

Whereas, it is fitting that this Society should make some record of its appreciation of his virtues and of his useful life; therefore,

Resolved, That in the death of Dr. White, dental journalism has lost its ablest editor, the business world a member of sterling integrity, the unfortunate and needy a practical philanthropist, and the church an exemplar of the nobility of a liberal Christian religion.

Resolved, That in their affliction we extend to his bereaved family our sincere sympathy, and with reverent humility we commend them to Him who has promised to be "the friend of the widow and the fatherless," and "a real present help in the time of trouble."

Resolved, That a copy of these resolutions be transmitted to the family of the deceased, and sent to the *Dental Cosmos*, *The Dental Review*, and other dental journals, for publication.

Editor DOMINION DENTAL JOURNAL :

At the meeting of the Chicago Dental Society, Tuesday evening, May 5th, 1891, the following resolutions on the death of Dr. Wm. H. Atkinson, of New York, were adopted :

Whereas, The Chicago Dental Society, having learned of the death of Dr. Wm. H. Atkinson, of New York, one of the most eminent, learned, and best known members of the dental profession, therefore, be it

Resolved,—That, in the death of Dr. Atkinson, the members of this Society feel a sense of personal bereavement in the loss of a much loved and conspicuously useful member of the profession, and while we bow in humble submission to the Divine will, we desire to express our sorrow in his final exit to the unknown land beyond this world of ours. Be it further

Resolved,—That the Secretary transmit to the bereaved family of Dr. Atkinson a copy of these resolutions, and that a copy be furnished the dental journals for publication.

Abstracts from the Journals.

Iodine and Glycerine.

Tincture of iodine, mixed with glycerine, is claimed by Dr. Hammond to be more effective as a local application than the plain tincture. This is due to the retardation of the dissipation of the iodine, or more likely to the skin remaining soft, and, therefore, in a better condition for absorbing the drug.
