THE LATEST WAR NEWS.

OCCUPATION OF RAMLEH BY THE BRITISH FORCES.

Further Details of the Recent Fighting—M. De Lesseps on the Situation—The Port Accepts the Convention—Russian Intrigue.

LONDON, Aug. 27.—The queen is greatly gratified at Gen. Wolseley's success, and heard with thankfulness of the Duke of Connaught's safety.

THE CHAMBER OF NOTABLES.

ALEXANDRIA. Aug. 26—Riaz Pasha, summoned by the khedive to form a new ministry, refuses to take the office if the chamber of notables is restored, as he considers such an institution as unsuited to Egypt as it is to India.

MOVEMENTS OF THE ENEMY.

A large number of Egyptians are entrenching southward of Meks, apparently with the object of preventing a flank movement by the British. A reconnaissance was made last evening in that direction, and the enemy withdrew through the shallow parts of Lake Marevtis. Two battalions of the enemy's infantry withdrew yesterday from Aboukir to occupy the isthmus between Lake Aboukir and Lake Edko. This is an important position, as if Aboukir is once captured Kafr-el-Dwar could be turned by a force transverse the isth mus.

ARABI'S ARMORED TRAIN.

Arabi's armored train left the enemy's position at King Osman this evening and advanced 300 yards, when two heavy guns on the waterworks hill fired five rounds against the train. One shell fell in the enemy's trenches. The train retired without replying.

ARABI'S OFFICERS DESERTING HIM.

It is reported that several staff officers have deserted Arabi and have given Gen. Wolseley important information.

AN ENGAGEMENT WITH BEDOUINS.

ALEXANDRIA, Aug. 27—At Meks this afternoon the Bedouins appeared in large force within a short distance of the forts, where the Malta volunteers had been relieved by the Derbyshire regiment. After considerable firing on both sides the Bedouins retired. Their casualties were not ascertained, but it is believed that many of the Bedouins were killed and a large number wounded. Our loss was one killed and one wounded.

THE MILITARY CONVENTION DIFFICULTY.

CONSTANTINOPLE, Aug. 26—A council of the ministers, under the presidency of the sultan, is now sitting to decide definitely regarding the convention with England and other questions. Lord Dufferin firmly maintains that Turkish troops will only be allowed to disembark at Rosetta, Damietta or Aboukir and Categorically refuses to permit their landing at Alexandria, Port Said or Suez

THE PORTE CONSENTS TO THE CONVENTION.

CONSTANTINOPLE, Aug. 27.—Said Pasha informed Lord Dufferin this evening that the Turkish council, the ministers, resolved to publish a proclamation against Arabi and to accept the military convention with England conformably to Lord Dufferin's proposals.

RUSSIA AND THE CONFERENCE.

Reports continue to attribute to Nelidoff, the Russian ambassador, attempts to induce to resist England's demaud for the signing of the military convention. It is represented that he has frequently urged upon the Russian authorities that England must submit to a conference of the powers the result of the Egyptian campaign and justify her adhesion to the protocol proclaiming the individual disinterestedness of the powers.

TORTURING A SPY.

The spy recently captured was handed over to the native authorities, who tortured him with thumb screws and ordered him to be shot. He said Arabi has only one strong regiment of artillery, 2000 cavalry and a few infantry in front of us. Signalling has been proceeding during the past few nights with Arabi, but we have been unable to discover who are sending the signals.

BRITISH OCCUPATION OF RAMLEH.

ISMAILIA, Aug. 26.—Ramleh and Burket-el-Mahsameh were occupied by the British. The losses were small on both sides. The enemy has retreated to Lake Maxama. Both men and horses are suffering from the heat. The British transport service is insufficient.

TROOPS FOR THE FRONT.

All the troops except the Irish fusiliers and three batteries of artillery have gone to the front. Two squadrons of Indian cavalry have arrived and gone forward. On Thursday the British gunners were so exhausted by continuous work that they were obliged to lie down while the drivers worked the guns.

CAPTURE OF PRISONERS.

The life guards captured eight prisoners dressed as peasants but carrying arms. Six had Remington rifles.

In the recent engagement the enemy were much stronger than the British expected. They had cavalry and were spread out in a semicircle. Train after train of reinforcements were seen arriving. At first the British fire was weakly responded to, but in the afternoon the rebels threw six shots to the British one. Their shots produced very little effect.

DETAILS OF THE RECENT FIGHTING.

ISMAILIA, Aug. 27—At the outset of the recent fight we were under a very heavy fire, especially from the Egyptian left, where ten guns rained shells incessantly. The eighty-fourth moved in this direction in skirmishing order. As the men were scattered the losses were slight. Finding that they were doing but little harm the enemy directed their attention upon Gen. Wolseley's staff. The enemy played freely upon the Household cavalry. Two gatling guns, served by marines, were unable to go into action on account of the severity of the enemy's artillery fire. The fighting began at 6 a m. and did not end until evening. There was no water for the horses which were much fatigued. Our cavalry charged the enemy early in the morning over heavy ground, forcing them to retire and leaving ten prisoners in our hands. Towards midday the enemy got our range more completely and landed shells right in our midst. By noon the heat was so intense that many of our men were attacked with dysentery and sunstroke. In the second day's fight the dragoons charged the enemy, cutting down many and taking some prisoners. One guardsman was dangerously wounded by an Arab under cover, but he rode him down and killed him. Major Bibby was shot through the chest, but rode a considerable distance afterwards. Our headquarters will likely remain at Alen Pashes for the present, to enable our stores to come up. The prisoners state that many dead and wounded were taken away by the train which our cavalry nearly captured.

BRITISH LOSSES.

Our losses on Friday were about 50 killed and wounded, of which the cavalry lost twenty or thirty from the heavy shell fire and in charging a square of infantry. Our total forces in the Ismalia district under General Wolseley number about 11,000 men, 2000 horses and 27 guns.

DE LESSEPS ON THE SITUATION.

PORT SAID, Aug 26.—In a conversation to-day M. DeLesseps said he still considered Arabi Pasha a noble patriot, and felt happy that he had a great share in preventing France from participating in the adventure. He believes the war will have more disastrous consequences to the English than the French expedition to Mexico was to the French. He believes the campaign will be a long one, and that the English will encounter determined resistence.

AN INTRUDING TURKISH VESSEL.

The steamer Calypso arrived yesterday with 150 Turkish troops. They moored inside the inner harbor, when the Monarch sent two armed boats covered with gatling guns to learn their errand. The Turks stated they were an annual relief for the Turkish garrison at some fort in the Red Sea. During the night armed boats from the British fleet cruised around with orders to prevent the Turks landing. The Calypso entered the canal this morning. A steam pinnace from the Hecla accompanied her, with orders to prevent the disembarkation of troops.

MAHMONDIEH, Aug, 26—The ironclad Minotour shelled the enemy's outposts in the direction of Aboukir yesterday afternoon. The shells appeared to burst in the midst of the enemy's position. The Minotour fired with increased rapidity until sunset. The enemy's reply was weak and there was very little activity in the rebel's lines. The impression is growing that the bulk of Tarabiss men have been withdrawn from Kafr-el-Dwar.

THE IRONCLAD INFLEXIBLE.

The Inflexible, which did such execution at Alexandria, is 320 feet in length and 75 feet in breadth at the water line, with a total weight of armour of 3155 tons. The power and strength of the ship are concentrated in its central part, which forms a citidel 12 feet high, one half above and one half below the water, 75 feet broad and 110 feet long. This "citidel" encloses within its rectangular walls the engine and boilers, the base of the turrets, the hydraulic loading gear, the magazines, and all those parts of the ship which are most vulnerable. Its walls are 41 inches thick, and consist of armour-plates varying in thickness from 16 inches to 24 inches, with strong teak backing between and behind the plates. The ship extends 18 feet below the citidel and 105 feet before and behind it, and the office of these extramural portions, which in the main are unarmoured, is to float the citidel, described by the designer as "a rectangular armoured castle." The central part of this "armoured castle" is filled by the two turrets, 12 feet high, with an internal diameter of 28 feet, placed to right and left, each holding two 81-ton guns capable of firing a 1950 lb. shot with a charge of 300 pounds of powder.

NOTES.

A Constantinople despatch says that during the last three days 50 persons were arrested, engaged in enlisting men on behalf of the khedive.

It is stated that the Russian authorities are making large purchases of wheat to be stored at Kara.

Advices from the interior represent that the cotton crop has suffered considerably owing to the want of irrigation.

M. DeLesseps and son leave Port Said to-morrow.

The water supply in Alexandria is again restricted. Arrangements for condensing have been made whereby each inhabitant will receive a gallon daily.

Deserters from Arabi report that the Egyptians mean to fight their big fight on this side of Zagazig.

Inundation in Texas.

FORT CONCHO, Texas, Aug. 26—The reports to-day are heartrending from the inundation of Ben Ricklin. Forty deaths are reported from drowning there.

A New Convent.

MONTREAL, Aug. 27.—The old convent of St. Roch de l'Achigan has been demolished and a fine building is being erected in its place. The nuns of Longueuil are the owners.

Making Bobbins in Canada.

MONTREAL, Aug. 27.—David Hambleton, of Nashua, N. H., has begun to make bobbins at Lachute, thereby saving the Canadian duty on goods to fill increasing orders from this country for the product of his American bobbin factory.

More Stock Horses.

MONTREAL, Aug. 27.—Another lot of 250 stock horses arrived here to-day from England for the United States. They are nearly all Clydesdales, and about the best that could be found throughout England, Ireland and Scotland. One of them, which is said to be the best stock horse in England, cost £800.

Bitten by a Stallion.

TROY, N.Y., Aug. 26—Arthur Robinson was terribly bitten yesterday by Whiteside Hill's trotting stallion Duroc at Greenwich, Washington county. Duroc caught Robinson by the leg and lifted him from the floor and shook him. The stallion was clubbed over the head and neck, but did not loosen his grip for several moments.

Fires.

NEWPORT, R. I., Aug 26.—The Cliff house was burned early this morning and two adjoining cottages badly damaged. The flames spread rapidly but the guests were aroused in time and they saved most of their effects; loss $32,000.

WALPOLE, Mass., Aug 26.—Lyman's warehouse was burned last night. Geo. Ware and Calvin Gay, two young men, perished.

A Hamilton Girl sent to the Mercer.

HAMILTON, Aug. 26.—A prepossessing and neatly dressed girl of about 17, named Emily Anderson, was charged before the police magistrate this morning with stealing two brooches, the property of Mrs. Maine. The latter left her trunks at the place where Miss Anderson was stopping, and it is supposed that the brooches were taken from the trunks. The girl pleaded guilty to the charge. There was a deferred sentence against the girl for stealing articles from Mrs. Bellhouse's last March. A warrant is also in the hands of the police for her arrest for stealing a gold wotch and other things in Toronto. Several other larcenies are also laid to Miss Anderson's charge. The girl appears to be incorrigible, and has been gradually growing worse. The magistrate sentenced her to two years in the Mercer reformatory at Toronto.

Hon. Alex. Mackenzie returned from the seaside yesterday.

James and John Daly, brothers, were arrested in Charles Burns' place on York street on Saturday night for fighting and disorderly conduct.

The Australian cricketers have decided to visit America and Canada, to meet the rack elevens of those countries.

WILD SERMON ON RUSSIA.

ANTI-HUMBUG IN THE WORLD ALL ASTRAY.

Comparative Philology a Delusion—Peter the Great's Will being Carried out to the Letter.

The attendance at Bond street church was as large as usual; the music, especially the anthems, was weaker owing to the absence of three of the best singers, but the organist's work, as we have frequently had occasion to remark, was performed in a masterly manner; specially beautiful was the voluntary played during the collection. Dr. Wild took as his text the 33d verse of the 16th chapter of Proverbs. The practice of casting lots alluded to in the text was probably

THE OLDEST FORM OF DIVINATION

in the world. It was resorted to both by Pagans and Christians, by the former to prove the will of their Gods, by the Christians to arrive at the will of Jehovah. But by whomsoever used it was nothing less than a pledge of man's faith in the Invisible, in the reign or rule of a Supreme Providence.

Amid all the darkness and confusion of human history, the study of the Divine will, of the plans of Providence in dealing with the natives, can be arrived at by a study of prophecy in Scripture. Then prophetic writings were the part of the Bible to which especially God gave the tith of this same word. As God had a plan in human history, so each native had a plan, a settled policy.

ENGLAND WAS THE SOLE EXCEPTION.

England had no policy, no settled plan of action. She was thus committed to nothing, and could work as inconsistently as ever she pleased. With individual statesmen it was otherwise. Gladstone ten years ago by his eloquent speeches roused up the indignation of all England to overthrow the tory government. He attacked them for utilizing the Indian forces against Russia. Now he has turned all round and done the same thing himself.

IF I KNEW MR. GLADSTONE

I would tell him he was quite inconsistent. England had no fixed nor permanent policy. One time she went in for freedom of conscience, but when the Bulgarians wanted it she would not help them but sat with folded arms and told them to go to—a place where a great many people go. England had no settled constitution, and well for her she had not, otherwise she could not have moved so freely with the times. Constitutions were like creeds.

THE CREEDS WERE VERY WELL FOR OUR FATHERS,

to us they are needless. The Doctor then spoke of Russia, which was the head of gold in the metallic columns of King Nebuchadnezzar's dream, and was also described in prophetic language as the prince of Mesech Tubal. Russia was the only country in the world which had two capitols, the actual at St. Petersburg and the ancient capitol at Moscow, whence all legislative acts were dated. People spoke of the Russians as being descended from the Fins and Mongolians. That was as great nonsense as that talk about the Aryan race by

THAT FELLOW WHO WROTE LETTERS IN THE WORLD.

Russia was the modern representative of Babylon. It was most accurately described in prophecy with a marvellous minuteness which was the best proof of the existence of God and the truth of the bible. Yet there are lots of you who don't believe in God and poke much fun at isolated pastors like Dr. Wild who do believe in God. All that was said Russia should do was being accomplished. She had carried out to the letter Peter the Great's will, which he (Dr. Wild) would give to the Yorkville News man to publish. Dr. Wild read the will and pointed out how minutely its provisions had been carried out to the present day by the various rulers of Russia. After the Egyptian war was ended

RUSSIA WOULD MAKE WAR ON ENGLAND.

The Doctor announced that next Sunday evening he will preach, by request, his Grimsby camp meeting sermon.

United States Immigrants.

WASHINGTON, Aug. 26—Sixty-five thousand immigrants arrived in the United States in July against 66,000 during July last year.

Fusion of the Races.

FORT JEFFERSON, La., Aug. 26.—A sensation has been caused here over the elopement of Fanny Reeves, a prepossessing and well educated white girl, aged 20, with Charles Jackson, her father's colored farm hand.

Release of a Suspect.

WASHINGTON, Aug. 26—Minister Lowell has informed the department of state that O'Mahoney, suspect, has been released and that the case of Brophy is still under consideration.

Cholera Plague in China.

HONG KONG, Aug. 24—Four thousand natives have died of Asiatic cholera in a single Phillipine province. The epidemic is now increasing. There were only six fatal cases among Europeans.

Cheap Peaches.

NEW YORK, Aug. 26.—There is a great glut in the peach market here. One hundred and sixty-four car loads arrived yesterday and good fruit sold at twenty-five cents a basket.

Election of Premier Mousseau.

MONTREAL, 26—Premier Mousseau has been returned in Jacques Cartier county by 400 majority as far as heard from. Further returns are likely to increase rather than diminish the majority.

Mr. Mackenzie and the N. P.

MONTREAL, Aug. 26—In consultation to-day with a local reporter Mr. Alex. Mackenzie stated that he still adhered to the principles of free trade and said the national policy was not necessary, but he willingly admitted its popularity.

Water Famine at Pittsburg.

PITTSBURG, Aug 26.—In consequence of the neglect of officials there is a water famine here. The three engines at the waterworks have broken down and a number of manufacturies have been compelled to stop and thousands of men are out of work.

Irish Skirmishing Fund.

NEW YORK, Aug. 26.—At the call of O'Donovan Rossa, 100 contributors to the Irish skirmishing fund met to-day to take measures to compel the trustees to give an account of the funds. Threats of violence were freely made. Rossa stated there was the sum of $87,000 in the hands of the trustees. A committee was appointed to demand the money and accounting.

CATTLE QUARANTINE.

Visit of the United States Commission—Dr. M'Eachran Takes Them to Quebec.

MONTREAL, Aug. 26—The American cattle commission which went to Quebec on Thursday to inspect the cattle quarantine there, returned to the city yesterday. The commission consisted of Mr. J. H. Saunders of Chicago, secretary of the United States cattle commission, accompanied by Dr. McEachran, V.S., Montreal, who on arriving at Quebec were joined by Professor James Law and Dr. J. Thayer, his confrere. The immediate object of the commission which was appointed by the agricultural department at Washington was to thoroughly investigate the system of quarantine established in Canada, which has worked with such marked success, and report to their government who will proceed to establish similar quarantines throughout the States. Dr. McEachran, who has the scientific control of the Quebec and other Canadian quarantines, explained fully all the details of working them, and the commission returned completely satisfied of the soundness of the system and resolved to urge upon the United States government the importance of making that system the basis of their own. There are at present 300 head of cattle in the Quebec quarantine, 800 having been received into it and treated during the season. Dr. McEachran stated to that the season has been healthy and no disease of any magnitude has appeared. Epidemic of any kind is unknown. The commission left yesterday afternoon for Compton to visit the stock-raising grounds of the Hon. M. H. Cochrane; they will afterward proceed to Ontario for the purpose of making observations of stock farms there.

Found Dead with Strychnine.

ALVINSTON, Ont., Aug. 26—A young man named John Burke was found dead lying on the Canada Southern railway track here this morning. A parcel containing strychnine was found in his possession.

The Irish Constabulary Trouble.

LIMERICK, Aug 26.—There is great excitement here because six sub-coustables, the supposed originators of the recent agitation have been ordered to the northern countries. The men asked for a day's time before leaving, which was refused. Thereupon they resigned and several other resignations are threatened. The government prevented the use of the telegraph for communications between the constabulary. A meeting of the entire force in Limerick has been called for to-night.

An Electorial Row Near Panama.

PANAMA, Aug. 17—A electorial row occurred at Colon on the 15th. The defeated party leaders, headed by Preston, of murderous notoriety, commenced an indiscriminate revolver fire in the streets. The police unsuccesfully endeavored to check them. Two men were shot. The gang fled to the woods. Parties are in pursuit. Preston is said to have a hundred armed men. The object of the movement is to keep Munuez from entering into power as president, to which office he has been elected.

A Somnambulistic Leap.

HAMILTON, Aug. 26.—At an early hour this morning some of the residents in the neighborhood of the corner of John and Main streets were awakened by the sound of a crash of earthenware and a heavy thud on the sidewalk and a policeman appearing on the scene found a man lying in an insensible state. It appears that the man, whose name is Wm. Bachring, was a boarder in the Germania hotel, and while asleep stepped out of the opened window of his sleeping room and fell a distance of over 40 feet to the street, carrying several flower pots with him. When aroused he did not seem badly injured and was able, with assistance, to walk back to his room. Dr. Stark was called to make an examination. He reports no serious injuries. The escape from instant death is almost miraculous.

A Montreal Enoch Arden.

MONTREAL, Aug. 26—A man named George Miron, who deserted his wife and family sixteen years ago and who has been mourned as dead, returned to the city yesterday and claimed his daughter. The wife married eight years ago, after receiving information of her former husband's supposed death, and repudiates the first husband altogether.

A Fatal Prize Fight.

SAN FRANCISCO, Aug. 26—A prize fight occurred near San Celito yesterday. The contestants were Charles Oram, an Englishman, and George Emerson, an American, both heavy weight boatmen of San Celito. The fight grew out of a dispute as to the merits of Sullivan and Wilson. The match was for $250 a side and the fight lasted three quarters of an hour. Seven rounds were fought and Oram was terribly punished and Emerson was considerably used up. When Oram was whipped to a stand still and the seconds threw up the sponge, he complained of pains in the head and chest and took a glass of brandy. He was taken to his house, where he lived alone, and this morning was found dead in bed. Emerson has been arrested. The officers are seeking the other parties.

Accident to the Norseman.

On Saturday morning as the steamer Norseman was making Colborne harbor she struck the pier with one of her paddle wheels. The accident was owing to the poor light at that place and also to the fact that the lighthouse is situated some distance from the pier. All the damage done was the breaking of one of the paddle wheels slightly and displacing the shaft. It is expected that the boat will be on her route as usual to-day.

THE GLORIOUS MOONLIGHT.

Last night was one of surpassing beauty. The Sabbath stillness of the day was intensified as evening fell, and with the setting of the sun the high east wind that had prevailed during the afternoon sank to a gentle breeze, and all nature lay basking in the glorious moonlight And such moonlight! The "orbed maiden, with white fire laden", rode round and high up in an unclouded sky, and flooded land and water with a glorious brilliancy of beams. The lake was still heaving and tossing from the effects of the afternoon's gale, and on the surface of the disturbed waters the moonlight lay and stretched away from one's feet in a wedge-shaped band of splendor. It tipped with silver the rippling waves, and brought out into strong relief an occasional sail-boat that flitted across the glittering track. In the city the rays fell alike on street and alley-way, on roof and pavement, on lowly cottage and towering mansion, tinging them all with their refulgent light. The signs overhanging the street were as legible as in the day, and men stood on the side-walks and read the posters on the dead walls. The trees rustled in the breeze and the upturning leaves caught by the slanting beam and reflected back their silvery glow. It was a night of peace and quietude, a night for lovers' walks and sweet communion.

MURDER MOST FOUL.

A CARLETON YOUNG FARMER SHOT DEAD ON THE ROAD.

Details of the Deed—A Woman in the Question—The Suspected Murderer to be Arrested.

OTTAWA, Aug. 27.—One of the most cold blooded murders ever committed in the county of Carleton took place at Gouldbourne, about eighteen miles from this city, last evening. The victim, Robert McCaffrey, was a young farmer of 28 years of age, unmarried and lived near his father's home, quite close to which he came to an untimely end. The circumstances of the shocking affair are as follows: On Friday morning McCaffrey came to Ottawa with the intention of purchasing a horse, which he intended presenting to his parents, to whom he had always been extremely kind, although making an independent living for himself and living in his own house. On Saturday evening between 3 and 4 o'clock he left for home in a buggy, having made the intended purchase, for which he was to have returned to town on Monday. The murdered man was last seen alive at about 9 o'clock last night about half a mile from his own home by his servant man, who says that he passed McCaffrey while the latter was in conversation with a neighboring farmer named Chester Spearman, who was also seated in a buggy, accompanied by his sister. Spearman and McCaffery had evidently met on the road, for, with their horses heads
