was an Italian patriot, and had been exiled through the influence of Bedini and the Roman Catholic confederacy at Rome; the introduction took place at the time of the laying of the corner stone of the Catholic Church, corner of Leonard and Remsen streets; at the time referred stated his fears of the Roman Catholic influence in this country, and that he believed that they (the Italian exiles) were watched very closely by the Jesuits and their agents; I asked him to explain his meaning in speaking of the Roman Catholics and Jesuits in connection; he then made an explanation of the different degrees of the Roman Catholicism; he spoke in the Italian language, and Mr. Mazini interpreted it to me; this conversation occurred at a porter house in Wyckoff street; I think the keeper of the house was a German, and understood the conversation; I saw Secretary twice after this—once in the fall, and on Christmas eve, at Mr. Mazini's.

HOUSE OF ASSEMBLY,

From the New Brunswicker Correspondence.

FREDERICTON, March 25.

Yesterday immediately after the Journals were read, Mr. Cutler moved the following Resolution:

"Whereas by an Order in Council, as appears by a notice in the Royal Gazette dated 6th April, 1853, it was decided that persons purchasing Crown Lands under the Labor Act are made subject to the following condition, which will be inserted in each grant, namely, "That any ground hereafter required for the line or stations of any Railway may be taken from the grantees without any compensation," and whereas to subject persons desirous of becoming purchasers and settlers of wild lands to such reservation and condition is not only contrary to law, but will interfere with the rights of individuals, and lead to results injurious to the country, by retarding its settlement and prosperity—

"*Therefore Resolved*, That an humble address be presented to His Excellency the Lieutenant Governor praying that His Excellency will be pleased to prevent such condition being imposed on any applicant for land, or inserted in any grant, leaving the grantees to the operation of the laws now in force, or which may hereafter be enacted for the construction of Railways, in common with all others her Majesty's subjects."

The insertion in the *Gazette* of such an unheard of condition, by which a man might be summarily dispossessed of his cleared land and buildings after paying for it by labor done on roads, and working on it half his life-time, was condemned in no very measured terms, in speeches from Messrs. Cutler, Johnson, Connell, Scoullar, Jordan, Smith, Barberie and Stiles. In fact there was no two sides to the debate; every member (not belonging to the Government) who spoke on the subject, censured the proceeding, and even the Surveyor General condemned it in terms as strong as any one else. The Attorney General did not venture to justify the act, but contended it was not contrary to law, as the Civil List Act empowered the Governor in Council to make such regulations from time to time as they saw fit. Hon. Mr. Gray said it was done to facilitate the construction of railways, but he admitted that it went too far; and he hoped that the hon. mover of the resolution would consent to strike out the words "not only contrary to law." Seeing that no grant had issued with this condition in it, and therefore no harm had been done, Mr. Cutler consented to strike out these words, and the resolution passed unanimously.

The House went in Committee on the Codified Laws, got through with the Civil Acts, and passed two or three chapters of the Criminal Laws.

Among the Bills presented to-day, was one by Mr. Smith relating to King's College.

This morning, on motion of Mr. Rice, the house went in Committee on a bill to amend the Municipal Corporation Act. The only amendment this bill seeks, is to establish simultaneous polling in the several Parishes of a County, to ascertain the wishes of the inhabitants, instead of holding one meeting at the shire town. It retains the old principle requiring a two-thirds vote, which was objected to by several members. After about an hour's discussion, progress was reported, as the Road Committee was sitting, and the Benches not full.

The House was occupied the remainder of the day on the Codified Laws, and in the evening when the Committee rose, the hon. Attorney Gen. announced that they would get through on Monday—an announcement that seemed to give much satisfaction.

The grant of £214 10s. to Mr. Boyd, back pay for the time he was kept out of his seat, passed the Legislative Council to-day.

MONDAY, March 27.

The House this morning was engaged with the Law Report, and made great progress without much discussion. In the afternoon, in Supply several grants passed to old Soldiers, School Teachers, &c. Afterwards a debate arose relating to a grant to the Lieut. Governor of £2000 to buy up the Mining Leases. No conclusion was come to.

WEDNESDAY, March 29.

To-day Mr. Johnson laid on the table an address to the Lieut. Governor for return of Crown Lands sold in the County of St. John since the commencement of 1852—the quantity contained in each grant, the grantees names, and the Parishes. Mr. Wilmot would meet the investigation gladly. He denounced the Freeman's charges as libellous. He had acted according to the regulations, and knew of nothing improper.

Mr. Johnson said he would be prepared to justify an investigation. Mr. Hatheway said he had heard of a conspiracy in York County, and would have an investigation. Mr. Botsford suspected a conspiracy in Westmoreland, and he also wished to have an investigation. Mr. Gray denounced the Freeman in bitter terms. Mr. Gilbert denounced the statement in the Times of Monday, that Mr. Gray had pushed the Railway Bill in a fraudulent manner. The House afterwards went in Committee on the Codified Laws.

THURSDAY, March 30.

Johnson's Address to Governor on Lands granted in St. John, passed without opposition. House in Supply. The £2,000 to purchase Mining Leases carried 18 to 14.

Grants recommended by Trade Committee carried; among them £295 for wharf at Sand Point, and £5,000 for Richibucto Harbour.

Grant to W. H. Adams, return duties on machinery, lost, 17 to 15.

Grant to Philips Brothers, return duties, carried 18 to 13.

Grant to Fleming & Humbert, return duty on machinery, carried 20 to 10.

Grant to Adams reconsidered, and carried 17 to 12.

Grant passed to Sailors' Home for £1500.

"The Committee of Trade have had before them a Petition from Messrs. J. & R. Reed, and W. & H. Wright, of the City of Saint John, Merchants, praying a grant of £10,000 sterling per annum, for a period of ten years, or a less period, during which they may run a line of powerful screw Steamers, equal in every respect to any now traversing the Atlantic, between the port of Liverpool and Saint John, New Brunswick, carrying an English Mail, and reserving the liberty of touching at St. John's, Newfoundland, on their outward and homeward trips. Fully alive to the importance of the subject, the Committee have given this Petition much consideration, and having ascertained that a less bonus than *that* asked for would not ensure the establishment of the Steamers on the line, they do not feel themselves warranted in appropriating so large an annual sum, and for so long a period, to encourage the enterprise.

"The prospective liabilities of the Province for laying down Railways and erecting other public works, in the opinion of the Committee are fully as great as the circumstances of the Province will warrant, and these considerations have had a powerful influence on the minds of the Committee in inducing them to declare a recommendation to the House to entertain favourably the present application."

In two cases where it was thought confirmed Consumption had taken place, the Wild Cherry effected a cure."

Soon after the birth of her last child, her feet and ancles began to swell, and afterwards her whole body, strongly indicating dropsy, this occurred at the turn of life. I obtained the best medical advice, but her health continued to decline. I then tried your Pills, which I am happy to say have restored her to sound and perfect health."
