ABOUT THE NORTHWEST.

OPINIONS FAVORABLE TO THE NEW COUNTRY.

Progress of the Railway—Interview With Recent Visitors—Prince Albert—Summer Resorts.

A few facts regarding the Northwest which have recently obtained considerable prominence in the papers are likely to bear strongly in its favor with intending settlers These facts are worth stringing together, if for no other purpose than to see how they look when so placed.

RAILWAY PROGRESS.

First, as a matter of fact the railway is being pushed westward at such speed of construction as was never known in the world before. Mr. N. C. Wallace, M. P. for West York, has just returned home after having been out to the present end of the line, or farther, and is reported in the Mail to the following effect:

"The railway is already a short distance west of there (Regina), and the way in which it is being pushed on towards the Rockies speaks well for those who have it in charge. Four miles a day is the average progress, but this is often exceeded. An army of 3,500 men and 2,600 teams are at work on this part of the line, and while I was talking to Mr. Shepherd, one of the contractors, the track-layers passed, and two hours later the rails were laid for a mile beyond. So the work progresses without even a hitch. At every station along where the line is being constructed there is a detachment of mounted police for the purpose of keeping order and the 'fire water' from the men. Wages average from $2 25 to $2 50 per day, and as board costs but $4 50 per week, the men have every chance of saving their earnings. Some have several hundred dollars to their credit, while others support large families at home and still save a little."

ANOTHER TRAVELER.

With regard to the influx of people into the country, the soil and climate, and the prospects of settlers we have something also from the Rev. James Robertson, superintendent of Presbyterian missions in the Northwest, who is now in Toronto on business connected with the missions. We make these extracts from the Globe's report of an interview with him:

"During the past summer I have traveled extensively through the whole territory 400 miles west of Brandon. North of the Assiniboine it is a fine rolling country, and though the soil here is somewhat lighter than it is farther west and south, yet it is very fine throughout for grazing and silage. In some places it is rather wet, but a little drainage will render it fit for cultivation. About Regina the soil is a heavy clay, and not so dark in color as in most other places. The place where Regina is located, when I was there, appeared as if it had been under water, though it can be drained at little cost into Pileo'-Bones creek."

"QU'APPELLE IS A SPLENDID REGION,

and if a railway is taken into the country it must rapidly rise into importance. The country is a little more rolling than at Regina, and the land better. All the land between South Qu'Appelle is very good. All the land in the neighborhood of Qu'Appelle is taken up. . . . Prince Albert is already the centre of a flourishing and rapidly increasing settlement. The land around it is all taken; indeed the land west of Brandon along the railway for about 400 miles, from 25 to 50 miles wide, is all taken up. There is a strip of country as far as Montreal from Toronto all settled. I suppose that 40,000 or 50,000 people have settled in the country west of Brandon this year, and a very large proportion of these have come from the American side of the line. The land along the the Turtle Mountain westward about 150 miles and two or three townships wide is all settled. I saw a man this summer who has taken land in township seven, west of the second principal meridian.

"THERE ARE NO SUMMER FROSTS,

at least there has been no difficulty from that cause this year; indeed, I have seen none for the past few years. The increase in population, the enlarged area of land under cultivation, and efficient drainage, all are matters that tend to do away with summer frosts. As far as my experience goes, I would just as soon live in the Northwest as in Ontario. The climate is quite as good. The fact that there have been no summer frosts this year is all the more remarkable inasmuch as there was a very late spring. The cost of living is a great deal higher up there than here, but you must take into consideration the greater fertility of the soil and the cheapness of land. The cost of obtaining and stocking a farm is much less there than here, and after that there are only the luxuries and clothes that a farmer is compelled to buy. . . . For twenty-five miles round Fort Ellice, on the Assiniboine, there were only two families last year; this year it is full of people, and the land is all taken up. The country immediately northwest of Pelican lake last year had no settlers in it; now it is full and the land all taken up. . . . I found wherever I went excellent crops—in fact, above the average, though I may say that the crops on the Little Saskatchewan formed an exception to the rule in this respect, they not being quite as good as last year. I should say that the wheat crop averages forty bushels to the acre."

COAL DEPOSITS.

It appears as if another fact of vast importance were already settled—that of the existence of extensive deposits of coal, or lignite, or both. An abundance of lignite has been found on the Souris district and on the South Saskatchewan. Mr. Wallace says that, although not so good as coal, it makes an excellent substitute. The following paragraph occurs in one of the Globe's letters from Fort McLeod:

"I called the attention of your readers in a former letter to the great coal beds existing in this part of the Northwest. Since that time there has been a good deal of activity in opening up these mines. One large company of English capitalists, known as the Northwest coal mining company, have opened the mines at the Blackfoot crossing on the Bow river. They have brought up a large amount of machinery for the mines, besides a sawmill. They are also getting up a couple of steamboats and barges. Beside this mine and the old ones that were run by Mr. Sherin J. G. Baker & Co. have opened one on the S. Mary's river. From this mine all the Bull trains returning to Fort Benton load with coal. This coal is worth $30 per ton in that place. If a railroad was running from here to Montana, the whole of the Western mining states would get their coal from here. . . . The summer has been exceedingly dry, but crops have turned out remarkably well, and were all harvested on the 1st of September. Wheat is especially good."

REST AND COMFORT TO THE SUFFERING. "Brown's Household Panacea," has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago, and any kind of a pain or ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle

READABLE PARAGRAPHS.

—Mental Depression, Loss of Memory, Impaired Vision, Premature Decay, and Loss of Power cured by Dr. E. C. West's Nerve and Brain Treatment.

We have received a full line of linen collars, which we can sell at $1 75 the dozen. Warranted four ply. Also a fine linen cuff which we are selling for 25c by the dozen. A. White, 65 King st. west.

How It Works.

Malarial diseases, so prevalent in the spring and fall, such as ague, chill fever, bilious fever, etc., depend upon an inactive state of the liver, bowels, skin, kidneys, etc., for did these outlets of morbid poisonous matter free the system properly, no sickness would result. Burdock Blood Bitters effectually regulates these organs and corrects the absorbent and secretory system as well.

It is very proper for a woman who has a bonnet trimmed with bugles to keep it in a bandbox.

A girl has been arrested at Kansas City for flirting with the mourners in a funeral procession. Great heavens! have women no rights to be respected?

Dr. J. Corlis, St. Thomas, writes: "During ten years' active practice I have had occasion to prescribe Cod Liver Oil and Hypophosphites. Since Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda came under my notice I have tried it, and take great pleasure in saying that it has given great satisfaction, and is to be preferred to any I have ever used or recommended. I have used it in my own family almost as a beverage during heavy colds and in every instance a happy result has followed. I cheerfully recommend its use in all cases of debility arising from weakness of the muscular or nervous system.

Skipwith is quite a town down in Mississippi. Young men frequently go there and Skip-with the fair maidens of the place.

A cure for Headache.—Thousands are suffering martyrs to this distressing trouble. If you have pure and properly vitalized blood coursing freely through your veins; if the stomach, liver, kidneys and bowels act rightly you will never experience headache. Burdock Blood Bitters will effect this desirable condition, if properly used. Try it.

A Saratoga female snob sports more than 40 parasols—all different hues. She has a "dead open and shut" on the rest of the girls.

Orin Catlin, 49 Pearl street, Buffalo, N. Y., says: I tried various remedies for the piles but found no relief until I used Dr. Thomas' Eclectric Oil, which entirely cured me after a few applications.

"Silence that dreadful belle," said Spicer, as the beauty of the hotel yowled an operatic air in the parlor.

A Good Investment.—Twenty-five cents expended to your druggist for a bottle of Hagyard's Yellow Oil will allay more pain and cure more diseases than many dollars spent for ordinary medicines would do. Yellow Oil cures rheumatism, burns, scalds, frost bites, sore throat, croup, stiff joints, contracted cords, and all lameness and inflammation.

"Neuralgia" is the name borne by a charming girl of Iowa. Her mother found it on a medicine bottle and was captivated with its sweetness.

A lady from Syracuse says: "For about seven years before taking Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I suffered from a complaint very prevalent with our sex. I was unable to walk any distance or stand on my feet for more than a few minutes at a time without feeling exhausted, but now I am thankful to say I can walk two miles without feeling the least inconvenience." For female complaints it has no equal.

Woman as well as man is fond of hitting the right man on the head; but when it happens to be her finger-nail, her enthusiasm becomes wild and incoherent.

Mr. J. R. Seymour, druggist, St. Catharines, writes that he finds an ever-increasing sale for Burdock Blood Bitters, and adds that he can, without hesitancy, recommend it. Burdock Blook Bitters is the grand specific for all diseases of the blood, liver and kidneys.

"What are clouds?" asked the Popular Science Monthly. Well, one kind is when you call to see your girl and find that the other fellow is in the parlor with her.

Don't despair of relief, if troubled with chronic dyspepsia or constipation. These ailments, as well as biliousness, kidney infirmities and feminine troubles, are eradicated by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, an alterative of long tried and clearly proven efficacy. It is a fine blood depurent as well as corrective, and contains no ingredients which are not of the highest standard of purity.

Young man, don't pay the minister over $1. You will need all your currency the first time Belinda puts her dimpled arms around your neck and tries to trade off two kisses for a spring bonnet.

Orpha M. Hodge, Battle Creek, Mich, writes: I upset a teakettle of boiling water on my hand. I at once applied Dr. Thomas' Eclectric Oil, and the effect was to immediately allay the pain. I was cured in three days.

Seventeen years old, twice married, once a widow and now deserted by her second husband, is the history of a girl who recently attempted to commit suicide at Kansas City. Don't see why she wanted to suicide. She was having a pretty good time.

Mrs. Wm Allan of Acton, says he has never been without a bottle of Haggard's Yellow Oil in the house for the last twenty years, and would not be for ten times the cost: adding that she has never known it to fail for colds and croup, sore throat, stiff neck, burns, scalds, etc. She concludes by saying, "if any one doubts its efficacy refer them to me."

"No, papa, I do not wish to marry yet. What I want is a man who does not drink, smoke, chew, snuff, go out night, gamble, bet, over-eat, etc., in short, a man with no vices, and one who is always good." "My daughter," said Mr. Dusenberry, "you are but a stranger here; heaven is your home."

Deafness that is caused by colds, inflammation of the membrane of the ear, and earache, is often cured by Haggard's Yellow Oil, the great external and internal remedy for all pain, soreness and inflammation, rheumatism, burns, scalds, frost bites, sore throat, croup, contracted muscles, etc. Never be without it.

Before the wedding day she was dear and he was her treasure; but afterward she became dearer and he treasurer.

*Lydia E. Pinkham's Vegetable Compound cures all female complaints by removing the cause.

Very long stemmed roses are the artificial flowers most desirable for corsage boquets A single rose costs $1, and from five to ten are mounted in a group.

MOTHERS! MOTHERS! MOTHERS

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so go and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents bottle.

HOPE & MILLER,

STOCK BROKERS.

MEMBERS OF TORONTO STOCK EXCHANGE.

Land, Estate and Financial Agents. Room 6 Union Loan Buildings 28 and 30 Toronto Street Toronto.

Cheese Market.

WOODSTOCK, Oct. 18.—The offerings to-day consisted of 880 boxes, Aug. make and 3638 Sept. The Oct and Nov were boarded a balance of season. All the Aug offered were sold 340 boxes at 10c and 540 boxes at 10½c. Advices from Liverpool to-day showed an advance one shilling and sixpence. This rise encouraged the holders of Sept and Oct to hold on for an advance here, more especially as the Unnited States market quote 12c as the ruling price. Cable 57s and 6d.

BELLEVILLE, Oct 18—The cheese market continues very dull. A few factories are contracting at 10½c for August and 11c for last three months.

The Stranger in London.

That the great city will ere long be hardly recognizable by its former denizens, all the world has heard. The visitor passing up the Thames now finds his eye gratified by the many handsome edifices recently erected. As he reaches the famous Victoria Embankment, there rises over him on the right hand the new Times office, and on the left hand the new tower-crowned works of Messrs. James Epps & Co., both phases of Italian architecture. It may be said that these two buildings are types of the far-reaching business energy of the nineteenth century, for it has resulted from such means that these two establishments have brought themselves to the fore, and that the annual issue of each has come to be estimated by millions. During the last year the number of copies of the Times issued is estimated at 16,276,000, while the number of packets of Epps' Cocoa sent off in the same period is computed at 14,749,695. The latter is a large total, when it is borne in mind that in 1880 the consumption of cocoa throughout the whole kingdom was but 42,382 lbs., there then existing no preparation of it such as this, which by the simple addition of boiling water would yield a palatable drink. Truly time may be said to work many changes. tf

Courtship in Iowa.

A few days ago a staunch old farmer living a few miles from Maquoketa drove to town accompanied by his son, and reaching a certain residence where resides a family in which there is a handsome daughter not yet out of her teens, they stopped. The old man held the reins while the young man entered the yard and rapped gently on the door. When the young lady opened the door and said "Good morning," the young man stammered out, "Is Miss —— at home?" She answered, "Yes, sir." "Wall, my father wants to see 'er." "Won't you come in?" she asked. "No; I'll go and hold the team while father comes in," he said.

The father came in and without ceremony began, "My boy out there's got eighty acres of good land, a team, and wants to get a wife 'twixt now and harvest, but he's kinder bashful, and wanted me to ask you if you wouldn't marry him, and if it is all right we would come around next Sunday and settle up the business." Imagine that young lady's surprise and bewilderment, never having seen the father or son. Regaining her composure she replied, "I don't care to get married now."

A Speculative Young Woman.

From the Carson City Appeal.

"Guess I won't take in school to-day," said a Carson urchin with an Appeal in his hand.

"Why not?"

"Concordia has fallen off ten cents, and I don't dare show up until it picks up again."

"What has the fluctuations of Concordia got to do with your studies?"

"A good deal," answered the boy. "My teacher has 100 shares of the stock and when it falls off a few cents we all catch it heavy. I keep my eye on the list, and when there's a break you bet I don't go to school. I play sick. Golly! how she basted me when Mount Diablo busted down to two dollars. My mother's been patchin' my pants now ever since the big break in Sierra Nevada, and if the market don't take a turn pretty soon I'm goin to quit the public school and go to work on a ranch."

Ex-President Hayes in New York.

Correspondence Philadelphia Record.

We had a "distinguished" visitor here the other day who attracted no attention—though this fact must have impressed itself painfully upon him. The gentleman was R. B. Hayes, late president of the United States. He stayed at the Fifth Avenue hotel, but not one of the wealthy republicans of the city called upon him or invited him to dinner, while their cards were showered upon Mr. Arthur, whom Hayes had turned out of the custom house. New York has never paid much attention to ex-presidents except in the case of Grant, and his possibilities in the future have alone saved him from neglect.

Riches and Friendship.

From Chambers' Journal

A certain man of vast estate,
And generous mind withal,
So freely spent it on his friends,
He soon had none at all.

His fickle friends discovered this,
And then their worth they showed;
They left him, nor e'en paid the debt
Of gratitude they owed.

Ere long the man got rich again—
Much richer than before;
And those who then received so much,
Came now—expecting more!

The man had by this time, howe'er,
A lesson great been taught;
And straight he sent them all away,
With the large sum of—naught!

Friends, he had learned, do round us flock
When we are rich and great;
But when want comes and troubles rise,
They leave us to our fate.

And he had learned what oft is seen
When friends are in request,
That those of whom we think the least
Turn out to be the best.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

KIDNEY-WORT

IS A SURE CURE

for all diseases of the Kidneys and

—LIVER—

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

SOLD BY DRUGGISTS. Price $1.
