A NEW FAMILY MEDICINE,

AND

VALUABLE SPRING & FALL PURIFIER.

DR. BUCHAN'S

APERIENT AND DIAPHORETIC

TONIC BITTERS.

This medicine is recommended by the first Physicians of Europe and America as the most appropriate and truly harmless, yet successful general Family Medicine ever invented. It corrects disorders of the digestive and portal organs, removes obstinate constipation, promotes a proper circulation of the blood in the extremities, strengthens weak nerves, renders the mind cheerful and the body active, invigorates and establishes healthy regularity throughout the whole system, more speedily than any other medicine ever offered to the public. It possesses ALL the properties of Sarsaparilla, including SALSAPARINE, which valuable medicinal property was entirely lost till now, by the usual routine process adopted in the manufacture of Sarsaparilla preparations. The absence of SALSAPARINE in all the hitherto advertised preparations of Sarsaparilla, clearly accounts for the entire want of public confidence in the virtues of Sarsaparilla. By a new chemical process, discovered by the World renowned chemist, BARON LIEBIG, SALSAPARINE is now completely preserved in this medicine and it also contains, in addition, the purifying and other Hygienic virtues of various valuable productions of the vegetable kingdom, in the purest and most concentrated form. It is an alterative of great value.

The preparation acts most kindly on the liver and mucous membranes, corrects and prevents acidity, aids assimilation where greasy articles are used as food, and is suitable to every kind of constipation, complicated with defective biliary secretions; nothing can surpass it in constipation with hemorrhoidal tumours, or as the scourge of the ague—*other preparations* are especially so in that which accompanies all varieties of perverted menstruation—so much so, that it will be found a valuable emmenagogue where constipation is present. In constipation connected with long continued derangement of the biliary system, termed *bilious dyspepsia*, it will be found an invaluable medicine as well as in the constipation of the convalescent stage of fever, when the patient has begun to take food, it is of great value in preventing relapse, by regulating the functions of the bowels and promoting digestion. For the studious and others of sedentary habit and employment, it is the very best remedy in the world for obviating constipation so troublesome and health destroying; by the use of it, the bowels of the sedentary will seldom or never become constipated. In several parts of Europe various classes of society, as well as the clergy, who are generally more or less of a costive habit, find this medicine to excel all others; they also find it to be highly conducive to health of body and mind. It never interferes in the smallest degree with diet or occupation. THE BITTERS will be found valuable in many chronic diseases, especially those arising from impurities of the blood and costiveness—that bane of health and source of manifold diseases—

such as Dyspepsia—Loss of appetite—Lowness of spirits—Drowsiness—Heartburn—Flatulency—Pain in the stomach—Pain in the side—Pain in the small of the back—Pain in and between the shoulders—Acidity in the stomach—Bilious attacks—Nervous, Periodical and sick headache—In chronic hepatic affections with dyspepsia it is a most valuable remedy—also in Spasms—Rheumatism—Unpleasant sensation of fulness after eating—Marasmus, or wasting of flesh in childhood or early youth—Cynanche Maligna, or Malignant ulcerated sore throat—Hysterics, in various forms—Tetanous in various forms—Chorea Sancti Viti, or St. Vitus's dance—Chlorosis, or Green Sickness—Amenorrhœa—Dysmenorrhœa—All glandular enlargements, and various other diseases incident to females.

It produces a powerful and lasting impression upon the glandular system and secretory organs, unequalled by any other article. The great and controlling power which this medicine exercises on the secretory and excretory organs, renders it a medicine of peculiar properties as a curative agent, of various complaints and diseases, not mentioned above.

AS A FAMILY MEDICINE, IT IS SAFE AND EFFICACIOUS. IT IS WARRANTED TO BE SUPERIOR TO ANY OTHER EVER OFFERED TO THE PUBLIC. Indeed, the Bitters is a regulator of all the secretions, as far as a general remedy can be so. Several families of the highest respectability in Toronto and neighborhood, have used the medicine and speak of it with unqualified approbation.

☞ *Price 2s 6d per Bottle.*

Toronto, February 22nd 1853

PROTECTION FROM LIGHTNING!!

BY E. V. WILSON AND

H. PIPER & BROTHER,

(ON THE PRINCIPLE OF JAMES STRATT,)

ELECTRICIAN AND ELECTRO-METALLURGISTS

AT THEIR WHOLESALE AND RETAIL

Lightning Rod Manufactory,

On Yonge St., between King and Adelaide Sts.,

TORONTO, C. W.

At which place we beg to draw our Superior Spiral Pointed Annealed Iron Lightning Rods, Patent Points, and Electric Pulley, [illegible] in their Manufacture, thus rendering them equal to Copper [illegible]. They are in lengths, twelve and [illegible] feet, [illegible] accurately fitted [illegible] new style of metallic attachments for [illegible] Buildings; also, Glass Insulators of a novel and [illegible] construction, [illegible] a lock. The [illegible] with a solid [illegible] Silver Point, fourteen inches long, surrounded at the base with three angular spirals [illegible] possess the power to an extraordinary [illegible] the opposite electricities of the most [illegible] and [illegible] the entire protection of [illegible] to the present time. The whole constituting the most complete and perfect Patent [illegible] ever presented to the public. We also are [illegible] Wilson, as Agents, and [illegible] Patent, [illegible] 1852, [illegible] certificates as above. Your attention is called to the above extract from the fact, that several persons have offered to the public as a novelty article, [illegible], and otherwise passed over, when in truth they are not worth employing as Electric Points, not do the persons offering them know anything about the laws of electricity, consequently it is dangerous to employ ignorant men to protect your buildings and your lives.

E. V. WILSON, &c.
H. PIPER & BROTHER.
