GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to little ones. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentry, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Their Idea of Happiness.

A bishop was one day addressing a Sunday School, when he said in a most impressive way:

"And now, children, let me tell you a very sad fact. In Africa, there are ten million square miles of territory without a single Sunday School where little boys and girls can spend their Sundays. Now, what shall we all try and save up our money and do?"

And the class, as one voice, replied, in ecstatic union:

"Go to Africa!"
