The Weekly Monitor.

WEDNESDAY, OCTOBER 17th, 1888.

—The prices that flour has reached is becoming a serious item to those who have large families and are obliged to buy a barrel of flour every two or three weeks. To the poor man it is very hard. It is not a consoling thought under such circumstances to reflect that to a very considerable extent this rapid rise in flour values is due to the skillful operations of the stock gamblers on 'change in Chicago, chief of whom is Hutchinson, or "Old Hutch" as he is familiarly called. This man has cornered the market and has made two or three fortunes out of his transactions, without perhaps spending $50 all told. One man named Williams, a New Yorker, has committed suicide through being pinched in the deal. He was a member of the great brokerage firm of Williams, Black & Co., reputed to be worth $2,000,000, a few days ago. He shot himself and left a note saying that life was not worth living, after being disgraced, *i. e.*, losing nearly all his fortune. Stock gambling has assumed tremendous proportions, and there should be some legislation passed to place it beyond the powers of a few rich and unscrupulous men to abnormally inflate the values of the necessaries of life. Between combines, trusts and monopolies generally, the poor man is being pushed closer and closer to the wall. Unless some check comes no one can foresee the end.

Regarding the wheat deal the New York *Herald* says:—

"This is where these deals strike home—where the burden falls upon the silent, unmurmuring millions—where we must some day look for the causes of what we call anarchy and socialism. A system of government under which, notwithstanding the millions of acres covered with ripe and bending grain, God's bounty to God's creatures, a half-dozen brawling gamblers in a Chicago "wheat pit" can reduce the size of every loaf of bread is, to say it in the mildest spirit, open to criticism."

If the press manfully battles with this huge question as touched upon by the *Herald*, it will inevitably result in a better order of things.

—The *Spectator* finally condescends to reply to our request for a correction in reference to spreading an unjust report of scarlet fever raging here. It does so in the following manner:—

"The reason 'why' is that we have not yet learned the difference between 'tweedledum,' and 'tweedle-dee.' Life is too short to spend it in splitting hairs. We would ask our contemporary to refer us to some recognized medical authority who defines 'scarlet rash' as a separate and distinct disease, and not liable to all the dangers of *contagion* as in the case of scarlet fever."

Highty-tighty, our newly fledged journalist is sharp indeed. We did not say the disease that prevailed here was *not* contagious, we merely wished our contemporary to publish the facts as they existed. Everyone knows there are several types of scarlet fever—the rash being the very mildest form, and with proper care not dangerous; while the worst type is a dreadful disease and justly dreaded by all parents. All the cases here were of such a mild type that in numbers of instances those who contracted it could not be kept in bed more than a day or two—none were sick more than a week that we know of.

The only inference that can be drawn from the *Spectator's* reply is that it wished to make out the case as bad as possible, and thus do Bridgetown what injury it could. Such a spirit is pretty small.

—Another of those dreadful accidents has just taken place on the banks of Newfoundland. The National line steamer "The Queen," on the 5th inst., ran down and sunk a French fishing schooner, causing the loss of twenty-one lives. The captain, mates, and steward alone were rescued after being in the water some time. The former states the night was very foggy, and that at the time of the collision the steamer appeared to be coming full speed. The steamer officials' side of the story has not yet been made public, but there is no doubt that in far too many instances the rule of the sea is disregarded, and the large "ocean greyhounds," as they are called, rush through the densest fog at full speed. Many a fishing schooner that has never been heard of after leaving port, and is supposed to have foundered in a gale, has been sent to the bottom with her living freight by being run down and sunk in this way, all to gratify the greed or pride of some one to make a quick passage. Such a reckless disregard of human life calls for remedy.

—The *Spectator* complains that the report of the Teacher's Association was sent only to the MONITOR, *as usual*. The reason is simple, the MONITOR is the paper first published after the conclusion of the session, and it is customary, if the secretary is appointed in this county, to send the MSS to us for publication and then request the *Courier* and *Spectator* to copy, which they should have no difficulty in doing, as the publication day of both papers is on Friday. The secty. can hardly be expected to prepare three manuscript copies when his services are gratuitous. It is the first time any complaints have been made about the matter. We may say further that we have not always had the copy first, as we republished from the *Courier* on one occasion at least.

QUITE AN EVENT.—Two fine days in succession.

—Serious floods are reported in New Brunswick, especially in the district through which the St. John river runs.

—Miss Lizzie Ansley, who has been in Boston selecting new fall styles in millinery has returned home.

—Mr. Owen Neily, now a resident of one of the Upper Provinces, is here on a visit. Mr. Neily is a son of the late Samuel Neily, Esq.

—Mr. W. E. Jefferson, of Annapolis, retires from business on account of ill health. His place is taken by his son Walter G. Jefferson.

—Mr. Charles Ramsay, of Clarence, gathered 198 barrels of Gravenstein apples from 21 trees this fall. Talk about California!

—The Hon. Samuel Chipman, of Kentville, will celebrate his 98th birthday tomorrow. Mrs. Primrose, of Lawrencetown, widow of the late Dr. Saml. Primrose, is one of the venerable gentleman's daughters, and is now in Kentville spending a few days.

SAD DROWNING AT ROUND HILL.—On Tuesday, the 9th inst., a lad by the name of George Simmons, about sixteen years of age, son of William Simmons, of Round Hill, fell into the creek, while crossing the railway bridge, east of Round Hill Station, at high water. His body was found Thursday morning near the bridge where he was supposed to have fallen in.

R. Withers, M. D., Coroner, was sent for yesterday, and an inquest was held; the jury rendered a verdict in accordance with the facts.—*Spectator.*

—In Major Eagan's "History of the Halifax Volunteer Battalion," a work recently issued, the score made at the first provincial rifle match which took place at Windsor on the 1st and 2nd of Oct., 1861, is published. Among the names we find the following:—

Private J. Millage, Annapolis Rifles, who made a total of 23 pts., the ranges being 150, 200, 250, 300 yards, 5 rounds each; Private J. Dunne, of the same, made 23 pts.; Sgt. W. Bishop of the Paradise Rifles, made 20 pts, and Private Leonard of the same, made 14 pts. The highest number of points made by any of the competitors was 29, made by Private C. R. Kinnear, of the Cheb. Greys.

## Local and Other Matter.

—Kentville has suffered a number of petty burglaries lately.

—8 doz. Self Sealers are expected on Saturday, at Shipley's. 11

—Barque Harvester, Atwood, from Philadelphia, grounded at Bordeaux and got off without assistance.

—The election in Shelburne was put off a week, owing to delay in getting notices posted. It comes off next Monday.

—Rev. W. B. Bradshaw, lately of Kings, is now in charge of the Baptist congregation at Nictaux.

—Isaiah M. Rice, of Bear River, received a master's certificate at the last meeting of the Marine examining board at St. John, N. B.

—Any person having Poultry to dispose of will do well to call at S. FitzRandolph's Provision Store where the highest cash price is paid. 4i31

—Dr. Syda, of Round Hill, is now in Freeport, Digby Co., in temporary charge of Dr. D. N. Morrison's practice. The latter is in Philadelphia.

—Monday was nomination day in Shelburne. The Liberals nominated F. T. Congdon, and the Conservatives, Gen. Laurie.

—Mr. Jos. FitzRandolph, son of the late Mr. Chas. FitzRandolph, arrived here yesterday. He has been living in Kansas for the past nine years.

—Mr. James Langley, of Carleton's Corner, has brought us in a number of monstrous potatoes, Early Vermonts, he calls them, the largest of which measures twelve inches in circumference.

BEAN SOCIABLE.—The ladies of St. James' Church purpose holding a bean sociable, on Thanksgiving Night, Nov. 15th. Further particulars will be given in a later issue.

—A big sham fight took place at Halifax on Wednesday last. The ships in the harbor stormed the city, which was defended by all the available land forces. The naval forces were judged to have obtained the advantage to some extent.

—The autumn time table of the W. & A. Railway will come into effect on Monday next. There is no change in the running of through trains, only in the time of trains running between Kentville and Halifax and intermediate stations.

—On Thursday last a young man named Sabeans, employed by Mr. Chas. Rumsey of Clarence, while skylarking with another older and stronger companion had the misfortune to break his right leg below the knee.

—Mr. Arnold Goodwin sold his property in the Lane at auction on Saturday last to Rev. J. Cassidy, a retired Methodist minister, who has for some time past been living at Annapolis. The figures were $2,400. We welcome the Rev. gentleman to our town.

—The grading examinations of the Bridgetown public schools will begin on Monday 22nd inst. Excepting in cases of sickness, those desirous of admission to higher grades must pass a regular examination at the time appointed. No such irregularity as the one referred to, will be allowed unless notice be given to the date mentioned. By order of Trustees.

—At noon here on Monday a slight shock of earthquake was distinctly felt by many persons, accompanied by a sound as of a heavy waggon on a rocky road. It had been raining steadily for 14 hours previous to the shock.—*Digby Courier.*

—Capt. Clarence O. Anthony, of Bear River, has purchased at Quaco, a fine schooner of one hundred tons, called the E. Norris. The price paid is said to be $4,800. She will be employed in the coasting trade between here and the United States.—*Ibid.*

—Canada's winter port! A cablegram was received at the office of the Dominion Steamship company in Montreal on Wednesday, from the head office in England, stating that both the Allan and Dominion lines would make Portland, Maine, their winter port this season. It is reported that the first steamer will arrive at Portland about Nov. 11th.—*Halifax Chronicle.*

—A Rockland, Me., despatch of Oct. 15th, says:—The schooner Francis B., of Annapolis, N. S., went ashore on Gangway ledge, a mile from Whitehead station, on Saturday morning. The life saving crew got her off on Sunday morning, leaking badly. She was beached, and temporary repairs made when she proceeded. The extent of the damage is unknown.

—Byron Chesley, of Clarence, took eighteen prizes for farm produce at the last Provincial Exhibition; E. F. McNeil, of Melvern Square, took some thirteen or fourteen. Mrs. Spain, of Wilmot, took all the prizes on Devons. John Banks, of Nictaux, and Geo. Ruffee, of Bridgetown, each took prizes for horses. These, we understand, complete the list of successful exhibitors from this County.

We have not yet seen the full prize list, and cannot be sure above is correct.

ACCIDENT.—We regret to state that one day last week, Edward Eaton, Esq., a venerable and respected citizen was knocked down and seriously injured by a horse that became unmanageable while being ridden by a boy. Mr. E. was crossing the road near his residence at the time. He was carried into the house and a physician sent for, who pronounced the injuries to consist of a fracture of the neck of the femur (thigh) bone, and it is feared that it will cripple Mr. Eaton for the remainder of his life.

SHIPPING NEWS OF WEEK.—Schr. Emma C. Capt. Apt, of Boston, arrived from Boston on Tuesday last, with general cargo, and left next day with cord wood for same port.

Schr. Temple Bar, Longmire, ar. from St John, Monday, leaves to day for same port.

Schr A. M. Holt, Graves, ar. and cld. again for St. John.

Schr. Florence Guest, Atwood, for Clementsport entd. yesterday, and also cld. again for Boston.

Schr. Atlanta, Wood, ar. from Parrsboro, on Monday with a load of coal, which she is now discharging.

Schr. Lumen, Goodwin, ar. Monday, from Tusket Wedge, is taking in apples for Yarmouth.

—On Wednesday morning Oct. 3rd, there was quite a number gathered at the residence of Geo S. Barnes, of Boston, to witness the marriage of his neice, Miss Ethel L. Williams, formerly of St. John, N. B., to Mr. Ansley M. Johnson, formerly of Clarence, Annapolis Co., N. S. The marriage service was performed by the Rev. D B. Jutlin, D. D The bride was attended by Miss Alice Mose, and the groom by Mr. James Waugh, both of Boston. Among those present was W. T Henderson and D. Hutchinson of the firm of Hutchinson & Henderson, builders, for whom the groom has been foreman for some time The bride was the recipent of many valuable presents. The newly married couple left on the 6 o'clock boat for St. John and Annapolis, to make a short visit to their friends, mid showers of rice and good wishes. ONE PRESENT.

AUCTION SALE OF STEAMER EMPRESS.—Portland, Me., *Press*: The steamer Empress, of the Nova Scotia Steamboat line, was sold at auction by F O. Bailey & Co., on Thursday. The Empress has laid in this port out of commission for several years. She is 217 feet in length, 29 feet beam and has a gross tonnage of 929. She was formerly on the route between St. John, N. B., and Annapolis, N. S, for which she was built in 1866. Being owned by a foreign company she could not be used in American Coast steamboating and could be of but little value to any one this side of the Canadian line. The purchaser of the boat was Mr. R. B. Humphreys, of St. John, and the price paid was $5,850. The St. John *Globe* says: The steamer was really bid in by her owners, at the figure given, and was then purchased from them by Mr. Humphrey, acting in conjunction with the Trade Promoting company, for a price in the vicinity of $10,000. It is intended to repair the steamer and put her on the Bay route.

—There are no reliable clues yet to the perpetrators of the Whitechapel murders. The most plausible one at present is the statement of an American seaman named Dodge, who states that he heard a Malay threaten to kill a number of the fast women of the Whitechapel district, if a certain amount of money of which he was robbed by one of them was not returned. The police are now actively hunting for the Malay but cannot find a trace of him up to date. No new murders have occurred since our last issue.

—Messrs. E. D. Davison & Son, of Bridgewater, have shut down their large gang mills on the LaHave River, broken up their lumber camps and discharged their men, numbering 400, owing to the enforcement of the act prohibiting sawdust being allowed to drop into the rivers. Messrs. Cook & Co., lumbermen, have also shut down their mills, and the *Chronicle* says others are preparing to do the same. The Messrs. Davison have lately paid $140 in fines, and say they will not put up with it any longer. They claim the sawdust has not injured the navigation of the river at all.

### Lower Granville Items.

Rev. Wm. Bluett a convert from Romanism is preaching for the Baptists of Lower Granville. His labors are highly appreciated.

The potato crop is a failure in this vicinity. The continual wet weather makes it hard for farmers to gather their crops.

### Hampton Items.

As a result of the special services held by our pastor four persons were baptised on Sunday the seventh inst. The bay was as smooth as a sheet of glass. The sun shone beautifully and the scene was very impressive. Last Sabbath one young person was baptised. The meetings will be continued this week.

The Farmer's Supper came off on Thursday as per advertisement. The sun came out and the afternoon was quite pleasant; a goodly number was present and partook of the bounties prepared by our ladies. All present seemed to enjoy themselves finely.

I understand the fancy sale was quite successful.

The concert in the evening was well patronized. The recitations were all bearing strongly on the temperance question, showing the good effects Flashlight Division is exerting on the young of our land, and to judge from the applause, it was a very successful performance. The concert was under the guidance of our Sabbath School superintendent, J. Brown, and was mostly composed of Sabbath School scholars; the choir was ably assisted by Mr. Chariton and daughter of Port Lorne.

### Victoria Vale Items.

We had one fine day lately.

There are several very fine "Black Pilot" colts around hereabouts. I takes about $100 to buy one of them now.

The Andrews and Miller cranberry bog will yield about 60 barrels this year. The frost has not injured them any yet.

Who is going to be our next councillor? As yet we have heard mentioned the names of Councillor Slocumb of Brooklyn, Ansley Elliott of Port George, and Parker F. Keagh of Prince Albert as probable candidates. The latter gentleman was waited upon by an influential delegation and asked to allow himself to be nominated, and, we learn he consented.

Dr. Andrews, whose name figures in last week's MONITOR, is not a native of this place. Our Dr. Andrews is in Turks Island. He does not get "on a loose." In a letter just received he de-cribes the hurricane which visited that island on Sept. 2nd. A few extracts from his letter will give the reader an idea what a West India hurricane is like:

"By nine o'clock a. m. it was down on us in earnest. It became so dark we had to light lamps in every room. The gusts of wind sounded louder than any thunder I ever heard, and although our house is of stone with walls from a foot to eighteen inches thick yet the house shook and trembled while we sat expecting every moment it would tumble down on us. Soon the wooden houses began to fall to pieces and the fragments shot past like balls from a cannon. Some pieces striking a building would go clear through it, shingles, boards and inside ceilings. My drug store had a piece of scantling driven clear through, and sticking a foot inside, through every thickness of the building. Some houses were turned upside down with all the inhabitants inside. One rolled over three times, the inmates being taken out nearly killed after the storm abated. The wind increased till 12, noon, when after blowing for 2 or 3 hours it began to go down. By 4 o'clock I began my rounds among the wounded. In some streets not a house remained; in some cases not a board or piece of timber could be seen to mark the spot where the house stood. We spent the next day in carrying in and caring for the wounded, every building, church, masonic hall and even the jail was opened for the protection of those rendered houseless by the hurricane. About 250 houses were destroyed and nearly every house left standing was more or less damaged, 21 lives were lost while hundreds of the poor are starving for want of the necessaries of life. Our kitchen is filled every day with the poor and hungry, with whom we are obliged to share. Over half a million bushels of salt were destroyed. The destruction and loss of life among the shipping in harbor was terrible and beggars description. * * * It has been 25 years since such a storm visited these islands and I tell you I want to be somewhere else when the next one comes."

LATER.—Friday evening. This community is very sad to day. A despatch has just came from the far west, telling us that Eva, beloved wife of R. C. Pierce of Glenwood Springs, Colorado, and youngest surviving daughter of Mrs. Isaac Reagh of this place died this morning. In March last your columns announced their marriage at Middleton. A few days afterwards the young couple left for Colorado where Mr. Pierce carries on business Letters have come from week to week telling of the happy home, the kind friends and the bright future. To-day a brief mes age brings unspeakable grief to the heart of a widowed mother and deep sorrow to the entire community. Our sympathies go out to the husband and brothers in this sad, unexpected bereavement; but more especially to the aged mother, who, "Like Rachael for her children, crying, will not be comforted."

NEW ADVERTISEMENTS.

J. W. Beckwith.

It gives me much pleasure to announce to the Public the completion of my

FALL AND WINTER IMPORTATIONS

Fresh from Manufacturers.

My trade has increased to the dimensions that enables me to buy in such large quantities that I can purchase from first hands. I am therefore placed in a position to sell at prices second to none in the two Provinces, and would respectfully request persons who are in the habit of going to other towns or to St. John or Halifax for the purpose of purchasing their supplies, to first call and give my Stock an inspection before doing so this year.

The verdict of my customers must determine the measure of my success; but I can say this much in my own behalf: that I have given every effort to the selection of a Stock which, in all respects, should have no superior. I consider that in this I have succeeded. A more elaborate display of Goods of every line belonging to my business, greater excellence in workmanship, or superiority of material, it would be hard to find anywhere. No department of my store has been neglected, and no class of customers slighted in my selection, and I feel justified in the belief that no buyer can leave my Store unsuited or unsatisfied.

I need not attempt any detailed enumeration of articles, indeed I could not pick out any one class of Goods for special mention, without a palpable slight of other equally important and equally cheap grades of goods. I must refer you to the Stock. A personal inspection of which can alone convey an adequate idea of its merits.

Your attention is directed to a choice, complete, and carefully selected assortment of the newest and most pleasing effects in Color and Fabrics in the line of

DRY GOODS and NOTIONS, DRESS GOODS, FANCY GOODS, Etc.

In every department I offer unparalled inducements to buyers in the way of High Class Goods of Quality beyond question. While I supplement this important feature by unlimited variety, including all novelties in the season's styles. To these inducements I add the strong inducement of

LOW PRICES.

I beg to draw attention to some of my Leading Lines:—

Dress Goods!

I am able to point with satisfaction to a display of Goods in this department that I am sure will please. My Stock is new, not just freshened up by the addition of a few new pieces of goods, but a clean, fresh, new stock, thoroughly representative in its materials, patterns, textures, weights, etc., of the best manufacture. I shall be pleased to see you and show you these goods.

Flannels and Woollens!

This class of Goods becomes an object of interest to buyers at this season of the year. My customers will find that I show a fine and full line of these staple goods in colors and weights that will have additional attraction in the eyes of buyers by virtue of the very low figures I have put on them. They are marked to sell, and I am confident that thrifty buyers will not seek another market when once they have examined my goods.

Sacque and Ulster Cloths.

You will find that my extensive stock in Sacque Clothes makes choice a matter of difficulty, including as it does, so many handsome patterns, but none the less a choice once made is sure to satisfy. I give every lady a courteous invitation to examine the goods in this department, and prove in its completeness the liberality with which I cater to the taste of my customers in materials and prices.

HOSIERY!

Ladies will find my Stock of this line of Goods well assorted. Whatever grade you require, whatever style, pattern, shade or weight may suit your taste, I can supply you and at such prices as make the ordinary expense of hosiery cut a reduced figure in the dress account. I solicit an examination of these goods, and am confident that they will please you.

CORSETS!

I do not pretend to determine for my customers which is absolutely the best Corset. Instead of this I put in stock a representative line of the very best makes and styles, and leave my customers to choose that which best suits them. I carry all grades and every size, so that any figure can be fitted from my stock.

CLOTHS!

In Clothe I am safe in saying I have the largest and most complete stock in the town. The goods are new, fashionable, and of the best value. My assortment is so large that I cannot fail to suit all tastes, and would at least respectfully solicit an inspection from all intending buyers.

READY-MADE CLOTHING,

in Men's Suits, Overcoats, Ulsters,

IN A VARIETY OF STYLES AND PRICES.

These Goods are all purchased from the largest manufacturers in the Dominion, whose specialty is style and accuracy of cut

BOOTS & SHOES

Long experience has taught me that the best goods are the cheapest in the end and give the most satisfaction to my customers, and all my fall importations are of the best quality of solid work, which I can warrant; amongst which are the famous Eagle Brand and the Amherst Boot and Shoe Co.'s make. Every thoughtful person knows that a good article cannot be bought as cheaply as a poor one. Quality in goods means always a relative advance in the price. For those who want a cheap line, regardless of any other condition, I can show goods that will compare favorably with any in the market, in the matter of prices; while for those who combine the consideration of prices and quality I can present a line of goods absolutely unexcelled in either regard. I invite special attention to my line of

LADIES' OIL GOAT WALKING BOOTS.
