brutality or carelessness, are met by words not used in a pious book.

Matthew Russell should be taught some idea of liability.

M. ADAMS.

Newcastle, Sept. 28, 1897.

Newcastle, Sept. 25th, 1897.

TO EDITOR ADVOCATE.

DEAR SIR.—Being anxious to know if it is possible for a sufficient number of our sports and business men to get together and discuss a representation in the exhibition to be held in Boston under the auspices of the New England Sportsmen's Association in March next. I come to the ADVOCATE for assistance.—The writer of this is convinced that a better investment could not be made; if the statement is true that nearly two millions of dollars are spent annually in the State of Maine every year, by sportsmen. I know that there are many of our people who would willingly cooperate to secure such a creditable exhibit of our Big Game, accompanied by one or more guides, as would satisfy enquiring sportsmen of the superior advantages offered by this and the adjoining counties over that of other sections. Let Mr. R. H. Armstrong and Mr. John Way be sent to the exhibition with specimens, and you will soon hear of some one enquiring for a suitable site on which to erect a hotel in this town. Let some one take the initiative; who will be the first?

***

Born.

At Flat Lands, Restigouche, on the 21st inst., to Mr. and Mrs. Cooling, a son.

Married.

At Campbellton, on the 16th inst., by Rev. W. A. Thomson, MISS CHRISTINA ADAMS, of Moores Settlement, to JOHN A. ROBERTSON, of Metapedia.

DIBBLE GROUP MINES.

The second of the three instalments of $11,000 cash in payment for the Dibble group of mines, near Fort Steele, falls due on the 16th inst., and will be promptly paid, the development work now done showing great richness. The purchasers are Hon. George E. Foster, ex-minister of finance for Canada; Gen. Warren, of Spokane, and Wm. Sprague of this city. They bought it some months ago from Jas. Dibble, N. A. Wallinger and L. Dole, the purchase price being $34,000, a sum which in the light of what has been shown up by running about 500 feet of tunnelling, must be regarded as a very low figure for the property. J. M. Burke negotiated the purchase. About $20,000 has now been spent in development with the result that the mine will shortly become a large shipper. The ore is antimonial silver and chlorides. An average shipment of 30 tons gave smelter returns of $104 to the ton. The paystreak varies from one to eight feet in the vein that has been worked, but there is a mineral zone through which it runs, 200 feet wide.—Vancouver World.

THE CESSION OF KASSALA.

ROME, Sept. 27.—All arrangements for the cession of Kassala to Great Britain have been completed, and everything is ready for the occupation of that town by British troops.

Kassala is a town of Abyssinia, situated, roughly speaking, about half way between Khartoum and Massowa, on the Red Sea. It is also only about 300 miles south southwest of Suakim, and is the junction of three telegraph lines. Kassala has a population of 5,000, and was one of the towns occupied by the Indian troops in the efforts of Italy to establish an African colony by co-operating with the British forces in Egypt.

B.B.B. FOR THE BLOOD

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action.

B.B.B. FOR THE BLOOD

Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Hood's Sarsaparilla

Is the best, in fact—the One True Blood Purifier Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills Do not purge, pain or gripe. All druggists. 25c.

Mr. Clarence E. Titus, Robertson's P. O.

Mr. Charles T. Dunlavy, 222 Duke St., St. John.

Mr. Frank S. Purdy, Great Shemogue.

The above competition will be continued each month of 1897.

Lever Bros, Limited, Toronto.

THE INSURGENTS BLOW UP A TRAIN FULL OF SOLDIERS.

DYNAMITE WAS THE AGENCY.

NEW YORK, Sept. 25.—A special to the Journal from Havana says: A train conveying soldiers to Artemisa has been blown up with dynamite by the insurgents near Magas. The insurgents had torn up the rails for a long distance and laid a bomb where it was anticipated the train would slow up. This enabled the party to explode the charge directly beneath the armored cars, which were blown to pieces, none of the escort escaping. The engine was derailed and many in the rear cars were injured. General Garcia has carefully escorted the 140 sick Spanish soldiers captured in the military hospital of Victoria de las Tunas, to the Spanish headquarters. With the sick in litters, a large escort of Cubans took them across the country, delivering them safely to the Spanish garrison at Port Gibara. Even the official reports give credit to the Cubans for this considerate treatment.

ENGLAND AND AMERICA.

THE "ST. JAMES GAZETTE" REGRETS THAT BETTER FEELING DOES NOT EXIST.

LONDON, Sept, 27.—The St. James Gazette, this afternoon, remarks: "It is quite clear that no concession we can make and no display however sincere of our wish to be friendly has availed one jot to disarm the bitter hostility of those Americans who are always ready for aggressive action. Neither is there a shred of evidence to show that the cold, passive dislike which so many Americans, who are friendly enough to the individual Englishman, feel for the English government has been warmed in the least degree."

Recalling ex-Secretary Olney's alleged dictum that all connection between a European and an American state is in itself unnatural, the St. James Gazette add: "That some such doctrine is working in the American mind is evidenced by many signs, of which the persistent nursing of the Behring Sea dispute is not the least. This is in itself a fact of which we and the other governments interested in America must take note, not as an excuse for losing our heads and rushing to meet an evil half way, but as good reason for clearing our minds and preparing for serious practical action."

BANKERS PROTEST.

ACTION OF BANK OF ENGLAND STRONGLY CONDEMNED.

LONDON, Sept. 22.—A meeting of the bankers of London, called to protest against the action of the governor of the Bank of England in relation to the silver reserve, was held at the clearing house to-day. There was a large attendance of representatives of powerful interests. Several of the prominent banks were not represented, but according to the statements of those who participated in the meeting their absence was due to the fact that their heads were not in or near London at the present time. A resolution protesting against the Bank of England's proposed action was adopted. This resolution was embodied in a letter to the governor and it will be presented to him to-morrow. The bankers who were present at to-day's meeting were pledged to secrecy in regard to the proceedings. Mr. Robert Benson, who threatened at the recent meetings of the Bank of England, to sell his bank stock if silver reserves were held, took a prominent part in the meeting to-day.

This protest upon the part of the London bankers is unprecedented and is the only thing talked about at present in financial circles.

AFTER MANY YEARS.

A Sufferer is Restored to Health and Strength.

Suffered From Weak Heart and Could Not Safely Walk Any Distance—How the Pulse of Life Was Adjusted.

From the Cornwall Freeholder.

The romance of unwritten facts of real life far exceeds the rich elaborations of fiction. A peep behind the scenes would furnish us with adequate proof that there is more of care, trial and severe anxiety in human life than floats on the surface. We find many whose experience has almost incessantly fluctuated between health and sickness; little if any of this is obtruded upon the notice of the world, or breathed into human ear. You may secure the confidence of some of these sufferers who will rehearse to you dark catalogue of pains and aches that are often ill understood by the friends and inadequately treated by the physician. Thanks be to the mighty genius that discovered the now famous panacea for the ills to which humanity is subjected when suffering from impoverished blood or a shattered nerve system. Thousands have, and thousands are still using to the greatest advantage Dr. Williams' Pink Pills. They have passed the ordeal of experiment again and again with ever increasing honor. The following statement is from one who was rescued from seeming permanent enfeeblement and distressing heart action. Mary Fisher, of Lancaster township, Glengarry county, is a maiden to-day. About eight years ago Miss Fisher was seized with weakness and a distressing sensation in the region of the heart. It was attributed to several causes, all possibly more or less true, they were overwork, exposure etc. She was certainly weak and the action of the heart was abnormally rapid. The doctor in attendance pronounced the ailment nervous palpitation of the heart and she received treatment accordingly for two years. At this stage she took to her bed she lay receiving only domestic attention. She improved somewhat, however, and was able to be taken to a friend of hers near Lancaster village, Mrs. J. Haney, where she was under medical attendance and took medicine for about three years. At the end of this time she could not safely venture to walk out even a short distance. All this time she complained of her heart. About two years ago she began taking Dr. Williams' Pink Pills, from this date she began what proved a steady restoration of nervous energy. During the summer of 1896 the improvement was marked. She was able by the middle of the summer to do as much work and walking as most ordinary women, and so satisfactory and apparently permanent is the cure that Miss Fisher has gone to her former home. Such are the unvarnished facts of a remarkable case. The malady was persistent, tenacious and hard to fight. But the constant use of Dr. Williams' Pink Pills wrought a marvellous change, which Miss Fisher's friend said might be profitably known to many others.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People.

IDENTIFYING A BURGLAR AT A DISTANCE.

The identification and capture of robbers comes about some times in a very curious way, as the case related below will show. One night about six years ago a stranger went into the town of Newcastle, N. B., and the next morning he disappeared. During the night, the safe in James Fish & Co.'s premises at Newcastle was burglarized and $700 taken therefrom.

I. C. R. Detective Skeffington went to work on the case, and sent a telegram to River du Loup, giving a description of the stranger, and the county constable and I. C. R. police officer there found him on one of the trains and when searched he had the stolen money in his possession. He was brought to Newcastle, tried, convicted and sentenced to five years in Dorchester. He gave his name as Bell and was said to be well connected. After serving eighteen months of his sentence he made his escape from the penitentiary and had not been heard of again till a few weeks ago. It came out at the trial that he had spent four hours working at Fish's safe, till he got the combination that opened it.

It will be remembered that three weeks ago despatches were published about the robbery of the Dominion bank at Napanee, Ontario, and of $30,000 having been taken, under similar circumstances as the robbery at Fish's. The strange part of the story is that Detective Skeffington on reading the despatches pitched at once upon Bell, and sent a full description and a photo of him to E. H. Baines, the manager of the Dominion bank. Word has been received back that Bell is undoubtedly one of the principals, as he was seen in company with three others near the bank on the day of the robbery. It is rather curious that his identity should have been made from Moncton, which is so many hundred miles away.—Halifax Chronicle.

ON TUBERCULOSIS IN CATTLE.

Fredericton, N. B., Sept. 24.—Julius L. Inches, secretary of agriculture, received a telegram tonight from Hon. Sydney Fisher stating that he was willing to send Prof. Macrae of Ottawa here on the 30th inst., on the day of the government stock sale to deliver a lecture on tubercolosis in cattle. Mr. Inches at once wired the minister to send him along and that arrangements would be made for holding the meeting here on the evening of the 30th.

Prof. Macrae is known as the most eminent authority on tubercolosis in Canada, and the farmers and stock raisers are very fortunate in having an opportunity presented to them of hearing an address from him.

Agents Sell "Klondike Gold Fields" Like a whirlwind. Experienced canvassers reaping the richest harvest of their lives; new beginners doing wonders. Nearly everybody subscribes. One young fellow on a farm at £12.00 a months making $75.00. A lady type-writer at $3.00 a week is clearing $11.00. A mechanic who had earned $1.50 a day is clearing $5.00 a day. We want more agents.
