When Stores are Dear

In hard times you stop the wastage of food in the larder—stop the wastage of food in the *body* also. Bovril enables you to extract much more nourishment from your food—nourishment that would otherwise be wasted or clog the system because it is not assimilated.

And remember—in a bottle of Bovril is the nourishment and stimulating qualities of *many pounds of beef*. It is because of its unique *feeding* properties that Shackleton, when planning his great Antarctic Expedition, said

It-must-be BOVRIL

Of all Stores, etc., at 1-oz. 25 c.; 2-oz. 40 c.; 4-oz. 70 c.; 8-oz. $1.30; 16-oz. $2.25. Bovril Cordial, large, $1.25; 5-oz. 40 c. 16-oz. Johnston's Fluid Beef (Vimbos), $1.20.

S.M.B.

FRANCE DECLARES WAR WITH TURKEY

Ottoman Misses Chance To Atone For Hostile Act.

TURKS MASS ON FRONTIER

Turkish Minister Has Left Servia, Leaving Italy To Guard Interests.

[Canadian Press.]

PARIS, Nov. 5.—11:30 p.m. — The French Government tonight declared that "a state of war exists between France and Turkey," according to the Bordeaux correspondent of the Havas Agency. He says that the foreign office issued the following note:

"The hostile acts of the Turkish fleet against a French steamer, causing the death of two Frenchmen and serious damage to the ship, not having been followed by the dismissal of the German naval military missions, the measure whereby Turkey could disclaim responsibility, the Government of this republic is obliged to state that as a result of the action of the Ottoman Government, a state of war exists between France and Turkey."

90,000 Turks on Frontier.

PETROGRAD, Nov. 5.—A Turkish army, 90,000 strong, consisting of the Ninth, Tenth and Eleventh Army Corps, is massed along the Caucasian frontier," according to the Novoe Vremya. "Many villages have been occupied by the outposts of this army.

"This Turkish army would consist under normal conditions of 80 battalions of infantry; 60 batteries of artillery, containing 230 guns, and 40 squadrons or regular cavalry, but to it has been added 50 regiments of Kurd cavalry, amounting to 20,000,000 men."

Russia Has Important Place.

Russia's sudden and energetic advance into Turkey is believed in Petrograd to have been meant to disband and overawe the Kurd tribes, who are little interested in the success of Turkish arms, and are more concerned in the safety of their own villages. Among the towns occupied by the Russians is Akhty, an important junction of the highways, to the upper Euphrates River.

It is rumored in Petrograd that General Sanders Pasha will assume command of the Turkish troops on the Caucasian front.

American Boat at Beirut.

PARIS, Nov. 5.—4:55 p.m.—The Temps has received a report stating that American marines have been landed at Beirut, Syria, for the protection of American interests.

Cossack Battalion Destroyed?

BERLIN, via The Hague and London, Nov. 5.—7:55 p.m.—The Constantinople correspondent of the Frankfurter Zeitung has sent the following dispatch to his paper:

"The Turks attacked and destroyed a Cossack battalion on the Russian-Turkish frontier, near Ordulia, and then crossed the frontier, taking up a strong position in Russian territory."

HURRICANE ON LAKES: SIX VESSELS OVERDUE

[Canadian Press.]

FORT WILLIAM, Nov. 5. — The heaviest gales of the season have been raging upon Lake Superior since last Sunday, and have, to a great extent, paralyzed shipping.

The steamer Inland, of the Great Lakes Transportation Company, which passed the Soo last Saturday evening, bound for Fort William, light, for grain, has not been heard from since.

The Neepawah, of the Canada Steamship Lines, due to arrive here last Monday night, has not been heard from. She carries a cargo of freight.

Steamer Turret Court, with coal, due last Tuesday, has not been heard from since she passed the Soo last Monday night.

The Lake Shippers' Clearance Association tonight reports three additional boats, the Keewatin, Glenlyon, with freight, and the Franz, light, overdue one day.

It is supposed that the missing steamers have ben forced to lie in behind islands and other points of vantage, and probably most of them are behind Whitefish Point.

It was on Nov. 9 that the great lakes' disaster occurred last year.

MIDDLESEX BEEKEEPERS CHOOSE NEW OFFICERS

[Special to The Advertiser.]

DENFIELD, Nov. 5. — At the annual meeting of the Middlesex Beekeepers' Association, held in the council chamber, the following officers were elected: President, John Campbell, Lambeth; vice-president, William Elliott, Strathroy, R. R. No. 5; secretary-treasurer, William Gibbs, Appin. Mr. Morley Pettit, provincial apiarist, was present, and gave an interesting talk. The beekeepers are in nowise discouraged by this year's failure of the honey crop, but would not like a repetition of its next year. The scarcity of sugar in the fall made it difficult to secure the necessary sugar for feeding the bees for winter. However, all finally succeeded in getting it.

RELIEF AT ONCE CURE CERTAIN

Conclusive Evidence That Dr. Chase's Ointment Cures Itching Piles.

Mr. John G. McDonald, Pictou, N.S., writes: "I used Dr. Chase's Ointment for itching piles, and found that the first application gave relief. After using a few boxes of the ointment I was completely cured, and can recommend it highly to all sufferers from this disease. You have my permission to use this letter for the benefit of others."

Mr. James M. Douglass, Superior Junction, Ont., writes: "For about six years I suffered from piles, and often could not work for two or three days at a time, so great was the suffering from pain and itching. Doctors treated me in vain, and I tried many treatments before I came across Dr. Chase's Ointment. Two boxes of Dr. Chase's Ointment cured me, and for several months I have had no return of this annoying ailment."

There can be no doubt that Dr. Chase's Ointment is the most effective treatment obtainable for every form of piles. 60 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

SEARCHED SEAS FOR GOOD HOPE

No Word Received From Admiral Cradock's Cruiser Off Chile.

MYSTERY IN FIVE BOATS

South Pacific Engagement Practically Fought in a Hurricane.

[Canadian Press.]

VALPARAISO, Nov. 5—A wireless call from the British cruiser Glasgow intercepted by the German victors was the last word received from Rear Admiral Cradock's squadron following the engagement off the Chilean coast Sunday. The Germans saw the Monmouth sink, and heard an explosion on board the Good Hope that they believe sent the crippled flagship to the bottom. All that night the German cruiser Nurnberg searched the seas for the Good Hope unsuccessfully. They picked up a radiogram addressed to the Good Hope by the Glasgow. There was no reply.

There were about 650 men on the Monmouth when she disappeared beneath the waves. Admiral Cradock had nine hundred men with him on board the Good Hope.

Whether the Glasgow and the transport Otranto which escaped destruction survived the damage suffered is not known. The whereabouts also of the German cruisers Leipzig and Bremen remains in doubt.

Fought In Hurricane.

Further details of the first really important naval battle became known from the German navy officers. They did not hesitate to commend the bravery of the English sailors and intimated that an attempt to save lives would have been made had the weather conditions not been so unfavorable. The battle was fought in the face of a northerner which assumed almost hurricane proportions.

The German China fleet, the cruisers Scharnhorst, Gneisenau, and the Nurnberg had rejoined the cruisers Leipzig and Bremen which later had been detached to patrol the coast north of Valparaiso. The unit proceeded southward apparently well aware of the rendezvous of the British off Concepcion Island.

British Headed Off.

At the same time the British cruisers Monmouth and Glasgow, and the transport Otranto moved north to meet the flagship Good Hope. The Britishers apparently were unaware of the proximity of the German fleet when they met off Coronel Island. It was six o'clock Sunday night when they met and the Britishers attempted to alter their course, apparently to reach the coast and territorial waters. The Germans, however, headed them off and forced the battle.

From the moment the Germans guns were trained the Good Hope was seen coming at full speed and through good seamanship she managed to join the other ships. The two squadrons sailed southward in parallel lines, the Germans being nearer the coast.

Good Hope Could Not Reply.

Gradually the two lines came nearer to each other and the Scharnhorst and Gneisenau simultaneously let go their twelve 8-inch guns which they concentrated on the Good Hope. The firing continued for several minutes without damage. The German shots fell short and the Good Hope had such a roll that she could not reply. The smaller cruisers were far out of range.

Slowly the sea-fighters drew in nearer, and when the two units were but 6,000 yards apart, the Good Hope fired her two 9-inch guns. She was still unable to use her eight 6-inch guns, which on the gun deck were so near the water line that as the vessel rolled they were almost awash.

Flagship Crippled.

A terrible broadside from the Scharnhorst and the Gneisenau crippled the British flagship and her engines stopped. The British, recognizing the distress of their companions, made a dash to cover the Good Hope, but by that time the distance separating the two squadrons had been reduced to 5,000 yards, and the Germans were able to bring all their ships into action, and to use all the guns of the five vessels. These were directed first against the Monmouth, and then against the Glasgow and Otranto.

The Otranto was badly damaged, but escaped in the gathering darkness and soon afterwards was followed by the Glasgow, which also had been put out of action, but continued apparently seaworthy.

Monmouth Goes Down.

The five German ships continued their attack on the Monmouth and Good Hope, until in a few minutes the former sunk. By this time only 4,500 yards separated the fighters.

The Good Hope, badly damaged, hung on until an explosion occurred on board her. She withdrew to the westward at 7:30 o'clock. As she disappeared, flames were seen on board her. Whether her crew was able to stop the fire, or if the explosion finally sunk her is not known. The flames died down and she was not seen again.

No Answer to Wireless.

The Nurnberg searched until daybreak for the wounded ship, when the German officers concluded that she had been lost with all her crew. The only trace found of the Britishers was in the wireless message in which the Glasgow called unsuccessfully for the flagship.

It was impossible to save any of the crew of the Monmouth, as the Germans could not put over their small boats in the face of the gale, and the Monmouth could not have lowered her boats.

Contrary to first reports, the Glasgow did not reach Coronel or Talcahuano, nor did the Otranto find a Chilean port. The German fleet, with the exception of the Leipzig and Bremen, after putting in here, sailed again yesterday. If they had any word of the Leipzig and Bremen, they did not make it known. The transport Prinz Eitel anchored in the bay last night.

Vessels Still Missing.

SANTIAGO, Chile, Nov. 5. — News was still lacking tonight concerning the whereabouts of the five missing British and German vessels, which were among those participating in the naval engagement off the Chilean coast last Sunday night. These ships are the British cruiser Good Hope, which the Germans believe was sent to the bottom; the cruiser Glasgow, the British transport Otranto, and the German cruisers Leipzig and Bremen.

MANY STUDENTS ENROLL

TORONTO, Nov. 5.—Recruiting for the University Battalion is still progressing. Fully 1,500 have now enrolled.

The officials are well satisfied with the way in which the students are entering into the spirit of the movement, and while each faculty is well represented, the recruiting from the applied science section is exceptionally large.

German Officer Found With Plans To Blow Up Suez

Sentenced By Courtmartial To Imprisonment For Life.

LONDON, Nov. 5.—11:14 p.m.—The Alexandria, Egypt, correspondent of the Exchange Telegraph Company sends the following dispatch:

"A German officer named Mors was arrested by the Egyptian police on his return from Turkey with plans for dynamiting the Suez Canal. He was sentenced by court-martial to imprisonment for life."

RUSSIAN CAVALRY SHOWS GREAT DASH

British Representative Sends Report on Opertaions—Many Prisoners Taken.

LONDON, Nov. 5.—7:30 p.m.—Professor Bernard Pares, the British Government's representative, with the Russian headquarters in the field, sends the following report:

"Trustworthy eye-witnesses speak with great enthusiasm of the conduct of the Russian troops on the upper Vistula River, where more serious fighting is to be expected. Here the German heavy artillery commands respect, but the Russian field guns and howitzers are served with remarkable precision and alertness, and meet with great success. The complete confidence the Russian infantry have in the effectiveness of the Russian artillery is a striking and general feature.

Training With Bayonet.

"The men are always training in bayonet work, which the enemy often avoids. The Russian cavalry has by different accounts shown great dash, and has been handled with speed and skill. In raids beyond the river on the enemy's communications, the Russian cavalry divisions have several times disturbed German forces, taking many prisoners. Large numbers of stragglers have been taken by the Russians.

"A Hungarian division put up good resistance for three days, but then collapsed.

"The population in Southern Poland is in a state of profound distress, and the Russians are organizing extensive relief work.

"The Germans compel captured officers to work with the men, and spit at them and drive them about bare to the waist.

German Underground 'Phones.

"In East Prussia the German communications are very good. Underground telephones are frequently discovered. Large forces are in close contact here, and the Russians' counterstroke has much impressed the enemy.

"The Polish population shows the greatest alacrity in assisting the Russian troops, both in the country and in the towns. The Russian advance is now much more complete in Southern Poland, and is better lined up with the forces in Galicia.

"All this advance tends to secure the Russian position on the northern frontier, where any German initiative becomes more hazardous.

"The ordinary fresh yearly Russian contingents mean an increase of a half million men.

"The arrangements for the wounded provide, if necessary, for over a million."

A Hard Meal To Digest

Is Quickly Digested by the Taking of a Stuart's Dyspepsia Tablet After It Is Over.

Corn on the cob is hard to digest, for some folk, but with a Stuart's Dyspepsia Tablet it readily is disposed of by the stomach and digestive apparatus.

Don't drug your stomach. Give it just what it needs at the very moment it needs it. Here is the way a Stuart's Dyspepsia Tablet acts:

He—"I can eat corn now and feel O.K. A Stuart's Dyspepsia Tablet will quickly digest it."

One takes a tablet just after the meal is completed. It is taken into the mouth like food; is mixed with the saliva; swallowed moist and partially dissolved. It goes into the stomach and is there mixed with the stomach juices, which are composed of acids and alkalies.

A Stuart's Dyspepsia Tablet reinforces these juices. It quickly digests the elements which such weakened juices cannot digest.

After a while the stomach passes the meal partially digested to the intestines, where it goes through another stage of digestion. Here, as in the stomach, Stuart's Dyspepsia Tablets strengthen the juices of digestion and complete the work of giving the body the benefit of the meal.

There is nothing harmful in these tablets. Only natural ingredients which the body lacks are supplied. In a short time the blood and digestive juices are given the power they lack. Man can digest any food without injury, and the entire health of the body is increased. Stuart's Dyspepsia Tablets are sold wherever drugs are sold, price 50 cents a box. Anyone wishing a free trial of these tablets please address F. A. Stuart Company, 150 Stuart Building, Marshall, Mich., and a small sample package will be mailed free.

CLARK'S SOUPS

Highly concentrated; one tin suffices a small family. Purest and best ingredients. Order today.

WESTMAN'S HARDWARE

PHONES 360, 2420. 121 DUNDAS STREET

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP—25 CENT DANDERINE

Girls! Girls! Save your hair! Make it grow luxuriant and beautiful.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

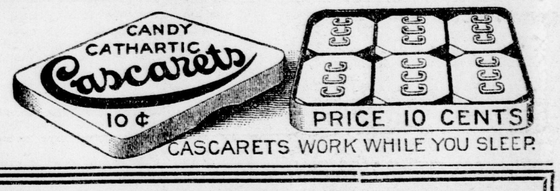
Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

CASCARETS FOR COSTIVE BOWELS, SOUR STOMACH, COLD OR HEADACHE

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is sour—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't indigestion—it's biliousness and constipation. Try Cascarets; they sweeten the stomach, remove the sour, fermenting food and foul gases; take bile from the liver and carry off the constipated waste matter from the bowels. Then your stomach trouble, headache, bad cold and all such misery ends.



SATISFACTION GOES WHERE OAK HALL CLOTHES GO

Within the next few weeks you're going to buy a new fall and winter suit or overcoat, that's certain—perhaps today, perhaps tomorrow, perhaps in a month—**BUT YOU'RE GOING TO BUY IT.**

We think you ought to know why it's wise to "do it now." The best reason is that our stocks **are complete**, that everything is ready—you may **not** get it later. And it's the broadest choice we've ever invited you to, broad in patterns, in value, in prices, in sizes. We'd be disappointed if you didn't grasp the opportunity; it means much to you. Why not come in tomorrow?

PRUSSIAN PRINCE IS AMONG THE WOUNDED

AMSTERDAM, via London, Nov. 5.—10:36 p.m.—Prince Joachim Albrecht of Prussia, son of the late Regent of Brunswick, has been wounded while fighting in France, according to the Telegraaf.

German General Wounded.

GENEVA, via Paris, Nov. 6.—12:25 a.m.—Lieutenant General Berthold Von Deimling, the German commander, has been slightly wounded in the thigh by shrapnel, on the firing line, according to the Wolff Agency. He continues in command of his troops, however.

BRITISH SWEEPER SUNK BY A MINE

LONDON, Nov. 5.—4 p.m.—The British mine sweeper Mary was sunk by a mine in the North Sea today. Six of the crew of 14 were rescued.

The survivors, who were landed at Lowestoft, reported heavy gun firing off the Yorkshire coast this afternoon.

GRAIN GROWERS REPEAT PROTEST TO GOVERNMENT

Million-Acre Planting Scheme Falls Flat in Face of Complaints.

WINNIPEG, Man., Nov. 5. — The grain growers and manufacturers had a closing conference today, and in announcing the result of this conference it was stated that nothing was done with regard to the million-acre planting scheme, since the grain growers had demonstrated to the other members of the conference that the proposition was not feasible.

On the other hand, a committee was appointed to wait upon the Dominion Government, and urged the establishment of a committee outside the House to investigate and report on conditions surrounding the transportation, distribution and marketing of all kinds, the investigation to be of the widest possible scope, looking into the marketing and distributing of goods to the farmers, as well as the farmers' produce. Special emphasis was to be laid upon the burden the present tariff placed on the farmers, and the Government was to be urged to look also into the matter of financing the men on the land, and providing for them a cheaper method of securing money.

An appeal also was to be made for immediate relief to farmers in the west who needed it, to farmers not in a position to put in their usual crop. Such assistance and relief, it was decided, would be much better and secure more results than the placing of new men on the farm.
