HAMILTON NEWS

WILL INSURE THE FIREMEN
HAMILTON SHOWS PROGRESS

Each Man to Have a $1000 Policy on His Life and to Pay the Premiums—Bylaw for $100,000 Improvements Killed for Time Being.

Hamilton, Dec. 8.—At the regular meeting of the City Council to-night there was considerable business of importance contained in the reports of committees. The Board of Works' report was first taken up. The following clause, causing considerable discussion: That the street proposed to be opened up to Sherman-avenue north of the main line of the Grand Trunk Railway, be continued on the line of Brant-street, across the Land property and Sherman inlet, and thru the Ewing or Pollock property to Sherman-avenue.

Then They Spoke.

Ald. Morden said that the Ewings would not consent to have the proposed route go thru their property at any price.

Ald. Burkholder said the proper route to be used would be Gilkinson-street.

Ald. Morden agreed that the Gilkinson route would mean a very much shorter bridge over the inlet.

Ald. Stewart made a vigorous protest against laying the matter over, but it was decided to refer this clause back for further consideration.

Contracts Awarded.

In the market, police and jail report it was moved that the tender of Burton & Baldwin, amounting to $235, for constructing the partitions in the City Treasurer's office, be accepted. H. Press & Son, having made a mistake of $100 in their tender, had asked to be relieved. This was added to the original report and adopted. The awarding of the contract for supplying brass work for the Treasurer's and tax offices, to Chadwick Bros., brought from Ald. Birrell the remark that he knew of one firm that knew nothing of tenders being asked for, for this work until they saw a report that the contract was recommended to be given to Chadwick Bros. In The Toronto World of Saturday morning.

Firemen's Insurance.

The question of insuring firemen against accident in the Fire and Water Committee's report was discussed at length, but finally adopted. Following was the clause: The tender for the Employers' Liability Assurance Corporation for insuring the firemen against accident be accepted, and that the City Clerk be authorized to effect an accident insurance of $1000 on each of the city firemen, and retain the policies in his office, and that the City Treasurer deduct the premium from the salaries of each fireman and retain the policies in his office, and that the City Treasurer deduct the premium from the salaries of each fireman, payable for the latter part of January in each year.

Water Matters.

Ald. Kingdon and Pettigrew wanted James Bain, Assistant Engineer at the Beach Pumping House, paid time and a half for all over time. None of the other aldermen supported their motion. The report was adopted with the following clause referred back for further consideration: That on and after the first day of January, 1903, A. J. and H. Cummer, mineral water manufacturers, be charged a factory rate of $50 per annum, in addition to the regular rates, for water and street watering, and that T. M. Pilgrim, mineral water manufacturer, be charged a factory rate of $16 per annum, also regular rates for water and street watering.

Spectator's Request.

Ald. O'Reilly told the Council, in relation to The Spectator's application for use of the Public Library alley, that the Molsons Bank wished to have their premises enlarged and the closing of The Spectator's James-street alley would cause annoyance to the library by the boys passing in and out. This was referred back. Ald. Nicholson objected on principle to the increase of Assessment Commissioner Hall's salary, and Ald. Basquit seconded his motion to strike out the clause recommending it. This was defeated, yeas 7, nays 11.

Permanent Auditor.

The Mayor brought up the matter of a permanent auditor being appointed for the city, and said the City Solicitor finds that an auditor may be lawfully appointed. His Worship asked for an expression of opinion on the subject, but the matter was only informally discussed.

Ald. Kerr moved, seconded by Ald. Biggar that the report of the Special Telephone Committee be referred to a special committee. Ald. Biggar said very likely that a report would be ready for the next meeting of the Council.

Bylaw Killed.

It was decided to reconsider the resolution adopting a report to raise $100,000 for permanent improvements, and it was referred back to Committee of the Whole. Quite a discussion followed, and it was nearly 12 o'clock when Ald. Findlay moved to give the bylaw a six months' hoist. This was carried, and the bylaw which has caused so much discussion was killed for the time being.

Fire Amid Dead Animals.

The business end of a parlor match flying off and igniting some cotton batting started a fire in the window of W. W. Powell's barber shop, East King-street, this afternoon about 5 o'clock. Powell is a taxidermist and had some stuffed birds and animals in his window, which helped the blaze along. Mr. Howard, the confectioner, next door to the scene of the fire, turned on the alarm, and the department responded in short order. Mr. Powell lives over his shop, and the blaze got into the dwelling, but was extinguished by the chemical engine before much damage was done. The shop and contents were considerably damaged, the front being entirely burnt out. Newton D. Galbraith owns the building. It is estimated that the loss to the building and contents will be in the neighborhood of $600.

Fascinating Study.

A class of 25 pupils for the study of higher mathematics under the instruction of Mr. Gill of the Collegiate Institute was formed to-night in the Public Library Building, and will meet every Monday night till the end of the season.

John Johnston, a red man from the Caledonia reserve, slipped and broke his ankle at the corner of Ferguson-avenue and King-street to-night. He was removed to the City Hospital.

Fainting Witness.

While giving testimony in the case of Mrs. Hamilton v. The Ancient Order of United Workman, at the High Court to-day, Mr. Frederick G. Inwood, Toronto, Grand Treasurer of the order, had a fainting spell, and, in falling, struck his head on the railing. His lip was badly cut. In this case, Mrs. J. H. Hamilton sued the A.O.U.W. for $2000, for insurance on the life of her husband, who left the city in 1894 with another woman, and as she had not heard of him since 1895 believes him dead. The Judge dismissed the action without costs. George Lynch Staunton and G. C. Thompson for the plaintiff, and A. G. F. Lawrence, Toronto, for the defence.

May Be Pardoned.

Two Hamilton men, Moses Niblock and Thomas Young, who have been doing time in Kingston Penitentiary for the past two years on a three-year sentence for theft, may be pardoned. It is claimed that Young is dying of consumption, and application has been made to the Minister of Justice for their release.

Given Two Weeks.

John Wood, St. Catharines, who was at the head of the syndicate that worked the ringer "Norseman," alias "Dandy Hall," on the Canadian trotting circuit, was before Judge Snider this morning. The Judge gave Wood a severe lecture and sentenced him to two weeks' imprisonment and a fine of $100 and all costs, a total of about $175. Frederick Carr of Vineland will be tried on a charge of conspiring with Wood.

Can't Find George.

The executors of the estate of the late Mary Shea, who have been hunting for her son, George, a beneficiary under the will of his mother, can get no trace of him. It was thought that George W. Shea of Nome, Alaska, was the man, but on investigation the executors find that he is not the one wanted. Mary Shea has been dead for some years now, and there seems small chance of the rightful heir being found.

Gladys Refuses.

Gladys O'Connor, who charged her husband, Michael, with assault, refused to prosecute, and the Magistrate, tiring of this kind of thing, imposed a fine of the costs in the case, which amount to $1.50, on Gladys.

George Young, who was caught in the trunk, was fined $5 on a charge of being drunk and disorderly.

Sanderson's
Mountain Dew Scotch. ed

More Telephone.

The special Telephone Committee of the City Council, at a meeting this morning, decided to present the special committee's report to the City Council, and called another meeting for Wednesday evening to further consider the much-vexed telephone question. Ald. Biggar claimed to have some new light on the subject, and this was the cause of the committee deciding on another meeting.

NEW YORK REAL PAINLESS DENTISTS
Cor. Yonge and Adelaide Streets.
ENTRANCE: No. 1 ADELAIDE EAST.
DR. C. F. KNIGHT, Prop. TORONTO

HIS TRANSFER HAD RUN OUT

Continued From Page 1.

dition of the transfer is that it is good only for a transfer at junction point of route punched to first leaving after time punched. The transfer was not punched. The time is punched, but not the route. The conductor who punched it says it was intended to cover any line, which would take the passenger down to the city by 8 a.m.

Time Limit on Transfer.

No route being punched the only limit left is that of time. The line on which the transfer was issued was the College and Yonge—the line on which the defendant attempted to travel was the Broadview. The only point of junction of these two lines is at Yonge and Queen-streets—a long way from the point where the defendant boarded the Broadview car. To put him within a reasonable construction of a transfer to Queen-street from the corner of Yonge and College, via Parliament-street, requires some indication that the Carlton-street car conductor had marked the transfer so that it would avail the defendant when he took the next link of the trip, namely, Parliament-street going south. There is no such mark on the transfer. How the defendant got from the corner of Yonge and College-streets to the corner of Parliament and Gerrard-streets he does not seem to know.

Cars Ran Regularly.

First, I understood him to say he walked, then he said he supposed he took some car—but he fails to account for the time between 8 a.m. on College-street and 8.45 a.m. on Queen-street. The interval is too long to be explained by his saying he was waiting on Parliament-street for the next car to come along. Conductor Hodge's evidence was quite satisfactory that the cars on that road were running at regular intervals, and it is impossible to believe the defendant when he says no car passed him on Parliament-street going in the same direction. In view of the fact that no transfer regulations have been adopted by the City Council, I have taken pains to get at the facts of this case, and altho it is rare to meet with citizens who stretch their claims as far as this defendant, it is necessary to know what the law is.

Condition Must Be Complied With.

As matters stand at present whenever a passenger leaves a car the company has done what the law compels it to do—that is to carry the passenger from any one point to any other point on their line. Hereafter a transfer, if accepted or acted on, must be taken for what it is worth, that is, the conditions stated on it must be complied with or it is useless.

In this case I consider the defendant has acted in an unreasonable manner, and from his own admissions it appears that he has done the same thing frequently. He must be convicted of non-payment of fare on the Broadview car, of which there is clear evidence, and he is fined $5 and costs.

ENEZUELA

Continued From Page 1.

Venezuelan citizens considered the threat of a demonstration as a bluff, and set aside the possibility of an Anglo-German demonstration. Both the English and German residents regard the moment as inopportune for a demonstration, which, it is believed, can produce no practical result, as the revolution not being yet entirely crushed, there is no present possibility of Venezuela raising a loan. The correspondent learns that one of the chief officers of the German cruiser Vineta told a German family at La Guayra yesterday that a blockade of the coasts of Venezuela was imminent.

BALFOUR ANNOUNCES IT.

London, Dec. 8.—Premier Balfour announced in the House of Commons to-day that an ultimatum had been sent to Venezuela, and that, in the event of a satisfactory reply not being received, the British and German governments will take measures to enforce their claims against that country.

When questioned on the Venezuelan situation by Sir Henry Campbell-Bannerman, the Liberal leader, Premier Balfour said:

"For the past two years we have had grave cause for complaint on various occasions of unjustifiable interference by the Venezuelan government with the liberty and property of British subjects. No efforts have been spared by the British government to obtain an amicable settlement of these cases, but in none of them satisfactory explanations have been forthcoming. Latterly, the representations of the British Minister have been practically unnoticed.

"There also are cases in which British subjects and companies have large claims. We have been acting in conjunction with the German government, which also has large claims against Venezuela. A final communication has been made to the Venezuelan government by the British Minister and the German Charge d'Affaires. If no satisfactory reply is received the governments have decided to take such measures as may be necessary to enforce their claims."

Replying to a supplementary question, Mr. Balfour said he understood the communication to Venezuela was neither joint nor identical.

PRESENTED AT CARACAS.

Berlin, Dec. 8.—The German-British ultimatum to Venezuela was presented at 3 o'clock yesterday afternoon at Caracas.

The ultimatums are identical in spirit but not in form. Each embodies the respective claims of the two countries, and is, consequently, different.

A statement will be made to-morrow in the Reichstag. The Bundesrath already has been informed that the Foreign Office is unwilling to disclose the text of Germany's ultimatum, as such a step would be against all precedents and because it also would be discourteous to Venezuela to publish the text before giving that country an opportunity to reply.

Neither is an intimation given as to what forcible action will follow, on the ground that this would be disclosing military secrets.

The navigation offices confirm the reports that the German flagship Vineta arrived at La Guayra Nov. 30; that the Falke reached there Dec. 1, and that the Gazelle and Panther anchored off that port at the end of last week. Each of these warships is equipped with landing material and field guns.

FRANCE WILL HOLD ALOOF.

Paris, Dec. 8.—Several newspapers here are urging the French government to send warships to participate in the naval demonstration against Venezuela, pointing out the extent of the French interests in that country. But it is said at the Foreign Office, the government will adhere to its purpose to hold aloof from the movement, as the protocol signed by France and Venezuela assures a satisfactory settlement of the French claims.

Wills' Three Castles English Cigarettes, are the finest imported into Canada. Sold in Montreal by E. A. Gerth.

Nobel Prizes Awarded.

Stockholm, Dec. 8.—The following Nobel prizes will be distributed on Wednesday next: The Dutch Professors Lorenz and Zeenan will divide the physics prize; Prof. Emil Fischer of Berlin will receive the chemistry prize; Prof. Mommsen, the literary prize; Major Ross, the principal of the Liverpool School of Tropical Medicine, the medical prize, while the Russian Prof. De Maartens will be awarded the peace prize.

DONALD SUTHERLAND SAFE

Continued From Page 1.

as well as other matters upon which corrupt practices and their consequences are concerned.

Not Aware of Corrupt Acts.

"This is the case where, at the most, whatever disagreement there may have been or suspicion if any on the part of either or both judges, it is found that two corrupt practices by agents of the respondent have been committed.

"If these were committed with the knowledge of the respondent, then his election is void, but the relieving clause 174 may be invoked against disqualification. If without the knowledge of the respondent, his election is void, unless these corrupt practices were of such a trifling nature or extent that the result cannot have been affected by them alone or in connection with other illegal practices."

Mr. Justice Britton concludes by finding that while the hiring of rigs was proven as against Patterson the acts were not committed with the knowledge of the respondent. He agrees that the saving clause applies, tho he had some difficulty in construing the clause, and quoted Chief Justice Cameron, who said:

A Pernicious Section.

"The section is pernicious in its effect and calculated to open the door to misconduct in elections, but the section is there, and I am bound to give it effect."

To deal with this particular case, where the majority was 174, we cannot say otherwise than that the two corrupt acts proved were of such trifling nature and extent that the result cannot reasonably be supposed to be affected by them.

The Soo Election Trial.

At Osgoode Hall on Monday an application was made to postpone the "Soo" election petition against Andrew Miscampbell. Judgment was reserved.

A CONSERVATIVE VIEW.

A Conservative interested in the political situation in South Oxford made the following statement:

"Now that the South Oxford election trial is over and judgment has been given, I am at liberty to discuss the facts which came up before the court in this extraordinary trial. At as early a date as the second day of the trial, on Oct. 16 last, it was known that moneys were paid to witnesses to procure declarations. Money was paid to obtain such declarations, and then these declarations were held over the witnesses and witnesses were compelled to stand by them as they would be liable to an indictment for perjury if they did not. It was publicly stated in the witness box by J. B. Jackson, K.C., the chief person working up the case for the petitioners, that he paid one man $375 cash for evidence, and promised him $357 more when the case was over if the evidence established six charges. Jackson also paid Pick, a constable, $250, which was used for the improper purpose above indicated. One witness swore that he had received $40, or its equivalent, by having an account for that amount forgiven him, and another witness stated that he had been paid $25 for making the declaration, and so on. And what is more, Mr. Jackson would not close the payment of the $375 above mentioned without coming down to Toronto for advice, and, after doing so, he returned and made the payment and drew on the Toronto agent to recoup him. Those behind Jackson aided and abetted him in these improper transactions. They know and knew the means their satellites were using and backed them up. They made themselves as much parties to the whole matter as the local agent by furnishing the means and seeking to take advantage of the results."

GOVERNMENT CHANGES.

The Ross Cabinet to Be Reconstructed at an Early Day.

Persistent rumors say that the Ross cabinet will be reconstructed at an early date, with the prospects of a general election immediately after. All the arrangements are under way: the pretext for putting them in operation will be the result of the two remaining elections now before the judges, and of the three others that may go to trial—or not.

A powerful Roman Catholic stumper is put down for a seat in the reconstructed cabinet. Mr. Ross may or may not be in the cabinet; a new man in his place as Premier can make a much better request on the Lieutenant-Governor for a dissolution and a new election. There will in all likelihood be a new occupant of Government House before any of these rumored changes come off.

STORM OVER CAPE BRETON

Halifax, Dec. 8.—Another big storm is raging over Cape Breton. There is two feet of snow on the ground, and it is still falling. All trains are snowbound and the telegraph system is interrupted. The steamer Oscar Frederick, which sailed from Sydney on Friday, for Norway, with a cargo of coal, returned to Sydney to-day pretty much disabled. The accident occurred during the storm Friday night.

COUNTESS OPERATED ON.

Dublin, Dec. 8.—The Countess of Dudley, the wife of the Lord Lieutenant of Ireland, was operated upon to-day for appendicitis by Sir Frederick Treves, the well-known surgeon. There have been many anxious inquiries at the Vice Regal lodge as to Lady Dudley's condition, and the King and Queen have asked to be constantly informed. The latest bulletin says that the patient's progress is satisfactory.

Mrs. Langtry's Final Appearance.

London, Dec. 8.—Mrs. Langtry's final appearance on the stage prior to her American tour was made to-night under exceptional and brilliant circumstances. It had been intended to give a private performance of the play, "The Cross Ways," of which she is joint author with Hartley Manners, at the Imperial Theatre, when King Edward expressed a desire to witness the performance. Mrs. Langtry then decided to make it a semi-public affair.

The King and Queen, the Prince of Wales and their suites arrived at 9 o'clock and were conducted to a box on the right of the stage. In the opposite box sat the Portuguese Minister, Lady De Grey, Count Mensdorff and others, while the brilliant audience included the Countess of Errol, Lord Churchill, Mrs. Ronalds and many Americans. Three hundred and eighty royal servants and their families were also present.

The plot of the piece is rather an hacyneyed one, but gives good scope to Mrs. Langtry, and appeared to greatly please the royal visitors, who remained to the end. In the interval between the third and fourth acts, the royal party moved to the anteroom for refreshments, and the King then commanded Mrs. Langtry's presence and commended the play very warmly. Queen Alexandra said to Mrs. Langtry: "I am extremely pleased with the play. I think it is most dramatic, and I am sure you will have great success."

Mrs. Langtry's dresses were very beautiful. She had a hearty recall at the close of the performance.

ROUSED BY ELECTRICITY.

Pittsburg, Pa., Dec. 8.—"Lafayette," a vaudeville performer, was fined $20 yesterday on a charge of cruelty to animals. A Humane Society agent discovered that a lion was being maltreated. In order to make his act realistic and thrilling, "Lafayette" introduced a caged lion, which was goaded by a strong electric current to roar in an infuriated manner.

DROPPED DEAD.

George Dawson, Formerly of Toronto, Suddenly Called in Montreal.

Montreal, Dec. 8.—George Dawson, formerly of Toronto, manager of the retail branch of the Williams Manufacturing Company, dropped dead at 7.30 o'clock to-night in the store of T. E. Phelan, bookseller, 2331 St. Catherine-street, while he was making a purchase. Mr. Dawson had not been complaining of feeling unwell.

KILLED IN ST. CATHARINES.

St. Catharines, Dec. 8.—A shocking fatality occurred on the Niagara, St. Catharines and Toronto Railway at the corner of Welland-avenue and Niagara-street at 2 o'clock this afternoon. James Murphy, who has resided at the corner of Wiley and Nelson-streets, was walking westward on the track when he was overtaken just east of Niagara-street, and struck by a freight car which was being pushed forward by the company's electric engine. The car struck him in the back, throwing him to the ground with terrific force. The man was dragged a distance of 120 feet before the engine could be stopped, and when it was the body had worked backwards to the end of the car. When taken out the remains bore scant resemblance to the body of a man. He leaves a wife. He was 55 years of age.

THREE KILLED AT ONCE.

Grimsby, Dec. 8.—Miss Maud Hughes, aged about 23; Miss Gertrude Harner, aged about 19, and Harry Brady, aged about 20, all belonging to Grimsby, were killed on the public crossing at Grimsby Station last night by the Toronto express train which passed at 8.35 p.m. The three young people were in company on their way walking home from church, and on reaching the track were stopped by a freight train running east, the end of which just passed as the express came along, and, failing to notice the express approaching, were struck and the bodies carried some distance west.

FIVE WORKMEN KILLED.

Nashville, Tenn., Dec. 8.—Five Italian laborers were killed, three others seriously hurt and eleven more slightly injured by an explosion in a tunnel being cut by the Louisville and Nashville road at Baker's Hill, 12 miles north of this city.
