Public Interest Is Centred On the Movement in Steels

Lake of the Woods Milling, the Feature for the Week on the Local Exchange.

World Office,
Saturday Evening, July 17.

The upward movement in Steel shares has been one dominant feature of the New York market for the past week. The action of the common and preference stock, both of which have made new high records, is taken to indicate an increase in dividends, and it is believed that insiders have positive knowledge that the common stock will be placed on a 4 per cent. basis before long. Transactions in these shares have constituted the bulk of trading for the week. The Harriman issues have been generally strong, Union Pacific selling up to a new high record on to-day's market, while C.P.R. has been firm and in good demand. With few exceptions the rest of the market has been inclined to dulness, but with comparative strength.

* * *

The local exchanges during the past week have been real mid-summer affairs, but the markets have been lacking in activity rather than in strength. The milling stocks, C.P.R., Shredded Wheat, Nipissing, La Rose and some others have all manifested an upward tendency, particularly during the last few days, and while advances in the main have been small, the week closes with a better run of prices thruout the list in general.

* * *

An upward movement in Lake of the Woods Milling, which undoubtedly came from Montreal, has kept this stock before the public almost thruout the entire week. Local traders have been rather puzzled as to the real reason for the new developments in the situation in regard to this issue. Rumors as to an increase from six to seven per cent. in the regular dividend payable next October have been circulated on the street; it is said that the company intends issuing some $500,000 of common stock to the shareholders at par. About the middle of the week a circular letter from a Montreal brokerage house was scattered broadcast over the country asking for options on Lake of the Woods common stock at a price considerably above the then prevailing market figure. It is known that Mr. Rodolphe Forget of Montreal has been a big buyer of the shares for some time, and it is suggested that he is the leader in an aggressive move to obtain a controlling interest in the company. Whether the movement is an ordinary market manoeuvre or an attempt to obtain control remains to be seen. The shares opened the week around 118, and were sold up some 13 points, being strong and generally active from day to day.

* * *

The continued strike on the Dominion Coal Company's property is having little effect on the market for this issue, holders in the main being apparently willing to await further developments. The stock on the whole has been inclined to inactivity, such transactions as have occurred being made at about steady prices. The regular quarterly dividend has been declared on these shares.

* * *

C.P.R. has continued to attract considerable attention from market followers and news of further successful financing in the old country has been circulated during the week. A block of the preferred stock was disposed of on the London Exchange at the high figure of 102, this transaction being regarded as a very favorable piece of financing both here and abroad. There was good buying of the shares thruout the week, and the price closed strong at about the high figure.

* * *

Investment buying for the past week has given a rather substantial appearance to the market, tho the trade in these securities fell off somewhat during the last few days, the movement in other sections occupying the whole attention of speculators. Prices for these securities have remained firm and this has undoubtedly had some influence on the market as a whole.

* * *

Looking outside the market the crop news has been sufficiently good to attract the attention of investors. The widespread rains during the past week have had a welcome influence on the agricultural outlook, while with the exception of the miners' strike in the east there is nothing in sight which can be said to be detrimental to the commercial prospect for the immediate future.

* * *

The market closes the week with sentiment inclined to bullishness, and there is a prevailing opinion that higher prices in some of the issues will be reached before the present upward movement is exhausted.

Wall Street Pointers.

B. & O. is in the market for nearly $10,000,000 new equipment.

* * *

Serious disturbances continue at Pittsburg in Pressed Steel Car strike.

* * *

Dunn's review says consumption is rapidly catching up to production's capacity in most branches, the notable exception being copper.

* * *

Bradstreet's says business is of fairly good volume for the season with a perceptibly steady advance of normal proportions.

* * *

Common stockholders of Western Maryland asked to pay $40 a share under reorganization plan.

* * *

St. Paul's operations for fiscal year completed about cover 7 per cent. dividend on common stock.

* * *

Idle cars now 260,227, a decrease of 2717 in a fortnight.

* * *

Chairman Miller of St. Paul denies story of special agreement with Wabash.

* * *

New York Clearing House.

NEW YORK, July 17.—The statement of clearing house banks for the week shows that banks hold $34,569,200 more than the requirements of the 25 per cent. reserve rule. This is an increase of $2,566,300 in the proportionate cash reserve as compared with last week.

Decrease.
Chicago & G. Western, May.....$6589

On Wall Street.

Beaty & Glassco had the following at the close:

Union Pacific to-day took the place of U. S. Steel as the market leader and most of the Grangers were strong for a time. For some time the street had been imbued with the idea that Union Pacific in due time would again become conspicuous, perhaps influenced by some new financial scheme. The amount of Union held in the street was probably small, while there seems to have been some short interest. Rumors were revived to-day, but there were no facts. The setback in U. S. Steel savored of profit-taking by insiders. The local banks gained about $2,500,000 in surplus reserves under the average showing, but lost nominally under the statement of actual conditions as of last night. Next week's stock market promises to be somewhat irregular, but we think it will give many good chances for trading.

R. B. Lyman & Co. wired R. B. Holden: The market opened not very active, but on the whole with fractional advances, and soon developed decided strength under leadership of Steel common, and Union Pacific, both of these issues selling higher than ever in their history. The speculative element is more bullishly inclined than ever now, being particularly impressed by the move in Union Pacific, which is taken as an indication that all the important interests in the street are working for higher prices generally. The tariff developments were disregarded. We strongly believe in the bull side of the market and expect considerably higher prices next week.

Chas. Head & Co. to R. R. Bongard: There is a sudden change of form in the market this morning and full steam ahead seemed to have been the captain's orders. Business was in greatly enlarged volume, over 260,000 shares in the first hour, nearly half of the full day's business of late. Undoubtedly there was considerable liquidation by commission house traders on the advance, but the stocks were well taken and the market has all the earmarks of a big bull speculation. Closing was generally near highest prices. We look for a broader and more active market next week.

Money Markets

London Stocks.

LONDON, July 17.—During the past week business on the stock exchange continued slack and uninteresting, and, with a few exceptions, in which American securities were notable, prices showed a daily drooping tendency. The attractive new issues and another Canadian loan of $10,000,000 in connection with the Trunk Pacific Railroad, the prospectus of which was issued to-night, offering 3 per cent. first mortgage bonds at 82½, operated against increased activity in the gilt-edged section, but fair investment business in foreign bonds strengthened the foreign section moderately. Home rails were further depressed by the Scottish coal trade dispute, and liquidation by tired holders of Kaffirs, who had bought in anticipation of increased public demand, had a weakening effect on the securities.

American shares showed marked strength, considering the small amount of business transacted. United States Steel took a lead in the upward movement on the forecast of a favorable quarterly statement, and a possible increased dividend, which was the chief factor in bringing the quotations to a new high record. Louisville & Nashville also received attention on dividend prospects. The rest of the list followed slowly, and the final rates were unchanged to five points higher than last Saturday.

Discounts hardened gradually during the week on the decline in American exchange, and the revival of the continental gold demand in the direction of Austria and Russia.

Price of Oil.

PITTSBURG, Pa., July 17.—Oil closed at $1.58.

THE REGAL MINE.

ELK LAKE, July 18.—(From the Man Up There.)—Development work at the Regal mine, which adjoins the Mother Lode, and is about two miles from Elk Lake, is progressing favorably. The timbering and laddering of the shaft has been completed and the gallows frame has been erected. The work of sinking and drifting will be again commenced as soon as the whim is in place. The large aplite vein on which the Regal people are working continues to grow more favorable in appearance with depth, and as a consequence buoys up the hopes of those who are watching the development of the property.

New York Metal Market.

NEW YORK, July 17.—Pig-iron—Firm. Copper—Easy. Lead—Quiet. Tin—Quiet; spelter quiet.

Imperial Bank OF CANADA

DIVIDEND NO. 76.

Notice is hereby given that a Dividend at the rate of Eleven Per cent., (11 per cent.) per annum upon the paid-up Capital Stock of this Institution has been declared for the three months ending 31st July, 1909, and that the same will be payable at the Head Office and Branches on and after the 2nd day of August next.

The Transfer Books will be closed from the 17th to the 31st July, both days inclusive.

By Order of the Board.

D. R. WILKIE,
General Manager.

Toronto, Ont., 16th June, 1909. 1tf

ZINGARI CRICKETERS WIN

Easily Defeat Moorestown and Radnor Clubs Saturday.

PHILADELPHIA, July 17.—The Zingari cricketers of Toronto easily defeated a picked team composed of players from the Moorestown and Radnor Cricket Club, at Moorestown, N.J. The local players scored 103 runs in their innings, and as it was a one-day match, the Canawon when they scored 105 runs for the loss of only four wickets.

The visiting players will meet three other local clubs next week.

Fowler, run out	3
Larmouth, bowled Woods	5
J. Sent. McKee, c Howe, b Lomas	0
Hussey, bowled Lomas	0
Jim McKee, not out	0
Extras	3
Total	48

St. Albans Beat St. James

At Trinity College grounds on Saturday, St. Albans beat St. James by 99 to 91. St. Albans started out as if to make a big score, three wickets being down for 72, of which Newton made 33 by careful playing. Thorne and Wheatley also did their share. A big change then came over the game, and eight wickets were down for 79; then Colborne made a good stand, and 20 more runs were put on. Treanor and Hills divided the wickets, with five for 35 and five for 27. St. James' started badly, Melville alone making any runs. His 21 was an exhibition of clever cricket. With seven wickets down for 49, Treanor and Hendricks got together, and by means of hard, clean hitting took the score to 89, when the former was bowled. The innings then quickly ended for 91. Thorne took six wickets for 38. Melville, for St. James, made three clever catches behind the wickets, and W. Garrett brought off two for St. Albans in the long field.

—St. Albans.—

R. Kent, c Melville, b Treanor	7
Newton, bowled B. Ellis	33
