FROST LOCKS

Make a Fence of Strength

The heaviest, strongest wires made can't make a strong fence unless the locks are as strong as the wires. A fence, like a chain, is only as strong as its weakest spot.

The New Frost Lock and Frost Wedge Lock are the most unyielding parts of a Frost Fence. They make the whole fence as strong as the strongest wire.

We guarantee to repair—free of charge—any Frost Fence that goes wrong

A Novel Idea

GRAND TRUNK'S UNIQUE DEVICE FOR ADVERTISING CANADA.

A travelling exhibition illustrating the charms of Canada as a holiday, hunting, fishing and camping resort, is to be put into commission by the Grand Trunk Railway System.

It will consist of a coach fitted up inside as an art gallery with bromide enlargements made from direct negatives of delightful scenes in "The Highlands of Ontario," including choice bits from the Algonquin National Park of Ontario Georgian Bay, the Muskoka Lakes, Lake of Bays, Maganetawan River, Lake Nipissing and the French River, the famous Temagami Region, Kawartha Lakes, Rideau Lakes and the principal Cities of Eastern Canada. The car will also contain mounted fish, from Canadian waters, mounted game heads, stuffed birds, moving pictures, etc., making a unique collection of attractive features that will appeal to the tourist and sportsman. A representative familiar with all the various districts will be in charge of the car and will have a plentiful supply of descriptive matter, maps, etc.

The car will start in at Mobile, Alabama, about March 19, and will go through the States of Mississippi, Alabama, Kentucky, Indiana, Ohio, Pennsylvania, West Virgina, and New York. Towards the end of June, or in July, the car will reach Canada, and some of the principal towns and cities in the Dominion will be visited. The tour in the United States will occupy about three months, and in that time seventy-two will be visited.

Another Survivor of Mine Disaster

SCENES WHEN HE WAS BROUGHT OUT OF PIT

LENS, France, April 4 — A living survivor of the mining disaster at Courrieres March 10 was discovered this morning and brought out of pit.

The finding of another miner alive after twenty-five days entombment caused intense excitement. His name is August Ramon and when found was in fairly good condition, and according to his first statements he suffered less than the preceding men. He is thirty-two years old and was born in the same place as Nemy, and the leader of the thirteen men rescued March 30. As the news spread through the region it caused extreme exasperation against the engineers who have been directing the salvage work. M. Leon, the state engineer, when he arrived at the pit was surrounded by a crowd of people, who cursed and swore at him, one woman going so far as to strike him.

Dry Dock Dewey Getting Along Well

NEW YORK, April 3—A despatch from Malta to the Herald dated Tuesday says that a message has been received by wireless from the dry dock Dewey, which was sixty miles northwest of Malta, maintaining a speed of more than one hundred and five miles a day. During the entire run from Gibraltaa the weather has been fine and all is going smoothly.

The officers in charge of the dry dock expect to arrive at Port Said about April 15. The Potomac will put in at Malta for coal.

WOODSTOCK, N. B., April 3.—The Grand Lodge, L. O. A., commenced its session in the opera house this evening with a large attendance. The delegates from all parts of the province number considerably over one hundred. Grand Master McLeod's address showed the state of the order to be in a prosperous condition. In the past year four fine new halls had been dedicated to the cause. These halls were at Lorneville, Rolling Dam, Middle South Hampton and McAdam. The hall at McAdam is a particularly fine structure, costing over $5000. Ten lodges have been incorporated during the year. A property has been secured at or near Amherst and it is the intention of the order to erect thereon an institution for the care of orphans of deceased members of the order only.

Live Horse Found in Mine

PROOF THAT MEN FOUND DEAD MIGHT HAVE BEEN SAVED.

Paris, April 1.—A telegram from Lens says that a live horse has been found in the Courriers mine and also the bodies of several miners who had apparently died within the last 24 hours.

The Paris newspapers severely criticize the engineers engaged in the rescue work. The Matin considers that they showed great negligence, as the men who were saved made their way through galleries which the engineers declared to be impassable.

Nervous Women

Their Sufferings Are Usually Due to Female Disorders Perhaps Unsuspected.

A MEDICINE THAT CURES

"Can we dispute the well-known fact that Canadian women are nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly;" "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the abdominal region and between the shoulders; loss of voice; nervous dyspepsia; a tendency to cry at the least provocation—all this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Miss Lelah Stowell, of 177 Wellington St., Kingston, Ont., writes:

Dear Mrs. Pinkham:—

"Your Medicine is indeed a Guiding Star to suffering women, and I only wish that they all knew what it can do for them and they would be no need of their dragging out miserable lives in agony. I suffered for years with bearing-down pains, extreme nervousness and excruciating headaches, but a few bottles of your vegetable Compound made life look new and promising to me. I am light and happy and I do not know what sickness is, and I have enjoyed the best of health now for over four years. Lydia E. Pinkham's Vegetable Compound has sent sunshine into thousands of homes and hearts."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

TROUT MezzoWork

The undersigned have received from Mr. Nash of Maine the agency for New Brunswick for his famous trout mezzo work. A trout mezzo is one half the fish so mounted upon a convex elliptical panel as to stand the fish out in bold relief, giving the effect of an oil painting or whole mounted fish, with the real thing to show of your prowess. The process of preserving fish in this artistic way was discovered by Mr. Nash in 1900, and patented by him.
