PORTLAND BAPTIST CHURCH.

We are very glad, says the Messenger and Visitor, to learn that the bretheren in Portland are agitating the question of a new house of worship. It is none too soon. Under the earnest and faithful labors of Bro. Stewart, the church has had a steady and rapid growth, until the present house is too small to hold the people who gladly would be pew holders, could they get them.

Work on the next ten miles of tracklaying is now being preceded with and will now be pushed right along. They are now within half a mile of Barnesville. Two gangs are at work, about 70 men in all. THE SPIRIT OF THE TIMES.

William O'Connor, the champion oarsman of the United States, sent a challenge a few days ago to Searle of Australia, the champion of the world, to row him for the championship either in California or at London, England, and $5,000 or $10,000 a side. Mr. O'Connor, accompanied by his trainer, George Lee, will leave Toronto this week for California, where he hopes to meet Searle, but should Searle decide not to come to America, then O'Connor will start for Australia, where he will row Searle for the championship.

W. W. Ruddock, the Harlem boat builder, has just completed a boat for O'Connor, to be used in the coming race which may be classed as a marvel in the line of shells. Her dimensions are: Length, 31 feet 6 inches; beam, 11½ inches; depth, 6½ inches, aft 1¼ inches, forward 2½ inches; keel camber 1½ aft, forward 2 inches. She is rigged with Meaney rollers and Davis rowlocks and oars, with cold drawn steel seamless pipe outriggers, and will weigh fully rigged about 27½ pounds. George Lee will leave here with the boat for Toronto next Wednesday. O'Connor will take also the boat in which he defeated Teemer as a practice boat.

Mr. C. G. Peotta, the amateur champion sculler, arrived in New York Saturday, and visited Mr. Ruddock yesterday for the purpose of ordering a shell to take to London. He will leave here about May next for England to take part in the Henley Regatta, the race for the Wingfield sculls and the Exposition Regatta at Paris. He will be the representative of the New York Athletic Club, and will row in all the important regattas while there. He expects to return home about September.

Kilrain and Mitchell arrived in New York Sunday. Their sparring tour has been concluded. They are stopping with Mr. Straub, a relative of Mitchell, on Third avenue, near 128th street. Kilrain expressed himself as perfectly satisfied with the result of his tour. He says he is anxious to meet Sullivan, and he has no fears that the result will prove to be disastrous to himself.

The rumors with regard to the putting up of the remaining $5,000 of the stake money are untrue. The date for the final deposit is set by the article of agreement for April 15, and this stipulation cannot be violated without mutual consent. Sullivan's backers have expressed themselves against the proposition.

Kilrain will remain in town for a few days to call upon his friends, and Mitchell will sail on Saturday for England. After a few weeks stay on his native soil, he says, he intends to return to this country, bringing his wife and children with him. He will then begin training Kilrain for the big fight.

A San Francisco despatch to Richard K. Fox, relating to the challenge of Jem Smith to fight Peter Jackson, the Australian champion, for £1,000, says that Jackson places himself in the hands of the California Athletic Club, and will meet any man in the world, but nowhere else than in the rooms of the club. This reply was cabled to London to-day. Jackson, the despatch says, has been challenged by Jack Kilrain and Patsy Cardiff to battle for a $3,000 purse.

Provincial Notes.

The Nova Scotia department of agriculture is urging Nova Scotia farmers to engage more extensively in raising barley.

Eighty-five million feet of lumber, were shipped from Nova Scotia last year, an increase of two millions over the previous year.

The Haliax Recorder says that at Cole Harbor they were ploughing on Friday and that the ground turned up was nice and dry without frost.

Rev. Jas. I. DeWolfe pastor of the Baptist church at Hampton village died suddenly yesterday morning. He was 42 years old and leaves a widow and one child.

G. R. Parkin, principal of the collegiate school, Fredericton, will shortly resign his position and proceed to Australia to accept the offer made to him to discuss imperial federation.

John E. Dean, of Diligent River, Cumberland, N. S., threshed one hundred and four bushels of barley from four and three quarter bushels sown. It grew on less than two acres of ground.

A public meeting at Arichat protests against the construction of a railway bridge over the Bras d'Or lakes at Grand Narrows, as obstruction to navigation. A memorial is to be sent to the government.

The ex-Dominion fishery cruiser, schr. Charles H. Tupper, of 99 tons, Captain J. H. Kelly, sailed from Halifax Saturday afternoon for Victoria, British Columbia. The voyage will likely occupy five or six months.

News has been received of the murder of Byen Goodwin, formerly of Baie Verte, in Colerado. He was foreman on a mining claim and was shot by a desperado who was interfering with the business of the mine.

Driver Herbert Trites, of the Intercolonial, had a narrow escape from death near Newcastle Monday morning. The side rod in the engine broke and came crashing through the cab, rendering it impossible for the driver to blow the whistle. Trites climbed out over the cab and gave the signal, and the breaksmen brought the train to a standstill. He afterwards brought the engine a distance of 18 miles to Newcastle.

A remarkable circumstance occured at the store of Messrs. White Bros. of this town on Thursday. On the afternoon of that day (Jan 10) outside the office window and exposed to our present winter weather was observed a large spider busily engaged weaving his web preparatory to sending the fly the polite invitation 'Will you walk into my parlor.' This gives us an idea of the remarkably mild weather we have been enjoying most of the past week.—Summerside Pioneer.

The New York Graphic's press bureau, has the portraits of over 200 young journalists who were "influential writers" in the late Presidential campaign on the democratic side, and among them is one of Mr. C. Bruce MacDougall, formerly editor of the Pictou News, and once a local writer for the Moncton daily Transcript, but who is at present the chief editorial writer of the East Boston Sun. The Graphic says that Mr. MacDougall was educated in P. E. Island where he was born, and is a nephew of Rev. Dr. A. MacDougall of St. John, N. B. Mr. MacDougall is well known in Summerside and the Maritime Provinces generally.

On the Tracadie Beaches, where Mr. John H. Hickman, of Dorchester, goes shooting wild fowl each year, there are no boats, and women are never seen there, but Mr. Hickman had a "surprise" the other day. One of the wild geese he had shot on his last visit to Tracadie was found to contain a quart of oysters. On being cleaned and in the crop there was found a woman's circular hair comb, about 3½ inches long—in a good state of preservation but somewhat softened. The goose was a very fat one and of excellent flavor, second to none of those shot by him last autumn. The puzzling query is where did the goose pick it up and how was it able to swallow it, the neck of a goose being small. Mr. Hickman protests that he never even saw a petticoat on the Tracadie shore. —Moncton Transcript.

The steamship Amaryllis, which arrived at Halifax on the 14th inst. with sugar from Hamburg, will, after discharging, come to this port to load deals for United Kingdom. Yet the Halagonians are silly enough to believe they can compete against St. John for the winter trade of Canada.

Don't Stuff a Cold.

If you do you will nine times in ten, have a fever to starve.

A cold is a shock received by the myriad nerves that bristle near the surface of a human body. This shock is transmitted to the nerve centres, and then back to the mucous membrane, creating a more or less severe irritation and consequent rise in temperature, followed by chills. Excess of food in the temperature still more increases the temperature, and, worst of all, helps clog the secretions or natural outlets of the body. It is high time we broke away from all notion which, like some others, has done more harm than good. For example, in years past how many poor fever sufferers, burning with an internal fire and thirst, were hurried to an untimely grave because not allowed cooling drinks or a bit of ice by the old time treatment for fevers, as foolish as the adage for colds. At last one cunning delirious patient got to a pump of cold water and drank his fill; determined not to leave until the well ran dry, he slacked the fever, recovered, and doctors learned a lesson. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy only until some friend suggests another "sure cure," as Mark Twain so humorously describes. When slight hoarseness or tightening of the nasal membranes warns one of a skin exposure or chill from wet, act promptly; a delay is dangerous. With children it may mean croup or strangulation; with adults catarrh, bronchitis, perhaps pneumonia. If neglected, nothing can prevent this sneezing, red nose, and woe-begone look of a person with a cold. Scores of mother's would as soon go to bed without matches in the house, as without that old fashioned remedy, Johnson's Anodyne Liniment near at hand for croupy children. Used with a mild laxative, as described in a pamphlet which I. S. Johnson & Co., Boston, Mass., will send free to anyone. Johnson's Liniment will cure a cold for adults quicker than any known remedy. A mild nutritious diet, a gentle physic to open the secretions, and a bottle of that old Anodyne from your druggist, will conquer any cold. Johnson's Anodyne Liniment was originated by an old family physician more than seventy years ago.
