Yankees' Manager Planning Trades

Miller Huggins Says He Hopes to Strengthen The Club by Deals

New York, Nov. 30—Manager Miller Huggins of the Yankees came to town yesterday and made it plain that he is not going to let the grass grow under his feet in assembling his baseball club for next season. Huggins plans to spend a few days here getting next year's contracts in shape to send out to the players after the first of the year. He will then set out to visit several minor league club owners in the middle west, and get several new players to take on the training trip to Jacksonville.

The Yankee manager had planned to meet several minor league officials in Chicago at the American League meeting on Dec. 10, but now that the board of directors has called the meeting for this city, Huggins will investigate the baseball market before the meeting here. Huggins said yesterday that he was planning some deals, which is taken to mean that some of the players who were regulars last season may be used in trades for new material.

Huggins said yesterday that he didn't take much stock in the stories that Duffy Lewis and Frank Baker had retired. These players announce their retirement each season. Baker's case, of course, is doubtful, but it is believed that Lewis will again be seen in the Yankee lineup. With both Baker and Lewis the call of baseball has always been stronger than their desire to retire from the game.

Even at the close of last season Baker did not retire to his Maryland farm, but went on a barnstorming trip with Charley Herzog's team, and Herzog says that in many games Baker's share was at times as low as $8. When a $10,000 a year baseball player will play for $8 a game, it can be seen that the lure of the game is exceptionally strong.

Huggins' most difficult problem since coming to New York has been the outfield. Until he obtained Duffy Lewis the Yanks did not have a very dependable bitter in the outgardens, and it is Huggins' ambition to land a couple of good outfielders before another season rolls around.

Manager Huggins is very optimistic about the outlook of the Yanks for next season, and the only sad story that he had to disclose yesterday was that his new automobile had been stolen in Cincinnati. Huggins bought the car at the close of last season and drove out to Redland to the world's series. He has been driving the car all fall. He left it standing in front of a store in Cincinnati recently and when he came out it was gone.

The story has been revived that there will be a change in the National League circuit next season, and that the St. Louis franchise may be transferred to Toronto. A prominent official in the National League said yesterday that this story was absurd, and that there wasn't a possibility of any change in the circuit.

This same official pointed out that to transfer a major league franchise would require a majority vote of the sixteen clubs in the two major leagues, and that such a vote would be impossible. The St. Louis club had a good season last year, and is a ball club which is going through a period of reconstruction. The Cardinals will play much better ball next season and the numerous St. Louis stockholders are very well satisfied with the clubs' achievements last season.

Stomach And Liver Trouble

Once the liver fails to filter the poisonous bile from the blood, there is a clogging up and poisoning of the whole system which causes many troubles to arise. Therefore(upon the liver, more than any other organ of the body, depends the general health.

Carelessness and neglect, and oftentimes wilful disregard of nature's laws will put the system out of sorts. The bowels become constipated, the liver inactive and the stomach upset. To bring the system back to its normal state, you should take Milburn's Laxa-Liver Pills. They liven up the liver, get the bowels back to their proper condition and tone up the stomach.

Mrs. G. L. Cackett, Enchant, Alta., writes:—"I have used Milburn's Laxa-Liver Pills and hove found them good for both stomach and liver troubles. I have told others about your valuable medicine and they have used them with good results.

"They are also good for headache."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Shoots Woman; Now Gives His Blood To Save Her

Washington, Dec. 2—Mrs. Florence Robinson, a comely young matron, lying near death in a hospital, and Grover Gordon, little more than a youth, who, because he said he loved her, shot the woman through the body and who for the same announced reason twelve hours later kept her alive by giving his blood for transfusion to her veins, today were the principals in one of the most remarkable criminal incidents in Washington police history.

After a jealous quarrel recently, Gordon went to the home of the young woman, who some time ago had separated from her husband, to bid her a final good-bye, as he expected to leave that day for his old home in Wheeling, W. Va. As she stood in his embrace Gordon fired a revolver shot through her body.

After his arrest Gordon was told that Mrs. Robinson would die unless someone speedily volunteered to submit to blood transfusion. He eagerly offered himself and requested only that if the patient were still conscious she be told of his action.

Physicians said it was too early to say whether the operation would save Mrs. Robinson's life. In the meantime the police were wondering what the effect would be should the woman whom Gordon had tried to kill be saved from death through his own sacrifice of blood.

Night Coughs Prevent Sleep

WEAR OUT THE SYSTEM

The dry, hacking cough, cough, day and night is very wearing on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy without an equal for curing coughs and colds, soothing the lungs, loosening the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary disease.

Mrs. Fred. Fairburn, Copper Cliff, Ont., writes: "I caught a heavy cold, got a sore throat and had a terrible hacking cough that I could not get rid of. I could not sleep at night. I had tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone.

It seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took that hot, raw, burning fever out of my bronchial tubes. I feel that Dr. Wood's has no equal."

Price 25c. and 50c. at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Y. M. C. I. PLANS.

A meeting of the board of directors of the Y. M. C. I. was held last evening when routine business of the assocation was transacted. The boys' committee of the institute have arranged a programme for the next few weeks which consists of a track meet, an entertainment and a sports meeting, when sports and games will be held in the gymnasium and refreshments served afterwards.

IN THE WHEAT COUNTRIES

Changing Estimates of Argentine, Australian and Canadian Supplies.

Chicago, Dec. 1—The world's wheat situation has changed greatly within the last few weeks. Argentina's harvest will be of lower quality than was recently expected. Australia is suffering the most serious drought in recent years, and late cables estimate the crop at 40,000,000 bushels, against 179,000,000 bushels last year. A few years ago a crop of around 80,000,000 bushels was a good average for that country.

Its requirements for bread and feed are estimated at 40,000,000 to 50,000,000 bushels. Fortunately, Australia has 100,000,000 bushels of old wheat on hand, which will help to make up the deficit. Removal of the import and export embargo on wheat and flour into the United States by Julius H. Barnes, United States director, is not expected to result in large exports, although Mr. Barnes in a statement issued a few days ago says that it should result in a lowering of the price of some varieties of wheat eighty cents a bushel.

He evidently means spring wheats, as they are nearly $1 a bushel above the government's basic level. No. 1 dark Northern wheat sold here this week at $3.20 and $3.22 for a few cars, as very little of it is obtainable. It is not believed by Winnipeg dealers that more than 20,000,000 to 30,000,000 bushels of Canadian wheat can be imported into the United States, but expectations are that a fair quantity of Canadian flour will be brought in.

USE The Want Ad Way

CANADA MAY REAP SOME ADVANTAGE

(Ottawa Correspondence.)

Canadians are puzzled at the failure to ratify the peace treaty at Washington and hope that some compromise may yet be worked out. They feel, however, that the present disinclination of the United States to undertake further commitments in international affairs and the settlement of Europe may be turned to their own advantage. Canada will accept her obligations as a member of the League of Nations and will do her best to facilitate by credit extension the work of economic reconstruction in Europe.

It is already felt that her venture into the wide international field in politics is opening up a bigger and broader market for the output of many Canadian products. Not only is Europe reaching out eagerly for Canadian foodstuffs, but large export orders have lately been closed by the Dominion Textile Company, the Canadian International Harvester Company, the sugar refineries and the steel mills. So impressed are the directorate of the Dominion Steel Corporation with the possibilities of export trade that they have secured the alliance of a very influential group of English steel and shipping men, including Sir William Beardmore.

An Irish Frieze Overcoat $39.50

Its a $50 value I am offering for this week only at $39.50. Just as I gave a Serge Suit Benefit for one week do I now give an Overcoat Benefit right in the middle of the season.

My sympathy responds to every protest against the high cost of living essentials—That is why I decide to give right in season one week of an essential at cost of making.

I want to state right here and now that our regular prices on real wool quality are the lowest of any; that by efficiency and economy we have kept down the cost of high-class tailoring; and that this week's special is actually and solely a desire to give every man his chance.

As a companion Bargain I will sell the famous Canada Ulster, worth $65, in the same Irish frieze for $44.50—this week only.
