THE TORONTO WORLD

WEDNESDAY MORNING, DEC. 12, 1883.

THE WORLD AT LARGE.

Boston's law and order league never brings a suit on evidence obtained by a spy. In that way it finds places where liquor is sold, but waits for other and legitimate proofs before commencing an action.

Judge Ingalls purchased a lot in the village of Greenwich, N.Y., adjoining the house where he was born, not that he wanted the ground, but because the owner was about to cut down a noble old elm which stood upon it.

Bummers have been at the front this year at the Boston city hall, says the Herald, and they have had things all their own way. "Some members of the city council," it is asserted, "have eaten and drunk more at the city's cost in one year than they ever did at their own expense in ten."

A society which is likely to find much scope for action is the Societe de St. Luc, which has been constituted in Paris. It consists of artists, and its object is to prevent the sale of worthless pictures bearing forged signatures of famous painters. It is proposed to register works and affix a seal to them by which their authenticity will be guaranteed.

Wood Granger was fined $30 for disturbing public worship in a little church near Middleton, Ky., notwithstanding Robert Andrew Higgins' testimony in his behalf, as follows: "Wood Granger, in my 'pinion, wuz no wuss in his behavior den some of de res'. I tole you dar's no behavior in dat church whatsomever. Dey all cuts up dar. I've done seen 'em rollin' dese yer little round dice in de pews while de preacher war a prayin' fur de salwation of dar souls. What I means by behavior is, dar wuz no real good genteel behavior."

Two very interesting works will shortly be published in Berlin. The first, which might be called the table talk of Frederick the Great, consists of his comments on the books read aloud to him daily by his reader Catte, who took regular notes, which are now being carefully edited by Privy Councillor von Sybel. The second is by Herr Moritz Busch, the well-known editor of "Bismarck und Seine Leute," who announces that his new book, "Our Imperial Chancellor," which was expected last autumn, but whose appearance was delayed owing to the numerous and unexpected materials that offered themselves, will be ready before long.

There is a clergyman in Tennessee called the "satisfying preacher." If a congregation is discontented he is sent for, and so atrociously bad is he that after hearing him once or twice the congregation is entirely satisfied to keep the pastor it has. The Christian Advocate tells this story, and adds that when the great Robert Hall was recovering from mental abberation he took a whim that he would not preach. Several clergymen filled his pulpit. At last he heard one so poor that he said to him—so the tradition is: "Sir, you have produced a great effect by your sermon today. If the people must hear you or me, my duty is clear—I must resume preaching."

THE CHURCH AND THE STAGE.

A Buffalo Clergyman Says Some Very Unpleasant Things—A Manager's Reply.

The Rev. C. W. Winchester of Buffalo recently delivered a sermon on the Theatre, and among others, according to the report in the Commercial, he advanced the following mild propositions: "Its influence is corrupting to morality and deadly to piety and true spirituality. The surroundings of the theatre prove that it is an evil institution. The theatre is the devil's church, a hole for foul spirits, and a cage for unclean and filthy birds. The character of actors proves that the theatre is an evil institution. The mass of playgoers come from the lower classes in morals. The play itself proves the theatre to be a corrupting institution."

John McCullough's manager, in reply, says the women on the stage are as a rule worthy of comparison with their sisters in less conspicuous walks of life. They live in the broad glare of publicity, and are more subject to gossip, libel, and innuendo, but there are among them scores and scores of true christian women, loyal wives, pure daughters, god-fearing mothers, who can only suffer in silence from cowardly calumnies such as the Rev. Mr. Winchester shrieks forth against them.

The Danger of Arc Light Wires.

Argument was closed before Judge Ingraham of the supreme court of New York on Nov. 30 in the suit of Mr. Tuttle against the Brush Electric Light company, and on Dec. 5 on the motion brought by Mr. Henry N. Smith for an injunction to restrain the U. S. Electric Illuminating company from erecting their poles and wires on West 43d street, between 5th and 6th avenues. In the latter case Governor P. Lowry and Joseph S. Auerbach represented the plaintiff, and General Thomas H. Hubbard the defendants. The affidavits of Edward H. Johnson, George S. Evans and other experts were read by Mr. Auerbach, setting forth that the electric currents conducted on wires above ground were dangerous; that the U. S. company's wires were such that the insulation would rot or be destroyed in time; that real estate was depressed in value by the poles and wires in front of it, and that the erection of such poles was in violation of the city ordinance.

In answer Gen. Hubbard read the affidavit of Professor Henry Morton of the Stevens institute of technology to the effect that he had prepared certain requirements for safety from aerial wires which would render electric currents in them harmless, (this wire is known to the trade as board of underwriters double braided electric light wire.) There was no preference between overground and underground methods. The statements in the plaintiff's affidavits were in great part false and misleading. There was no efficient method of using wires underground in this city, the affidavit continued, the sewers of Paris and other foreign cities afforded a means for this. Costly subways would be necessary here. The tearing up the streets for that purpose would be a greater nuisance than aerial wires. Professor Edwin J. Houstan corroborated Professor Morton's statements relative to the impracticability of conducting long currents underground and the insulation of aerial wires.

Francis L. Pope, an electrical engineer, asserted that the statements of Engineer Evans were untrue, and that certain newspaper articles of an alarming nature, were inspired by the Edison company who do not use arc lights. A current of electricity diverted would not follow a stream of water directed upon it.

Several affidavits were made to the effect that one James A. Russell had stated to the deponents that he was employed by Thomas A. Edison to secure the bringing of the suit against the United States company.

Eugene T. Lynch, president of the defendant company, swore that electric light had to a large extent cleared the moral atmosphere of this city and had proved an efficient aid to the police.

Mr. Lowry then presented the case of the plaintiff and General Hubbard replied for the defendants alleging as the defence that the U. S. company was authorized by the act of 1879, by the board of alderman of the city and that it had its license from the commissioner of public works. The light furnished by the company was safer than gaslight. The court reserved its decision."—The Electrical World Dec. 8.

TESTING ITS MERITS.

So much has been said regarding the wonderful cures made through the aid of the spirometer, the invention of Dr. M. Souvielle of Paris ex-aide surgeon of the French army, that many eminent physicians have been induced to investigate the instrument and also the scientific standing of the International Throat and Lung Institute. All who have so investigated express themselves satisfied that the physicians comprising the staff of the institute are thoroughly qualified medical men, that patients receive the latest and most scientific treatment, and that the spirometer is really a valuable addition to medical science.

One very prominent physician said: "If there is anything in *inhalation* it can be got out of the spirometer. I am surprised at the powerful effects produced." Any one suffering from Asthma, Bronchitis, Catarrh, Catarrhal Deafness, Consumption in its first stages or Laryngits should consult the physicians of the institute personally and be examined; if not, write for a list of questions and copy of "International News," published monthly. Physicians and sufferers can try the Spirometer free. Consultations free. Address INTERNATIONAL THROAT AND LUNG INSTITUTE, 173 Church street, Toronto, or 13 Phillips square, Montreal.

MUNICIPALITY OF PARKDALE.

PUBLIC NOTICE

Is hereby given that after the expiration of three months from the first insertion of this notice application will be made to the Lieutenant-Governor in Council for the erection of the Village of Parkdale into a Town and for including in the said new Town such portions of the adjoining Township as lie to the west of the west boundary line of said Village and bounded on the east by the said west boundary line, on the north by the Village of Brockton, on the west by High Park and on the south by Lake Ontario, the Lake Shore Road and Queen street.

W. WALKER,

Village Clerk

Dated this 24th day of October, 1883.

Municipality of Parkdale.

PUBLIC NOTICE is hereby given that upon the expiration of one month from the last publication of this notice the Municipal Council of the Corporation of the village of Parkdale will proceed to pass a By-law providing for the grading and levelling of Leopold street and for constructing a sidewalk and curbing on each side thereof, and for sodding the same from the outside edge of the said sidewalks, by the whole length of the said street, and to assess and levy the cost of such proposed improvements on the real property fronting or abutting on the said street, and to provide for the obtaining of temporary advances or loans until the completion of the said work and for meeting the cost thereof, and for making a special assessment for the said cost after the completion of the said work. And that the said By-law will not be passed if a majority of the owners of such real property, representing at least one-half the value thereof, petition the Council against the said assessment within one month after the last publication of this notice.

W. WALKER, Village Clerk.

Parkdale, December 12th, 1883.

MUNICIPALITY OF The Village of Parkdale.

Public notice is hereby given that upon the expiration of one month from the second publication of this notice, the Municipal Corporation of the Village of Parkdale will proceed to pass a by-law for the purpose of opening a street in said village from Macdonell avenue to Saurarin avenue, sixty-six feet in width, bounded as follows: Commencing at a point on the west side of Macdonell avenue, forty-six feet north of the northern boundary of lot sixteen, thence westerly and parallel to the northern boundary line of Queen street to the east boundary of said Saurarin avenue, thence southerly and along the said eastern boundary sixty-six feet, thence easterly and parallel to the said northern boundary line of Queen street aforesaid, to the west boundary line of said Macdonnell avenue, thence northerly along the said western boundary line of Macdonell avenue, sixty-six feet to the place of beginning, and to appropriate for such purpose the necessary quantity of land, and to level and grade the said avenue, and to construct a sidewalk and kerbing on each side thereof between the limits aforesaid, and the expense of such proposed improvements be assessed and levied upon the real property fronting or abutting the said Avenue, and to provide for the obtaining of temporary advances on loans until the completion of the said work, for meeting the cost thereof, and for making a special assessment for the cost of the said work after the completion of the same, and for naming the said street, "Marion street."

And, further, take notice that prior to the passing of said by-law the Council will hear in person or by counsel or attorney any one whose lands may be prejudicially affected by the opening of the said Avenue and who petitions to be heard.

The said by-law will not be passed if a majority of the owners of the real property representing at least one half the value thereof petition the said Council against the said assessment within one month after the second publication of this notice.

POPULAR DRY GOODS HOUSE, 182 YONGE STREET.

TO THE MAN WHO THINKS.

Suppose a wealthy man of your acquaintance, one whose word and whose ability to carry out his promises you placed full confidence in, proposed to sell you a valuable farm, worth *at this time*, say $10,000, and would sell it to *you* as being an exceptionally *healthy* man, on a credit running through *ten* years, with a certain equal amount payable each year of the ten, and that it was in your power to apply that sum each year to the payment required. Suppose further, that this friend said: You can make these yearly payments for any number of the ten years *that you please*, and if you see fit, for *any cause*, to stop these payments at the end of any of the years short of the ten, (after two years have been paid for) I will make you a deed of the land in the proportion you *have* paid for; and, further, I agree to give you, at the end of each year, while you are making these payments, the annual profits, earnings, or dividends on that farm, and, each year, deduct from your annual payment such earnings, profits, or *dividends* as the farm may earn that year; and he assures you that these earnings or dividends *will probably increase* each year, and materially reduce the amount of your annual payment, and that the farm in that ten years shall not be liable *for your debts*, and he further guarantees that at the end of the ten years the farm SHALL be worth exactly $10,000. He then says: Take this offer and I will further bind myself and guarantee to you that if you will keep up your annual payments, and die ANY TIME within those ten years, and before all the payments are made, that *in such case*, I will deliver or pay over to your wife or to *any person* you may will or devise it to, THE ENTIRE FARM, or $10,000 IN GOLD COIN, and *require no further payments on the same.* WOULD YOU NOT BUY A FARM UNDER SUCH CIRCUMSTANCES?
