CAPTAIN HEIR-AT-LAW BEAT MUSSEL SHELL

Jenny Lind Wins From King Canuck—Races Long Drawn-Out on Closing Day.

Mt. Clemens, Mich., Jan. 16.—The fourth day of the ice meeting at Clinton View Park witnessed the best racing of the week over a track ankle deep in slush and mud, but everybody seemed to be trying to get the money on the closing day. There is no possible chance of more racing until the weather takes a decided turn, and the management decided to close the meeting on account of the extreme mild weather and the condition of the track.

The first event today was the 2.10 pace, in which Mussel Shell sold as original favorite, and then it took a turn to Captain Heir-at-Law, and one of the best races of the meeting was witnessed. In the first heat Cleo B. had on her pacing shoes and Haledo pulled a tire with Cleo, finishing an easy winner, but she tired badly in the race. In the fourth heat Captain Heir-at-Law blew a tire, and finished second to Mussel Shell. In the fifth only the two heat winners appeared, and in a driving finish the Captain showed in front by a nose. In the final Mussel Shell went to a hard drive in the stretch, but could not withstand the rushing finish of the Captain.

In the 2.14 pace Jenny Lind sold as a favorite with King Canuck and Nancy K. second choices, but Jenny Lind outlasted her rivals and, admirably driven by Don Tryon, won the race in easy fashion.

Make Substantial Reduction On Commercial Freight Rates

Montreal, Jan. 16.—Ocean freight rates have been reduced on commercial traffic and the British Government is releasing a certain amount of space for commercial cargoes. These two facts are first indications of a return to normal in transatlantic shipping.

Rates all round show a considerable reduction and the indications are that by the time the season opens again in the port of Montreal, freight rates will have been materially reduced. Three months ago the rate on general cargo was $6.50 per 100 pounds. After two months at this rate it was reduced to $4.75 per 100 pounds and this week there was a further reduction and it now stands at $3.50 per 100 pounds.

TURKS IN MEDINA HAVE CAPITULATED

Holy City is Yielded Up Under Turkish Armistice Terms.

London, Jan. 16.—The Turks, who have been holding out in Medina, Holy City of the Mohammedan faith, have capitulated to the King of the Hedjas, it was officially announced here today. The capitulation was under the terms of the Turkish armistice. Announcing the capitulation and explaining the delay in securing it, the official statement says:

"The holy city of Medina has capitulated to King Hussein under the Turkish armistice terms. The delay in bringing the garrison to compliance with the terms was due to its isolation, which necessitated our permitting the interchange of special communication with Constantinople and to permit the armistice period to be prolonged locally. It was rendered incumbent upon King Hussein to secure the capitulation by arrangement and not by assault.

"The Amir Abdulla, representing the king of the Hedjas, officially entered Medina at 11 a.m., on Monday. He was enthusiastically received and proceeded to the tomb of the Prophet, where they offered the mid-day prayer."

LONDON PAPERS WARN AGAINST IMPATIENCE

Hurry in Demobilization Will Be Apt to Swamp Labor Market.

London, Jan. 16.—The newspapers have published articles in reference to demobilization arrangements in which the country has been warned against showing too much impatience in the face of the difficulties that must be overcome. It is especially pointed out that even in the most favorable circumstances many months must elapse before there is the slightest possibility of absorbing the immense amount of labor which very rapid demobilization would render available. This would lead to a calamitous amount of unemployment.

All the papers lay stress on the necessity for maintaining a first class army on the Rhine until the German problem is settled, and on this point they say the country is unanimous. The plan may be summed up as follows:

Creation of an army of occupation of moderate dimensions, but of a high standard of efficiency until the Germans have made reparation, this army to be chosen in the main from men who have done the least military service; demobilization as speedily as possible of other soldiers, according to their trade category; opening up in the near future of plans for a post-war imperial army to garrison India and other places abroad.

Refer Scandinavian Complaints To Overseas Officers for Action

Ottawa, Jan. 16.—The whole question of the accommodation, berthing, feeding and help on board the liner Scandinavian, complaints of which have been made in the newspapers, has been referred to the overseas authorities for immediate action, according to a statement issued by the militia department today. This action has been taken so as to make sure that there will be no repetition of conditions complained of on the next vessel bringing back dependents of soldiers to Canada.

The report of the officer commanding troops on the Scandinavian confirms the statement that there was a good deal of misunderstanding and confusion among soldiers' dependents with regard to berthing; that the condition of the third class dependents during the stormy weather, which lasted for six days, was unsatisfactory, the majority being terribly sick; that the staff of stewards and stewardesses was not adequate to deal with these people.

PRINCE OF WALES FLIES TO CAMP

Goes to Canadian Headquarters in Airplane, and Later Dances With Nurses.

Ottawa, Jan. 16. — The following cable from Fred James, official correspondent with the Canadian corps in Germany, has been received by the director of public information here. The despatch is dated from Bonn, Germany:

The Prince of Wales came to Germany yesterday for the first time since the British troops reached the Rhine, and is spending a few days at the Canadian corps headquarters. The prince left Charleroi, Belgium, in the morning by motor, but when he reached the Spa decided that he would not enter Germany by the ordinary and rather prosaic medium of a motor car, so he got aboard an airplane and flew to Cologne. When the machine was over the Rhine the prince persuaded the pilot to do a few stunts, which he enjoyed. From Cologne the royal flier came to Bonn and in the evening attended a dance at a Canadian infantry brigade headquarters at Colberg and danced with Canadian nursing sisters until after midnight. Later in the evening he attended a show at the Stadt Theatre given by the "See-Toos," the second division concert party. On Tuesday he presented colors to the British Guards Regiment at Cologne.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisurated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little bisurated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisurated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

COL. "BOB" LOW PASSES; HAD BUILT CAMP BORDEN

Ottawa, Jan. 16.—Colonel Robert S. Low, of the firm of Bate and McMahon, one of the best known Ottawa builders, died at the Protestant General Hospital early this morning, after undergoing an emergency operation. Colonel Low was stricken in the afternoon and taken to the institution in a critical condition.

The cause of Col. Low's death was acute blood poisoning following an infected ear.

The late Col. Low came into prominence in connection with several big engineering works which he had carried out while with Bate, McMahon & Company, the Ottawa contracting company.

Among these was the building of Camp Borden, where he attained national fame as a builder, and later the reconstruction of Halifax.

Col Low was 44 years of age and was married to Miss Bertha Hearn, of Sydney, N.S., a niece of the late Senator Miller, 19 years ago.

Besides his widow he is survived by one daughter, Miss Helen, aged 17.
