Rowan Cooper was charged at the instance of James Whitaker, water inspector, in the police court to-day with the theft of water. He had frozen water and stored it in his cellar on Sarah street, until he had quite a good stock. He pleaded ignorance of the law on the subject and was quite will ing to settle up for all claims. He was fined $2 and costs, amounting to $7.85 in all.

Board of Works.

The Board of Works, met last night in the council chambers of the city call, and a few matters of minor importance were dealt with. The only problem of work which confronted the Board was the hauling of cinders from the Malleable Iron Works to Brock Street from Campbell St. north. The board recommended that the contract be let to Mr. Burtch, teamster. A deputation from Glandville Avenue, Eagle Place waited on the Board in reference to the construction of a sanitary sewer on that street. The matter was turned over Mr. Eli Riddolls, who will look into the jub. These were the only two items of business which took up the time of the Board and the meeting adjourned at an early hour.

Here Comes a Cop!

Not having anything else to do and both being partly under the influence of liquor, two of the city's unemployed started a fistic encounter on the corner of Market and Dalhousie streets this morning, about 11 o'clock. The men had gotten into a rather heated argument and after an exchange of a few names which would not look gell in print, one of them shot out his fist and hit the other on the point of the chin. The other glanced hastily around and not seeing a policeman in sight, he countered with a vengeance. Here some friends took a hand in the proceedings and parted the two. The crowd then moved up Dalhousie street to the Strand and the men got at it again, fighting like wild cats, until some one yeled, "Here comes a cop." One of the combatants immediately made tracks up Dalhousie street before the officers of the law could reach him. Quite a crowd had gathered to witness the fun which had all the earmarks of a good preliminary for tonight's bouts at the Grand.

THE COURT INSTRUCTS THAT
—STREET RAILWAY CASE—
AN AGREEMENT BE WRITTEN

It Will Then be Approved and Street Railway By-Law Will be Submitted to the Ratepayers—Committees Are Meeting Today.

Brantford and the various Grand Valley interests received instructions yesterday to draw up an agreement satisfactory to all parties and submit the same to the High Court for approval. Mr. Justice Middleton issued the instructions to the different counsel yesterday afternoon at Osgoode Hall. There seems no reason why the agreement cannot be satisfactorily reached according to civic authorities to-day. After the court approves the agreement, it will go to the ratepayers.. Mayor Spence was not sure to-day whether the by-law would be ready for Monday night's meeting or not. It depended on the City Solicitor who will be present at the combined meetings of the railway and finance committees this afternoon, when the amount of money the ratepayers will be called upon to raise will be decided upon.

The legal note from Toronto referring to the proceedings in court yesterday is as follows:

Trusts and Guarantee Co. v. Grand Valley Railway Co., National Trust Co. v. Grand Valley Railway Co.—G. H. Watson, K.C., for receiver and Grand Valley Railway Co., moved for directions as to offers to purchase the assets of the railway company. J. A. Paterson, K.C., for the a-National Trust Co, W. T. Henderson, K.C., for City of Brantford; M. H. Ludwig, K.C., of Woodstock, Thames alley Railway Co.; A. C. McMaster for bond holders. The court was of opinion that a contract should be drawn setting out all the details of offer to be submitted to and approved by all parties, and then when assured that the parties are ad idem the court will sanction it.

HYDRO FOR ECHO PLACE BY THIS SUMMER

Councillor Scace Makes Announcement at Meeting Last Night.

The Echo Place Improvement Association met last evening in Mohawk Park school, President Morley Myers was in the chair. In his remarks to the members he said he was more than pleased with the manner with which each and every member of the association was taking such active interest in their work, and the harmony that prevailed among the members must mean success for any organization. He thanked them for showing such interest.

The chairman of the social committee, Mr. A. Williams, stated that from what he saw and heard of the work and the progress that is being made by Miss Josie Whitney, in preparing for the concert to be given by the association on March 3rd, it will be one of the best Echo Place residents have had the opportunity to see and hear.

A most interesting talk and information was given by Councillor Scace on Hydro Electric. He stated he was assured that before the midsummer or not later than the fall, Echo Place would be illuminated with hydro for street and domestic purposes. This good news was appreciated by all the members. He further stated that any time he could be of service to them personally or otherwise, he would be pleased to assist in any way. A vote of thanks was tendered him for his kind remarks.

Communications were read from the Grandview Iprovement Association inviting Echo Place to send delegates to their next meeting. It was moved by Mr. A .Williams that the very worthy president, Morley Myers, and the genial secretary, Mr. H. C. Thomas be delegates to attend this meeting. This was seconded by Mr Edmanson and carried. The question came up as to when is a member not a member. This matter the executive officers find is covered by the association laws. The association wish to thank those who are so kindly assisting the social committee in any way for the coming event.

HON. FRANK OLIVER FOR PROTECTION

Says So Himself in the Commons in "Free Wheat" Debate.

OTTAWA, Feb. 20.—Hon. Frank Oliver has put it on record that he is a protectionist until the tariff divergencies of the Liberal party in the Commons are still further defined.

"I am a protectionist," shouted the member for Edmonton last night in the course of a heated argument for free wheat.

"Since when?" asked J. A. M. Aikins, of Brandon.

"Always," said Mr. Oliver with vehemence, and the Conservative side wrapped their desks.

It was about the most interesting moment that sprung up on the question of ocean-going freight rates during consideration of estimates of Hon. George Foster's department.

Mr. W. F .MacLean raised the question and asked if it was being considered by the Dominion commission and Mr. Foster replied in the affirmative.

Mr. MacLean criticized this handling of the question. The ocean rate pool was one of the worst combines of the dead. It consisted largely of the three water combines. They were guilty, he asserted, of "conspiracy against the people of Canada." Parliament had jurisdiction over them and should assert it.

Mr .Foster stated that the government had not divested itself of one tittle of its power, in referring to this question to the Dominion's commission. The report would be ready the end of this year or the first of next.

Hon. Frank Oliver also criticized the Government for not dealing with this problem.

Mr. Foster replied by pointing out that the late government had diddledallied with the question. In 1910 the late Chairman Mabee had advised the establishment of a joint commission by Canada and Great Britain to control ocean rates. This report had been sent to the secretary of state for the colonies, but after that, in spite of three despatches from Mr. Harcourt, the late government had done nothing.

"I might say that in 1911 we were too busy," began Sir Wilfrid Laurier.

"Too busy to look after the farmers," interrupted Mr. Foster.

"The farmers have told us again and again to give them the American market for their wheat. That is the best way of dealing with this question," replied Sir Wilfrid.

"They were very busy in 1911," said Mr. Foster, "busy looking after the farmer's votes, but not their freight rates. It is clear that in August, 1910, they had the details worked out and submitted them to the colonial secretary. To-day, there is not only an arrangement made, but a joint tribunal looking into this question, the new broom has swept clean."

Hon. Mr. Oliver argued for free wheat, contending that the government would not be doing its duty by the country if it did not try the experiment of letting the farmers have what appeared to be an improved market.
