THE DAILY TELEGRAPH

$750 Proverb Competition

CONDITIONS OF THE CONTEST:

Conditions of the Contest

(1) Each answer must be plainly and carefully written upon the Coupon bearing the number corresponding with the number on the picture.

The competitor having the largest number of correct answers will be awarded the first prize; the one having the second largest number of correct answers the second prize, and so on.

(2) Answers are not to be sent in until after the contest (which lasts for 50 days) is closed, but they must reach the Proverb Editor of The Telegraph not later than ten days after the appearance of the final Proverb picture.

(3) Neatness, care, and general ability displayed in preparing the answers will be considered in making the awards, as between persons who may be tied as regards correctness of answers.

(4) Employes of The Telegraph or their families are not allowed to take part in this contest.

(5) The coupons being numbered, the answers must be neatly arranged in numerical order by contestants.

(6) Contestants may send in as many sets of answers as they please, but each set must be in a different envelope. Two answers to the same Proverb must not be inserted in the same envelope.

Typewritten answers will not be accepted. Contestants must write and sign their answers themselves.

Note

EXAMINE THE PICTURES carefully—don't jump at conclusions. There may be more in the picture than meets the eye at first glance.

City Subscriptions

The Telegraph will be delivered to any address in St. John at the rate of 50c. per month. Subscriptions can start with the present date and back coupons and pictures will be supplied free if desired. Telephone No. 31A or send your order in on a postal.

Things to Keep in Mind

You can start the contest at any time. Pictures and coupons from the beginning may be had from The Telegraph.

You can have as many trials as you please, but each answer must be on a separate coupon.

See that you get a copy of every issue. If you want extra trials order extra papers or coupons from your dealer now.

There will be about 50 Proverbs, appearing one or more each day for two months, for which 20 prizes will be awarded.

No money is required—no stamps, or anything but Telegraph Coupons.

Do Not Send In Your Answers Till the Close of the Contest

Special Offer to New Subscribers Outside St. John

To new subscribers living outside of St. John The Telegraph will be sent for three months for One Dollar. This will include the back pictures and proverbs if desired. If the latter are wanted a separate request should be made for them (or such of them as are wanted) when sending in the order. Fill out the form below, and mail at once to The Telegraph Pub. Co., St. John.

The Daily Telegraph, St. John:

Enclosed please find One Dollar, for which please send The Daily Telegraph for three months.

EXPLOSION ON A LAUNCH

Gananoque, Aug. 1 (Special)—An American gasoline launch, carrying twenty-five passengers, took fire 300 yards from the shore this afternoon, and caused a big panic among those on board. Two men in the engine room, where the fire started from leaking gasoline, were badly burned, but all the passengers escaped through the assistance of another launch. Some of the women passengers threw themselves overboard, and hung to the rail of the burning launch until rescued.

THE SCHOOL OF MISSIONS

Interesting Addresses Delivered at Yesterday's Session in Centenary Church Rooms.

Rockefeller's millions and the propriety of accepting his money for church work were touched upon at yesterday afternoon's session of the school for missions, and Rev. Dr. Stephenson gave his view as favoring acceptance.

The Northwest and Japan were subjects of very entertaining addresses at afternoon and evening sessions. The attendance has increased noticeably and promises to grow even more. Dr. Carman, superintendent of the church in Canada, is expected today.

At the afternoon session a slight change was made in the programme, and Prof. Riddell's address on The Northwest was postponed till the evening session. This was at the request of business men, who had expressed a desire to hear it, but were unable to attend an afternoon session.

Rev. C. W. Hamilton presided. After the opening services a Bible lesson in Hebrews was given by Prof. Riddell.

Dr. Stephenson gave a short talk on Missionary Literature. After defining the literature of an age as the mirror of its present tendencies, he pointed out that there were but two classes of literature, missionary and mercenary, the one kind to make money in some way, the other with only the missionary motive to do some good.

Having referred to money, he raised the inquiry whether or not the church should take and use Rockefellers so called "tainted money." "By all means," he replied, "for when it becomes part of the funds of the church it becomes 'converted' money."

A list of books, periodicals and pamphlets helpful to those interested in missions was given. Among these are The Missionary Bulletin, containing the quarterly letters from all the Methodist missionaries; The Heart of Japan, by A. P. Addison; Methodist Missions in Canada, by Dr. Sutherland; New Testament Studies in Missions, by Harlan P. Beach.

He regretted the scanty demand for missionary literature. The board realized and complained that much that was distributed free was not read. He thought it a better plan to try to get people to pay something for all they get. Literature given away is valued at its cost alone and remains unread.

Last on the programme for the afternoon was an address on The Present Day Opportunity in the Island of Japan, by Rev. E. C. Hennigar, B. D., formerly of St. John. He reviewed Japan's recent rise to the status of a world power, and pointed out that the Christian world is now for the first time carrying its creed to a civilization older than its own.

A new civilization, he continued, is springing up in old Japan, not oriental and yet not occidental, and there is an opportunity to make this a Christian civilization in the fullest sense of the term.

Their very efficient educational system, which has ninety per cent. of the children of the country in the schools, and which is capped by the great university at Tokio, is not only not Christian, but is anti-Christian. The university is based on skeptical German philosophy, with the agnosticism of Herbert Spencer running riot among the students. A religious test of 330 students there was recently made, and 235 were agnostics, fifty-three atheists, and twenty-six would give no information respecting their religious beliefs.

Because of the large role Japan will henceforth play in eastern affairs, she should be Christianized, not only for her own sake but for the sake of the other Asiatic millions.

At the present time there are 772 Protestant, 109 Roman Catholic, and four Greek Catholic missionaries in Japan. The Methodist church has eight men and twenty-one women working there, aided by twenty-one native workers. Togo, Oyama, and four of the seven members of the house of representatives are Christians; 45,000 are adherents of the church and an equal number are professed Christians.

The school room of Centenary was well filled last night at the third session. Rev. W. W. Lodge was in the chair. Principal Riddell and Rev. Dr. Henderson addressed the meeting and both speakers were listened to with great attention and were frequently applauded.

Principal Riddell's subject was the Northwest and he handled his theme in such a way that his audience had a very clear idea of the vast country of which he was speaking. He commenced by saying that the term Northwest was fast losing its political significance and this, he continued, is a pity because formerly the government of the territories was free from party and was administered only for the good of the country.

He referred to the school question and said that one of the reasons the people of the Northwest were opposed to any change was that they already had a system under which they possessed separate schools which were under the direct supervision of the government. They thought they should have been allowed to work out their own destiny in their own way.

Principal Riddell spoke of the intense loyalty of the people of the Northwest to the empire. As to territory he said that British Columbia contains 326,000 square miles. The new province of Alberta, 253,000 square miles and Saskatchewan 250,000 square miles. Manitoba is small compared with these, but it is hoped that the province will stretch north and west.

"We cannot get any adequate idea," the speaker continued, "from these figures. The whole of the German empire, Switzerland and Holland could be put into Alberta alone and there would be some territory left over. Or the whole of France and Italy could be put into the province of Saskatchewan and enough territory would be left to give every man, woman and child in St. John 640 acres each. Principal Riddell then sketched the natural features of the country and said that in his next lecture he would tell the people something of the soil.

Rev. Dr. Henderson's subject was, Who Shall Pay for Missions? He held that every man who was indebted to Christian civilization ought to pay for missions. The business man as well as the private individual is alike indebted to Christian teaching for the comforts and luxuries he possesses.

The very essence of Christian religion was knowing how to give. Money, the speaker continued, is all right as long as you control it but it is all wrong as soon as it controls you. He pronounced a eulogy on England's greatness and said that the reason of it all was that she was foremost in proclaiming the truths of Christ to the nations of the earth. Napoleon used to say that God was on the side of the largest battalions. God had fought on the side of England not because she had the largest battalions, but England had the most irresistable battalions because God fought for her.

He contrasted the civilization of Greece and Rome with ours and said that our progress represents a high water mark in the history of the world and our civilisation, with all its defects, the best product of the ages.

THE BOARD OF WORKS

Plans for New West Side Warehouse Referred to a Sub-committee---The Question of Dredging.

The plans of the new warehouse on the west side were referred to a committee at a meeting of the board of works yesterday. In discussion on the needed new wharf Ald. Christie rather sharply expressed the view that there might be no new wharf this year.

A charge of five cents a ton on coal left in the city's warehouse, with an additional charge of five cents after five days was recommended. The question of taking over the new ferry was discussed. A warehouse is wanted on the public wharf, Indiantown, and a committee was appointed to look into the matter.

The laying of the stone paving in Water street was discussed. A distance of 200 feet was provided for in the estimates.

Ald. Bullock moved that tenders be called for.

Ald. Tilley believed it would be too late in the season.

The director said the matter could be settled in two weeks. The motion was carried.

Ald. Pickett brought up the question of charging rent for the use of the city's warehouses for coal and the report of Ald. Millidge was read, suggesting a change in the by-law and a fine after a delay of thirty-six hours.

Ald. Macrae moved that in addition to top wharfage coal placed in the city's warehouses should be charged five cents a ton for five days, and five cents for any fraction of five days over that time.

Ald. McGoldrick did not favor any additional charge after five days; he urged that the steamers brought business to the city and should not be hampered by restrictions. The motion was carried.

Ald. MacRae said the board should have the plans for the new warehouse on the west side that they might be in a position to make a recommendation to the council when the time came to call for tenders.

Ald. Tilley—"We want to know if the dredging is going to be done first."

Ald. MacRae said he was willing to take the government in good faith. It was important they should be ready and the common council in a position to take up the plans at once.

The chairman—"I am opposed to asking for tenders when there is no possibility of the wharf going on this year. It is a perfect farce to deceive the public in this way. There is no dredge to be had nearer than New York."

Ald. MacRae said he was informed that a dredge could be obtained as soon as authority was given. He believed, judging by the way the I. C. R. pier was built, that the work could be completed. He moved that the plans be taken up.

The motion to take up the plans was carried. Ald. Bullock, MacRae, Lewis, Holder, Baxter, Pickett and McGoldrick voted aye; Ald. Vanwart, Tilley and Sproul, nay.

On motion of Ald. Pickett a request from J. G. Jordan, clerk in the commissioners' office, for increase of salary, was referred to Ald. Pickett, Sproul and Vanwart.

The plans for the west side were then examined and explanations given by the engineers.

Ald. MacRae moved that the plans be referred to a special committee to report to the council. Carried. The following were appointed: Ald. MacRae, Baxter, Bullock, Tilley, Holder, Pickett, Frink, the director, harbor master and engineer.

The same committee will also prepare a scale of tolls and charges for the west side, to be submitted to the board at the next meeting.

The chairman said the owner of the steamer Elaine wanted to erect a warehouse, 18x20, on the side of the public wharf, Indiantown. He did not believe they had any authority.

Ald. MacRae said the warehouse would be an advantage. He understood the cost would be $200, and a rental of $25 was offered.

After further discussion, Ald. Bullock, MacRae, Holder, Lewis and Baxter were appointed to make a report.

The chairman said Messrs. Fleming had communicated with him regarding the new ferry. He understood Mr. McLean refused to examine the boat before leaving, as he claimed there was still work to be done. They wished to get clear of the watchman and insurance, and said there was no reason now why the boat should not be taken off their hands.

Ald. Baxter asked that the contracts with Messrs. Fleming and Mr. McLean be read. This was done and after considerable discussion the matter was left to the chairman and director to take whatever action the recorder might advise.

The contract for the boilers and engines for the hoisting scow was awarded to the Union Foundry at $1,095. Ald. Baxter and Bullock, with the director, were appointed to arrange for time of delivery, etc.

An application from McLean, Holt & Co. with reference to the siding to their new premises on Courtney Bay, was left to the director.

An offer from Wm. Thomson & Co. to pay $33.35 for damages to the steps of North wharf was accepted.

Soundings will be taken at Sand Point and the dredge put to work as soon as the ferry slips are cleared.

The director was authorized to call for tenders for coal.

DEANERY OF ST. JOHN

The quarterly meeting of the St. John Deanery, Church of England, was held at Welsford yesterday, those present being Revs. G. A. Kuhring, A. G. H. Dicker, G. R. E. McDonald, Leo. A. Hoyt, Dr. W. O. Raymond, A. D. Dewdney, and Mr. Colston, the latter rector at Welsford. After religious services, routine business was carried out and an animated discussion respecting the proposed new hymnal for the Church of England in Canada took place. The next session of the deanery will be held in St. Mary's church, this city. The visiting clergymen were entertained at lunch by Mr. Colston.
