe that the cars passing in the street by the door affected me. I was cupped, bled, and had various other remedies applied, but all to no purpose; I got no relief; at last my physician said he could not cure me. I expected to die soon, but providentially I heard of, and obtained a bottle of your Balsam, which relieved me at once. I was encouraged to persevere in using it, until I took four or five bottles, which saved my life and cured me. My health is now good. For Liver Complaints I believe it a most certain cure.

(Signed) MARTHA A. BETCHEL.

I am acquainted with Mrs. Betchel—her statement is true. (Signed) WHITALL STOKES, Druggist.

None genuine without the written signature of I. BUTTS on the wrapper.—For sale by S. L. TILLEY, King Street, St. John, N. B.

☞ Mails for England will be closed at the General Post Office in this City, To-morrow (Wednesday) 16th inst. at three o'clock in the afternoon, and on Saturday next at the same hour.

MARRIED.

On Wednesday morning, in Germain street Chapel, by the Rev. H. Daniel, Mr. Andrew Gilmour, to Margaret Foster, only daughter of Mr. William Brundage, all of this City.

On the 10th inst. by the Rev. Robert Irvine, Mr. Andrew Kilpatrick, to Eliza Jane, second daughter of Mr. Robert Kedy.

And on the same day, by the same, Mr. Samuel Daily, to Miss Mary Jane Ewing, all of this city.

On Friday afternoon, in Germain street Baptist Chapel, by the Rev. Samuel Robinson, Mr. Robert Johnson, of the Parish of Portland, to Miss Charlotte Robinson, of this City.

DIED.

On the 8th inst. very suddenly, Mr. Samuel Clawson, aged 66 years. Mr. C. had been many years a member of the Wesleyan Society, and his pious and consistent conduct evinced the sincerity of his christian profession. In the immediate prospect of eternity, he, through the merits of his Divine Redeemer, triumphed over the last enemy, and departed this life rejoicing in the prospect of a blessed immortality.

On Monday evening, 7th inst., Thomas Arthur, only son of Mr. Thomas R. Gordon, aged one year and eight months.

On Tuesday last, after a short illness, Mrs. Elizabeth Donaghue, aged 36 years.

On Wednesday, Elizabeth, wife of Mr. Christopher Noble, aged 53 years.

On Wednesday, Cassandra A., infant daughter of Mr. James S. Marshall, aged 11 months.

On Thursday morning, at his residence in Orange street, Mr. John Simott, in the 63d year of his age, leaving a disconsolate widow to mourn her loss. Mr. S. was a native of the County of Wexford, Ireland, and for the last twenty nine years a resident of this City.

On Thursday morning, at his residence in Brussels-st., after a few hours' illness, Mr. George Spears, in the 66th year of his age.

On Saturday morning, aged 92 years, Mrs. Mary Bustin, relict of the late Mr. Thomas Bustin. "Blessed are the dead who die in the Lord."—Mrs. B. emigrated from New York to this Province with the Loyalists in 1783.

In Portland, on Wednesday, Rebecca Jane McArver, aged one year and nine months.

On the 3d inst. Mr. Dennis Horgan, aged 33 years.

YOUNG LADIES' SEMINARY.

QUEEN'S SQUARE.

THE SCHOOL for the Education of Young Ladies, conducted by Miss FOULIS, will be re-opened after the midsummer vacation on Tuesday the 1st August. Miss F. having the aid of efficient assistants in both the senior and junior classes, is enabled to give that individual attention to the pupils intrusted to her care, which she hopes is calculated to promote their advancement in knowledge.

Mr. Foulis instructs a Class in Drawing and Painting in Oils, which meets on Wednesday afternoons and Saturday mornings.

Mr. Stevens will attend to give instruction on the Pianoforte, and Monsieur Chaudelec to give lessons in the French language. July 25.

Normal Seminary.

MR. McPHERSON,

(Late Assistant in the St. John Grammar School,)

RESPECTFULLY announces to the inhabitants of St. John and its vicinity, that he has taken Rooms on the South side of Princess Street, five doors from Germain street, and nearly opposite Lancaster's Hotel, where he will, for the present, open a Normal Seminary for Day and Evening Classes, on Monday the 17th instant.

The course of Education will embrace the following branches, viz.—Reading, Writing, Arithmetic and Book-keeping; Geography, Use of the Globes, Draughting, Tracing and Embellishing Maps; Mensuration of Superfices, Solids and Conic Sections; Algebra; Plane and Solid Geometry; Plane and Spherical Trigonometry; Navigation, Land-surveying, with the Principles of Civil Engineering; English, Latin and Spanish Grammar.

Terms (for Day Classes) varying from 17s. 6d. to 27s. 6d. per quarter; for Evening Classes, made known on application at the School. Hours of attendance for Day Classes from 9 A. M. till 1 P. M., and from 2 P. M. till 4; for Evening Classes, from half-past 6 till half-past 9. Applications to be made at the School.

Mr. McPHERSON would intimate that he has engaged a Building of large dimensions now in course of erection on the South side of *King's Square*, whither he intends to remove his School after the lapse of a few weeks, when the house will be completed.

Being intimately acquainted with the Normal system of Education, Mr. McPherson will adopt that method of Teaching in his School; and he feels assured that, by an approved plan of imparting instruction, and by zealous assiduity and good government in his establishment, he will give general satisfaction to parents and guardians who may favour him with their patronage. The School will be furnished with Maps, Globes, Nautical and Practical Surveying Instruments.

☞ To Young Men who may wish to obtain a thorough knowledge of Land-surveying in Theory and Practice, a favourable opportunity is offered, as leisure hours, during the course of instruction, will be spent in the Country, in order to make learners practically acquainted with the several instruments used in Surveying; for keeping a Field Book and making calculations in the various measurements connected with that important branch of Science.—Persons intended for a Mercantile or Maritime life will receive an education fully suited to their respective callings.
