MEETING OF EGG PRODUCERS

An enthusiastic pre-liminary meeting of poultrymen was held in Middleton last Saturday night. It was generally agreed that some co-operative shipping agency was greatly in need and would be of value to both egg-producer and consumers.. Both eggs and dressed poultry will be marketed through the New Brunswick Egg Exchange that has had considerable success in that province. W. F. Jones, who effected such excellent results in organizing egg circles in P. E.I., is now manager of the N. B. Exhange.

As referred to previously, Mr. A. F. Curran, the District Poultry Promotor, will supply an expert to cull the Egg Circle Members' flocks. The hens will be shipped live-weight, probably to Boston, as this market in the past has absorbed great quantities of Canadian cull hens.

At the time of flock culling, the expert will also demonstrate the best killing and dressing methods, so that members will have a uniform product in the fall. The N. B. Exchange will market the dressed poultry also, but the grading of the birds will probably be done in Annapolis County.

For those interested in disposing of broilers, it is suggested that Gunn Langlois Co., of Montreal, are establishing a killing plant in Truro for a month and a half. Those who cannot make satisfactory sales locally, or elsewhere in the province, are advised to communicate with this firm.

The final organization meeting wul be held on Saturday evening, June 27. To judge from the last meeting a very large attendance is expected. It is hoped that Mr. Curran will attend this meeting. For further information, communicate with C. A. Good, R. R. No. 1, Lawrencetown, secretary-treasurer of Annapolis County Egg and Poultry Circle.

RESTFULNESS

There are some people whom we meet with as we journey who impress us with a sense of restfulness. We are all tempted to strain after effect sometimes, but in the presence of these people we do not think of that. There is no effort to keep up conversation. We are not ashamed even of being silent. Like a breath of evening after the garish day, when coolness and quiet have followed on the sunshine, such natures often, we know not how, enwrap us with sweet sense of rest.

ANNUAL AGRICULTURAL STATISTICS OF CANADA, 1925

It is announced by the Dominion Bureau of Statistics, Ottawa, that the annual census of field crops and live stock for 1925 will be made this June. These statistics are collected jointly by the Dominion and Provincial Governments by means of cardboard schedules issued to farmers through the rural school teachers and children. In British Columbia they are mailed direct to the farmers. These schedules call for the acreage sown this year to the principal field crops and for the numbers of farm animals alive on the farm in mid-June. The areas thus collected form the basis of the annual statistics of acreage and yield. It is very important for all classes in Canada that correct statistics of agricultural production should be published, but it is especially so for the farmers themselves who through co-operative wheat pools are now undertaking to market their own wheat and other products; because acurate statistics are essential to fixing of fair prices. Any farmer who has not received the blank cardboard schedule through the rural school of his school district or otherwise by the middle of June should make immediate application for same either to the teacher of the Public School District in which he resides, to the Provincial Department of Agriculture at the capital of his province, or to the Dominion Statistician at Ottawa.

To issue an invitation is to render ourselves responsible for our guest's happiness for as long as he is under our roof.

UNITED CHURCH NOTES

At a largely attended meeting of the Official Board on June 15th, a unanimous call was extended to Rev. P. A. Walker, the United Church minister, at present in charge of St. Stephen's Church, Amherst.

Mr. W. H. Ward announced that the Nictaux Falls congregation had installed their electric lights and that they were holding a Song Service on Sunday evening at 7.30 in celebration of the event. He extended a hearty invitation to all to this service, and thanked the Middleton congregation for their assistance in this matter.

Mr. Hockin was asked to cancel his service in Middleton on Sunday evening in order that as many as possible of the Middleton congregation could attend.

The world is full of woman who can amuse the ordinary man. They can sing, dance or recite to him; can paint, write or decorate in a manner most pleasing, but the poor man often goes begging for a woman who can sew on buttons or mend his clothes; who can cook his food with economy and flavor it to his taste.
