International Trotting.

New York, Feb. 5.—The following despatch has been received from Nice: It seems to be absolutely settled that we are to have trotting races here. The Comite des Fetes has given 15,000 francs, M. Ourouroff 3000 francs, Prince Serge Galitzine 2000 francs, M. Portois 1000 francs, the Mayor of Nice 3000 francs, and the Mayor of Cannes 500 francs. Then an American gentleman has given 10,000 francs for a race, in which the conditions will be free entry and free weight. Another prize of 5000 francs is given conditionally, with the understanding that the Mayor of Nice gives the same amount, which he will in all probability do.

The club is to be run under the auspices of the Cercle de la Mediteranee, and will be called the Trotting Club du Littoral. The instigator of the movement was Duke George of Leuchtenberg, who has accepted the position of Hon. President, while Prince Serge Galitzine will serve as the active President. The feeling among the leaders is that the races shall be held toward the end of March.

This afternoon a very important meeting was held by the committee of the newly-organized trotting club, the official name of which is "Le Trotting du Littoral." Duke George of Leuchtenberg presided.

There were present, besides Prince Galitzin, Mr. James Gordon Bennett, Mr. Xantho, Baron de Bucan, Vicomte de Marliere, the Mayor of Nice, M. Gautier, Baron Springer and M. Ammel, the honorary secretary.

One of the principal subjects discussed was the international races, to take place at the end of the meeting, for which 10,000 francs have been offered for a race open to all comers having a record under 2 min. 30 secs. This race will be the best three heats of one mile each, and will take place April 7.

On April 9 a consolation handicap for which an international prize of 10,000 francs will be given, same distance, free entry and free class.

The international prize of 4000 francs will be trotted over one mile and a half.

Speaking of the question of American trotters being able to cover a greater distance than the usual one mile course, Prince Galitzin, this evening in a private conversation, drew attention to the fact that at a certain time, in order to stimulate Russian trotting races in Russia, had been thrown open to American horses just the same as to Russian ones, and the result, in spite of the contests having been over much greater distances, was that the American horses swept the board.

A further note of interest to the meeting was a letter, in reply to one of Prince Galitzin's, asking what the chances were of Berlin horses competing, saying that if the Nice propositions were sufficiently tempting it was highly probable that Mr. Fleischman of New York would send over his stable of six trotters from Berlin to compete.

Trotting at 20 Below Zero.

Montreal, Feb. 5.—The intense cold prevented the opening day of the meeting of the Jacque Cartier ice track from being a success, and the result was that the principal event of the day, the 2.50 class, was postponed. It was 20 below zero. The only races completed were the two-mile and the 4-year-olds and under. There was a very poor attendance. Summary:

Two-mile heats, 2 in 3—Rebus 1, Sorrel George 2, Folly 3. Time, 5.26, 5.24 1-2.

Four-year-olds and under—W. C. B. 1, Nypandic 2, Sheriff Muscow 3. Time, 3.02 1-2, 3.04, 2.57, 2.58.

First Day of Port Hope's Ice Meet.

Port Hope, Feb. 5.—3-minute race—Lulu B. 1, Lady Ryedick 2, Alive 3. Last Chance, White Stockings and Jesse Stanton also started. Best time 2.38 1-2, 4 heats.

Named race—Lady Legacy, 1, Furioso 2, Mary Watson 3. Bird L. and Nellie Gray also started. Best time 2.45 1-4.

Always on Hand.—Mr. Thomas H. Porter, Lower Ireland, P.Q., writes: "My son, 18 months old, had croup so bad that nothing gave him relief until a neighbor brought me some of Dr. Thomas' Eclectric Oil, which I gave him, and in six weeks he was cured. It is the best medicine I ever used, and I would not be without a bottle of it in my house.

Only Three Defenders.

New York, Feb. 5.—At the present time it seems very likely that there will be only one cup defender built to meet the Valkyrie III. and that the Vigilant and Colonia will make the three defenders to contest in the races for the honor of defending the cup, says the New York Commercial Advertiser. The new yacht, which will be launched inside the next ten weeks, will be more like the Colonia than like the Vigilant, in that she will be a keel boat. The Vigilant will arrive here from abroad in the latter part of May or first of June, and the trial races will take place in August.

The Parisian chess expert, M. J. Taubenhaus, completed his American tour last night at Boston by beating 13 of the 17 members of the Boston Chess Club, who engaged him in simultaneous games. A. H. Smith and H. G. Daniel won their games, and T. Hovey and C. G. Towne drew.

DOORS MADE OF GLASS.

But They Have Every Appearance of Highly-Polished Wood.

Two Boston inventors have secured a patent for a process of making glass veneers which have many peculiar properties. This invention relates primarily to the production of ornamental glass which may be either semi-transparent or opaque, and is made to represent highly-polished wood of any description. It is intended to be applicable for veneering wherever required and is particularly adapted for vestibule and other doors, the exterior of the glass having the appearance of highlypolished wood, while in the interior of the house it will appear semi-transparent. In carrying the invention into practice, a sheet of ground or plain glass is taken of any desired size and clouded the same on one side with a liquid dye of the proper color to represent any desired wood, which dye is applied by means of a sponge for delineating the grain of the wood so as to appear upon the surface of the glass. The shading is softened by means of a badger brush. Photographers' varnish is then caused to flow on the glass, and leaves the grain clear and fast without the necessity of using any gelatinous substance, which would render it liable to crack and spoil the effect. To complete the operation the glass is then slightly heated, and the varies shades of dyes required for the particular wood to be represented are caused to flow over it by means of a syringe. The glass is heated in order to prevent the shadings from merging into each other. The whole is then made semi-transparent by applying another coat of photographers' varnish, so as to prevent the dyes from being effaced, while the exterior surface presents the appearance of a highly-polished solid wood finish.

Awaiting the Reserve Case.

Brampton, Ont., Feb. 5.—The now famous Giles' pool room case drags wearily and slowly along. It will be remembered County Judge McGibbon found Giles guilty of keeping a common gaming house subject to a reserve case, which has not yet been reached in Toronto. Giles was to come up for sentence here to-day, but until the Toronto judges give their decision upon the reserve case, Judge McGibbon will defer sentence and enlarge the case still further.

The costumes were well made up and generally of the unique order. Thee procession started at the club house and wound up at Dingman's Hall, where refreshments were served and the merry wheelmen held their second annual at home. Besides the members their friends were present in large numbers, and a jovial time was spent in the engaging waltz.

Tips From Wall-Street.

The market closed steady.

Wormser bought Distillers in the morning.

London is disposed to sell St. Paul.

Earnings of L. & N. for fourth week of Jan. decreased $1440.

It is calculated that earnings of Northwestern for fiscal year ended May 31 equal only 2 1-2 per cent. on the common stock.

The most active stocks to-day were: Sugar 41,000, C. Gas 23,600, St. Paul 14,100, N.W. 7100, J.C. 1500, Reading 1500, Mo. P. 1700, L. & N. 7700, R. & Q. 4000, Distillers 7000, Manhattan 1800, G.E. 3900.

Henry A. King & Co. special wire from Ladenburg, Thalmann & Co., New York: This has been a day of speculative stagnation. The most important development was the news that the Senate Finance Committee had voted down a proposal to report a 3 per cent. bond measure. The committee is known to be in the hands of the silver men, and this action points clearly to the likelihood of the Senate's refusing altogether to act, thus forcing the Treasury to sell bonds. The only other news of importance was a statement that the old party in Chicago Gas are to retire from the management forthwith and will be succeeded by representatives of the Standard element. The exchange market is strong, but dull, rates for demand bills having risen to 4.89. This is partly sentimental and represents the influence of the current uncertainty in regard to the bond issue. The only stock in which the trading has been of any real interest was Sugar, the manipulations in it being designed evidently to lower prices. Exchange showed a further inclination to sell down at end of day, which looks more like an immediate announcement of bond issue.
