This New "Shari" Beauty Cream

One gains an idea of the Art practised by the creator of Shari Cleansing Cream by the methods of Monsieur Langlois in preparing Perfumes.

The inventor of Cara Nome worked out his Shari fragrance in this manner. Years of untiring effort—in the foothills of the sea faced Alps, protected from mistral winds and warmed by constant sunshine in the quaint little section of Grasse. Here among the highly scented flowers, the Rose, the Jasmine, Violets, Orange Flowers and Lilac. These flower oils, with many others, are intermingled in delicate harmonies—and the result is Shari.

Shari Beauty Cream was contrived as a skin food and complexion tonic. Stimulates the muscular fibres, beautifies, refreshes and rejuvenates the skin. Prevents premature wrinkles. Neither greasy nor sticky, it is an ideal base cream for face powder, guarding against sun and wind burn and freckles, etc. Will not promote hair growth. Before retiring cleanse the skin with Shari Cleansing Cream. Then pat Shari Beauty Cream into the skin. With gentle massage it revives flabby or shrunken tissues, firms and smooths everywhere. Beauty Cream $1.50. Cleansing Cream, $1.00.

WORK IS BEGUN ON NEW CHURCH AT WESTFIELD

Catholic Edifice for Summer Residents and Vacationists in Vicinity

Construction of a new Catholic church between Westfield and Lingley stations on the Westfield road was begun this week. It will be ready for occupancy in about six weeks, according to replies to queries made this morning by His Lordship Bishop LeBlanc.

His Lordship said that the church would serve Catholic people summering in the vicinity. It was not the intention to create at present a new parish in Westfield, His Lordship added, but the church was being built to accommodate people from the city and elsewhere who spend their vacation or reside in that locality during the summer months.

Asked if the new church would be attended by a priest from the city Bishop LeBlanc said that this matter had not been yet gone into. There will be no resident priest for the present at least.

TO SEAT 200.

The church, according to plans drawn by J. Flood & Sons, the contractors, will be of wooden structure with fire proof roof.

It will be 48 by 28 feet, with vestry attached and will have a seating capacity of about 200. The foundation is to be of concrete. When completed it will be a modern country church.

It is understood that the interior finishing will not be completed this summer but the building will be brought to a stage of completion to allow for services before the Autumn.

TAKES HOME FINE OPINION OF N. B.

New York Visitor Says Province Can be Made Great Tourist Resort

That New Brunswick has a great opportunity to become a famous tourist resort is the opinion of W. deL. Cunningham, of New York, who with his son, Francis, paid a visit to the Tourist Association bureau, Market square, yesterday.

Mr. Cunningham and party, who have been traveling through New Brunswick for two weeks, expressed themselves as delighted with the natural scenery, the excellent conditions of the roads and the fine fishing they have enjoyed. Mr. Cunningham remarked that the advertising being done by the N. B. Tourist Association in the New York illustrated papers was attracting much favorable attention to this province.

"If you will just tell our people in New York about your wonderful fishing lakes and streams, your natural scenery, the courteous hospitality of your people and the very complete detailed information your Eourist Bureau is sending to all inquiries, you will very soon make New Brunswick a famous summer resort for American tourist parties," concluded Mr. Cunningham.

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and forces its way through the gorge of the Falls, creating a "Falls" running up river.

At low tide the water in the Bay becomes so much lower than that of the river, that the fall of water is reversed and flows down river into the Bay.

At half tide, when the level in the Bay and River are about equal, the Falls disappear entirely, and the water at the Falls becomes smooth as the surface of a lake.

To fully appreciate this wonder of the world it should be seen at all three stages.

The best time to view this phenomenon is:

As Hiram Sees It

THE SETTLEMENT:—If you go up Long Reach in the daytime you'll see gals an' boys bathin' at the beaches here an' there along the river—an' you'll see tents here an' there along the shore—an' folks settin' on the verandys o' cottages—an' everybody happy. If you go along at night you kin see bonfires on the beach—an' if you're old you wish you was young agin. But what you see aint nothin' to what you orto see on Long Reach. Some day that there Valley Railroad 'll wake up an' run trains to suit the people—or somebody 'll put on a reg'lar 'bus service an' advertise it so people 'll know about it in time to make their plans—an' then you'll see cottages spring up like mushrooms. Some day the 'll be hotels—an' folks from Ontario an' the States 'll hev summer homes—an' the river 'll be alive with craft of all sorts. It's ony an hour from Saint John to Brown's Flats—an' miles an' miles o'shore afore you git that fer. An' they aint nothin' to beat it—nowheres.

Although Mr. Porter could not be communicated with today, as he was out of the city, it was said that he will conduct the Victoria alleys in addition to the Imperial. Mr. Porter has secured an 11-year lease of the section of the Magee building in which the Victoria allays are located.

MR. LEGER SPEAKS ON AMUSEMENT TAX

Provincial Secretary, Here Today, Refered to Phases Under Change Made

Hon. A. J. Leger, provincial secretary, who passed through the city after the Grand Falls celebration today, told a Times-Star reporter that while it was rather early to determine the volume of increased revenue from the amusement taxes recently readjusted, he felt certain there would be an appreciable change. This would particularly apply to the Saint John situation where higher priced seats were sold and where the largest number of important traveling shows would probably play. However, it would not be until next year that the full benefit of the new law would be felt. As concerning the new taxes on other forms of amusement such as bowling alleys, billiard halls, etc., the plan for collecting these was now being organized and would become effective probably with the opening of the cold weather season.
