Revenue Seizures.

When seizures are made by officers either of Customs or Excise, we are apt to hear a good deal of about how the legitimate operations of commerce are hindered by an oppressive government and by the system of protection generally, especially if it be the officers of the former department who are concerned in the business. Within quite a recent period a pretty extensive aggregate of seizures of smuggled American whisky have been made at or near Quebec; and the latest seizures, made only the other day, bring the total of discovered frauds, in the locality named, up to about $400,000. It is estimated that last year the Dominion Treasury must have lost more than half a million dollars by the running in of smuggled whisky along the shores of the lower St. Lawrence; but after this there will probably be more loss than profit in the business. The smuggled stuff has been principally high wines, and all of American manufacture. It is made in the New England States from western corn, Boston and Gloucester being the chief ports for its shipment. It costs, put on board there, only 33 cents per gallon, although it is of great strength, stronger than the Canadian standard; while at Quebec it is worth $3.50—so that there is a broad margin for somebody in it. It is now in order for the champions of free trade to give some of their "regulation" howls about how a country's commerce is hampered by an oppressive protectionist tariff. The customs duty on high wines is $2.60 per gallon, which is quite a hindrance to extensive and, money-making sales that otherwise might be made.

But Uncle Sam's treasury, as well as that of the Dominion, has been suffering pretty badly of late. The New York papers have just recently had it revealed to them how that very public and much-frequented thoroughfare, Long Island Sound—has for some time back been alive with smugglers. These practical operators against a high tariff have been making "piles" of money by handling groceries and other articles readily saleable; though it is believed that drygoods have all along been their biggest "hold." Innocent-looking little craft swarm around the great city's back door, where there are no inspectors, supervisors, or such like troublesome customers to interfere with the operators. When a vessel from a foreign port is made fast to her New York wharf she is doubtless well looked after, with regard to all she has on board. But outside of the port, though still in adjoining waterways, incoming vessels with valuable cargoes are met by smaller craft of the free and easy kind, and very conveniently "fixed" for the rapid transfer of smuggled goods. These goods the officers of the law never see or hear of; the transfer is made miles outside of port; and sometimes what we may call the New York arrangements are made before the importing vessel has left her own port. But now a telling exposure of the crooked methods so much used has been made; and the operators at New York's back door will have to call a halt to their smuggling for a while. So it may be admitted that the Canadian customs tariff is not the only one that requires able and wide-awake officers to enforce it.

SELLING LIQUOR TO CHILDREN.

An Interesting Case Before the Magistrate —Bribing a Police Officer.

At the Police Court yesterday afternoon John Duggan, who has a shop license at 249 Church-street, was charged with selling liquor to a lad under 16 years of age. The liquor was given on the strength of an order produced by the boy from his employer. The Magistrate reserved decision in order to look into the law more fully.

Sec. 76, chap. 194, R.S.O., an act respecting the sale of fermented or spirituous liquors, provides:

Any licensed person who allows to be supplied in his licensed premises, by purchase or otherwise, any description whatever of liquor to any person apparently under the age of 16 years, of either sex, not being resident upon the premises or a bona fide guest or lodger, shall, as well as the person who actually gives or supplies the liquor, be liable to pay a penalty of not less than $10 and not exceeding $20 for every such offence.

James Mann was charged with selling liquor without a license. Sergeant Gregory swore that he had captured a quantity of liquor at Mann's place of business, 281 Kingstreet east. The latter offered witness a jar of whisky if he would "call it square" and promised to go out of the business. The case was adjourned till Monday.

Dyspepsia or indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. New Cure for Asthma.

OAK RIDGE, Oct. 21, 1889.

To the Editor of The Telegram:

I read a letter in your paper from a lady living at Sunderland, Ont., giving the particulars of her cure from a lung disease by Dr. Hunter's treatment by Medicated Air. My own experience of this treatment is quite as satisfactory. I had been for thirteen years a victim of asthma, and had tried in vain to find relief. I was treated by a great many different doctors, and took all kinds of cure-alls without getting any real benefit. Hearing of Dr. Hunter's success with Medicated Air inhalation, I applied to him, and have since been under his care. His treatment has worked wonders in my case. I can now breathe with ease, sleep without coughing or oppression and feel in all respects as well as any man in this township. I began to gain my flesh and strength from the first week and have continued to gain right along. None but those who suffer as I have suffered for want of breath can know how thankful and grateful I feel for the great benefit I have received. I want all the world to know of this treatment, and those who have *asthma* to hear of my case. Kindly publish my letter and say that any who want to know more can come to see me or write to me. My address is Oak Ridge P.O., Ont. Yours

THEN AND NOW.

Fifty Years' Progress of the Anglican Church —Toronto's Diocesan Jubilee.

Anglican Churchmen, not only in Toronto but throughout the diocese and further afield, are rejoicing that "the Day of Jubilee has come."

It is not the old Jewish Jubilee, wherein liberty was proclaimed throughout the land, when every man returned unto his possession and his family, but it is a jubilation "with holy chant and psalm," a thanksgiving that the Diocese of Toronto has attained more than "seven Sabbaths of years, seven times seven years."

To-day the Anglican Diocese of Toronto is only a fifth of what it comprised in 1839, when it was established as a see, and Rev. John Strachan consecrated as the first bishop. Since then the Dioceses of Huron, Ontario, Niagara and Algoma have been established in the years 1857, 1861, 1873 and 1875 respectively.

Many fine churches have been erected in this province and much money devoted to home and foreign missions. In 1839, when Rev. J. Strachan was made Bishop, there were 40. He survived until 1868, when Bishop Bethune succeeded.

In 1850 Bishop Strachan, although in his 72nd year, went to England, and by his energy there raised enough money to found Trinity College in the following year. This was but a sample of the energy with which the leading man of the Church in Canada was imbued.

To-day there are 156 clergymen in the Diocese of Toronto, and the strength of the Church in Ontario is over 400,000.

Program of the Celebration.

To-day, Thursday, Nov. 21, 8 a.m.—Early celebration in all the Toronto churches. 11 a.m.—Choral service in St. James' Cathedral; preacher, the Bishop of Huron. 1.30 p.m.—Public banquet at Webb's. 3 p.m.—Service in Holy Trinity Church (choral); preacher, the Bishop of Western New York.

Friday, Nov. 22, 3 p.m.—Service in St. James' Cathedral; preacher, Rev. A. Spencer (Diocese of Ontario).

Saturday, Nov. 23, 3 p.m.—Service of song (Sunday schools) in St. James' Cathedral, St. George's Church, All Saints' Church and St. Ann's Church.

Sunday, Nov. 24, 11 a.m.—General commemoration of the Jubilee in all the churches of the five dioceses of Toronto, Ontario, Huron, Niagara and Algoma.

Monday, Nov. 25, 3 p.m.—Reception by the Bishop of Toronto at the See House. 8 p.m.—Service at St. James' Cathedral.

Tuesday, Nov. 26, 8 p.m.—Service at St. James' Cathedral; preacher, the Bishop of Niagara.

Wednesday, Nov. 27, 8 p.m.—Convocation in the Pavilion.

Thursday, Nov. 28, 10 a.m. and 2 p.m.—Conference in St. James' schoolhouse. Papers on the progress of the church in each of the five dioceses. At 8 p.m.—Concluding service in St. James' Cathedral; preacher, the Bishop of Algoma.

Architects in Session.

About twenty-five architects from different parts of the province assembled yesterday afternoon in the Canadian Institute. The occasion was the annual convention of the Ontario Association of Architects. The chair was occupied by President W. G. Storm, who in opening the convention delivered a practical address dealing with the work of the association. Mr. N. B. Dick read a paper on "The Ottawa (N.) Sewage Farm," and Mr. Henry B. Gordon followed with a paper on "Foundations," both of which gave rise to considerable discussion.

The evening session was devoted to the discussion of the draft act of incorporation.

The convention will meet again this morning at 10 o'clock. This will be the programme: 2 p.m.—Papers on "Office Management" by Mr. Bousfield and "Professional Ethics" by M. S. Burke. 3 p.m.—"Competitions" by Mr. S. G. Curry. 4.30 p.m.—Election of officers. 7.30 p.m.—Annual dinner at Webb's.

The exhibition of drawings in connection with the convention is well worth a visit even to laymen. An opportunity will be afforded for an inspection by the public on and after Friday.

To Benefit the Street Arabs.

The officers of the Toronto Humane Society held a meeting in their office in Bay-street yesterday afternoon; Mr. W. R. Brock presiding. In response to a request, Messrs. W. H. Brock, J. J. Kelso and Beverley Jones were appointed delegates to the Prison Reform Conference which meets on Tuesday next. The same committee will attend the School Board meeting tonight and urge upon the board the desirability of providing school accommodation for the poorest class of children, who are at present being educated on the streets. Mr. Jones introduced a scheme to raise money for providing public playgrounds for children. He proposed that the Government should be asked to levy a tax on wards known as the "collateral relations tax," the proceeds to be devoted to the purchase of playgrounds. He thought such a tax of $600,000 would be spent in this direction, and instanced the many benefits that would accrue in the higher physical manhood and womanhood, and consequent increase in the general happiness and morality. The society heartily endorsed the proposition and resolved the representation to the School Board to bring the subject before the body.

The Church Bazaars.

St. Paul's Church bazaar, which is being held at the large winerooms at Yonge and Melinda-streets, still continues to be a prominent attraction. In spite of the rainy weather yesterday large crowds were continually passing in and out. In the evening an excellent concert was given at which these performers took part: Miss Jennie Maguire, Miss Bigney, F J Miller, Archie Phillips and R J Wallbridge. Mr. T K Haffy occupied the chair.

To-day at the I.C.B.U. band will take part in the program.

The social and sale of work in aid of the Church of St. Mary Magdalene was successfully brought to a close yesterday. The sale of fancy goods was well patronized and the concert in the evening equally well attended.

Randolph Macdonald Against the City.

In the Chancery Court yesterday before Mr. Justice Ferguson, the trial of Randolph Macdonald v. the City was resumed. The examination of the plaintiff was continued as to the delay which he says occurred by the city not removing obstructions on the line of the Don and the delay caused in not furnishing him with plans of the bridges at Gerrard-street and East-avenue. The loss sustained by the plaintiff because of these alleged delays to his work is his reason for asking damages. The damages are placed nominally at $1000.

Judgment was reserved.

SOLID FOR ANOTHER YEAR.

SEVEN CLUBS LOYAL TO THE INTERNATIONAL.

Deacon White Says That Buffalo May Remain—M. B. Mills Elected President—Our Own Mike is a Director—Tommy Hobbs Wants the Salary Limit Reduced —The Schedule Meeting to be Held Here.

DETROIT, Nov. 20.—Detroit, Toronto, Toledo, Hamilton, London, Syracuse, Rochester and Buffalo were represented at to-day's meeting of the International League.

The report of the directors adopted yesterday by the board was submitted and approved.

Except Buffalo the International clubs have agreed to stick together. Though Syracuse was not positively assertive as to its position, yet it was quite evident that the people back of that club were more frightened over the possibilities of being left out in the cold in the event of the disruption of the International than they were anxious for admission to the American Association.

Shortly before the dinner hour the convention took a recess and reassembled at 8 o'clock, when the committee on amendments to the constitution reported the name of the organization was changed to the International League and a provision made that after the release of a player of one club he may immediately sign with another instead of waiting 5 days as at present.

A fifth umpire to be known as a substitute umpire is to be engaged, Secretary White recommending this as a preventive measure to do away with the "home umpire" system. A regular umpire failing to appear as scheduled will be subjected to a fine of $25. A club which may hereafter leave the field after being ordered to play by the umpire shall be fined $200, $150 of which shall go to the club not in default and $50 to the association.

President Hobbs of the London Club tried to have the salary limit reduced from $13,000 to $10,000, but failed.

M. B. Mills, Detroit, was elected president; Gen. Brinker of Rochester, vice-president, and C. D. White of Utica, secretary.

The board of directors consists of M. McConnell Toronto; James Dixon, Hamilton; T. S. Hobbs, London; E. H. Leonard, Rochester; A. R. Dickinson, Syracuse; W. H. Ketchum, Toledo, and Charles A. Fitzgerald, Buffalo.

The schedule meeting will be held in Toronto.

By request Deacon White addressed the meeting. He said: If I can put a club in the Brotherhood I would prefer it, but if we can't I should like to keep on with the International. Mr. Rowe and myself have nearly completed arrangements for the transfer of the Buffalo International franchise to Buffalo gentlemen, and I shall notify the association the minute negotiations are completed.

The schedule will this year consist of 126 gaes.

To-night the Detroit Club banquetted the visiting delegates at the Russell House. The directors will take cognizance of the application of Saginaw and Grand Rapids for membership to-morrow.

The Baseball Cranks are Happy.

After all the reports lately spread broadcast that the International Association would soon be a feature of history have been only idle rumors. Seven of the eight clubs are still loyal to their league and Deacon White says that if his efforts to locate a Brotherhood club in Buffalo fail his team will again do battle in the old circuit. So now the local enthusiasts and the small boy may hurry through the winter months and again journey to the spacious grounds over the Don to applaud the Torontos and hoot them to defeat. But it is to be hoped that our 1890 representatives will be more worthy of the plaudits of the multitude than were last year's aggregation.

Dust from the Diamond.

Toronto is a desirable Association city.—Philadelphia Times.

The National Baseball League of Great Britain have opened headquarters and hung out their sign in Holborn Viaduct London.

Neither Washington nor Indianapolis is on any important League committee. Does this mean that these two cities will resign before the spring schedule meeting?

Henry V. Lucas, who organized the Union Association in 1883 and who had a League club in 1884 and 1885, says in regard to the National League holding its reserved list, "They can't hold men even if under contract, and unless the players are discussed to carry out contracts such documents are not worth the paper they are written on. I had some experience in that line, and speak from the record."

DeWolf Hopper, who presented the world's pennant to the New York club and who failed to get a block of stock in the New York Players' League Club, is in Philadelphia with the Casino Comic Opera Company. He says he has visited all the cities in which the new League is located and found all the men enthusiastic, and as fairer his intercourse went the public is with it. He does not see how the new venture can do anything else but succeed.

THE STANLEYS SHOOT.

The Annual Tournament at the Woodbine Yesterday.

The first annual pigeon tournament of the Stanley Gun Club was held at the Woodbine yesterday. The young club turned out in full force, only three members being absent. Twenty-one members went to the score and made an average per man of 12 out of 15. The shoot was a complete success in every way, both in live and artificial birds. Mr. G. H. Briggs was referee.

Skating in Fancy Costume.

The first fancy dress carnival of the season was held last evening in the Metropolitan Roller Rink, Shaw-street, and was a complete success. The spacious floor was almost uncomfortably filled with ladies and gents, in all kinds of fancy costumes, on the tiny wheels. The most valuable prizes—a lady's gold watch and gold-headed cane were carried off by a couple gorgeously and tastefully uniformed. Anderson's band furnished suitable music during the evening. Refreshments were also served in the rink. The numerous spectators who filled the walks and galleries were highly pleased with the gaudy spectacle.

The Canadian Skating Association Officers.

MONTREAL, Nov. 20.—At a meeting of the Canadian Skating Association held to-night the following officers were elected: President, H Montague Allen; First Vice-President, W B Scott, Quebec; Second Vice-President, W G Ross, Montreal; Third Vice-President, Gamble Geddes, Toronto; Honorary Secretary, W. E. Stevenson, Montreal; Council, L. Ferrara, Ottawa; T. L. Paton, E. E. Elliott, J. A. Taylor, J. G. Ross, W. Moore, A. Patterson, Louis Rubenstein, F. W. Barlow, Montreal.

ST. JOHN ON SCULLERS.

He Abandons His Efforts at Their Elevation, So He Says.

ST. LOUIS, Nov. 20.—J. A. St. John spoke to-day in bitter terms of professional oarsmen and their methods. Gaudaur has not yet written a line of explanation to St. John, nor has he had the courtesy to call and explain the Teemer fiasco. St. John says that he is through with rowing forever. "I have tried every way in my power," he said, "to foster and encourage professional sculling, but the late trouble over the Teemer race has settled my determination to draw out permanently. I regret to do so just at this time, particularly as the professional rowing association is now in process of formation. The inaugural meeting will be held at Boston the 5th day of next month, and I will not be present to help the movement. It will be a go though, I think, for there are a number of excellent men in Boston to push the scheme to a successful termination.

SCULLING IN B.C.

The McLean-Bush Boat Race—Paine Wants to Row the Winner.

VICTORIA, B.C., Nov. 20.—The McLean-Bush boat race is creating great excitement here. McLean money is still taken by backers of Bush, and the interest in the forthcoming race is good. Both men are in fine condition, and a square and fast race may be looked for, as each one is determined to make the other fellow work. It was reported this morning that McLean had offered to row Paine one hour after the race with Bush for any amount from $100 to $1000. Paine was too anxious to take the offer.

GALT'S FOOTBALLISTS

Will Kick for Victory in Their Game with 'Varsity on Saturday.

GALT, Nov. 20.—The only topic in sporting circles here at present is theous come of the match at Toronto on Saturday for the Association championship of Canada. The wet weather has not prevented the local players from their steady practice in the rink and their grounds. Each man takes his regular spin of two or three miles daily, and certainly wind will not be lacking in the Galt lungs at 2 sharp on Saturday. At a committee meeting of the club on Tuesday the team the only chance made was that of centre forward. The giant Kay will take the place of Spierr and is expected to greatly strengthen the attack.

Galt has sent in a formal protest against the referee disallowing a goal last week on the ground that it was fouled before passing Senkler. Captain Murray alleges that the ball was through before Aitken touched it with his hand.

The team leave here early Saturday morning and will all take their kicking shoes with them.

The Association Football Championship.

There promises to be great sport on the University lawn on Saturday, when the final for the Western Association cup and medals and the Canadian Championship is played between the 'Varsity and Galt. The 'Varsity committee held a meeting yesterday and made final arrangements for the game. Neat invitation cards have been issued and the number of lady and gentleman friends of the club will be asked to be present. Both teams will likely be exactly similar to those in the east match. Galt will come down with the sole intention of scoring two more goals than 'Varsity, which they need to take the championship. A well-known Berlin footballist has considerable money placed on Galt to win. Numerous small bets have been made, but 'Varsity gold generally goes a-begging.

Notes of the Kickers.

Scratch elevens of Toronto University Arts and Medical Men met on the Lawn yesterday, the former winning by three goals to two.

The Toronto-Varsity Rugby match takes place immediately after the Association game, and spectators will have the opportunity of seeing two first-class football games on the one afternoon.

JACKSON WILL FIGHT.

Sullivan's Chance—McCarthy Knocks Out Kelleher.

SAN FRANCISCO, Nov. 20.—At a meeting of the California Athletic Club to-night, a proposition to match John L. Sullivan and Peter Jackson to fight in the club's rooms for the world's championship for a purse limited to $10,000, was carried almost unanimously.

Afterwards a fight to a finish between Billy McCarthy, champion middle-weight of Australia, and Denny Kelleher of Boston for a purse of $1800 took place at the club rooms. McCarthy took the aggressive and forced Kelleher about the ring with his rapid swings. In the third round he knocked Kelleher down with a right-hander as the latter broke ground, which he frequently did. Kelleher's lip was cut. Kelleher was knocked out in the 21st round.

ST. GEORGE'S HOCKEY CLUB.

Organized Last Night and Officers Elected For the Season.

A meeting was held last night in Keachie's Hotel for the purpose of forming a new city hockey club. There were present: R. J. Kearns, F. W. Jackson, C. K. Temple, W. Crawford, A. Shaw, H. Crawford. The name St. George Hockey Club was adopted. It was decided to limit the membership to ten men. Arrangements have been completed whereby the club have the use of the Victoria Skating Rink for practice on Tuesday and Thursday nights of each week during the season.

The following tasty uniform was selected: Maroon jerseys, white knickers, maroon stockings and white peaked caps.

The officers were elected for the season as follows: Captain, W. L. Crawford; Secretary, F. W. Jackson.

Following are the ten members of the St. George Hockey Club: W. McGee, A. Hurst, W. Crawford, A. G. Shaw, F. W. Jackson, R. J. Kearns, H. C. Crawford, C.K. Temple, L. Pemberton, P. F. Johnston.

St. George's propose to practice steadily at the game and soon be able to play a strong game against even a Montreal club.

The Granites will re-organize at an early date. The Victoria Club will have hockey representatives and it is proposed for the three clubs to compete for valuable medals that will be offered by subscription.

Gossip of the Turf.

Miss Russell, the dam of Maud S., is in foal to King Wilkes, 2.22½.

C. J. Hamlin's exhibit of horses at the late Chicago Show was valued at $400,000.

The projector of Boston's new race track is Mr. John Stetson of theatrical fame.

So far not one of the owners or jockeys at the Elizabeth track have been called before the committee to explain the running of their horses.

Spots of Sport.

Another race is talked of between McClelland and Priddy, the Pittsburg sprinters, for $1000. McClelland says the reason he lost was because he was rattled.

Harvey McKenna, the expert billiard player of Detroit, is dying of consumption. He had arranged a match with Schaefer, but was obliged to have it declared off.

This item appears in The New York News: SIR: I would like to meet any 35-pound boy to a finish for any amount. Can be seen any evening at 279 Monroe-street. ROBT. BURKE.

The billiard trade is considerably convulsed at present in the States, owing to the rise in the price of ivory. The price of the common white balls went up to $8 more a set than formerly yesterday.

The curlers of Buffalo are talking of the advisability of their becoming members of the Ontario branch of the Royal Caledonian Club, as they play considerably more with the Canadians than with the United States players.

The Kilrain-Scholes combination will be the attraction on the grand opening night at Prof. Popp's Academy, Albert Hall-lane, Yonge-street, on Saturday next. The company includes Prof. Reed, champion swordsman of America, Sergt. Cooper, Prof. Popp and all the first-class artists. Watch for the advertisement in Saturday's issue of The World.

There is no doubt of the New York Yacht Club adopting the new measurement rule. I am told by a gentleman who has made a private canvass of the club that the suggestions of Mr. Hyslop and his associates will be approved of by a considerable majority, in spite of the opposition from Boston. Naval architects may therefore go ahead with their designs. It is to be hoped that they will tackle Fife on his own ground and produce boats to beat the Minerva and Clara.—N.Y. Herald.

THOSE EAST END LANDS.

The Property Committee Has a Long Talk Over the Situation.

The Property Committee had an important meeting yesterday. The most important item considered was a magnanimous offer from William Beavis of Beavis & Browne with regard to the reclaiming the marsh lands at Ashbridge's Bay. A report was submitted by the sub-committee on the reclamation of those lands. They approved of the idea of reclaiming the marsh, and suggested that the City Engineer and Commissioner be asked to consider the whole matter and report the probable cost of the undertaking and the revenue derivable therefrom.

Ald. Gibbs thought the scheme a stupendous one. He was of opinion that it should be undertaken by a private company, which would receive all the revenue derivable for 30, 40 or 50 years, and as the expiration of the term should surrender the entire outfit to the city without compensation.

Mr. Beavis stated that the syndicate represented by him would accept this proposal for a lease of the reclaimed lands for 40 or 50 years and all the revenues derivable therefrom. The syndicate would supply all the money for the necessary work and would hand over the lands at the end of the term of lease to the city without asking for one dollar as compensation.

At this offer the committee seemed to be agreeably surprised and requested Mr Beavis to put it in black and white. He replied that he would do so, provided the committee would give him a little time to write to his principals at New York and Montreal. This was agreed to.

A couple of claims for drill shed site awards were heard, both of which will be more fully considered.

The question was asked by Ald. Gibbs if the Dry Dock Company at the mouth of the Don had taken any steps to carry out the terms of their lease. No definite answer could be obtained and the committee decided to visit the Don and see what could be done. They will go down by steamer at 10 a.m. to-morrow.

Ald. Lennox enquired as to the progress being made at the new Dufferin-street wharf. The City Commissioner replied that the work is now at a standstill. Ald. Baxter explained that the contractor was not to blame. The timber had been ordered and paid for, but the G.T.R. could not supply the cars necessary to bring it to the city. General Manager Wagner had promised to have the timber brought in to the city within 10 days. The contractor will be notified to appear before the committee at 10 a.m. to-morrow.

E. J. Clarke appeared to ask permission to convert some Island property leased by him from the city into a private park. The property has a 250 feet frontage on the lake. The committee did not think it had power to grant such a request and the matter was referred to the City Engineer and Solicitor.

THEY'RE AGAIN ON TOP.

Beavis & Browne's Plan Endorsed by East Enders.

Beavis & Browne's reclamation of the marsh lands scheme is being boomed. The City Council committees seem to regard it favorably and last night the East End property owners gave it their valuable support. On the other hand the proposition of a 7½ per cent. loan advanced by the Imperial Trust Company is in the consommie.

The East End Property Owners' Association held a meeting at Poulton's Hall last night. In the chair was acting president Ald. Mitchell. The report of the committee appointed to consider the proposition of the Imperial Trust Company was submitted by Mr. E. Bradshaw. This committee had come to the conclusion that the company's proposition was neither desirable nor feasible. Commissioner John Jones then came to the fore with a lengthy resolution favoring Beavis & Browne's plan. Here is its purport: The members of the Property Owners' Association of East Toronto and the owners of property abutting on Ashbridge's Bay recommend the adoption of Beavis & Browne's scheme for reclaiming the marsh lands and Ashbridge's Bay.

It was also resolved that Beavis & Browne submit to the association a copy of the terms upon which they intend to lease to the City Council for the right of carrying on such works. If such terms are satisfactory to the association, the members thereof pledge themselves to use every means to induce the council to adopt those terms, as in the opinion of the association a private syndicate will carry out this work more expeditiously and successfully than could the city corporation.

In connection with the resolution the mover read an agreement which Beavis & Browne propose submitting to the East End property owners, providing their scheme is finally accepted. Here it is:

We, the property owners of the land abutting upon the north shore of Ashbridge's Bay, in consideration of the proposal of Beavis & Browne to the Municipal Council of Toronto for the reclamation of Ashbridge's Bay and ne
