DEALERS INTENT ON TURNING PROFITS TO CASH AT NEW YORK

Dealings Fall Away Before Noon—Rails Yield To Industrials.

NEW YORK, Sept. 3.—The approaching protracted holiday left its impress upon the stock market today, dealings falling away to a marked extent during the forenoon, when traders were most intent upon converting their profits into cash. Bears evinced little disposition to extend their commitments in spite of these manoeuvres, developments of the session, particularly the greater ease of money and impeding extensive gold imports, offering little inducement to the short account.

Not all of the day's advices were favorable, however. Cables from Brazil suggested economic disturbances in that country, while the weekly surveys of domestic trade authorities again stressed cancellation of orders in many branches of business.

Rails forfeited little of their recent advances, but yielded in prominence to favorites of the industrial division. Those included food, Chemical, paper and metal issues, in which some gains assumed substantial dimensions and denotes the renewed activity of pools.

Among the seasoned stocks, oils of the higher grade were most favored, notably Mexican, Pan-American and California Petroleums, Houston Oil and Texas Company. Coppers were most responsive to reports of prospective sales for export, but steels and equipments shaded with specialties at the close. The total sales amounted to 650,000 shares.

A 7 per cent opening rate for call loans running into next week, and a later quotation of 6 per cent for the same accommodation testified to the further relaxation of money. Local banks were reported to have made time loans extending over the year's end, at a shade under prevailing rates.

Buying of railroad bonds continued, with firmness in Liberty issues and the foreign group, especially United Kingdoms of 1937. The total sales of bonds, par value, aggregated $9,750,000.

Old U. S. bonds were unchanged on call.

EVENING STOCK LETTER.

NEW YORK, Sept. 3.—Thomson & McKinnon wire Jones, Easton, McCallum Co., Ltd., brokers, Royal Bank Building, London, at the close of the stock market today as follows:

The stock market was fairly broad and strong with a tendency distinctly upward. The noteworthy development was the strength which is confined to the rails, which gradually extended to the close of the week, including many industrial groups, with leading oil shares in favor today.

The strength is particularly impressive, because conditions could hardly be called favorable from a market standpoint. The most favorable today was the renewal rate. Should nothing unfavorable develop over the holiday we may look forward to a continuation and perhaps a broadening of the present activity.

STRONGER FEELING IS MANIFESTED ON TORONTO EXCHANGE

Little Relief Expected From Tight Money Conditions—Toronto Railway Reactionary.

TORONTO, Sept. 3.—On the eve of the Labor Day and week-end holiday the Canadian exchanges showed a stronger feeling today. Local brokers were divided in opinion as to whether the day's flurry heralded a good autumn market or whether it was merely a passing incident. Little relief is expected from tight money conditions for some weeks or until the money advanced for crop movements begins to return and provide more funds for other purposes. Coment was made on the possible effect on the paper stocks with the favorable report of Spanish River, and it was thought that this was mainly responsible for the day's burst in that stock.

There was was no local news on Canners, but the position of the company would naturally be of interest at this season when the fruit and vegetable crop is so large.

In other directions the local exchange was marked by irregularity. There was a firm tone almost all through the papers, with some advances in bids and a gain of 3¾ points in Abitibi. Toronto Railway, on the other hand, suffered a quick reaction from the gains of the past few days, going back to 41, with a loss of 3 points on the day. Consumers Gas was down 1 point; Atlantic Sugar, 2 points; Canadian General Electric, ¾ point, and Mackay, 1½ points, though the latter was ex-dividend 1½ per cent. Mackay, preferred, on the other hand, while ex-dividend 1 per cent, made an actual advance of ½ point.

Total trading: Listed stocks, 767 shares; unlisted stocks, 1,055 shares; war bonds, par value, $15,500.
