DEPORT THE BAD BOERS IF MISCHIEF KEEPS UP

Greatest Trouble in South Africa is Reconciliation of Boers With Boers.

London, July 30.—In the House of Commons to-day during the discussion of the Colonial Office vote, replying to a bitter attack on the government's policy and Lord Milner's administration of South Africa, by Mr. Markham, Liberal, in the course of which he charged that affairs were growing worse, Colonial Secretary Chamberlain lengthily defended the administration of South Africa. He said the greatest difficulty was not the reconciliation of the Boers and Britons, but the reconciliation of the Boers with the Boers.

The Secretary then called attention to the fact that the Boers were making every effort to develop the country and were forming local agricultural associations, of which the chairmen in many cases were former leaders of the Boer forces. Mr. Chamberlain admitted that much remained to be done, and said that if it was found that the work of pacification was prevented by irreconcilables, the government would not hesitate to use its strong power to deport the mischief-makers.

HUNGARY'S BRIBERY CHARGE.

Public Prosecutor Institutes Proceedings Against Ex-Deputy.

Budapest, July 30.—The third session of the Lower House of the Hungarian Diet yesterday (after two suspensions due to disorder in the house) lasted until the early hours this morning. At midnight the obstructionists withdrew, singing the national anthem, and declaring that any further sitting would be illegal, as Wednesday's sessions ended at midnight and Thursday had not been called in form. The majority after having cheered the departing members adopted Premier Hedervary's motion, providing for the reading of the indemnity bill. The house subsequently adjourned until Friday.

It is reported that the public prosecutor has instituted proceedings against former Deputy Itienes, who was charged by Deputy Zolman Papp in the house yesterday with attempting to bribe him with 10,000 kronen in cash to desert his fellow obstructionists and leave Budapest.

Smith arrived on the steamship Havana from Vera Cruz five days ago and was taken to the hospital two days later. The ship sailed again before the Board of Health was notified, but so far as learned there were no other cases of sickness on board.

Seal Fishery Depredations.

Seattle, Wash., July 30.—Captain H. H. Nice charges the fishermen on Japanese vessels with the disappearance of seals on the Pribyloff Islands. He says American and Canadian fishermen masquerade under the Japanese flag and shoot seals instead of spearing them, which causes the bodies to sink rapidly, so that many are killed to no purpose.

How Iron-ox Tablets Completely Cured Jas. Huston of 20 Years' Serious Trouble.

January 27, 1903.

I cannot express in words the praise that is due to Iron-ox Tablets, which I got as a trial package from our druggist, Mr. McDonald, who told me they were just what I wanted. I took them more for fun, but before I had finished one box I got great relief. I was subject to great misery after meals, with bloating, and would rift up bile of the bitterest taste, and always woke up in the morning in the same way for the last twenty years. Had tried all medicines, but now I am completely cured, and it was by taking Iron-ox Tablets. Words cannot express my gratitude to you.

JAS. HUSTON,
Victoria Hotel, Virden, Manitoba.

Fifty Iron-ox Tablets, in an attractive aluminum pocket case, 25 cents at druggists, or sent, postpaid, on receipt of price. The Iron-ox Remedy Co., Limited, Walkerville, Ont.

MUSTN'T WRITE ON NEWSPAPERS

Sent as Such Thru Mails, or Penalty May Follow.

A warning has been running thru the rural press concerning the frequent writing on newspapers which go thru the mails, and stating that inspectors were now watching for infractions of the law.

To The World yesterday, Postmaster Patteson said that there was always a certain amount of this sort of correspondence going on among people who sent newspapers to their friends, but who did not send them letters. He said that it was also a very common occurrence to find kid gloves done up in newspapers. At stated times men were detailed in the various offices thru the country to open and examine all papers coming thru their offices, and where they find either articles enclosed or writing on the papers their instructions are to confiscate the articles and send the newspapers to the dead letter office.

While preparing to portage two canoes were upset and the occupants thrown into the swiftly running current. Joseph Leclaire of Nottawa went down never to rise again. Mr. Peterson of Haileybury and Rockcliffe Linton of Aurora were pulled out of the river about a hundred feet above a water fall.

The drowned man leaves a wife and eleven children. With Mr. McCribbin's party were three students of Toronto University; Arch. Gillies and Ardagh Gilbert of St. Thomas, and R. C. Ross, Welland.

Mr. Conmee's Ambition.

Under the redistribution district No. 25 shall constitute the territorial districts of Thunder Bay and Rainy River, and shall return one member, says The Fort William Times-Journal, and from now until the Federal elections are called we can therefore look for more or less political talk, and especially in regard to candidates. It seemed to be generally conceded that James Conmee, M.L.A., had a lead pipe cinch on the Liberal nomination, but The Times-Journal is informed that a new Moses has appeared in the person of J. A. Osborne, formerly of Fort Frances, late of Brandon, and now of Fort Frances. Mr. Osborne is an owner of two newspapers in the district, one at Fort Frances and one at Rainy River. He has only lately sold his interest in The Brandon Sun, moved back to his old home, and taken personal charge of The Fort Frances Times. What would be more natural than for him to aspire to represent this district in the House of Commons? He has always been a consistent party man and to an outsider it would appear as tho he has some claims to distinction at the hands of his party. It may be after all that Mr. Conmee may not have such a smooth trail to follow to the Commons as many of his friends would like to believe.

The Times also says the labor organizations may put a candidate in the field.

UPRISING IN SANTIAGO REBELS ARE UP IN ARMS

Reports Confirmed by Officials and Guards Have Been Called Out.

Havana, July 30.—In spite of the assertion made yesterday by Senor Yero, Secretary of the Interior, that the killing of three men and the capture of a fourth man, their leader, who had attempted to cause an uprising in the vicinity of Bayamo, Province of Santiago, effectually ended the only semblance of an uprising in Cuba, the rumors of uprisings in Eastern Cuba were fully confirmed to-day in the government's reports received from the governor and other officials of Santiago Province. These are to the effect that since the night of Sunday last sixty armed and mounted men have appeared outside villages in the Cauto River district, proclaiming a revolution and demanding the payment of the former members of the revolutionary army. No acts of violence have been reported, but the inhabitants of the Cauto region are excited. The leader of the revolutionary party is named Pupo. He is a brother of one of the bandits killed by the rural guard on Tuesday.

Gen. Rodriguez, commander-in-chief of the rural guard, has ordered the mobilization of all the rural guards in Eastern Cuba, and the governor of Santiago Province has been instructed to enlist as many volunteers as may be deemed necessary, to co-operate with the mounted troops.

Secretary of the Interior Yero says there is no doubt that the authorities will be able to cope successfully with the situation, as all reports, he adds, agree that popular sentiment is with the government of President Palma, and that those who have risen in rebellion mostly belong to the wanton lazy class of Puerto Principe.

It is reported that many volunteers are offering their services to the government.

Up to this afternoon no further information had been received here regarding the uprising. The rural guards have begun to patrol both sides of the Cauto River in the search for rebels.

The military and civil officials have not yet reported the numbers, location and doings of the rebels within any degree of exactness. Farmers who have arrived at Victoria de Las Tunas, the centre of the disturbed district, report that they have not seen any armed men.

CONDUCTOR HARGRAVE'S FUNERAL.

The funeral of the late Conductor Edward Hargrave took place yesterday afternoon from his late residence, 471 Bathurst-street, to Mount Pleasant Cemetery. The funeral was under the auspices of the Order of Railway Conductors, of which he was a good member. He was also a member of the United Workmen. The religious service at the house and grave was conducted by the Rev. E. N. Baker of Broadway Tabernacle, who spoke very feelingly of the deceased, and in the highest terms of his exemplary character. The impressive ceremony of the Order of Railway Conductors was performed by Chief Conductor Bro. Gray. The pallbearers were: Bros. C. Stunt, T. Hassard, W. Finlay, H. Hasket, W. Stain of Toronto; T. Beasley of Hamilton, of the Order of Railway Conductors. The floral tributes from friends and the organization were beautiful. Mr. Hargrave, who was for 30 years on the northern division of the G.T.R., leaves a widow and six children to mourn his loss, and much sympathy is felt for them by his many friends. J. W. Webster, who was for some years superintendent of the northern division, and made Mr. Hargraves a conductor, attended the funeral.

Dubec, the animal trainer, closes his engagement this Saturday night. The performance he is giving excites much wonderment, and amusement. His dogs and monkeys create more fun than any company of actors.

Rossland, B.C., July 29.—Robert Arthur, Louis Rumple and Charles Nepp have been arrested, charged with stealing diamonds worth $6000 from Sid Scott. All are gamblers. The police searched their rooms, finding a watch, razors and suspenders positively identified as goods taken from Bannet's store, gutted by fire Sunday morning. The theory is that the men robbed the store, then fired the premises to hide their crime.

Grand Chief Engineer Youngson Dead After 13 Days in Office.

Meadville, Pa., July 30.—A. B. Youngson, grand chief engineer of the Brotherhood of Locomotive Engineers, who has been ill with Bright's disease at the city hospital since July 20 last, died this morning. Previous to his death he named M. H. Shay of Youngstown, O., as his successor. He was born in Pittsburg in 1849, and succeeded to the position of grand chief engineer on the death of Chief P. M. Arthur on the 17th of the present month, holding the position but thirteen days.

M. Arthur and A. B. Youngson, deceased. The fact that Mr. Youngson, just before his death, nominated H. M. The numerals marking the various hours will be fifteen feet in length, and made of bright-colored coleus. In a broad circle surrounding the dial will be twelve flower beds, one opposite each hour, and each two feet and fifteen feet long. At night the timepiece will be illuminated with two thousand incandescent lights.

Newark, N.J., July 30.—Joseph M. Riker, president of the Merchants' National Bank, gave out a statement today to the effect that Edward J. Smith, former discount clerk of the bank, was short in his accounts to the amount of at least $10,000. Smith was discharged from the bank two weeks ago. Mr. Riker says that after Smith had been discharged it was learned that he had disappeared, and the suspicion of the bank officials was aroused. Smith had been employed by the bank for 28 years, starting as an office boy. Efforts will be made to obtain his arrest.

Ingersoll Chronicle: Now that the Grand Trunk Railway has decided to invade the territory of the Canadian Pacific in the Northwest, the latter company have determined, so it is said, to carry the war into Africa, and will become competitors in the Grand Trunk territory for local traffic. Realizing the richness of the Huron tract, the C. P. R. have determined to tap this territory, which has hitherto been monopolized by the Grand Trunk. TO HOLD UP FOOD CARGOES.

U.S. Government Will Apply Test Prescribed By New Law.

Washington, D. C., July 30.—Exporters of food products to the United States will soon begin to experience the effect of the new pure food law passed by the last congress. Dr. Harvey W. Wiley, the food expert of the Department of Agriculture, has asked Secretary Shaw to have several cargoes of food which are bound for United States ports held up until the Department of Agriculture can test them and discover whether they should be barred out under the provisions of the law against the admission of impure, adulterated, and mislabeled foods. If these cargoes are impure they will not be admitted to the United States.

Dr. Wiley says: "I have asked the privilege of examining only such products as spices, peppers, canned goods, cheese, and other articles of the sort under suspicion in the past. There would be no reason for testing rice, sugar and similar products, which are seldom adulterated. All the cargoes which we wish to investigate are still on the sea."

When Corsoe fell Montanino ran, pursued by the negroes, who captured him in Chelsea. A boy notified the Revere police of the fight, and the body of Corsoe was found with five stab wounds in it. One hand still clasped a blood-stained knife.

Montanino, after his arrest, admitted he "cut" Corsoe, but claimed Corsoe had attacked him. Montanino has a stab wound over the heart, but physicians do not consider it dangerous.
