quarters, accompanied with roars of laughter which silenced him again. He however wearied them all out, and having made a short speech against the grant, it was rejected by a large majority.

Monday is appointed to go into consideration of the state of the Province, and will therefore be what they call a "field day."—Mr. Wark laid two resolutions on the table, as a subject to begin with. That you may judge of its importance, I here subjoin a copy of one of them.

Resolved, That the British Colonies having been reared up upon a commercial system, by which the productions of the various parts of the Empire enjoyed natural protection in their respective markets—the abandoning of this system must check, derange, and in a great measure destroy our commerce; while the interposition of Imperial authority prohibits our entering into commercial treaties with foreign countries, or so regulating our tariff as to give what we conceive would be the most advantageous direction to our trade. We have therefore reason to fear that unless timely remedy be applied, those causes, depreciating the value of property, cramping our energies, and retarding our prosperety, will produce such feelings of dissatisfaction as most inevitably lead to a seperation from the Mother Country.

Really this is what I never dreamed of living to see! The abettors of this doctrine speak of *annexation* in a manner not to be mistaken. They remind one of poor Duncan Gray, who being disappointed in love, and greatly grieved,

"Spak o' hoppin' owre a bin!"

Depend on it, there will be some quizzing speechifying.

Your's,
JACK ROBINSON.

FLOUR AND WHEAT.—Extract of a letter dated St. Louis, Jan. 28th:

"Flour is very scarce with us, and prices high—say 85½ to 85½ for Illinois, and 85½ to 86 for City Mills. The mills along the rivers above us have been idle all winter, and the scarcity of Wheat so great that we would not be surprised to see Flour coming to our market from the Lakes next spring."

Holloway's Pills are an Excellent Remedy for Indigestion, Bilious and Liver Complaints.—All painful and distressing sensations arising from these complaints (which are too well known to sufferers to require a description here of their symptoms) may be easily removed by a few doses of this inestimable medicine, for such is its efficacy, that the most debilitated constitutions are effectually strengthened and the aversion to exercise overcome; they give bouyancy to the spirits, create an appetite, and promote digestion. At this season, when epidemics are so prevalent, these pills should be frequently taken; they surpass every other remedy as a preventive against minor disorders.

THE DEPONENT, thereupon, called on DR. BRIGHT, chief Physician of Guy's, who, on viewing deponent's condition, kindly and liberaly said, "*I am utterly at a loss what to do for you, but here is a half sovereign, go to Mr Holloway, and try what effect his Pills and Ointment will have, as I have frequently witnessed the wonderful Effects they have in Desperate Cases! You can let me see you again.*"

THIS UNPREJUDICED advice was followed by the deponent, and a PERFECT CURE WAS EFFECTED IN THREE WEEKS by the use of Holloway's Pills and Ointment, after THREE HOSPITALS had failed! When DR. BRIGHT, was shown, by the deponent, the result of his advise and charity, he said,—"*I am both astonished and delighted! for I thought, that if ever I saw you again it would be without your Arm—I can only compare this cure to a charm!*"

By this Miraculous Medicine! after every other means had failed!!!

A Copy of a Letter from the Earl of Aldborough, dated Villa Messina, Leghorn, 21st Feb. 1845.

I wish to have another Box and a Pot of Ointment in case any of my family should ever require either.
