ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local external applications. It must have constitutional treatment.

Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

CURED HIS PILES

Now 88 Years Old, But Works at Trade of Blacksmith and Feels Younger Since Piles Are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for treating piles.

Mr. Jacob Lyon, Homer, Mich.

I wish that you could hear him tell of his many experiences with ointments, salves, dilators, etc., before he tried my method. Here is a letter just received from him:

Mr. E. R. Page, Marshall, Mich.:

Dear Sir,—I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish, and I hope it will lead others to try this wonderful remedy.

Yours truly,
J. L. LYON.

There are thousands of afflicted people suffering with piles who have never yet tried the one sensible way of treating them.

Don't be cut. Don't waste money on foolish salves, ointments, dilators, etc., but send today for a Free Trial of my internal method for the healing of Piles.

No matter whether your case is of long standing or recent development—whether it is occasional or permanent—you should send for this free trial treatment.

No matter where you live—no matter what your age or occupation—if you are troubled with piles, my method will relieve you promptly.

This liberal offer of free treatment is too important for you to neglect a single day. Write now. Send no money. Simply mail the coupon—but do this now—TODAY.

DEWART STATES

it calls itself. The election was a distinct intimation to the former Hearst-Rowell-Proudfoot combination, its backers and supporters, and to all others, of the views of the people of Ontario. The people can scarcely approve of the selection as attorney-general of a lawyer who, according to the Mail and Empire, supported the Hearst Government and its candidate, and opposed a returned soldier.

"Nor can the U. F. O. have much confidence in the 44 members who were elected as their farmer representatives when Mr. Drury finds it necessary to go outside of their ranks to pick up a government contractor, who was soundly beaten in his own constituency and suggest him as the only properly qualified minister of agriculture.

"Is it necessary to canvass the province of Ontario for a constituency in which to secure the retirement of an elected member, to obtain a seat for a new cabinet minister? What inducements or considerations are offered to secure such retirements? Is it fair or honest of Mr. Drury to connive at the plotting for the retirement of elected Liberal members to make a seat for one of his colleagues? Is it fair to secretly bargain with an elected Liberal member for his appointment as speaker at the next session, with the knowledge that he is still attending the private conferences of Liberal members? Every fair-minded man in the province of Ontario will resent any appeal to Liberals or Conservatives to detach themselves from their respective parties to augment the farmer forces by the promises of preferment and office.

"It will be in no spirit of opposition to the principles of the constructive Liberal party which have been adopted by the farmers' organization that the Liberal party may have to intimate to the United Farmers of Ontario that they will have to adopt a broader and different idea with reference to the handling of the business of the country than they have done so far. For men who proposed simply to maintain the rights of the farmers, without any idea of government, they have shown themselves extremely adept in adopting the narrowest idea of party government that has ever been suggested anywhere.

A Fair Trial.

"At the conference of elected members and Liberal candidates held in Toronto on Tuesday there was evinced the fullest desire to give Mr. Drury and a fair cabinet a fair trial. The Liberal party, while necessarily the leading party in opposition, as forming no part of the Government, may be relied upon to support all fair-minded and progressive legislation from whatever source it comes, with the fullest sense of duty to a new government which is on trial, and of its responsibility to the larger body of the people whose independent thought it has been elected to represent.

"To the fullest extent to which the United Farmers can and do suggest wise legislation or fairly handle the business of the province, they are entitled to and will receive the utmost support and assistance. The legislative course of the business of the province of Ontario will continue to have the driving force and directing force of Liberalism in the future, as in the past. It will insist upon, not merely the highest degree of temperance legislation, but a strict enforcement of this and of all other laws. It will see that the law is enforced, and that the present license board, which has so grossly failed in its duty, is removed if the new Government fails to do its plain duty in this respect."

FINED $200 DESPITE COUNSEL'S EFFORTS TO PROVE INNOCENCE

Alexander Judge Guilty of Having Liquor For Sale.

DENIES IT ABSOLUTELY

Declares Sealed Bottle Found Was For Use of Wife Only.

Alexander Judge, when arraigned before County Magistrates W. H. Chittick and Taylor on Friday, for trial upon the charge of keeping liquor for sale, was fined $200, with the alternative of serving a term of three months in jail. The fine was paid under protest, with the right to appeal the decision.

In spite of the plea entered by Jared Vining, counsel for the accused, that the case be postponed on account of the serious illness of the defendant's wife and newly-born child, the hearing began shortly after 2 o'clock yesterday afternoon in the county buildings. The reason for refusing the request was that several witnesses had been brought from Toronto to testify.

After the evidence had been completed, a heated discussion arose between Mr. Vining and Squire Chittick as to whether the onus of guilt had been removed. The counsel for the accused contended that his client had proved his innocence upon the specific charge made against him, protesting that the only bottle of liquor which was found by the provincial policeman when they searched the premises, had been taken from a cupboard in the bedroom of Mrs. Judge and that it had been placed there through the advice of the trained nurse in attendance upon the accused's wife. He read two sections of the Ontario temperance act, which applied to the case in question, to the bench and asked for the acquittal of the accused upon the submitted case of defence. "The evidence proves Judge's innocence in connection with the charge laid against him of keeping, for sale, liquor on his premises," said Mr. Vining. But the bench thought that the evidence strongly pointed to the guilt of the accused, and so announced the verdict.

The Search.

Provincial Inspector E. H. Lewis was the first to be called to the witness-box, and he described the search which he and three assistants had made in Judge's house at 5 o'clock in the morning of November 21. The search had been deemed necessary, he said, because of information received in Toronto that the accused was selling liquor kept in his house, and he exhibited in the court the articles which he had found during the search: one sealed bottle of whiskey, several empty liquor flasks and several empty wooden cases and portions of cases all bearing official markings, and the dates upon which the cases had been packed with liquor. No opposition had been encountered from the accused during the search.

Found the Stuff.

When Judge entered the witness box he emphatically denied that he had ever sold or offered for sale any liquor. "The flask of whiskey which was found in my wife's room was to be used by her only at times of need during her illness," he stated. "I found it with the other empty bottles and cases in my backyard, just a few days before the visit of the inspector, and his assistants, and I placed it in my wife's room because her nurse had asked me to do so. I found articles in my yard at dawn on November 17 or 18, as I was going out to work, and I was surprised, because the find was of an unusual nature. So I examined the ground near the spot where the stuff had been scattered, and I plainly saw the marks of automobile tires. I traced them from the road into my yard, and they turned toward the road again at the point where the boxes and bottles were found. I do not know who left them there, or why my premises were chosen."

"On the morning of the day upon which your house was searched, did you tell one of the inspectors that you had been paid $200 by someone for keeping several cases of goods upon your premises?" asked Crown Attorney J. B. McKillop of the accused.

Denial.

"No, I did not," answered Judge. "and the man who told you that story invented it in his head. He is a liar!"

"Did you tell anyone that two men had been to your house on Thursday, November 20, to get some whiskey?" asked the crown.

"No, unless I did so in jest," replied Judge, "for how could I say such a thing when I had no liquor to sell."

"Answer my question with yes or no," the crown said sharply.

"No. I don't see why you doubt my word, for it is as good as that of the first witness," replied Judge. "He is not a gentleman, for in addition to inventing stories about me, he searched every corner of my wife's room, with his five assistants, and allowed a cold draft to blow upon her and made her condition even worse than it was. He knows that I did not try to conceal the boxes and wooden cases which I had found in my yard. They were inside the house, for I had carried in the cases to fill them with vegetables, and I made no attempt to conceal them."

COMMITTEE RECOMMENDS PURCHASE OF FLUSHER; NEXT COUNCIL TO DECIDE

Another One Needed to Clean Streets of City.

The purchase of another flusher motor truck to be used in cleaning the city streets next year with the one flusher now in use was the most important matter considered last evening by No. 2 committee of the city council, which met in the city hall at 7 o'clock. It was finally decided that the matter be referred to the next meeting of the council with the recommendation, in case the council decides to purchase a new flusher, that either a Tiffin motor flusher or a National flusher with the Studebaker attachment be ordered. This motion was advanced by Ald. E. Seabrook; it included a statement of the probable cost of each flusher, the Tiffin price being $9,980, and the National being $10,875, and also the recommendation of City Engineer Brazier that the Tiffin truck be purchased.

The necessity of purchasing another flusher was recognized, for although the present flusher is satisfactory in every respect, it was believed that a second truck would be needed next year by the street cleaning department, especially if the large pavement program of the council is put into effect in 1920. "I think that the city should have two street flushers," said Ald. G. B. Drake. "If all of the pavements are not cleaned during the summer season the people will complain about the dust." But owing to the approaching year's end, the opinion was generally voiced that the matter should not be settled at the present time by the committee, and that the council should decide the question.

A recommendation for the purchase of a new motor car for the use of the garbage department will be advanced to the council, through a motion made by Ald. Drake, which was passed by the members. The small car now in use was reported to be in a poor condition because of its age.

Ald. O. G. Keene occupied the chair and adjourned the meeting shortly after 8 o'clock.

Sick Headaches

For Last Ten Years

Headaches affect all ages and both sexes alike, but in all cases the treatment should be directed to remove the cause, for with the cause removed the headaches vanish for all time.

What is necessary for a permanent cure is something that will go right to the seat of the trouble. For this purpose it is impossible to find a better remedy for headaches of all description than Burdock Blood Bitters, acting as it does on every organ of the body to strengthen, purify and regulate the whole system.

Mrs. Flora Hall, Dominion, N. S., writes: "I have been troubled with sick headaches for the last ten years. I had lost faith in all remedies until recently a friend of mine advised me to try Burdock Blood Bitters. This I did, and found relief in a very short time. I would now recommend B. B. B. to anyone who is suffering as I did. I only took three bottles, and am never troubled with sick headaches any more."

B. B. B. has been on the market for over 40 years. Manufactured only by The T. Milburn Company, Limited, Toronto, Ont.

DEMOCRACY SWEEPING WORLD, SAYS PROFESSOR

"Democracy is sweeping the world like a tidal wave, not only where governments are concerned but in the industrial world. We find it demanded and granted, too, at a rate that is alarming. But a man who has studied a dozen governments' reports that those in which the people had the least to do and say were best," said Professor E. G. Conklin, giving his second Western University extension lecture on "Democracy and Evolution" in St. Andrew's Hall yesterday afternoon.

"What is democracy? Many people talk about democracy without knowing the true definition. Democracy is the control of all things of common interest by the people as a whole rather than control by an individual or a class. Democracy should stand for liberty, fraternity and equality. The demand for freedom, for democracy is a great evolutionary struggle. Everyone is wanting individual freedom.

"What we want to realize is the duty of man to man, the brotherhood of man. This content struggle for individual freedom will end in anarchy. Coordination is needed and is a necessity to pervent everything ending up in a state of anarchy," said the speaker.

"Society must do something to stop racial antagonism too, or it will eventually end up in another great war. Right in my own country, America, the papers are educating the people with racial hate against Mexico and Japan. All this racial antagonism is the work of designing politicians. What we should find in democracy is not judging of a man by what his ancestors were, but giving each individual what his merits are worth. Half of the world's greatest geniuses were from humble parentage. Shakespeare being the son of a bankrupt butcher, and Shubert and Bacon and many another genius came from poor parents."

Professor Conklin concluded his lecture, the audience, a large and appreciative one, showed its enthusiasm by constant hand-clapping. Smiles were simply coaxed by the various witty speeches with which he interspersed his lecture.

Professor S. Fox introduced the speaker, and at the close of the meeting asked the audience if anyone would care to ask questions. Many humorous questions regarding evolution and democracy were asked, Rev. G. B. Sage concluding the questions by asking if it were possible for Professor Conklin to come back again. The university authorities assured Dr. Sage that he would come back again.

TYPOGRAPHICAL UNION CELEBRATES 50TH YEAR

Members of the Typographical Union, No. 133, of this city will banquet at 7:30 o'clock to celebrate the 50th anniversary of the union.

Many former members of the union who now live in other parts of Canada and in the United States, will be present. Letters have been sent out to all former members, and a large number have written that they will attend.

A splendid program has been arranged, and some of the leading men of the I. T. U. of America, will speak, including W. Barrett of Chicago, vice-president of the union; J. Hoban, second vice-president; Lieut C. E. Kinskley of Buffalo; Jack Pendergast of Detroit; Michael Powell of Ottawa, international representatives, and J. Drury of Montreal.

A letter from George Buskard, secretary to Sir Robert Borden, and a former member of the local union, will be read. Owing to business engagements he will not be present.

A Wheatley, president of the local union, will be chairman and toastmaster.

REDUCTION OF POWER COMMENCES ON MONDAY

Although there has been a story circulated to the effect that an order reducing London's hydro power consumption almost 25 per cent was to go into effect on Friday, it does not become effective until Monday, E. V. Buchanan, general manager of the Public Utilities Commission stated on Friday night. This power reducing order will be in force in many other Ontario cities next week. The reason for it is the shortage, owing to the strike and irregularity of the deliveries of coal. It is expected that the distribution of the power which will be available here will be equalized so that no one will be put to any unnecessary inconvenience.

AERO CLUB MEETING POSTPONED.

Owing to a delay in the arrival of organization papers, the meeting which was to be held today at the Tecumseh House for the purpose of forming a local branch of the Canadian Flying and Areo Club, has been postponed until next Saturday, Dec. 6.

BISHOP FALLON TO PREACH

Bishop Fallon will preach a series of discourses in St. Peter's Cathedral covering the four Sunday evenings of Advent. The general subject tomorrow evening will be: "The Relations of Religion to Social Unrest." What are the principles of the Catholic Church concerning the mutual rights and duties of the various elements of industrial society at present? A welcome extended to all.

BREAD NOT TO ADVANCE.

Several of the leading bakers in the city were interviewed by The Advertiser regarding a rumor which is in circulation to the effect that bread will be sold at twelve cents per loaf commencing Monday. None of them had contemplated raising the price from eleven cents on that date, although a number of them were of the opinion that the price would have to be raised eventually, because of the cost of manufacture and delivery.
