### The Martyrs of 1634.

*(From the Penetang Herald.)*

We hear it is rumoured that the Roman Catholic church purpose erecting a new church in Penetanguishene next summer. We also have heard it proposed to make the proposed memorial church a memorial to the Jesuits, the early propagators of the gospel amongst the Huron tribes. No more appropriate memorial could be erected to them; and their heroic conduct, and the perils and hardships they met and endured, render them deserving in every way of some such lasting memento—and no more appropriate position for the church could be chosen than a site on the banks of the beautiful bay, the scene of their early labors.

### She Would and She Wouldn't.

*(Detroit Free Press.)*

Just to oblige a dying friend, named Spurgeon, a Miss Gray of Crestline, O., consented to marry him, although she had never reciprocated his affections and had chosen another man to become her husband. Her amiability got her into a dilemma, for Spurgeon has recovered and wishes to hold her to the compact. To that she will not agree, and she begs him to get a divorce, so that she may marry his favored rival. The outcome of the queer case is looked forward to with a great deal of interest in the town where the parties reside.

—The Toronto Turkish Baths, 238 Queen street west, are open every day from 7 a.m. so 9 p.m.

## *SIR FFORD NORTHCOTE*

His Views on England's Commercial Superiority, and on the Irish League.

LONDON, Oct. 4.—Sir Stafford Northcote in a speech at Hull yesterday said: There are those who think that commercial superiority will, as the premier himself has said, pass from England to America. I do not at least believe this will be in our time if we make use of existing means to support our commercial interests. If we resort to false remedies we may do irreparable mischief. I do not believe in some suggestions put forward by friends of our own side, nor in the Liberal suggestion that the state of agriculture is remediable by a radical change of the land laws, although they are susceptible of amendment. In regard to the Irish land act, he asked whether the government did not mean to insist that the league must submit to the authority of parliament and the executive and give the act fair play. The government, he said, should exert the amount of courage necessary to put down the defiances of law.

## *NEW YORK POLITICS.*

A Large Majority for the Anti-Conkling Party in the State Convention.

NEW YORK, Oct. 4.—The Times says that last night the rolls as made up from the returns from all the counties except Putnam, showed a majority of nearly 100 for the anti-Conkling men in the State convention.

The Sun says an impression prevailed last night that the movement for peace and harmony in the republican party in this state was largely the work of Arthur, and Cornell's influence was thrown in on the same side. Strong friends of the governor state positively there will be no trouble in the convention.

## *ARTHUR AND MAHONE.*

The Virginia Senator's Understanding with President—A Good Feeling Towards the South.

WASHINGTON, Oct. 4.—Some of Mahone's friends say Arthur has given the senator every assurance that the readjuster movement in Virginia, as far as it represents a progress and tendency to break up the rigid democracy of that state, receives his entire approval. Mahone had frequent conversations with Arthur before the senate adjourned. Mahone told a friend here that Arthur's policy regarding the south will be as favorable to that section as Garfield's, and that the president desires above all things to see a thoroughly national spirit throughout the southern states, such as was evinced at the time of Garfield's death. If during his administration the south should cease to be spoken of as a party section, but merely as a geographical section of the country, like the east, west or north, he would be gratified, even if his administration should make no remarkable success in any other direction.

## *OTTAWA'S ASSESSMENT.*

The City Commissioner's Annual Report—The Assessment of Personal Property.

OTTAWA, Oct. 4.—The city assessment commissioner has prepared his annual report. It states that the assessment reaches $10,628,220. He remarks that there is an increase of $118,840 in real estate and $300,800 in personal property, making a total increase of $427,640 over the assessment for 1881. The report further says the outlook for real estate in Ottawa is much better to-day than it was a year ago. Many sales have taken place at fair prices, especially in the western section of the city, but a slight improvement is felt in all parts. Owners of real estate are holding out for better prices; while desiring purchasers have been expecting to obtain property at a speculative value, consequently the sales are not so numerous as the demand would indicate. The number of vacant houses throughout the city is much less than a year ago. I would respectfully call the attention of the council to the desirability of taking some steps towards having the present law of assessment amended so far as relates to the assessment of personal property. The business man who invests say $25,000 or $50,000 in business is compelled to pay a tax on the full amount thereof, while the man who instead of engaging in business invests his capital in mortgages or securities is only asked to pay upon the interest derived from the same; or in other words, the man in business pays upon his full capital, while the man out of business only pays upon the interest of his capital. This is certainly not much encouragement to the employment of capital in business undertakings, and in my opinion acts very unjustly towards the man of enterprise.

## *THE GOVERNOR-GENERAL*

Returning to Civilization and Ottawa—The Coming Home of the Princess.

OTTAWA, Oct. 4.—The governor-general's tour through the Northwest is concluded, and he is on his way back to civilization. His excellency will come direct to Ottawa and take up his permanent residence for the winter at Rideau hall. He is expected here this week. His excellency will meet the Princess Louise at Quebec on the arrival of the steamship Parisian about the end of this month, and return with her to Ottawa without delaying at any place on the route.

## *A HAZING CASE*

In the Annapolis Naval Academy—Disciplining a Whole Class.

ANNAPOLIS, Ind., Oct. 4.—Sunday night the fourth class of cadets, newly entered in the naval academy, was hazed unmercifully. Members of the third class were suspected, and when the matter was investigated they refused to divulge what they knew. To-day the whole class of fifty were sent aboard the Santee. They took bedding [illegible] with the general [illegible] any government settlement of its own authority.

## *THE LAND OF PROMISE.*

Sir Alexander Galt Enthusiastic on the Climate and Soil of the Northwest.

OTTAWA, Oct. 4.—Speaking of the Northwest to an interviewer to-day, Sir Alexander Galt said: It is a wonderful country. I have become quite enthusiastic about it. Before I went there I had opinions, of course, but I could not realize what a magnificent country it is. I believe there is a great future for that country—that it will be the making of Canada. Nothing can exceed the richness of soil, and the climate is splendid. I feel quite a new man since my trip there; it built me up wonderfully. I have not seen enough of it yet, and shall try and go back there next fall. A remarkable thing is the contented feeling of every one I met. There is no grumbling. It is quite natural for many people to grumble, you know, especially for Englishmen, but I did not hear a single grumble. The air is invigorating, bracing, and tends to hopefulness and energy.

## *A BIG FIRE IN COBOURG.*

Part of the Best Block in the Town Destroyed—Loss $100,000.

COBOURG, Oct. 4.—A disastrous fire broke out here at five o'clock this morning, which destroyed the best block in town. When the fire was first discovered it was in the third story of Dumble's block. Fanned by a northerly wind, it spread to J. Sutherland's grocery store below, thence to R. Mulholland's grocery store and Burnet's grocery. Over these stores were the Sons of Temperance hall, the hook and ladder fire company meeting room, and several law offices. The fire brigade worked nobly, and confined the fire to those buildings, which were totally destroyed. At one time it was thought the whole south side of King street, from the Town-hall to Division street, would go. The loss is about $100,000.

## *GUITEAU'S TRIAL.*

Enquiry by His Counsel—He Will Rest the Defence on a Plea of Insanity.

WASHINGTON, Oct. 4.—Scoville, Guiteau's counsel, arrived this morning. He visited the prisoner at the gaol and had an interview with the district attorney relative to the manner of proceding with the trial. The district attorney informed Scoville that he intended to pursue the usual course in murder cases. Scoville intimated to-night that he intended to rest Guiteau's case on a plea of insanity, and said at the proper time he would ask for the necessary delay to enable him to procure witnesses from a distance to establish this plea.

## *QUEBEC AND ONTARIO RAILWAY.*

*(Special Despatch to The Toronto World.)*

OTTAWA, Oct. 4.—An important meeting of the directors of the Quebec and Ontario railway was held here to-day, the following gentlemen being present: Mr. Duncan McIntyre, Hon. Mr. Thibaudeau, and Hon. Peter Mitchell of Montreal; Mr. Adam Brown of Hamilton; Messrs. E. B. Osler, H. S. Howland, C. J. Campbell, W. H. Lockhart, Gordon and Hector Cameron, M.P., of Toronto. The company certainly means business, and the work will go on.

### Russia's Watchfulness of the Nihilists.

BERLIN, Oct. 4.—On the Russian frontier greater vigilance is exercised than hitherto. Doings in Prussia, Austria and Roumania are watched with a view to prevent the entrance or exit of nihilist emissaries. Vessels from England, France and America are examined for infernal machines.

### The Rhode Island Senator.

PROVIDENCE, Oct. 4.—The general assembly voted in the separate houses to-day for a senator to succeed the late General Burnside. The vote in the senate was: Nelson W. Aldrich 22, Browne 6, Sheffield 3, Lippett 2. In the house: Aldrich 33, Sheffield 8, Lippett 6, Doyle 5, Topham 4, Hazard 3, scattering 7. Aldrich will probably be elected on the first ballot tomorrow.

### Who Owns Wrangell Land?

WASHINGTON, Oct. 4.—The statement that Wrangell land, in the Arctic ocean, is part of the Dominion of Canada, is not considered accurate by the government officials, since the colors of the Dominion have never been raised upon the land. Our new possession probably will be named New Columbia.

### United States Finances.

WASHINGTON, Oct. 4.—It is stated at the treasury that on Oct. 1st the funds in the hands of the government were no more than sufficient to meet present liabilities. The actual cash balance was $159,087,000, or $100,000 more than the forty per cent. reserve on hand that can be used in bond purchase and current payments.

### A Double Murder in Kentucky.

JEFFERSONVILLE, Ky., Oct. 4.—Last night Ed. McDermott and one Duffy engaged in a drunken fight. Barney McCardile endeavored to pacify them, when McDermott stabbed McCardile fatally. Duffy then knocked McDermott down. John Keefe coming along picked up McDermott's hat and tried to place it on the latter's head. McDermott cut Keefe's jugular vein. The murderer was arrested.

### Russia's Interest in the Egyptian Question.

LONDON, Oct. 4.—The Journal de St. Petersburg, official organ, says Russia is able for the present to remain simply a spectator of the competition aroused by the recent pronunciamento at Cairo, but the possession of Egypt is not exclusively an English or even Anglo-French question. It [illegible] any government

### The Central Fair.

HAMILTON, Oct. 4.—The great central fair opened to-day. Though the weather was rather chilly, it was really all that could be desired at this late period. To-day has been mainly devoted to getting the exhibits in place. A good deal of interest is taken in the forthcoming bicycle race and concert by the band of the 7th Fusiliers (London). The exhibit of fine animals is large, and doubtless there will be some fine trotting. The judges got their books this forenoon, and have now set to work. Cards will be on most of the prize-taking articles by to-morrow afternoon.

### United States Lighthouse Service.

WASHINGTON, Oct 4.—The annual report of the lighthouse board shows an immense growth in the service. The number of lighthouses now aggregate 709, not including 800 lights on western rivers. The sum of $50,000 will be asked for the purpose of introducing electric lights in several of the more prominent lighthouses. The lights have been thoroughly tested, and it is said will be in every manner satisfactory and much more effective than ordinary.

### A Shocking Crime by the Arabs.

PARIS, Oct. 4.—Details of the Madsergha massacre show that the Arabs heaped up three hundred sleepers, upon which they cast grease, tow and oil, and flung the victims into the burning mass alive.

## *PROPERTY HOLDERS.*

The City Water—Leaks the Trouble—The Local Improvement System—Yonge Street Pavement—The Late Ex-Ald. Smith.

A meeting of the property holders' association was held in Albert hall last night, the president, Mr. Manning, in the chair. The president mentioned the death of Mr. John Smith, and a resolution of condolence was moved by Mr. A. Durand, and seconded by Mr. Jaffray. The former spoke of the history of Mr. Smith's work in the council and of the deep interest he had evinced in the association. The motion was carried unanimously.

ILLEGAL GRANTS BY THE COUNCIL.

A letter was received from the city clerk enclosing an extract from executive report No. 28, recommending that no action be taken on the letter of the property owners' association complaining of certain appropriations, payments and grants.

The chairman mentioned the $3000 grant to the Horticultural gardens, saying that it was a private enterprise, charging admission fees, and that the council had no control over the receipts.

A recommendation of the executive committee that the advice of Wm. Mulock, Q.C., be taken as to the legality of certain grants made by the city council, and objected to at a meeting of the association held 14th June, 1881, was adopted, it being understood that his opinion was to be reported to the association who would take such action as they might deem fit.

ABOLISHING EXEMPTIONS.

Mr. Lamb suggested that, in view of the approaching session of the local legislature, steps should be taken at once to petition that body to have all exemptions abolished. The chairman spoke strongly against the present system, saying that those who should pay most taxes paid least.

Mr. Bell spoke strongly against the local improvement system, saying that some streets got too much exemption from taxation and others too little. Some of those present not exactly understanding Mr. Bell, another gentleman took it that he meant that as properties in the central portions paid more taxes, they would consequently gain more by being exempted in consequence of a local improvement, although the local improvement itself cost no more.

The president said there was much truth in this view. At the same time, the improvement did cost more in the central sections, because, on account of the greater amount of traffic, the pavement would wear out sooner. Again, no matter how you adjusted the taxation, in the end the largest property owners had to pay most.

Mr. Jaffray spoke in favor of the local improvement system as preventing jobbery and promoting economy. He mentioned Ald. Carlyle as a convert to the system. Mr. Bell said Ald. Carlyle was of the same opinion of himself, namely, that the system worked great injustice.

Mr. Rush said he was tired of sitting here listening to people talking nonsense (No, no)—while the people were dying by dozens of typhus fever on account of the dirty water they were drinking.

The subject of the

YONGE STREET BLOCK PAVEMENT

came up. Mr. Jaffray defended the contractors, saying that there had been a petition put in against the work going on, which embarrassed them in proceeding. Mr. Durand said it was a vicious principle to allow contractors to break their contracts. Nothing was done in the matter.

THE WATERWORKS.

Mr. Durand mentioned that there was a proposition to spend $125,000 for a new engine. This was received with derision. One gentleman said they would never submit the by-law, and another said it meant supplying Yorkville with water.

Mr. Manning said that it was absurd to talk of getting pure water from the lake while a million gallons of dirty water was pouring into the pipe from large leaks, one at the wooden conduit and another at Hanlan's point, and in the engine house well. He thought the citizens should agitate the matter, and insist upon the pipes being perfectly tight before the water was brought from the lake. A new engine was quite unnecessary. Only two years ago, when the population of the city was nearly as large as now, water had been supplied with one engine, and they had been able to cut the water off for a week and draw on the reservoir. He was satisfied that when all the leaks in the city had been stopped the present one would be sufficient. He was convinced that there was a large amount of water lost through taps being allowed to run constantly, especially in water-closets and urinals, and of this he gave a striking instance. He believed the city would be better served with water by advertising for tenders and turning over the waterworks to a responsible company.

It was decided that the matter be fully discussed at the next meeting. The meeting then adjourned.

### Condolence and Sympathy.

MANCHESTER, Oct. 4.—The Congregational union of England and Wales, numbering 1600 delegates, to-day passed resolutions of condolence with Mrs. Garfield and sympathy with the American national woe.

### The Fighting in Tunis.

TUNIS, Oct. 4.—The Tebessa column of the French troops has entered Regency and has captured Gafsa after a severe battle with the Djerid Arabs. The place thus taken possession of is an island town of considerable importance, and equi-distant from Sfax and Gafies, two of the most important parts in the country.

### The Reading Railway.

PHILADELPHIA, Oct. 4.—It is very generally believed here that Vanderbilt holds enough Reading railway stock to absolutely insure the election of the Gowen ticket, even should McCalmont succeed in having their large amount of convertible loan made into shares.

### The Test Cases Under the Land Act.

DUBLIN, Oct. 4.—The Claremorris land league has resolved to pay no rent until the land commissioners decide their test cases. Arrangements have been made to build wooden houses for all tenants evicted in the meantime. The authorities have instructed the police to closely watch the movements of Redpath.

### The Defence in the Star Route Trial.

WASHINGTON, Oct. 4.—It is understood that a motion is to be entered to-morrow by counsel for defendants in the star route case to quash the information. The proceedings will include, in addition to the reasons already announced, a want of jurisdiction in the court, and that there is no offence charged against defendants; also that the proceedings involve review by a court in a collateral manner of an alleged abuse of discretion by the executive and legislative departments of the government.

### *THE WEATHER BULLETIN.*

WASHINGTON, Oct. 5.—Lower lakes: Clearing northerly winds; higher barometer and lower temperature.

## *COUNTY JUDGE'S COURT.*

Yesterday's Business—Wife-beating—Stabbing—Larcenies.

Edward Quinn was brought up from gaol where he had been sent for beating his wife. The judge asked Quinn whether he would promise to give up drink, to which he replied that he would do his best. He was bound over in his own recognizance, and discharged.

Frederick Hards was charged with having embezzled a certain amount of money from his employer, a Mr. John Wightman, dairyman, of the township of York. The information and trial had in the first place been before a Yorkville magistrate. The prisoner pleaded guilty to the information, which, however, only charged him with stealing $3. Mr. Fenton said there were other amounts, making together a large sum, but that the Yorkville justices had been under the impression that only one amount could be included in the information. The judge said he could admit no evidence of any sums except those mentioned in the information, and as the prisoner had already been three months in custody he was sentenced to one day's imprisonment in gaol, receiving one of the judge's characteristic lectures.

Frederick Mark was sent in from the village of Stouffville, charged with stealing $10 from Mrs. Margery Hopkins, a storekeeper in the village. The magistrates before whom the boy was taken at Stouffville, sent a statement of the difficulty they had in dealing with the case. The boy pleaded "not guilty," and was remanded to gaol till next Tuesday.

ASSAULTING HIS WIFE.

John Maguire was charged with assaulting his wife and cutting her wrist with a knife. He was not ready for trial, and was committed to gaol in default of giving bail himself in $1000, and two sureties of $500 each.

### Movements of Ocean Steamers.

QUEENSTOWN, Oct. 4.—Arrived, the Arizona.

NEW YORK, Oct 4.—Arrived, the Ethiopia from Glasgow; the Queen. Arrived out, the P. Caland, State of Nevada, Batavia Main and Olympia.

### Arizona Bill Done For.

LAS VAGAS, N. M., Oct. 4.—Jas. Lewis known as Arizona Bill, was shot four times and killed by Marshal Hatch at the Crested Butts. John Lutz, a bystander, was fatally wounded. Lewis attempted to "run" the town.

### Pinkeye in Chicago.

CHICAGO, Oct. 4.—There is an increase in fatalities from the new horse disease "pinkeye," and in many cases the attack is followed by lockjaw, and great difficulty is experienced in overcoming the ravages of the disorder.

### Enslaved by Australasian Natives.

SAN FRANCISCO, Oct. 4.—Sydney advices report the ransom by an exploring expedition to Bauka island, of an Italian named Luigi Boero, held by the natives, with five others, as slaves, and subjected to horrible treatment. All died except Boero and perhaps one other who could not be recovered.

### The Irish Farm Laborers' Movement.

CORK, Oct. 4.—Delegates of the farm laborers interviewed Parnell yesterday. O'Leary submitted a manifesto prepared by the committee, in accordance with a resolution of the recent national convention. Parnell said the land league intended to form a labor department, and with this object a number of laborers would meet in a few days.

### Parnell Denounces a Recreant League.

CORK, Oct. 4.—Parnell addressed a large meeting at Mallow to-day. He said he found one of the worst cases of land grabbing existed in their midst, and the Mallow league had the audacity to apply for a grant for an evicted tenant, while they had sanctioned an eviction. Parnell said he would cut out this rotten branch, and take steps to establish a branch in keeping with the principles of Davitt.

### Two Canadians Lynched in Michigan.

BELLEVILLE, Oct. 4.—News has been received here that John McDonald of this city, and Frank McDonald of Desoronto, had been lynched by a mob at Menominee, Mich., on the 30th of September. They had been arrested on a charge of murdering a man in a row, and a mob took them from gaol and hung them. John McDonald was about 24 years of age. His widowed mother and several sisters live on Wharf street. He bore a good character here.

### The Sale of Manitoba School Lands.

OTTAWA, Oct. 4.—Mr. Scott, M.P., Winnipeg, to-day had an interview with Sir John Macdonald in relation to the sale of Dominion lands advertised op the 15th inst. at Winnipeg. It will be remembered the sale was postponed for a month. Mr. Scott on behalf of the settlers on school lands asks that the government abandon the sale, and instead fix a reasonable price on the lands, which they will willingly pay. He states that many of the parties affected have been in possession of the property for years and have made valuable improvements. They are in every sense of the word bona fide settlers, and he urges that they should be treated as such by the government.

### *PERSONAL CHIT CHAT.*

Oliver Wendell Holmes is growing deaf.

Ingersoll is writing a lecture on Garfield.

King Kalakaua is the only monarch who has made a tour of the world.
