BOODLING CASES ADJOURNED.

The Charges Against Ex-Ald. Maloney and Verral Postponed.

Ex-Ald. John Maloney was arraigned before the Police Magistrate yesterday on a charge of having accepted a bribe of $1000 from Fred. Coleman for his vote on the street railway agreement. Manager James Bryce of the Queen-st. branch of the Dominion Bank testified that Maloney deposited ten $100 bills in the bank on June 27, 1893. Ex-Ald. W. J. Hill, now Reeve of York Township, testified that Maloney told him that if the agreement was changed, he (Maloney) would secure the contract for securing stone. In July, 1893, Maloney showed Hill $1000, and said that money was going, and that Hill could have none of it if he liked. The case was then adjourned until next Monday.

The charge of conspiracy against ex-Ald. J. E. Verral was indefinitely adjourned, and will probably be investigated early next month. Hon. S. C. Biggs, Mr. Verral's counsel, objected very strongly to an adjournment, but His Worship decided to grant it.

I then procured another, and before it was used my affliction was completely gone, and I have not had an attack of it since."

It is reported that 50,000 bushels of Manitoba wheat was bought at Buffalo by Canadian millers. There is nothing significant in this. Winnipeg papers lately stated that shipments of wheat out of Manitoba this season were mainly in bond over U. Henry A. King & Co.'s special wire from Ladenburg, Thalman & Co., New York: The market closed strong this afternoon on buying by the traders, which seems due to the belief the leaders of the bull party are again at work, and that their action is based on the probable resurrection of a sound currency measure in Congress. The short interest has supplied most of the buying, but it is thought large interesting interests have been buying Chicago Gas, Sugar, St. Paul, Pacific and other stocks, which have been the chief feature of the trading. Gold shipments announced to-day, amount to $2,100,000. This is less than had been talked about, and the market shows a corresponding sense of relief. At the close of the day there was a slight reaction from best prices, though the tone was generally steady.

McIntyre & Wardwell received the following despatch from Schwartz, Dupee & Co.: Wheat firm early, but with more cash sales reported from St. Louis and cash business reported from Toledo, prices advanced 3-8 cent and then declined from that. The close was 1-4 cent under Thursday. There was lack of speculation and continued selling around 58 1-2c for May. Export clearances for the day were not so large, about 300,000 bushels, but the total so far for the week is about 2,000,000 bushels from the Atlantic. Primary receipts only 200,000 bushels. The Northwestern carlots, 207, were less than last year. To-day was another illustration that bull news cannot overcome lack of outside business. Shippers were still talking bullish on corn, but the price did not act very strong. The weakness was a matter of sympathy with wheat and of speculative dullness. The cash business was on a considerable scale, and is likely to be until the cut-rate is withdrawn, or until the seaboard declines far enough to make it of no avail.

Provisions inactive and a shade lower. Packers selling and outside business was small. Receipts of hogs liberal at all points and selling at lower prices. Local feeling is growing less bullish because the supply of hogs continues so liberal.

Henry A. King & Co.'s special wire from F. G. Logan & Co., Chicago: Wheat ruled moderately active with considerable early strength followed by an easier feeling, due to the offerings brought out by the advance, together with some local bear pressure. Primary receipts remain small and the country movement outside of Duluth and Minneapolis suggest small reserves. The clearances were liberal again and suggestive of a good demand. Liverpool closes higher and continental markets were without any important changes. Yesterday's Government report had no particular effect one way or other. A reported cut-rate in East-bound freight is helping movement of wheat from St. Louis, according to reports, and some loadings are made here for shipment.

Corn declined early on local selling and advanced afterwards on local buying. Most important feature in cash market was the advance due to reported cut in the East-bound rates, stimulating shipping demand. Latter portion of the market was easy, merely in sympathy with lower wheat.
