Canadian Pacifics, Montreal Street Railway, Crow's Nest Coal Company Higher—Higher Foreign Exchange—Notes and Gossip.

World Office,
Thursday Evening, March 21.

On the Canadian Stock Exchanges to-day C.P.R. was again active, closing strong at 94½ bid in Toronto and 94 bid in Montreal. Twenty-one hundred shares were dealt in in Wall-street. Bank of Hamilton sold up to 207 and Ontario Bank at 126. Twin City touched 73 and was a little easier in the afternoon. Dominion Iron and Steel stocks were lower to-day, easing off to 36¾ bid for the common and 89 bid for the preferred. There was some good-sized dealing in the Dominion Iron and Steel bonds at 89¾. Crow's Nest Coal once more sailed up upward, gaining 9 points without any sales and closing at 309 bid and 315 asked. The alleged burying of the hatchet between the C.P.R. and the Crow's Nest Coal Co. is the cause of the stock's buoyancy. Montreal Street Railway sold up to 274 on continued increases in earnings.

On Wall Street.

New York, March 21.—The heavy selling by speculators, to realize, which carried the whole market down yesterday, was checked to-day, and there were general recoveries and a showing of net gains for the day in a majority of cases. There was continued pressure on the market at the opening of business, and it was emphasized by a depression on the London market on account of uneasiness over the Tien Tsin affair and fears of harder money. The speculative leaders were very active in their efforts to cause a resumption of the strong bull market, which has recently prevailed. They were only partly successful, altho they had assistance of a report late in the session that the Anglo-Russian difficulty had been settled. A number of stocks were fairly buoyant during the day, and others were markedly strong, but the advances were not all well held, and there were frequent reactions after the recovery had set in. Burlington was in demand from the shorts, and there was a combined upward movement at one time in the grangers, Pacifics and Southwesters. Heavy realizing met this advance, and difficulty was encountered, especially in the case of Missouri Pacific, in the upward course. The Eries were the conspicuous feature of the later market, and were lifted from 2½ to 7 points. Recently current reports of early dividend action were all revived. The Wabash securities were in good demand, the preferred rising 1¾ over last night. The movement in the Eries held all the strength of the market, 3 points, and People's Gas and Tobacco had their periods of strength. The International Paper stocks were very strong, rising 2¼ and 4¾ for the common and preferred. National Salt gained 4¾, and the preferred 7. There was quite a long list of minor railroad stocks which moved up from 1 to 4%. Including Chicago Great Western and the preferred A, the Chicago, Indianapolis & Louisville stocks, the Iowa Central stocks, the Minneapolis & St. Louis stocks, Lake Erie & Western, Peoria & Eastern, and the Chicago & St. Louis stocks. North American advanced 6¼ over last night. Amalgamated Copper was strong on recent dividend declarations. The steel stocks were quiet and moved narrowly, but recovered to some extent from early heaviness. Notwithstanding this quite impressive showing of strength, there was no renewal of the universal upward movement, which affected the whole market at times during the last few days.

J. J. Dixon has the following this evening from Ladenburg, Thalmann & Co., New York:

There was considerable hesitation in the early market, the result of extensive liquidation, but stocks were well taken, and the market gained strength as the day advanced, until in the last two hours it became fairly buoyant. Erie issues might be said to have led the advance in the afternoon, tho sharp gains were made in a number of specialties like Minneapolis & St. Louis, Iowa Central and Peoria and Eastern. There was some buying of C., B. & Q., but the grangers as a rule were neglected. B.R.T. did not maintain the advance scored yesterday, and Manhattan was strong within narrow limits. Among the industrials Sugar and American Tobacco were very strong, and the steel issues were in fair demand. Closing prices were near the best, in spite of the fact that money got up to 3 per cent. in the last hour and foreign exchange was also firmer. London sold on balance, possibly 35,000 or 40,000 shares. Demand sterling, $4.88.

It is stated that George J. Gould has for several days been in conference at his Lakewood home with officers of western roads with a view to combining all of the Gould roads in the west and southwest into one huge company, with a capitalization of $250,000,000 or $300,000,000, and with a total of about 13,000 mileage. The chief roads concerned in the proposed deal are: Missouri Pacific, St. Louis, Iron Mountain & Southern Railway Company, St. Louis Southern Railway Company, Texas & Pacific Railway Company, International & Great Northern Railroad and the Wabash Railroad Company. Practically all of the stock of the St. Louis, Iron Mountain & Southern Railway Company is already owned by the Missouri Pacific.

American General Electric gossip hears that a stock dividend of 33 per cent. would be declared in May, and the regular dividend increased to 10 per cent. The company appears to the street to be glutted with riches and prosperity.

C.C.C. earnings for the second week of March decreased $24,949.

Metropolitan declared regular dividend of 1¾ per cent.
