SPECIAL FARMING & LIVE STOCK EDITION

83 CARS AT JUNCTION EXPORT TRADE WAS DULL

Butchers' Sold at Steady Prices—Sheep, Lambs, Calves and Hogs Steady.

Receipts of live stock at the Union Stock Yards were 83 car loads, composed of 1872 cattle, 11 hogs, 10 sheep and 43 calves.

The quality of fat cattle was fairly good. Trade was slow for shipping cattle, with lower quotations, owing to scarcity of space. Butchers' cattle were in fair demand at about the same prices as last week.

Exporters.

Export prices ranged from $4.90 to $5.35; the bulk selling at $5 to $5.25; bulls, $3.75 to $4 per cwt.

Butchers.

Prime picked lots of butchers' sold at $5.10 to $5.25; loads of good, $4.75 to $5; medium, $4.40 to $4.60; common, $4 to $4.30; cows, $3.50 to $4.50; canners, $2.25 to $2.50 per cwt.

Milch Cows.

Four milch cows of good quality sold at $50 each.

Veal Calves.

Prices for veal calves were unchanged at $3 to $6.50 per cwt.

Sheep and Lambs.

Only a few sheep were offered, which sold at $5 to $6.12½ per cwt.

Hogs.

H. P. Kennedy reported the same prices as last week, $6.50 for selects and $6.25 for lights and fats.

Representative Sales.

William Levack bought 23 car loads of fat cattle, principally for butchers' purposes, at prices quoted above, which are Mr. Levack's quotations for the fat cattle market.

British Markets.

The World received a special cable from Peels, Brewster & Duckham, wholesale cattle salesmen of London, Liverpool, Bristol and Manchester, who report the following prices: States steers, 12c; Canadian steers, 11½c; cows, 10½c; bulls, 10c.

A. McIntosh bought about 30 loads of export cattle.

The World received a special cable from W. D. Newton, wholesale cattle salesman of Glasgow, Scotland, who reports the following prices: Canadian steers, 12½c to 12¾c; bulls, 10c.

The Production of Bacon.

It is gratifying to know that in a few centres the drovers are discriminating in prices in favor of the desired bacon type of hogs.

As soon as the packers and drovers can come to some arrangement whereby this discrimination can be made, the farmers in those localities where hogs are not now produced to a very great extent will be encouraged to go more largely into the production of the desired type.

Train Officials Switch.

LONDON, April 22.—A. Swinnerton of Toronto has been appointed trainmaster of the C. P. R. in this city, in succession to V. A. Harshaw, who has been promoted to the post of superintendent of terminals, with headquarters at Toronto.

DEALER IS FINED $1800 FOR SELLING SKIM MILK

Fined $50 Each on 36 Counts by Supreme Court—Means Trouble for More.

NEW YORK, April 22.—Anton Koster, a milk dealer with creameries at Davenport Centre, N.Y., was fined $1800 in the supreme court here to-day, after being found guilty of shipping skim milk into this city, where it was sold to small dealers.

A. L. Kellogg of Oneonta, N. Y., special attorney-general, declared that the convictions marked a new era in the prosecution of wholesalers who violate the provisions of the state agricultural law, and also settled a moot point as to whether such offences can be cumulative.

Koster was found guilty on 36 counts and fined $50 on each.

"With this decision in our favor," said Mr. Kellogg, "we will press numerous other cases against wholesalers, in which we believe our evidence is just as complete."

Montreal Live Stock.

MONTREAL, April 22.—(Special.)—Cables from Liverpool and London on Canadian cattle were weaker and prices show a decline of ½c to 1c per lb. compared with a week ago, and sales were made at 11½c to 12c per lb. Owing to the near approach of the opening of navigation, there has been a little more life in local export live stock circles, and some business has been done in ocean freight space. The Liverpool space from Portland for May has been let at 27s 6d to Americans for 500 each boat. Armour Company have closed contract with Reford & Co. for London space for one year. Some Glasgow space has been let at 35s, and Liverpool at 32s 6d. Exports last week from Portland and St. John were 1764 cattle.

At the Montreal Stock Yards' West End Market the receipts of live stock for the week ending April 20 were 4607 cattle, 38 sheep and lambs, 2260 hogs and 1611 calves. The offerings for local consumers today were 1000 cattle, 647 hogs and 55 calves. A feature of the trade to-day was the stronger undertone to the market for cattle. This was due to the fact that higher figures have had to be paid by dealers for cattle thruout the country, owing to the fact that the competition between buyers for home consumption, and those for export account, has been keener of late for supplies. There was little or no demand for exporters this morning, which to some extent was due to the weak cables from Liverpool on Saturday, noting a decline in prices for both American and Canadian cattle of ¾c to ⅞c per lb., as compared with those realized a week ago. Owing to this, coupled with higher prices demanded here, exporters showed no disposition to operate. Another feature of the market was the demand from several leading butchers of Quebec, who bought three or four carloads of cows and bulls. In addition there was a large attendance of local butchers, but trade during the early part of the morning was rather slow, as buyers did not feel disposed to pay the above advance noted; but, as supplies were somewhat smaller than a week ago, sellers were firm in their views, and later in the day trade became more active and a clearance was made. Choice beeves sold at 5½c to 5¾c; good at 5c to 5¼c; fair at 4½c to 4¾c, and lower grades at 3¾c to 4¼c per lb.

There was no further change in the condition of the market for hogs, prices today being steady at the decline noted last Wednesday. Supplies were smaller than they have been during the past three weeks on Mondays, and this no doubt tended to check the recent downward tendency of values. The demand from local dealers was fairly good, but packers were not in the market for supplies, as they bought freely in the west last week; however, a steady trade was done with sales of selected lots at $7 to $7.25 per 100 lbs., weighed off cars. There was no improvement in cable advices on Saturday on Canadian bacon; in fact, those from Liverpool and Bristol were easier than a week ago. Supplies of calves were smaller, and trade in this line was not so large, but the demand was good for all offerings, and sales of good to choice stock were made at $8 to $10, and lower grades at $2 to $6 each. The scarcity of sheep and lambs continues as bad as ever and prices rule firm. Sheep are quoted at 5½c to 6c, and lambs at 6½c to 7c per lb., with spring lambs selling at $4 to $6 each.

East Buffalo Live Stock.

EAST BUFFALO, April 22.—Cattle—Receipts, 4200 head; active and 10c to 15c higher; prime steers, $5.75 to $6.25; shipping, $5.25 to $5.75; butchers', $4.75 to $5.65; heifers, $4.25 to $5.50; cows, $3.50 to $4.75; bulls, $3.50 to $5; stockers and feeders, $3.50 to $4.75; stock heifers, $3 to $3.75; fresh cows and springers, steady to $2 higher; $20 to $57.

Veals—Receipts, 3000 head; active and steady; $5 to $7.25.

Hogs—Receipts, 17,000 head; active and 5c to 10c lower; heavy, $6.85 to $6.90; mixed and yorkers, $6.90 to $6.95; pigs, $6.85 to $6.90; roughs, $5.90 to $6; stags, $4.75 to $5.00.

Sheep and Lambs—Receipts, 30,000 head; active and steady; lambs, slow and 15c lower; lambs, $5.50 to $7.50; yearlings, $6.75 to $7; wethers, $6.25 to $6.50; ewes, $5.75 to $6; mixed, $3 to $6.

British Cattle Market.

LONDON, April 22.—Liverpool and London cables are steady at 11½c to 12½c per lb. dressed weight; refrigerator beef is quoted at 8¾c to 9c per lb.

ONTARIO FRUITERS EXPECT BIG THINGS FOR 1907

Co-Operation and Attention to Little Things Are Making Our Fruits Prominent.

The fruit industry of Ontario is becoming a big thing. Organization is making the culture and marketing of Ontario grown fruits a financial inducement to the most lethargic of men.

It is only in the last few years that such advances have been made that make the lover of Canadian fruits stand up and feel proud of his country's productions.

A few public-spirited men have caught the spirit of possibility, and, hunting for a cause of the dulness in fruit circles, have arrived at the working conclusion that organization is everything. Organization claims attention. It demands the government recognition. It goes out into the orchards and vineyards and cleans out the dead rubbish, mulches the soil, prunes the trees and vines and markets the products. It "boosts" its goods up to their merits.

Our Fruits.

The light of our glorious inheritance in Ontario has too long been kept under the bushel of inattention. We have here the best northern spies in the world. The Canadian russets, the Ben Davis, the greening, the Baldwin and the fameuse have that peculiar flavor that smacks of the rosiness of morn vevleted on the fruit from our bracing atmosphere. No other climate produces this flavor and keeping quality. The Niagara peaches are par excellence the finest grown; their delicate cheeks blush with the approbation of smiling consumers. The pears, plums and cherries that load Ontario's trees can not be picked in any other land under the blue expanse. Her grapes are dreams of sweetness also and the smaller fruits are perfection itself. The strawberry that grows so luxuriantly in every garden is as far ahead of the imported article as June is ahead of April.

The Drawbacks.

Why have we not let the world know of our riches in the fruit areas? The fault has been ours. Like the boys who stretch their necks to see the golden grain in the far west, we have looked to other fields for the gold that was ankle deep at our feet.

Our heritage in fruit has been wasted heretofore. Now we are waking up and telling to the world at large that for good keeping richly-flavored gruits Ontario leads the universe. We have done much during 1906 towards making our produce known. We have got together in many co-operative societies. We have branded our goods according to their honest condition. We have sprayed our trees and sought to get a more perfect crop. Above all we have been keeping the poorer stuff home and correctly advertising our true productions to the great consuming public.

Facking and Shipping.

The attention paid last year to the packing of apples and pears in boxes, the prizes offered at fairs and exhibitions, the experiments made by our enthusiastic fruit men, all have contributed much to the end desired. Cold storage facilities have been a wonderful aid towards placing the article before the people in commendable shape. The department of agriculture is realizing the importance of the industry and by their grant to farmers to aid in spraying, they are lending a helping hand in the right direction. The cold storage privileges with these increased chances for sales this year ought to aid greatly in making the 1907 crop move off in better condition than ever.

There is much yet to be done and the good work accomplished can only be held by the aid of the co-operative shipping societies, and a careful, honest and progressive people.

The Fruit Growers' Association have much to do. The prizes at the fairs, the encouragement to clean up, correctly mark, pack and exhibit should be given by them. The secretary has a valuable work on his hands and he is best following the call of life who acts in the position as public adviser in a painstaking and persistent crusade for improvement.

An Age of Reason

The days of mystery have passed. There must be a reason for everything, and we demand to be shown the whys and the wherefores. Secret or patent medicines must go with the other mysteries.

King Palmetto Compound

Is not a secret remedy,—the formula is printed on the label, and you can get expert advice from your physician, who will tell you that it is

The Most Useful Prescription

ever prepared. Saw Palmetto for the Kidneys, Cascara Sagrada for the Bowels, Couch Grass for the Bladder, Corn Silk, Golden Seal and Compound Kerunfel,—a perfect combination.

The Cause of Ill-Health

is not a mystery either, and we know we should apply our reason to our daily habits, but we do not do so. The modern struggle is too much for us. The result is a clogged liver, and a generally disordered condition of the Stomach, Liver, Nerves, and Kidneys. These things lead to Very Serious Results, and render the body an easy prey to germ diseases, such as Typhus, Typhoid, and Consumption.

The Reasonable Solution

is to begin taking King Palmetto Compound to-day. One dose a day, and the cure begins with the first dose. It will renovate your entire system, cure Constipation and Indigestion, and purify the Blood.

WHERE CANADA LACKS.

Should Be More Attention Paid to the Juvenile Offender.

OTTAWA, April 22.—(Special.)—In the senate this afternoon, Senator Lougheed, resuming the debate on the juvenile delinquents bill, said it was a criminal law, and therefore within the jurisdiction of the federal parliament. The law was needed. He was therefore surprised that the government should have taken the responsibility of offering the measure to parliament, and, finding it was needed, say it should not go thru and become law.

There were experts attached to most of the departments of the Canadian government to study improvements, but there was no expert attached to the department of justice for working out the great sociological problem which had to do with criminals and crime. Canada was spending millions on immigration. One of the subsidiary consequences was an increase in crime. Statistics showed that crime was growing at a greater ratio than population. From 1885 to 1904 there were 31,147 persons under 21 years convicted in Canada of indictable offences. Two-thirds of the inmates of Canadian penitentiaries were under 30 years of age.

Senator Sullivan thought that Senator Lougheed had taken a little too dark view of crime increase. Crime was encouraged by alcohol, poor food and improper nourishment. Heredity had much to do with crime. There was not in Canada such a terrible state of crime as had been suggested.

England had established industrial schools in 1840. John Pound, shoemaker, of Portsmouth, had organized an agitation for the improvement of poor classes, and the ragged schools had been the result. Since 1854 industrial schools had been doing good work in England among the juvenile offenders. In 1900 there were 4300 boys in these schools, which took boys at 14 and kept them to 16. From 16 to 17 offenders were put in reform schools. There were also truant schools and day schools as a part of the British system, which was one of the best that could be devised. First offenders only could be sent to the industrial schools. Others were sent to reformatories. Children were looked after for three years after leaving these institutions.

AGED WOMAN MISSING.

Southampton Citizens Searching Woods for Mrs. McKay.

SOUTHAMPTON, April 22.—Mrs. McKay, over 80 years of age, left her son's home Saturday morning about 11 o'clock, saying she was going to see a neighbor.

She was not missed until evening. Since then searching parties have been going thru the bush, but have not been able to find her.

Her cane and mitts were picked up on the beach road a mile from her home.

It is feared that she lost her way and perished with the cold Saturday night.

Exchequer Court Judgments.

OTTAWA, April 22.—The following judgments were delivered to-day in the exchequer court:

The King v. F. R. Rogers, I. C. R. expropriation at Halifax, N. S.; judgment for defendant for $1400, interest and costs.

The King v. Flynn, Halifax, N. S.; judgment for defendant for $7000, with interest and costs.

The King v. Stars, Son & Morrow, Halifax, N. S.; judgment for defendants for $7500, with interest, but without costs.

Bow, MacLachlan & Company v. Ship Camosun, B. C., admiralty interlocutory appeal upon a point of pleading; appeal dismissed with costs.

ASK WAGE INCREASE.

Employes of Montreal Cotton Co. Make a Demand.

MONTREAL, April 22.—The Montreal Cotton Co. at Valleyfield, employing 2500 hands, are considering a demand made by the operatives for an increase of 15 per cent. in their wages.

The Federation of Textile Workers of Canada also adopted a resolution protesting against working during the dinner hour, and declaring that 55 hours constituted a week's work for women and children, and that the federal government should enforce the same.

THOROUGHBRED STALLION

Imp. HALFLING

Halfling is a brown horse, standing over 16 hands high, of superb conformation; in fact, the very beau ideal of the highest type of English thoroughbred. He was exhibited at the recent Horse Show in this city, where, in a strong class, he was awarded first honors and championship.

PEDIGREE

Brown horse, foaled 1892, by MACHEATH, by Macaroni, by Stockwell.

First dam Moiety by Charibert, second dam Meteora by Thunderbolt, third dam Hazeldean by Cathedral, fourth dam Nutbush by Filbert, fifth dam Beauty by Lanercost, sixth dam Cytherea by Camel, seventh dam Lady's Slipper by Waxy Pope, eighth dam Slipper by Precipitate, ninth dam Catherine by Woodpecker, tenth dam Camilla by Trentham, eleventh dam Coquette, sister to Regulus, by The Compton Barb, etc., etc.

HALFLING as a race horse was first-class. As a 2-year-old he started six times and won every race. His first essay was in the Juvenile Scurry at O. J. C. meeting, which he won in very heavy going from six good youngsters. In the Woodbine Nursery, a few days later, he picked up 125 lbs. and won with ease. At the same meeting he won the Tyro Purse, carrying 130 lbs., and defeated a lot of light-weighted smart 2-year-olds. At Windsor, with 123 lbs., he won a half in :49¼, winning pulled up, and the following day again scored brackets.

As a 4-year-old, in 1896, he won the Don Purse at the O. J. C. spring meeting, from a strong field, carrying 117 lbs. He also won the Norway Purse, beating such good ones as Crimen, Beau Ideal and the Kapanga Colt. He also won a number of good races at Aqueduct, Brighton Beach, one mile over a slow track in 1.42. At Detroit, 6 furlongs in 1.14¼, 1¼ miles at Coney Island in 2.00, beating such well-known performers, as Ben Eder, Ferrier, Deer Slayer, Mascalonge and Souffle.

Halfling will be allowed to serve only a limited number of mares. Terms: Thoroughbred mares, $25.00; half-bred mares, $15.00, with return privilege. He will spend the season at his home stable, East Toronto.
