# WALL STREET FEELING RATHER MORE HOPEFUL

## Some Speculative Issues Subjected to Pressure, But General List Stands Up Well, and Shorts Cover Freely in Closing Hour of Trading.

New York, March 15.—Apart from a few speculative issues, which were susceptible to pressure because of peculiar and isolated conditions, today's stock market manifested a pronounced disposition to shake off the extreme depression of the last fortnight.

Shorts, it was observed, exercised greater caution, running to cover at the first signs of organized support in the more stable issues. This was especially the case in the active final hour, when many losses were canceled and a number of substantial net gains made.

Obstacles to general improvement in the early and intermediate periods of the session were presented by Atlantic Gulf, General Asphalt, United Fruit, Crucible Steel and several other shares of less definite character, these showing extreme recession of two to five points.

The rebound in the later dealings was led by United States Steel, Southern Pacific and some other issues of intrinsic worth. Affiliated stocks quickly reversed their course, together with a number of specialties, the movement being accompanied by the largest turnover of the day. Sales amounted to 600,000 shares.

### No Money Flurry.

Financial and industrial factors were not materially altered, but encouragement was expressed at the absence of a money flurry, such a development having been apprehended in some quarters because of the day's heavy federal tax payments.

The course of the foreign exchange market threw no new light on European conditions. Rates on London and Paris were moderately firm, with reactions of varying degree on Belgium, Italy and the so-called neutral countries, especially Sweden, Norway and Denmark.

Liberty issues featured a better and broader bond market.

## MARKET UNDERTONE SHOWS LESS SUBSTANCE

The Toronto Stock Exchange was quiet yesterday, and the undertone was not as strong as it was on Monday. Some selling developed in Canadian General Electric, and the price fell away over two points. The market heard that any talk of bonus was rumor and without any foundation.

Papers were irregular and developed weakness after a firmer opening. Steels were quiet and without much character. Cement was inquired for and had a good undertone.

A fair volume of business was done in Victories and other bonds, and prices in these issues were well sustained.

### NEW YORK CURB.

New York, March 15.—The curb market gave indications of a forthcoming boom in mining issues. Divide Extension sold briskly all day, attaining 64c at noon, and dropping off fractionally towards the close of the market. It was definitely learned from Secretary Allen Rives today that Divide Extension had cut an ore body on its 200-foot level which has been proven up for 80 feet in length, with 65 feet in backs and five feet wide. On Monday the mine will commence shipping 20 tons per days to the mill, averaging $75 per ton. Florence Goldfield reacted favorably and brought 38c. Boston and Montana was the only issue among the coppers to show signs of life, and held firmly around 69c. Perfection Tire climbed to $1, the slight rise probably being due to the statement issued yesterday by the president of the company outlining the program for a big year. Aside from Divide Extension, the rest of the market was rather dull today.

## ABITIBI GAINS GROUND IN MONTREAL TRADING

Montreal, March 15.—Abitibi was the feature stock in a dull market on the local stock exchange today. It furnished over a third of the total dealings, and sold up 1½ points to 42½, holding the gain at the close. Laurentide and Wayagamack, each on a small turnover, acted similarly, but of the remainder of the paper issues, Riordon was unchanged at 123. The others were lower. Laurentide sold up a point at 84, and Wayagamack the same at 66. Spanish common eased a large fraction to 71⅞, and the preferred 1½ points to 82. Brompton lost a fraction at 36¾. The steels were quiet and steady to firm, Canadian closing unchanged at 60, and Dominion selling up a fraction at 39¼.

General Electric was off 3 points at 114, and Toronto Railway down a point to 87.

Bonds were strong, with a large increase in activity, with gains wholly confined to fractions. Total sales—Listed, 4,350; bonds, $328,900.

### MONEY MARKETS.

London, March 15.—Bar silver 33½d per ounce. Bar gold 105s 6d. Money 5¾ per cent. Discount rates—Short bills 7 per cent., three months' bills 6¼ per cent. Gold premiums at Lisbon 140.00.

Paris, March 15.—Prices were heavy on the bourse today. Three per cent. rentes 58 francs 80 centimes. Exchange on London 56 francs 32 centimes. Five per cent. loan 83 francs 95 centimes. The U. S. dollar was quoted at 14 francs 46½ centimes.

Glazebrook & Cronyn report exchange rates as follows:

| | Buyers. | Sellers. | Counter. |

## TRADING AGAIN DULL ON THE MINING MARKET

Business was exceedingly narrow again yesterday on the local mining market, with total transactions of only about 40,000 shares. The market was about as featureless as it is possible for it to be, with insignificant changes where such occurred, and just about as much disinclination to sell as there was to buy.

There seems to be little investment demand for some of the better class stocks, such as Dome, Hollinger and Nipissing.

McIntyre has lost a good deal of caste. Altho it sold early yesterday at 198, it was freely offered during the afternoon at 195 and the stock was still on offer at the close at this price.

The market in the low-price shares was chiefly in V.N.T., which made an advance. Vacuum Gas, in the oils, was also a little stronger. Peterson Lake, in the silvers, was weak. Nipissing was decidedly steady and Beaver a shade easier.

### NIPISSING WILL SHOW DECREASE.

Cobalt, March 15.—The Nipissing annual report, to be issued in a few weeks, will show, it is understood, a decrease in ore reserves from the 6,350,000 ounce total shown at the end of 1919. The extent of the decrease depends on how much development work was done in the new high-grade veins discovered in the closing months of 1920. A campaign of prospecting part of the unworked acreage was embarked upon, and the results are reported to have been good.

Net surplus will be near that of last year's report, or something over four-fifths the par value of the capital stock.

## BOARD OF TRADE

**Manitoba Wheat (In Store Fort William)**
No. 1 northern, $1.86.
No. 2 northern, $1.83.
No. 3 northern, $1.79.
No. 4 wheat, $1.73½.

**Manitoba Oats (In Store Fort William).**
No. 2 C.W., 48c.
No. 3 C.W., 44c.
Extra No. 1 feed, 44c.
No. 1 feed, 42c.
