The French explorer was the first to discover that Canada was the Mecca of Furs. He, through his Indian trappers, supplied the world with rich and handsome fur skins. The particular districts in which he hunted are now dotted with prosperous cities, but in our great Northwest the Indian trapper is still supplying the world with rare furs.

That is why Canada is yet the best country in the world for this particular product. It is still the Mecca for all tourists.

We are its largest dealers. Our show rooms are stocked to-day with every known native fur and a select stock of foreign garments not equalled on the continent.

CONDITIONS IN HESPELER.

Closing of Woolen Mills Bad Blow for the Town.

Hespeler, Aug. 25.—(Special.)—The announcement in yesterday's papers that the Montreal Woolen Mills are running on half time indicates the serious condition in which the Canadian woolen men find themselves. By the closing of the Canada Woolen Mills, Hespeler suffered severely; there has been a cessation of building operations and not so many commercial men come to town as formerly. Farm trade has also fallen off. Several changes have occurred in the local retail trade and there are a number of vacant stores, a condition unknown here before, and many of the textile operators have gone to the United States, while others have sought employment in other Canadian cities. Some of the men formerly employed by the Canada Woolen Mills own their houses and are therefore reluctant to move away. During the summer they have managed to obtain some sort of employment, but if the woolen mills are not in operation soon it is feared that a number of them will be reduced to a condition of want.

1000 SHEEP WANTONLY KILLED.

Antelope, Ore., Aug. 25.—More than 1000 fine sheep belonging to Morrow & Keenan of Willow Creek, Cook County, have been killed at Little Summit Prairie. While the herder was alone and occupied with the care of his flock about twenty horsemen, with faces blackened, emerged from the timber and commanded him to throw up his hands. Leaving the herder behind a tree, for protection from the bullets, a general fusilade with rifles was commenced by the mob. This lasted nearly two hours.

Cheese Markets.

Yankleck Hill, Aug. 25.—There were 1476 boxes white and 247 boxes colored cheese boarded here to-night. All cheese was sold on the board except 219 boxes that were held over, bid by Fraser 8¼c; McRae finally raised to 8⅜c. Pitt then raised to 8 7-16. McRae raised bid again to 8½c for white and 8⅝c for colored, and at those figures he got 474 boxes, Pitt 477, Fraser 250, McGregor 186, Welsh 87, Bennett 30 boxes. There were eight buyers present.

HEAVY RUN AT CITY MARKET QUALITY A LITTLE BETTER

Prices Not Quite So Good for Fat Cattle and Hogs 10c Lower.

Receipts of live stock at the city market since Tuesday, as reported by Messrs. Fox and Hay of the C.P.R. and G.T.R., were 102 carloads, composed of 1404 cattle, 2256 hogs, 2309 sheep and lambs and 90 calves.

The quality of fat cattle was, generally speaking, a little better than on Tuesday last, but prices were no better than on that day.

Trade was fairly good at the quotations given below in each class, but there were drovers on the market to-day that lost money, not being able to make the prices paid in the country, let alone freight and time spent in gathering together their offerings.

Export Cattle.

Outside of the load quoted by Crawford & Hunnisett, which brought $5 per cwt., there were a few odd cattle reported as shippers at $4.60 and $4.80 per cwt., the latter price being obtained by McDonald & Maybee for one steer, 1380 lbs.

Butchers' Cattle.

Trade for butchers' cattle was good at the price reported below, but there were not a dozen cattle reported by the different commission firms that sold over $4.25 per cwt. McDonald & Maybee report 3 butchers' cattle, weighing 980 lbs. each, at $4.60 per cwt.; and Maybee & Wilson report 3 butchers' cattle, 1000 lbs. each, at $4.35 per cwt.; the next best price reported is a sale of 18 butchers' cattle, 1040 lbs., each, at $4.25, which is the only load of butchers' reported as bringing that price, but McDonald & Maybee sold 25 butchers', 1045 lbs. each, at $4.15. All other sales are reported as going under these quotations.

Feeders and Stockers.

Deliveries of feeders and stockers were fairly large. Feeders weighing from 850 to 1000 lbs. each, of good quality, are in demand, and there were not enough of these on the market. Prices for this class ranged from $3.25 to $3.80 per cwt. There were one or two lots of what might be called short-keep feeders, weighing 1200 lbs. each, that brought $4.20, but there are few of these wanted at the present time. What is wanted is steers of god quality, 850 to 1000 lbs. each, to turn on grass, so that they will be ready to stable and feed for export.

There were some fair lots of stockers, weighing 600 to 650 lbs. each, that sold at $3.15 to $3.20 per cwt. But there were also a lot of ill-bred mongrels that sold at $2.50 to $2.75 per cwt., as will be seen by sales quoted below.

Milch Cows.

Trade in milch cows and springers was a little brisker, prices ranging from $30 to $52 each.

Veal Calves.

Prices for veal calves were unchanged and firm for all of good quality. Prices ranged from $3.50 to $5.25 per cwt., as per quality.

Sheep and Lambs.

The run was fairly large and prices ranged a little easier. The bulk of sheep sold at $3.75 per cwt., and the bulk of the lambs at $4.75 per cwt. But choice lots of both classes brought a little more money.

Hogs.

The run of hogs was fairly large, and prices declined another 10c per cwt. But it was not large deliveries that caused the drop. Packers report that they are making no money at the prices they have been paying, and stated that they must have them at lower prices. Selects are quoted at $5.60, fats at $5.35 and lights at $5.25 per cwt. Farmers are sending forward, and seemingly drovers do not know any better than to bring a lot of lean stubble hogs that ought to be fed for another month. Many of these hogs have been kept long enough to be of the right weight, but there is no fat on them. Now the packers do not want this class of hog, and won't buy them unless they get them at a sacrifice; hence the quotation of $5.25, which is a good price for them. If some of the old-time farmers could see the lean, lanky, unfatted pigs that are being marketed to get the high prices they would turn away in disgust.

McDonald & Maybee sold: One export steer, 1390 lbs, at $4.80; 25 butchers' cattle, 1045 lbs, at $4.15; 24 butchers' cattle, 1045 lbs, at $4.05; 29 butchers' cattle, 965 lbs, at $3.70; 27 butchers' cattle, 1020 lbs, at $3.80; 20 butchers' cattle, 1055 lbs, at $4; 12 butchers' cattle, 1105 lbs, at $4.15; 3 butchers' cattle, 980 lbs, at $4.60; 10 butchers' cattle, 965 lbs, at $4.05; 11 butchers' cattle, 980 lbs, at $4; 10 butchers' cattle, 815 lbs, at $3.60; 14 feeders, 1220 lbs, at $4.20; 10 feeders, 980 lbs, at $3.80; 7 butchers' cows, 920 lbs, at $3.30; 4 butchers' cows, 1105 lbs, at $3.25; 18 stockers, 895 lbs, at $3.65; 26 stockers, 910 lbs, at $3.60; 2 milch cows, $45 each; 3 milch cows, $34 each; 1 milch cow, $41; 220 lambs, $4.75 to $4.85 cwt; 72 sheep, $3.75 cwt; 14 veal calves, $5 to $5.25 cwt.

84-86 YONGE STREET

HOW PRESENT OWNERSHIP CAME ABOUT.

Editor World: Allow me, for the purpose of correcting the many erroneous reports as to the means adopted by which the ten acres and one-third on the southeast corner of King and Yonge-streets was acquired by the late Lardner Bostwick senior, to state the following facts:

By an indenture in writing bearing date the 22nd of February, 1811, the ten acres was conveyed by the late Mr. William Allan to Mr. Bostwick in fee simple. The consideration was a moneyed one, the payment in full of which in cash is by the deed acknowledged.

By a certain other deed bearing date the 7th of May, 1812, John Ashbridge, therein described as the "surveyor of highways in and for the County of York," conveyed to Mr. Lardner Bostwick the then existing highway called Toronto-street, consisting of one-third of an acre of land, which was and is immediately adjoining the ten acres, to the east. The same extending from the south side of King-street, to the street now known as Colborne-street. The authority to close the then existing Victoria-street, and to sell the land which formed it, was conferred on the surveyor of highways by an act passed in the 50th year of King George III. The money consideration for this purchase is by the deed acknowledged to have been "well and truly paid in lawful money of Upper Canada." Both instruments are recorded in the city registry office. The few of the present day who were acquainted with the late Hon. William Allan, will, I think, agree with me that he was not likely to dispose of his property for less than its then value.

DISCUSSED HIGHER RATES AND REDUCED EXPENSES

C.M.B.A. Delegates Hear Expert Actuary and Seek to Lower Expenditures.

The afternoon session of the C.M.B.A. yesterday developed some exciting situations which gave zest to the proceedings. The report of the grand secretary was the subject of attack, but was finally passed unanimously. The official organ, "The Canadian," was severely criticized. Bertha Kernahan called attention to the fact that it cost $9749 during the past three years, and said it could be put on a paying basis by judicious advertising. President Hackett replied with warmth that so long as he held office he would not allow the paper to be used for such advertising as was sought to be inserted, and was roundly applauded. Complaint was also made in regard to delay in publication, and Senator Coffee said it was not due to the publishers. Bro. Herbert stated that there was too much of it in English and not enough French, and Martin J. Quinn wished to know why two editions could not be published, as it was useless to send the French section to English members and vice versa. Mr. Quinn created something of an uproar by criticizing the editorial management. He said that articles were reprinted from one edition to another that matter such as cooking recipes was copied from the Ladies' Home Journal, and the tone of the journal was not up to the mark. He offered to bring down copies to prove his assertions, but Secretary Behan said he had them on the table, and Mr. Quinn, amid much uproar, went to the platform. Mr. Hackett, however, implored the members to get down to business, and Mr. Quinn modified his statement by saying that he would not say that what he complained of had happened during the regime of Mr. Behan.

Another breeze was created over the publication of the proceedings of the council. It was charged that the Toronto delegates had broken faith in giving out information regarding the action taken in the Brown matter, but this was indignantly denied. The members had all taken an obligation to reveal nothing, and a suggestion that "the divulger of the news should be expelled holus holus" was received with enthusiasm. The president referred to the fact that there had been persons present who were not delegates, in spite of his request that all others should retire and announced that the doors would be most carefully tiled in future and none but delegates admitted.

The greater portion of the day was taken up with a very instructive and interesting address from Abb Landis of Davenport, Iowa, an expert actuary, who spoke on the question of raising the assessments. He said the association had two needs, it must have a safe and adequate rate and it must be attractive and practicable. The present value of the insurance in force was $9,000,000, and with 24 annual assessments, they would still be $3,000,000 short of realizing sufficient to place them on a secure financial basis. Thirty-six annual instalments would be sufficient, but would not be practicable, as it would increase the cost of insurance above the ordinary life companies. He offered two sets of rates based on a four per cent. earning capacity of the funds. One was for a straight life policy and the other terminating at 65 years of age. The funds were not now earning four per cent., but there was no reason why they should not do so. Protection was needed, not in old age, but in youth, when a man had others dependent on him. The policies he offered would be interchangeable. When a man reached 65, he could take a paralaid life policy or he could discontinue when his family became self-supporting. Mr. Landis was compelled to leave early in the afternoon, but he was given a hearty vote of thanks and his report will be acted upon to-day.

A pleasing feature of the afternoon was the visit of Major D. M. Robertson and Alex. Fraser, representing the Sons of Scotland. They were greeted with loud applause when conducted to the platform by Grand Treasurer McKee. Both made clever speeches, which were punctuated with applause and a reply was made by J. A. Chisholm of Halifax, a brother Scot. A very cordial spirit was manifested and after a vote of thanks had been passed to the visitors for their fraternal wishes, the whole council stood and sang "Auld Lang Syne," while the local Scotchmen left the hall.

The report of the special committee appointed to deal with the matter of the defalcation of the late grand secretary reported on the opening of the evening session, and its recommendation was adopted. The committee decided that it was in the best interest of the association that the sum of $13,000 offered by the representatives of the deceased official should be accepted and the matter settled.

Th reports of the credential committee, the board of trustees and the medical examiner were also adopted. The committee on laws presented its report, which was takn up clause by clause and little progress made.

The resolution of Kingston Branch No. 9, regarding an emergency fund for members of over thirty years' standing, was not approved. Branch No. 12, of Berlin, offered a motion to provide for a guarantee of the fidelity of branch officers. It was decided that the amounts paid by the branches for this purpose should be credited to a special fund, to be known as the branch indemnity fund, to provide against losses by defaulting officials. It was recommended that no change be made in the method of guaranteeing grand officers. It was also decided that two chartered accountants should be appointed by the convention to audit the books annually. One shall be a member of the association, if possible, and the other an outsider. They shall have full powers and report to the president.

The committee recommended, with a view to reducing the expenses of the grand council meetings, that there should be established provincial or district councils, who shall appoint representatives in proportion to their membership. The Dominion is to be divided into four districts—Ontario, Quebec, the maritime provinces and Manitoba and the Northwest. Each district would have a delegate to the grand council for each 250 delegates or fraction thereof. The first of such district council meetings would be held in February, 1907. The hour was too late to permit of the consideration of this recommendation, and it will be considered this morning. The committee also recommended the adoption of a schedule of rates proposed by Branch 94, of Ottawa, which is almost identical with that suggested by Mr. Landis, the actuary. It will also be discussed to-day.

J. Cresmer of Toronto as proprietor. Mr. Leflar of the Avenue Hotel will open on Monday. There is still needed a hostelry where transient travelers can put up their beasts. The lack of accommodation in this respect has been greatly felt since the hotels closed their sheds, and business has suffered to a certain extent.

Cramps in Legs, Twitching Nerves

Heart Trouble and Nervous Headaches Results of Broken Down Nervous System.

Mrs. E. J. Vanderburgh of Eastern Welland-avenue, St. Catharines, Ont., states: "For twenty-one years I was badly afflicted with heart trouble, nervousness and cramps in the limbs, also twitching of the muscles and nervous headaches. I became weak, debilitated and emaciated. My condition was distressing, and I was made worse through worry and loss of sleep.

"I tried a hundred remedies in vain and reading about Dr. Chase's Nerve Food, I decided to try it. After having used half a dozen boxes of this preparation my old trouble had entirely vanished and I was enjoying better health than I had since girlhood. I am now past middle age, and I am in perfect health. I would not take words to-day and go back to my former state."

CHAUFFEUR HEIR TO $200,000.

And Will Make a World's Tour in Auto.

Philadelphia, Aug. 25.—From driving an automobile for pay to the inheritance of an estate valued at $200,000 is the startling change in the fortunes of Charles Ross, who was employed as a chauffeur by former District-Attorney P. F. Rothermal.

"I've got more money than I know what to do with, sir," he said to his employer yesterday, "so I'll have to resign my job as chauffeur. I've got enough to buy an automobile with silver wheels and gold trimmings."

"How did it happen?" asked the ex-district attorney.

"When I was a boy in Cleveland I decided to be dependent upon no one, so I started out for myself. I drifted into an automobile business and finally into your employ. I'm sorry to leave you, but I'm glad I'm rich."

Later Ross said:

"I intend to take a trip around the world in an automobile after I get things settled up, and I may possibly start to manufacture machines. I can hardly realize my good fortune."

He then went to an automobile shop in Broad-street, engaged a machine and started for Cleveland, which he expected to reach without a stop.

SALUTED PAPAL FLAG.

Cardinal Vannutelli Reports of Attentions Shown Him by British.

Rome, Aug. 25.—Cardinal Vincenzo Vannutelli has returned here from his visit to Ireland. He says he was accorded an enthusiastic reception, and that many honors were paid him. For the first time since the fall of the temporal power of the Popes the papal flag, hoisted on the steamer carrying the cardinal, was saluted by British warships, while Lord Dudley, the lord lieutenant of Ireland, treated him as a prince of the blood.

The Pope expressed his intention of soon issuing a document in which he will express his feelings towards Ireland.

Courtice, in arranging for a great public meeting to be held in Toronto in the second week of October following the peace congress in Boston, and in connection with the peace department of the association here. TEACHER HUGS, BOARD "UP."

Parent Accuses Trustees of Misdemeanor in Office.

Pottsville, Pa., Aug. 25.—Because Prof. I. G. Miller, principal of the Frackville high schools, cannot restrain himself from hugging the larger girls of his school, he has the school board in a peck of trouble.

Miller has been given much to this method of handling his feminine pupils, which caused their parents to call upon the school board to oust the ardent pedagog, but the latter declined to do so, tho John Lawler, a member of the board, presented a resolution to that effect, it being voted down.

Samuel Purnell, the father of one of Miller's pupils, threw down the gauntlet to-day and had the entire board arraigned before Justice H. B. McCool here on a charge of misdemeanor in office.

The members of the board were put under $500 bail each for court.

REDMOND'S PURPOSE.

New York, Aug. 25.—John E. Redmond, leader of the Irish parliamentary party, accompanied by Mrs. Redmond and their daughter Esther, A. C. Donelan and Patrick O'Brien, Irish members of parliament, arrived here from England on the White Star liner Teutonic.

Mr. Redmond said: "I have come here to address my fellow countrymen on the Irish question and to obtain their aid. We desire to secure government for ourselves in local affairs, the same as state governments in America. The Irish cause has advanced lately with rapid strides. Our power in parliament is greater, and we hope to win concessions from the English party. My object in coming to this country is to appeal to all Irishmen and to the American people."
