GRATEFUL—COMFORTING.

EPPS'S COCOA

BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets by grocers, labeled thus:

Tips From Wall-Street.

The market is weaker, and some long stock is said to have been sold.

New York Central is lower on supposition that dividend will be reduced.

Henry A. King & Co.'s special wire from Ladenburg, Thalman & Co., New York: Moderate bear pressure on various parts of the stock list serves to reveal not only the absence of real sellers, but the lack of support, and the continuance of speculative indifference on the part of the public. While the impression on prices has been scattered and in no sense very marked, different parts of the list have shown a disposition to yield. N. Y. C. was attacked, and though a rally followed its depression would indicate that doubts about the payment of the fall dividend will play a part in the market till the question is decided. Sugar was also raided, and though there was some support at around 95 the stock acts as if no extraordinary efforts would be made to check further depressing manipulation. While the Granger stocks were inactive and relatively firm in the morning the bears made a sharp drive at Burlington after the noon hour, and the same interest appeared to be hunting for an opening in W. U., though with only fractional success. Chicago Gas heavy and lacks support, which the bear sellers gave it last week. The only stock, in fact, in which there was any positively bullish tendency was General Electric.

Schwartz, Dupee & Co., Chicago, wired Dixon: Wheat opened weak and lower, with considerable selling by commission houses on the expectation of a large increase in the visible and on continued liberal receipts in the Northwest and lower cables. Towards the close the strength in oats and corn started local shorts buying, causing an advance of 1-2c from the lowest price. Exports less than 300,000 bushels in wheat and flour. At the opening there was a rush to sell corn, both for long and short account, with increased weakness in the near futures. The local stock increased 150,000 bush. Cables lower, but buying by the shorts caused a rally of 1 1-4c from the bottom price. After such a liberal decline as we have had in the last two weeks a reaction was only natural. Provisions very active and decidedly irregular. Heavy selling of Jan. pork and lard by brokers, who afterwards gave up the name of a leading packer, caused a sharp decline, which was all recovered at the close. Leading packers are bearish on the hog market, and sales of product on the rallies should show profits for the present.

Henry A. King & Co.'s special wire from Logan & Co., Chicago: The wheat market has been a dragging one from opening. The visible supply, being under a million bushels, caused some firmness, but it was short lived. Conditions are unchanged. Receipts at interior points are beyond requirements. Until this position changes we cannot look for much, if any, but fractional advance. European markets are no lower, but the absence of the usual speculation in purchases is against the market. Corn has been active and largely of local character. The light increase in visible supply and smaller receipts predicted should at least prevent any further decline at present.

Business Embarrassments.

The creditors of Thomas Best met in the St. Charles yesterday afternoon.

The Williams, Greene & Rome Company of Berlin have made a settlement with their creditors, and will continue the business as formerly. The company pays the creditors 60 cents on the dollar as a compromise, and they are now in as good a shape as ever they were, being $40,000 ahead. The usual number of hands will be employed, and the 10 travelers will be sent out on the road again as soon as possible.

A meeting of the creditors of Withrow & Hillock was held yesterday. The liabilities are estimated at $118,000, consisting of direct liabilities of $18,000, Imperial Bank, secured, $40,000, and about $60,000 on mortgages. It is expected that some arrangement will be made whereby the firm will continue its business.
