SPECIAL NOTICES.

The Best in the World.

The oil of the Norwegian Cod Liver is nature's grand restorative, and is only found in its entirety and purity in Miller's Emulsion. It is the most palatable and wholesome preparation of Cod Liver Oil in the world, and is now being taken by invalids, particularly those afflicted with consumption, with the most astonishing success. It is the greatest blood and flesh maker in existence, and is a life saver to consumptives. In big bottles, 50 cents and $1, at London drug stores.

Parlor and bedroom suites; large stock to select from. Fine cabinets and library cases; picture framing and repairing. WM. TRAFFORD, 95 and 97 King street.

Bitter oranges arrived at R. MOUNTJOY'S.

Teeth without plates; gold and porcelain crowns; established fifteen years. J. R. COOK, L.D.S.

If you bring this advertisement with you you can get a dozen cabinet photos and nice frame for $2 at Chapman's.

In Burmah it is rather a suspicious thing to give money for a charitable object. It is supposed to mean that the donor has been very wicked, and is desirous to make amends.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy and general corrective, Dr. Thomas' Eclectric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruises, cuts and sores succumb to its action.

The plan recommends itself to all people interested in the work, and is achieving success everywhere.

The Market Weigh Scales.

A special meeting of No. 3 Committee of the council was held yesterday afternoon, when Ald. Parnell (chairman), John Heaman, Moule, Hannah and Mayor Spencer were present. It was decided to call for tenders for new weigh scales of ten ton capacity for the market. Frequent complaints have been made against the old ones and it would cost a considerable sum to repair them, and when repaired they would last but a short time.

The Firemen Exonerated.

The sub-committee of No. 3 Committee of the council appointed to look into the claim of Jas. Ballantine for damages done to his son by being run over by No. 3 hose wagon, met yesterday afternoon. Driver Smith and the other members of that company were examined. They all said that the horses were going very slowly, as they had just started, and they had slackened their speed on account of two ladies who were crossing the street. The gong was also ringing continually. The committee attach no blame whatever to the fire department and consider the affair as purely accidental.

School Children's Demonstration.

Messrs. Cook (chairman), McElheran, Craig, Dewar, Jeffery and Inspector Carson attended a meeting of the Dominion Day Demonstration Committee last evening. There will be no kindergarten concert in the evening. An invitation will be extended to the Separate School and London West to participate in the demonstration. Mr. Cook will interview Col. Smith and ask his co-operation and advice. An endeavor will be made to have the celebration take place in the morning and the sham fight at the camp in the afternoon. A platform similar to the one erected last year will be constructed for the speakers and those having invitations. The committee will endeavor to have some prominent educational men deliver addresses.

The Water Commissioners.

The water commissioners met last evening and Chairman Davis, Commissioner Jones, Mayor Spencer, Secretary Ellwood, Engineer Moore and Inspectors Platt and Plastow were present. A communication was received from City Clerk Kingston regarding waste water at the waterworks, and Engineer Findlay will be asked to give all possible information. From May 17 to 31 the total amount of water pumped into the reservoir at Springbank was 37,647,304 gallons, the maximum amount in one day was 2,721,728 gallons, the minimum 2,182,148 and the average 2,509,820. The engineer will report on the present water supply, the best means of increasing it and the power necessary for doing so. If necessary an expert will be employed to assist in making the report. The chairman will call a special meeting to consider the estimates. Tenders were received for an addition to the pumping house. The contract for brick work was let to Simpson & Murray, for carpenter work to T. Green and painting to Charles Boyce.

SATURDAY'S DROWNING DISASTER.

Verdict in the Case of Young Kelland's Death.

Accidental Death—Workmen Who Failed to Respond to a Call for Help Censured—Suitable and Safe Bathing Accommodation Should be Provided.

The inquest as to the death of William Matthew Kelland, who was drowned in the Thames last Saturday afternoon, was held in the Interim Sessions room in the court house last evening before Coroner Ferguson. The jury was composed of R. A. Jones (foreman), J. W. Fletcher, Reginald Christian, John Jeens, John Lord, William F. Ellis, Williamm Peters, W. R. Hammond, J. Crockett, J. Axtell, J. Lackey, sen., E. Hunter and County Constable Kennedy. Coroner Ferguson read the minutes of the inquest on the body held at John Stephenson's undertaking establishment and then proceeded to take the evidence.

The first witness called was R. W. Ward, county constable. Witness identified the body as that recovered; he was one of the searching party. The body was found about 50 feet west of the Cove bridge, in about eighteen feet feet of water. He heard of the accident, and at once notified High Constable Schram, who sent him down to help in the search.

The next witness was Harry Phair, a boy 11 years of age, who resides in London West, and who was with Kelland at the time. He said he was walking along the river bank with deceased on Saturday afternoon, and Kelland wanted to go in for a swim. They crossed over the bridge and walked along the bank to a spot where it was shallow near the edge. Deceased went in first and walked out about six feet, when he lost his footing and went into a deep hole. Kelland rose three times, but made no cry for help. Witness called upon a party of railroad workmen employed on the bridge, but they did not respond to his appeal.

Robert Peacock and Walter Gash, 14 and 11 years of age, corroborated the evidence of the previous witness.

Harry Gibson was then called and said that he was in the river about an hour, and found the body in about eighteen feet of water.

Thomas Jeffries corroborated the previous witness' evidence and described the finding of the body.

The room was then cleared and the case given to the jury, who after about fifteen minutes' deliberation returned the following verdict:

"We find that the said William Matthew Kelland came to his death by accidental drowning. We are of the opinion that the city and county authorities should provide the necessary tackle and grappling apparatus for the recovery of the bodies of the dead. We censure the party of railroad workmen (unknown to us), who failed to respond to the cry for help. We are also of the opinion that it is incumbent upon the proper authorities in the interest of the public health and safety to provide suitable and safe public bathing accomodation, thereby preventing the recurrence of these accidental deaths from drowning while bathing so frequent in the past history of the River Thames at and in the vicinity of the city of London."

LONDON KNIGHTS ABROAD.

A Pleasant K. of P. Excursion to the River St. Clair—The Local Delegation—Presentation to Ald. F. J. Fitzgerald—A Jolly Time.

Through the kindness of Rathbone Lodge, Knights of Pythias, St. Thomas, the members of the Grand Lodge, now meeting in that city, were treated to a most enjoyable excursion yesterday, the London brethren sharing in the pleasurable occasion. The train leaving the M. C. R. station here at 2:25 p.m., carried among others, the following Pythians: A. G. McWhinney, H. A. Plastow, John Paul (M. C. R. ticket agent), ex-Mayor Taylor, James Belton, Fred Handcock, L. W. Hanson (Sicily Lodge, Wingham), R. McIntyre, G. D. Jacobs, Wm. Suhr, J. Mitchell, J. H. Brown, T. E. Gillett, J. Walker, Alex. Gardner, F. Whittaker, — Greenslade (Stonewall, No. 6, Charleston, South Carolina), J. Graham, F. Lea, J. A. Little, H. Farnam, P. Bloomgarden, R. Carrothers, H. E. Bates, W. J. Moffat, C. H. Peacock, T. Fox, Geo. Graham and C. Walder. Ald. F. J. Fitzgerald (grand chancellor), Dr. W. M. English, Wm. Smith, W. S. Rychard, J. E. Avann, and other local members were picked up at St. Thomas, where a special train was in waiting to convey the excursionists to Courtright vis the M. C. R. Several carloads of the knights and their fair ladies were drawn in quick time to the terminus of the railway, on the banks of the beautiful St. Clair. Here the steamer Clara was boarded, and before landing the party on Uncle Sam's dominions a pleasant scene was enacted on the deck. Mr. Alex. Gardner called upon Ald. F. J. Fitzgerald, of this city, grand chancellor of the Grand Lodge of Ontario, and as the latter rose, Mr. A. G. McWhinney stepped forward, made a few complimentary remarks, eulogistic of the grand chancellor's services to the order, and formally presented to that official a handsomely engrossed address signed by the chancellor commanders of the London lodges—Captain Williams, of Myrtle; Dr. English, of Mizpah; A. G. McWhinney, of Prospect, and J. E. Avann, of London. It expressed in well-worded sentences the sentiments of esteem with which Mr. Fitzgerald is regarded. Miss Sally King, of St. Thomas, pinned to his coat lapel a fine past grand chancellor's jewel with an apt remark, the crowd applauding heartily all the while. The surprised grand chancellor replied with becoming gratitude and modesty. The party landed at the pretty city of St. Clair across the river and spent a pleasant hour or two in that place and at Oaklands, the noted summer resort close by. As the younger knights were bent on having a jolly time, they made merry in a variety of innocent ways, infusing a good deal of life into the American town for the time being. A procession was formed on foot, several dray wagons were hired and drawn through the streets, filled with cheering Canadians, and citizen Joseph Graham actually waved the "Stars and Stripes," and brought the flag back with him to London. The company also enjoyed a trip up the river to Stag Island. Altogether a delightful time was spent, and the London delegation will not soon forget the hospitality of Rathbone Lodge, the members of which had left nothing undone that would add to the comfort of their guests. Refreshments were served on the train. The city was reached before midnight.

AN AWFUL DEED.

A Mother Drowns Herself and Two Children.

BAY CITY, Mich., June 15.—Mrs. Geo. Beaudry, of South Bay City, jumped into the river yesterday morning with her two children. All were drowned. About 6 o'clock Mrs. Beaudry arose as usual and began getting breakfast. Her husband and the children were in bed. A few minutes later she went to the bedside of the two younger, and dressing them, started from the house, carrying Victoria and leading George, who had been blind for several years, by the hand. Mrs. Beaudry went into the street, passed to the north to a point beyond Thirteenth street, and then went to the river and sat down upon the dock. The little blind boy was seated beside her. Suddenly she pushed him into the river. Seeing a man coming down Harrison street, she jumped in herself, with the girl in her arms. The man, who was Joseph Hines, reached the river in time to see the mother and children about to sink. She was holding the little girl under the water and the blind boy was floundering about. Hines ran back to the street and gave the alarm. The coroner was notified and the bodies were recovered. The husband of the woman says he cannot account for the awful action of his wife. The neighbors say that whisky laid the foundation for the awful crime. Annie, the eldest girl, says her father and mother frequently quarreled. The little girl admitted that she herself had tried to commit suicide a year ago. Beaudry is a harness maker, and came from Montreal with his wife eighteen years ago.

A Locomotive Explodes.

CLIMAX, Mich., June 15.—The boiler of locomotive No. 29, C. and G. T., hauling a heavily loaded freight train, blew up here yesterday. Engineer Wood, Fireman Smith and Brakeman Parker, all of Battle Creek, were seriously and, it is feared, fatally scalded. The track was torn up and several cars hurled from the rails. Fireman Smith's injuries are such as must, it is thought, cause his death. The brakeman and engineer, while in a serious condition, may recover.

Fell 1,500 Feet.

BALTIMORE, Md., June 15.—Charles Waite, an aeronaut, who gave a balloon exhibition at Tolchester Beach, an excursion resort on the Chesapeake Bay yesterday, received injuries which are likely to prove fatal. When 1,500 feet above ground he cut loose from a parachute, the ropes of which became tangled, preventing its opening properly. Waite came down like a flash, making frantic efforts to disentangle the ropes. He fell in a corn field, and when the steamer left the beach last night was still unconscious. The doctor says no bones are broken.

A Girl Graduate's Determination.

MARSHALL, Ill., June 15.—The twelfth annual commencement exercises of the Marshall High School were held in the opera house recently. Rather an interesting feature was the appearance of Miss Anna Claypool among her classmates. Only a few weeks ago she unfortunately broke her right leg, and, though suffering constant pain, pluckily pursued her studies, passed the examinations successfully, and last night was carried to the opera house in her invalid chair, delivering her oration while seated in the chair.
