Poetry.

TO A CHILD IN PRAYER.

Fold thy little hands in prayer,
Bow down at thy Maker's knee;
Now thy sunny face is fair,
Shining through thy golden hair,
Thine eyes are pitiem free;
And pleasant thoughts like garlands bind thee
Unto thy home, yet Grief may find thee—
Then pray, Child, pray!

Now thy young heart like a bird
Singeth in its summer nest,
No evil thought, no unkind word,
No bitter, angry voice hath stirr'd
The beauty of its rest.
But winter cometh, and decay
Wasteth thy verdant home away—
Then pray, Child, pray!

Thy Spirit is a House of Glee,
And Gladness harpeth at the door,
While ever with a merry shout
Hope the May Queen, danceth out,
Her lips with music running o'er!
But Time those strings of Joy will sever,
And Hope will not dance on forever;
Then pray, Child, pray!

Now thy Mother's Hymn abideth
Round thy pillow in the night,
And gentle feet creep to thy bed,
And o'er thy quiet face is shed
The taper's darken'd light.
But that sweet Hymn shall pass away,
By thee no more those feet shall say;
Then pray, Child, pray!

LORD GREY.—I can recollect, when I was ten or twelve years old, going to Hasting's trial. My garter, somehow, came off, and was picked up by Lord Grey, then a young man. At this hour, as if it were in a picture, I can see his handsome but very pale face; his broad forehead; his corbeau coat with cut steel buttons; his white satin waistcoat and breeches, and the buckles in his shoes. He saw from whom the garter fell, but observing my confusion did not wish to increase it, and with infinite delicacy gave the garter to the person who sat there to serve us. *Lady Harriet Stanhope.*

HOW TO GET FREE QUARTERS IN LONDON.—Why the deuce don't you make yourself useful to the commonwealth by calculating a gradient, laying down a curve, or preparing a table of traffic in order to obtain the proper qualification for a railway witness? Nothing in this world is easier. You have only to sit at your window for a given amount of hours once a week, and note down the number of cabs and carts which jingle along the Bromie law; and, if you like that better, to ascertain the quality of the soil three feet beneath your own wine cellar, and you are booked for a month's residence in London, free quarters in a first-rate hotel, five guineas a day, and all expenses paid.—*Blackwood's Magazine*

Clarke's Vegetable Universal Life Pills.

THE very great demand for these most valuable PILLS, makes it imperative on the Proprietor to devote his attention exclusively to the manufacturing department; consequently he has appointed Messrs. T. & J. C. HATHEWAY Dock street, sole Agents for the sale of said Pills, to whom all other Agents are requested to make remittances and application for further supplies.—Country Merchants will find it to their advantage to keep a supply of these Pills on hand, as they command a ready sale wherever they are known.

Great Saving in Soap & Labour.
Royal Letters Patent—Granted March 4, 1844.

Patent Washing & Cleansing POWDER.

ONE great advantage which this Powder possesses over others, consists in its not injuring the hands of the persons using it. Other Washing Powders contain Carbonate of Soda in its free state, which by acting upon the skin, inflames the hands, and renders them sore and wrinkled.
Other advantages peculiar to this Powder, may be stated as follow, viz:
A saving of at least one half of the Soap which is necessary when Soda is used.
A great saving in the labour of washing.
The colour of linen and other fabrics turn out far superior in whiteness to that which is given by any other means.
N. B.—Warranted not to injure articles though made of the finest materials.

EXTENSIVE MILL PROPERTY
To be sold by Private Bargain.
ALL that large and extensive MILL PROPERTY, situated about a mile and a half from the mouth of the Nashwaak, nearly opposite Fredericton and consisting of one MILL containing six saws in single Gates; with a GRIST MILL, in good order, driving two pair of stones.
The Saw Mills are capable of containing as many Gangs as there are now single Saws, which could be substituted at little cost; they are in perfect order, and some of the Gangs could be driven throughout the entire year, as there are always several of the Saws kept going during the entire Winter; and the Grist Mill has the same advantage. The Draw is perfect and complete order, having been completed at very great expence, and runs entirely across the river Nashwaak, thus securing the whole waters of the river for the driving of the Mills.
Connected with the Mills there is a fine large Store, well adapted for the business of the country, also a Blacksmith's Shop, and a good Cottage and Garden attached, well suited for the manager of the Mills besides a number of Houses suitable for the Workmen at the Mills.
There is also a tract of Land on the Eastern side of the river, containing 500 acres, and about 200 acres on the western side, the latter embracing the Holybrooke Farm, and the whole highly capable of cultivation, and precluding any interference by other establishments on the river. These valuable Properties will be sold along with the Mills, and reasonable accommodation will be given to the purchaser. There can scarcely be found within this Province such a valuable Water privilege, and it is therefore well deserving the attention of any party wishing to embark in the Lumber trade; the whole can be seen at any time, and full particulars given on application to W. J. Bedell and Co. Fredericton, Charles Perley, Esquires, Woodstock, or to the subscribers at St. John. ROBERT RANKIN & CO.

TRIUMPHANT SUCCESS OF
Buchan's Hungarian Balsam of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the 'Great English Remedy.'
It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.
As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, Inflammation of the Lungs, Cromp, &c. it is unrivaled. The Proprietor is so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it tried by the DYING INVALID rather than by persons unfamiliarized with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pretended an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *wasting of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other medicines dare not claim for their preparations a power like this; they know that in no case have such effects been produced;—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure*: this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.
Such is not the case with the Hungarian Balsam. It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]
There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life," which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.
