CUSTOMS SPOTTERS

Are Causing a Good Deal of Agitation at Windsor—Merchants are Furious Because of Loss of Trade.

Windsor, Ont., Nov. 14.—The case of James Carney, the United States customs officer, who was seized by a county constable in Windsor and compelled to return across the river, was taken up by United States Consul Carr to day and laid before the police magistrate. Carney explained that he had been watching some people who were suspected of smuggling, when the officer, whom he had since found to be County Constable Nevin, took him by the arm and told him to go back to Detroit. Carney desired to lay information against Nevin for assault, but the chief of police warned him that he himself had been guilty of an indictable offence in following people around, and that he had better be careful how he acted. He turned to a section of the criminal code of Canada, which says that persons who watched places of business were violating the law, because it prevented persons from doing what they are legally entitled to do. It was conveyed to the magistrate that two men and two women had come across as customs spotters, and the firm believed they lost sales through their espionage. Thus, it was claimed, the customs officers had offended under the section of the act. The magistrate declared that he was perfectly willing to take the information, but he warned Carney that he would probably be obliged to undergo a pretty severe cross-examination. It was decided not to take out a warrant, but to leave the matter in the hands of the magistrate. Mr. Carr says, however, that if such a thing happens again he will have the law tested. Merchants claim that the American customs officers have prevented them from selling goods to Detroiters. They say that the officers watch the stores for hours and often go into the stores and watch the Detroiters buy. When asked what they want, the officers say they are waiting for a friend. The officers never buy anything. Merchants have sometimes ordered them out. Yesterday was not the first time a customs officer was made to leave the city. A few days ago one of them was given the alternative of a whipping or to leave the city, because he had been watching a woman. When the woman was crossing to Detroit she was detained at the customs office over an hour before the officers concluded that she was not a smuggler.

BURNED HERSELF FATALLY.

Mrs. Lunn Drank Coal Oil, Poured it on Her Clothes and Ignited It.

Cobourg, Ont., Nov. 14.—This morning Mrs. R. Lunn, after drinking a cup of coal oil, saturated her clothing with the same fluid and then set fire to herself. Before assistance could reach her she was terribly burned about the head and chest. At 10 o'clock to-night death relieved her of her sufferings. Mrs. Lunn was the wife of Mr. R. Lunn, a respectable citizen who conducts a laundry business here. Much sympathy is expressed for Mr. Lunn, who has been particularly unfortunate during the last few months, having lost one of his feet through accident.

Mildly Insane.

New York, Nov. 14.—Colin Campbell, a broker, living at 56 West 56th-street, who came from Newfoundland recently, and who was taken to the Insane Pavilion at Bellevue Hospital by his friend, L. G. Macky, last Wednesday evening, was discharged to-night under a contract of safe keeping signed by Macky. Campbell is suffering from mild dementia.

ACCIDENTS ON SATURDAY.

A Seven-Year-Old Boy Was Run Over and Killed.

CHILD BURNED TO DEATH.

Narrow Escape of a Young Lady Bicyclist From a Terrible End.

The Fender Picked Her Up, But She Fell Off and Conductor Graham Pulled Her Out of Danger Just as She Was to Pass Under the Wheels—Wagon and Trolley Collide on Queen-Street East and the Driver Injured.

A fatal accident occurred on Queen-street east, near Morse-street, at 5 o'clock Saturday afternoon, and the victim was little seven-year-old Jimmy Gorman, whose home was with his parents at the corner of Duchess and Parliament-streets.

The boy had been down in the East End and was returning home, and as boys often do, tried to climb on to the back of a wagon to get a ride. He was unsuccessful in his effort to board the rig, and when running clear of it had to turn aside to avoid a couple of bicyclists who were riding along the devil strip. In his efforts to steer clear of the bicycles the unfortunate boy did not notice the wagon of Richardson, Queen-street east grocer, and ran right into the horse. He fell, and the animal's hoofs struck him hard on the back of the neck. Willie Graham, a 15-year-old lad, who was driving the wagon, did his utmost to pull up the horse, but the child had come upon the scene so quickly that his efforts were fruitless.

Dr. Rowan was passing at the time, and after the youngster had been extricated from beneath the horse's hoofs, pronounced life extinct. The doctor saw the occurrence and says that no blame can be attached to the boy Graham, as he did his utmost to prevent the accident. Mr. W. J. Chick of 107 Morse-street, another witness of the fatality, endorses the doctor's statement as to the efforts of Graham.

Coroner Aikins viewed the remains and issued a warrant for an inquest at the Poplar House on Monday afternoon, but after investigating the circumstances he hardly thinks any inquiry will be necessary, and that the lad's death was purely accidental.

The body was taken into Walton's drug store and afterward removed to the home of the stricken parents.

Wagon and Trolley Collide.

Broadview car 328 was going west on Queen-street at 3.15 yesterday afternoon, and when near the corner of Sackville-street an express wagon belonging to W. Conen, 1017 Queen-street west, was coming east and crashed right into the front of the car. The smash was a terrific one, and in it the wagon was demolished and the car will be laid up for repairs until a new vestibule is furnished it. F. Horton, the driver of the wagon, was cut and bruised, and Motorman M. Rooney was somewhat seriously injured and had to be taken to his home.

A Little Girl Burnt to Death.

About 10 o'clock Saturday morning Georgina, the 5-year-old daughter of Mrs. Frank Scott, of 15 Hagerman-st., was burned to death. Mrs. Scott, when she went to work left her two children in the care of Mrs. Dancey, who lives next door. Mrs. Dancey went to market, leaving the two children alone. Just how the fire, which caused the death of the little girl occurred, is not known. The other child, 3 years of age, was uninjured, although her clothes were nearly burned off her. There was a quantity of dressmakers' paper patterns around which the children had been playing with. Coroner Aikins issued a warrant for an inquest, but subsequently withdrew it.

Lady Bicyclist Injured.

Miss Noden of 80 Seaton-st., was riding on her bicycle Saturday after noon accompanied by her brother, Mr. F. Noden, who was also wheeling. They were crossing Yonge at Richmond-st. when Miss Noden was struck by a College and Yonge car. The fender picked her up and a portion of the big Saturday Yonge-st. crowd rushed forward to rescue her from her perilous position. Before the car could be stopped she fell off the fender and was only saved by Conductor Graham just as the wheels were about to pass over her.

The injured lady was picked up and carried into N. C. Love & Co.,s drug store and Dr. Hamill, who was near by, attended her. She was cut and bruised, and complained of an injury to her back. The police ambulance removed her to her home.

TWO KILLED ANOTHER WILL DIE.

Terrible Explosion of Dynamite at Niagara Falls Power Company's Works on Saturday.

Niagara Falls, Ont., Nov. 14.—A terrible dynamite explosion took place at Niagara Falls, N.Y., at 8 o'clock this morning, at the works of the extension of the wheel pit of the Cataract Construction Company, situated on the upper river. The dynamite was in a temporary frame building, about 20x30 feet, used also for offices of E. D. Smith & Co., contractors of the extension work. From the effects of the explosion two men lost their lives, while three others are badly injured and will probably die. Seven or eight more are more or less badly injured. The two men who are dead are so lacerated and torn that death must have been instantaneous. Their names are Hakken Hanner of Pottstown, Pa., who was superintendent of construction and was in the office when the accident occurred. He was blown through the side of the building, which was ripped into splinters. Hanner leaves a wife and two children. The other man was colored, his name being Reynolds, and was working with the dynamite, capping the cartridges, when the accident occurred. His body was frightfully mangled, the head being torn from the body, and his brains scattered in all directions. This man was an expert in loading dynamite cartridges, having prepared all the dynamite for the tunnel works construction, in which thousands of pounds of dynamite were used. The three men whose lives are despaired of are as follows: Albert Pickett, stonemason, Chicago; Charles Baker, and John Barton, engineer and fireman of dinkey engine and residents of Niagara Falls, N.Y. The explosion was plainly heard for miles around, and broke every pane of glass in several blocks. The cause of the accident is unknown, and probably never will be known, as the only men in the building are both dead.

Important to Druggists.

Messrs. L. A. Wilson & Co. of Montreal, sole agents for Canada for the celebrated "Vin Mariani," have issued the following news to the drug trade of the Dominion: "We are pleased to acquaint the drug trade of the Dominion that we have finally succeeded in settling the 'Vin Mariani' question in so far as the duty, etc., are concerned. We may also add that Messrs. Mariani & Co. have instructed us to expend twenty-five thousand dollars ($25,000) in advertising their tonic wine. We therefore trust that the drug and medical profession will second our efforts by suppressing imitations and substitutions (so-called coca wines) which have been found worthless and frequently harmful."

DRESS GOODS SILKS and FANCY WORK.

... THE STORE'S LEADERSHIP...

YOU LIKE to know the big store as a place where you can get everything that is wanted—for the home and the individual. We want it ever to be so, and the trend is to broaden in this direction.

But, primarily, first of all, you know Simpson's as a great dry goods house—selling the lines that are distinctively dry goods as no one else has done or is doing. Simpson's leadership in Dress Goods and Simpson's supremacy as a Silk store have been known to the best shoppers in Toronto and the country for nearly a quarter of a century.

We want to emphasize this side of the business in to-day's store news by telling of an important sale in Dress Goods, Silks and Fancy Work now going on—these departments all centrally located and occupying important space on the main floor.

Why this daily talk of Mail Orders? Because we are anxious that out-of-town shoppers should know as much about this business and receive the gain of its unusual values as fully as those who reside within easy reach of Toronto. The staff in this department, to use an every-day expression, are kept hustling these times, for the mail order department has obtained the completest confidence of thousands of shoppers all over the Dominion.

"Old Reliable," belonging to Mr. Maidlow of Elliott-street, on Saturday won a silver cup in a match race with birds belonging to Mr. Ayre, Mr. Page, Mr. Newberry and others for untrained pigeons. Mr. Maidlow's bird flew 17 miles in 23 minutes and won by 3 minutes.

Out at the Junction.

Toronto Junction, Nov. 14.—(Special.)—The West York License Commissioners met here this afternoon to consider the transfer of a license from Mr. Munns, retail liquor dealer in Bathurst-street, York township, to Mr. H. A. Looney of Toronto. The board decided to hold the transfer over for further consideration. Mr. Albert Shaw of Lambton Mills has also applied to the board for a transfer of license to Mr. Thomas Smith.

A horse was found lying on its back with its head near the Ontario-street sidewalk near Humberside-avenue last night. Attached to it was a buggy overturned, and under the buggy was the driver, Mr. O'Brien of Toronto. The horse took its position coolly, which was fortunate, as the driver was not hurt, nor was the buggy much damaged. O'Brien had upset into a gully about ten feet deep, and on being rescued from his plight Muir's livery, at the corner of Ontario and King-streets, was telephoned to and a man sent to take the outfit back.

Mr. Charles Kelly of the Occidental Hotel entertained about fifty guests to a dance and supper last night. The dance continued until about 3 o'clock this morning.

Portadown Lodge No. 10 of the Sons of Ireland Protestant Association and Wadsworth Home of the Daughters of Ireland purpose giving a union concert in Kilburn Hall on Monday night.

The annual meeting for the election of trustees of the Annette-street Methodist Church was held last night, when the following members were elected: L. W. Joy, Thomas Wright, G. Edgar, A. Fennell, J. W. Fullerton and J. Beatty, who was also appointed recording secretary.

Considerable interest is manifested by ratepayers of York township in the Union school section with Toronto Junction as to the extent of their liability to the bondholders in the event of the town not paying any principal on the general debentures, which were taken by the bondholders in lieu of the school debentures. By the Consolidation Act of last year the town is freed from paying any principal on debentures for ten years, and has not paid any principal on school debentures since 1894. The township portion of the school section, however, has paid to the town its share of both principal and interest on the debentures. The money goes into the general fund of the town, and is paid in interest only on the general debentures. What the township ratepayers would like to know is: After paying principal and interest regularly to the town, will they be freed from any further liability when their bonds would have matured, in the event of the town not having paid anything on principal at that time? No matter what arrangement the town section may make with the bondholders in regard to their debt, the township stands to pay its share in full in any event, and that before it is due.

At Mimico.

Mimico, Nov. 14.—(Special.)—About 30 girls from the Huron-street Public School, Toronto, paid a visit to the Industrial School this afternoon. They were shown through the various buildings of the institution by the superintendent, Mr. Ferrier, who until last September was principal of the Huron-street School. Before leaving, a peep at the conservatories was taken, and each girl took away with her a bunch of chrysanthemums as a souvenir of her visit.

Miss Tremayne, who accidentally sprained her ankle in getting off a bicycle, is able to move about with the aid of a crutch.

The season for herring is now fairly entered upon, and local fishermen report the catch better than for several years past. When D. L. Hicks & Sons of Humber Bay took up their nets this morning they had a catch of over 600 herring and "frosties." The report of the catch has spread to many fishermen who had put away their nets with the close of the whitefish and trout season, and, as a consequence, the bay to-night is dotted with many more buoys than it has been for some time. This activity in fishing circles will likely continue until frost prevents the fishermen laying their nets.

A meeting of the Industrial School Board was held yesterday afternoon. The report of the treasurer showed that the maintenance account for the past three months was $4819.78. The average number of boys for three months was 120, and the cost per head $3.09 per week. Superintendent Ferrier's report gave 122 boys on the school roll. He recommended that heating apparatus for the gymnasium should be procured, and that corporal punishment might be inflicted by the college officers in his presence. The report was adopted without amendment. The idea of committing boys to the school for truancy was discussed, but no conclusion arrived at. A committee, consisting of Messrs. Jones, Chapman, McPherson, Burton, Starr and Ald. Crane and Jolliffe, was appointed to confer with the Government as to the advisability of admitting boys for this offence.

Mr. Hughes Explains.

Editor World: I notice a paragraph in your issue of yesterday relative to me which is misleading. My horses are placed in my own field, but, on account of people traveling across, they leave the wires down, and my horses get out or they are let out purposely. I have a great deal of trouble on this account, as I have to lose my time looking for them. They invariably come out to the village. I have two fields and have no necessity to turn my horses loose, as your writer says. Neither do I want to have them troubling my neighbors. They are often let out of the field at night, as I have put them in at night and put up the bars and have found the bars down in the morning, and the horses could not take them down in the way they were down. A Visitor From Seine River.

Mr. Frank N. Gibbs, manager of the Lake Harold mine, in the Seine River region, is at the Queen's. Talking to The World last evening he stated that mining is booming in that district. The Lake Harold Mine Co. will as soon as the ice comes out in a 15-stamp mill and start a gang of 50 men to work.

At a depth of 25 feet the Hawk Bay vein has increased in width from 4 feet on the surface to 6 feet.

On properties owned by Sir William Van Horne and other C.P.R. magnates a 60-stamp mill is to be put in place next week. The vein in their land, Mr. Gibbs says, is fully 100 feet wide, with showings of from $6 to $60 a ton.

In the Shenandoah district discoveries are being made. Here New York and Winnipeg syndicates are preparing to operate.

Firstbrook Clark is under arrest on the charge of housebreaking. John Cameron, 225 Sumach-street, is the complainant.
