THE TEAM.

"Get up!" "Gee!"

This is what we would hear if we were with these young folks. And a "bow-wow" would come now and again from doggie, I imagine. They appear to be having a great frolic Harold and Nellie have been harnessed together with a wide tape, which Percy holds as the reins. They do not appear to be very well matched as runners as Harold can go a good deal faster than

Nellie. However, on the whole they make a very good team, and I guess if they had a heavy load to draw the little girl would do her part nobly.
