THE DECKERS' TRIAL.

The trial of Paul and Anthony Decker, Robert Nurnberger and Hans Kunze, alleged counterfeiters, began at Woodstock yesterday before Judge Finkle. Anthony Decker was put in the box first. His wife and daughter were present. He testified that Nurnberger, the Montreal saloon-keeper, was the man who supplied the money to carry on the work, through Zimmerman, alias Bauer. Detective Burns, of Washington, who arrested Decker in Baltimore, gave evidence which showed that Decker had offered to take Steiner into the business in Canada for $400. Reinholt, of Montreal, an engraver, who worked for some time with Decker, said the engraved stone produced in court looked like Decker's work very much, and that no other man living could do the same work. Case still on.

THE LATE REV. DR. DADSON'S FUNERAL.

Woodstock Sentinel-Review: The funeral of the late Dr. E. W. Dadson took place this afternoon, and was one of the most impressive seen in Woodstock for some time, and seldom has such widespread sympathy been manifested. The body arrived from Montreal at 10:40, on the Grand Trunk, and was at once taken to the residence of D. W. Karn, on Wilson street, where the casket was opened, and a large number of the friends of the deceased viewed the remains. The sons, Thomas, Alexander, John and William, accompanied the remains from Montreal. Mark Dadson, a brother, and Mr. and Mrs. West, of Toronto, the latter a sister of the deceased, also arrived on a morning train. Stephen Dadson, the eldest brother of the late Dr. Dadson, is lying very ill at his home in Paris, and fears are entertained for his recovery. . . . The floral designs were exquisitely beautiful. Among them were a wreath from McMaster University, another from the Young People's Union of the First Baptist Church, here, and a pillow from the congregation of the church. Many floral tokens were received from Montreal as well. At 2 o'clock the remains were taken to the Baptist Church, which was crowded to the doors, and where the Rev. R. R. McKay, the pastor, conducted a very impressive funeral service. Among those who assisted in the obsequies were Rev. Dr. Johnston (of London, Ont.), who read the scriptures, D. W. Karn, A. H. Graftic, Rev. Dr. McMullen, and Principal A. L. McCrimmon, M.A., of Woodstock College, who spoke briefly and impressivly of the many excellent qualities of the late Dr. Dadson. The Rev. S. S. Bates, of Toronto, spoke feelingly of Dr. Dadson's student days. Prof. Farmer, of McMaster, spoke of the deceased's relation to the general interests of the denomination. The Rev. John Trotter closed with prayer. During the service the Rev. Dr. McKay read telegrams from a number of friends of the late clergyman expressing regret at not being able to be present. The remains were taken to the Baptist Cemetery for interment. The cortege was a long one, many prominent citizens and the students of Woodstock College, in a body, being in line. The pallbearers were: J. R. Huggart, N. S. McKechnie, D. W. Karn, Rev. John McLaurin, Rev. D. Hutchinson, and the Rev. W. H. Cline.

PROPOSED NEW RAILWAY

A Project That Would Aid in the Development of the Algoma and Nipissing Districts—Resolutions Passed by the Board of Trade.

A special meeting of the board of trade was held yesterday afternoon at 4 o'clock. Mr. John McKay, of Sault Ste. Marie, was present and explained to the meeting advantages which would accrue to Western Ontario through the encouragement of the Manitoulin and North Shore Railway Company. After hearing Mr. McKay, two resolutions, which have already been indorsed by various boards of trade and municipal councils in Western Ontario, were moved and carried. The first, which will be forwarded to the Dominion Government, set forth that the board believed that the building of this road would materially aid in the development of the Algoma and Nipissing Districts, and prayed that the government would grant the usual cash subsidy for the first 80 miles of the road. The second will be sent to the Provincial Government, and asks that the government make a land grant of 6,400 acres per mile, or such other subsidy equal in value to that granted to other railways in the northern portion of the province.

The Manitoulin and North Shore Railway Company propose to proceed during the present year with the construction of the first 80 miles between Little Current and Sudbury, if proper assurances are given from the Ontario and Dominion Governments regarding a land grant, and the usual cash subsidy per mile. The proposed new line will run northward from the main line of the C. P. R., and will be provided with terminals on the lake systems, so that the towns on the lake fronts will have direct steamboat communication with such terminals. This line will connect Manitoulin Island with the rest of the province. The people of that section have been clamoring for this railway for a number of years, as for many weeks in the fall and spring, communication is cut off from the mainland, and the only means of transportation is by steamboat in the summer and by sleighs over the ice in the winter. The section of the country which this line will open up is rich in minerals and timber lands, and the enterprise opens a way for the development of the resources in that part of Ontario. Manitoulin Island has an area of about 1,500 square miles, and has a population of about 13,000. It contains a vast area of good, arable land, and is especially adapted to stock-raising. Outside of New Caledonia, Ontario is the only place at present possessing vast quantities of nickel, and under proper conditions it is believed that the output of the Sudbury mining district can be increased tenfold.

It is the intention of the company immediately on the voting of the subsidies to proceed at once to construct the line as far as Sudbury, passing through or near the nickel-copper ranges in Hyman, Nairn, Loine, Drury, Denison, Creighton, Snider and McKim, and eventually tap the whole Sudbury nickel-copper range which extends from Webbwood, in the district of Algoma, eastward, over 70 miles, and northward, over 50 miles, comprising 2,250,000 acres. This would furnish an independent mineral railroad from Sudbury to the Georgian Bay, and afford direct and economical transportation of the mineral and other products of the Sudbury district, and cheapen the cost of coke and coal, and thus promote in a special way the establishment of smelting and refining works within the province, and the rapid development of the Sudbury mines.

The line of railway will furnish the very necessary railway facilities for most of the known nickel ranges in the Sudbury district. The capitalists interested have acquired the charter and subsidies granted to the Manitoulin and North Shore Railway Company, and will ask that the entire line be subsidized from Little Current to Sudbury. It will cost about $2,000,000 to construct and over $200,000 to operate same annually. The company also propose to expend an equal amount, if necessary, in mineral development, smelters, and such other enterprises as may be necessary to create a sufficient additional freight and passenger traffic to make the railway a paying enterprise, and thus make the Sudbury district one of the most important mining centers in the Dominion.

The project is receiving the hearty support of the boards of trade and municipal bodies of Ontario.

Drumbo—Rev. Canon Smith, as the bishop's commissioner, recommended that the services at Drumbo be conducted tentatively by a student, and that services be opened at Ayr and Plattsville, if desired, the student to be under the supervision of the incumbent of Princton until such time as a deacon may be sent; the sum of $100 to be placed in the bishop's hands toward the support of such services for the first year. Adopted.

Dover East—Archdeacon Davis, as bishop's commissioner, recommended that in case of a grant being made by the executive committee toward the support of services in Trinity Church, North Chatham; St. Thomas' Church, Dover East, and Mitchell's Bay, be formed into a separate parish. The missions committee recommended that the separation between Dover East and Trinity Church, Chatham, take place so soon as the recent improvements are paid for.

It was resolved that Mitchell's Bay be attached to Trinity Church, Chatham, and Dover East, the rector to supply such services as would be considered by the bishop to be necessary and practicable.

Point Edward—The bishop was requested to appoint a commissioner to visit and report regarding reorganization and assessment.

Walpole Island—The sum of $200 a year was granted toward the support of the clergyman, provided that a similar amount be raised by the congregations.

Amendments to Canon.—The report was read by Mr. O'Grady, recommending that the standard of $1 a family be continued, two or more persons in a common household or three detached persons to constitute a family; the collections to be made at stated intervals or in such manner as the clergyman might deem best. Adopted, on motion of Rural Dean Hicks and Mr. H. Macklin.

All Saints', London.—Application was made, with the consent of the rector and wardens of Memorial Church, to become an independent church. After some discussion the bishop was requested to appoint a commisisoner to visit and report in the usual way.

Alvinston.—The wardens applied for help towards paying the funeral expenses of the late Mr. Barner, a student, who died there without friends. The rules would not admit of a grant, but a private subscription was volunteered towards payment of local expenses, Canon Smith being appointed treasurer.

The bishop announced that collections for this fund had been received up to Saturday last to the amount of $1,750, with several places to hear from, in addition to considerable sums sent through other mediums.
