### City Police Court.

Two sailors occupied the dock this morning, both strangers. One was charged with being drunk and disorderly in Water street, and the other was called to show cause why he was lying drunk and helpless in Main street. The former, Joseph Ward, was fined $4, and the latter, John Jenkins, only had to pay $4.

Samuel Swanton was charged with assault on Michael Burke. They are both coal-cart drivers and had a dispute which resulted in Swanton striking Burke. A fine of $4 was imposed.

### Portland Police Court.

One unfortunate drunk was secured by the police last evening—John Marshall—and he was fined $4.

John Campbell and ——Day were charged with assaulting Joseph Girrin. The prosecutor did not appear, and, on their paying the costs, they were dismissed.

### Supposed Foul Play.

Coroner Earl was notified of the death and burial of a child from a house in Sheffield street, and considered it necessary to have the grave opened and an inquest. At 5 o'clock yesterday afternoon a jury was summoned, the grave was opened, and the body viewed. The inquest was then adjourned until 4 o'clock this afternoon, to be held in the dead house. The mother's name is McVane, is well known to the police, and bears a very hard character. A number of witnesses have been subpœned to give evidence at the inquest. The child when it died was about six weeks of age. It died in the morning and was buried the same night, which excited suspicion and caused the report to be made to the Coroner.

---

Advices from Venezuela of the 12th inst. says that Pulgar, Governor of Maracaibo, has been compelled to flee by the people revolting against him. He fled to the Island of Oruba whence he made his way to Kingston. It is reported that President Blanco has offered him the mission to France in order to keep him out of the country.

Richmond, Virginia, has had a destructive fire. It destroyed the principal buildings, three in number, including an immense amount of machinery, and a large quantity of grain and flour, several thousand barrels of which were stored in another building, was saved. The total loss is estimated at $500,000. The insurance is from $200,000 to $300,000, distributed among local, northern and foreign companies.

The Supreme Lodge of Knights of Pythias is in session at Pittsburg, Penn. The report of the Supreme Chancellor Berry congratulates the Order on their rapid growth in every State and Territory, and says that a great deal of trouble was occasioned last year by the defalcation of the Scribe Clarence. The report concludes by saying that this body (Supreme Lodge) is too large; it meets too often, the expenses are beyond the revenue, and the sources of revenue are rapidly falling off.

The National Board of Fire Underwriters met in New York city, Wednesday. Among the companies represented were several from Boston, Hartford, Meriden, Middleton, Albany, Pittsburg, Minnesota, Maine, England and Glasgow. The Treasurer's report shows the receipts at about $50,000 against an expenditure of $58,000. The President read the annual address. The total receipts for premiums of 187 companies last year were $56,405,496, and the losses paid $45,536,900. The companies are about 60 per cent. better off this year than on the 1st of Jan., 1872. The losses during the past three months are $17,000,000 more than at the same time last year. During the year Mansard roofs had been removed from 63 buildings and since the schedule rates were in force in Boston not a single wooden Mansard roof has been erected in the burnt district of that city. Chicago had also adopted the schedule. Good results had flowed from the meeting of fire engineers at Baltimore last fall, and it is believed that if the salvage and minor corps had been in existence in Boston or Chicago millions of dollars would have been saved. Convictions of arson are more numerous since the abolition of capital punishment for this crime. A resolution was adopted that in every case where an agent is convicted of violation of the rules he shall collect the additional premiums or cancel the policy, and the Executive Committee was empowered to impose a fine in addition thereto if advisable.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs.

AMONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting diseases of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tenderlings need this defence; and it is unwise to do without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedily and surely against ordinary colds, securing sound and healthy sleeping; while one will suffer troublesome sleeplessness and painful Bronchitis, when they know how easily they can be cured.
