Late European News.

By the arrival of the *Scotia* and *City of Baltimore* we have a summary of European news to the 19th inst. Opinions seem to be about equally divided regarding the contest before Richmond. The Army and Navy *Gazette* says that Lord Lyon's visit to England is merely on private business. Earl Canning, the ex-Governor of India, died on the 17th June, in his fiftieth year. In the House of Lords the Duke of Newcastle explained the rejection of the Militia Bill by the Canadian Parliament; that another bill would be introduced, as all classes in Canada undoubtedly desired an effective measure of self defence. Mr Hopwood gave notice that he would on the first of July move a resolution that it was the duty of the British Government to use every exertion consistent with the maintainence of peace to bring the warfare in America to an end. 12,000 additional troops are under immediate order for Mexico. Terrific fires had taken place in St. Petersburg, occasioning the loss of £1,000,000; nearly one-third of the city is in ruins. The French papers consider intervention in American affairs only a question of time. Mr Lindsay in the House of Commons, urged immediate action on behalf of the South. It has been ascertained that the ship Emily St. Pierre cannot be given up.

The Fair.

The monthly Cattle fair on Wednesday, was thinly attended, although quite an improvement of the June market. The cattle were more numerous, and of a better class, generally speaking. Among the Cattle present were two car loads imported by Messrs. Farr and Matthews, from the West. The buyers, however, were few, and the sales, in consequence were limited. Mr Wm Hewer bought five cows for $11 each; Mr Nicholson purchased two heifers for £7 each; Mr Jackson sold Mr West a cow for $44, and Mr G. Hood bought a steer for $35.

The different Agricultural Implement makers had their manufactures spread out near the market sheds, and the season being at hand when these articles will be required, a number of sales in reapers and mowers were effected. In addition to those of our local manufacturers, Mr Cossett, (who has been appointed agent for the sale of the machines,) exhibited one of the "Buckeye" combined machines, which he subsequently sold to Mr Caulfield. This machine looks as if it would work on any ground. Messrs. Collins & Co., also sold one of their machines to Jas. Phin, Esq., of Hespeler. And we understand that Messrs. Mair, Inglis & Co., also sold one of the Kirby combined machines. Messrs. Robertson & Son exhibited a new Straw Cutter, which looks as if it would perform its work satisfactorily. A fair business was transacted throughout the town during the day.

The Late Battles.

We occupy a considerable portion of our space to-day with the details of the past week's fighting. The Northern forces undoubtedly suffered seriously for the first few days, but the latest reports place their position in a more favorable light. Richmond will be taken at all hazards, when sufficient reinforcements arrive to commence the attack. The authorities at Washington have much to answer for through neglect in not furnishing M'Clellan with reinforcements. The official account of the battle, or rather battles has yet to be furnished, meanwhile we must content ourselves with the reports by telegraph.

Fergus Correspondence.

During the past winter, the Fergusites have been blessed with lectures of various kind delivered by gentlemen; some were well attended and some were not. It takes a good deal of strategy on the part of a lecturer to secure an audience, even when they are free. Thimble-rigging, jugglery, and other tomfoolery in this as well as in other places are more appreciated and largely attended. We had a visit from a young lady the last and preceding week, from Aurora, in the County of York, by the name of Miss E. Appleton, who delivered three lectures and occupied one night with recitations. The first lecture, I believe, was well attended. The subject was one that the majority of them were familiarly acquainted with, viz:—Temperance, the second was recitations, the third and fourth were the contrast between the reign of Queen Elizabeth and that of Victoria. The lecturer divided her subject into two parts, and to the satisfaction of those present, handled her subject well. She introduced her subject by reviewing the nations from the creation until Elizabeth began to reign, and spoke of the delirium of joy with which all classes hailed the accession of that good Queen, although many are of opinion that Elizabeth tarnished her glory by signing the death warrant of Mary Queen of Scotts, who had fallen into her power, and who was imprisoned for many years in Fotheringay Castle. Upon this point the fair lecturer dwelt long and earnestly. In the concluding part her lecture was extremely energetic, she said, "however, notwithstanding all these blemishes, Queen Elizabeth stands upon record as a wise and politic princess, for delivering her kingdom from the difficulties in which it was involved at her accession, for preserving the Protestant Reformation against the potent attempts of the Pope, the Emperor, and King of Spain abroad, and the Queen of Scots and her popish subjects at home. She was the glory of the age in which she lived, and will be the admiration of posterity. On the second night she reviewed all the past history of our much beloved Queen up to the present day. Time forbids me from entering more fully into the merits of the last lecture, suffice it to say, that she spoke in tones of sympathy and feeling. I was only sorry to see so few grown up people there, not a schoolboy was even present, and very few females. I understand that Miss Appleton intends visiting Guelph, for the purpose of lecturing. She is possessed of a good education, has the faculty of captivating an audience, and is a fluent speaker, and her lectures are delivered extemporaneously. I would certainly recommend that every student of English history should be there, many points are explained and made easier to be understood by the young observing mind. Her charge is, I think, 25 cents for the four.

This week has been a busy week among the Methodists on the camp grounds some three miles below Elora. To-day the competition amongst the Common Schools commences in our village, the youngsters are beginning to arrive. Nothing further important in the meantime.

Guelph Town Council.

An adjourned meeting of the Council was held on Monday evening last. His Worship the Mayor in the Chair.

Present—Messrs. Robertson, Peterson, Davidson, Harvey, Hood, Evatt, Holiday, Buckland, Melvin, and Parker.

A petition was presented from E. R. Martin, Esq., asking for improvements on Maple Street. Referred to Road and Bridge Committee; also, a petition from Mr George Barber, asking the Council to be allowed to construct a drain across the Waterloo Road, near Pound Creek. Referred to Road and Bridge Committee.

Mr Peterson presented the third report of the Road and Bridge Committee. The report stated that the Committee had expended the sum of £307 11s. 9d. during the year, and that at the next meeting of Council, a summary of the particular items expended on particular localities would be handed in. It also recommended that only one-half of McDonald Street be completed this year.

The Council went into committee on the petition of John Tyson and others laid over from a previous meeting.

Mr Harvey moved seconded by Mr Melvin, that a licence of $12 per annum imposed on all butchers selling in the market, and that a fee of 12½ cents per day be charged on all others selling meat outside the stalls.

A protracted discussion here ensued on the best means of settling the question. Several amendments were proposed, but all were voted down, and the committee finally rose without reporting. The matter thus remains as was.

A petition was presented from Geo. Elliott and others praying for the continuance of sidewalk on Paisley Street. Referred to Road and Bridge Committee.

Dr. Parker stated that at a meeting of the Board of School Trustees, held that afternoon it had been resolved to expend about £300 in the erection of a School house in the south ward. The resolution was opposed by himself and Mr Peterson. He thought it proper to mention the matter to the Council.

The Council then went into Committee of the whole on the reports of the Fire and Water Committee.

After some time spent in Committee, during which the proposed site of the new Engine House viz:—that lying between the market sheds and the Railroad, was objected to. The estimated cost of the building was set down at $1,000.

Dr. Parker was of opinion that it could not be built for that sum, and thought the Council should consider well before involving the town in a greater expenditure, in view of the probable draft on the finances.

A motion to adopt the report, except so much of the first as relates to the cost of the building was carried.

The Council then resumed when it was moved by Dr. Parker, seconded by Mr Davidson, That the reports of the Fire and Water Committee be received and adopted, except so much as relates to the site of Engine houses which is hereby repealed. Carried.

Moved by Dr. Parker, seconded by Mr Peterson, That the Treasurer be instructed to pay £3 4s being the proportion of the amount paid last year, for the redemption of debentures for erection of North Ward School House levied on the assessable property of the Town assessed for Separate Schools; and £3 1s. 10d. being the Separate School account of P. D. Haley to the Trustees of the Separate School.—Carried.

The Council on motion went into Committee of the Whole on the Report of Road and Bridge Committee, Mr Evatt in the chair.

A rather long discussion arose as to the condition of McDonald street this season. It was finally

Moved by Mr. Peterson, seconded by Mr. Holiday, That the Report of the Road and Bridge Committee, with the exception of that which relates to Macdonald street, be adopted, which is to be left to the discretion of the Committee until next meeting of Council.—Carried. Committee rose.

On motion the report of the Committee of the whole was received and adopted.

The Council then adjourned.

PATENTS.—The Government recently issued a large number of patents, among which the following will be interesting to many of our readers:—

"John Watson, of the Village of Berlin, County of Waterloo, Waggon Maker, for a machine called a 'Combined Sower and Cultivator.'"—[Dated 12th April, 1862.]

"Charles Stoney, of Mount Forest, County of Wellington and Grey, Carpenter and Expanding Mill Maker, for "An improved Self Feeding Mill and Elevator."—[Dated 12th April, 1862.]

"INNOVATION" IN WORSHIP.—Ayr has led the way in the introduction of instrumental music into worship in the Presbyterian Church. For the last two Sabbath mornings, during the special diets of worship for the young, in the New Church, the precentor, Mr Paterson, with the consent of the officiating minister, assisted in leading the psalmody by a selected number of the instruments of the fine regimental band. The effect was very beautiful—the tunes, which were for the most part the old and well known standard ones, were rendered with great taste and precision.—*Ayr Advertiser.*

MISSED TALENTS.—Col. J. Duncan Cross, the well-known forger, who was sentenced two years ago in Pennsylvania, for forgery, and sent to the Eastern Penitentiary, has employed his time in cultivating his ear and fancy powers in forging, till they may be said to have reached perfection. By means of forged specimens of his calling they may be said to have procured from the Warden, Cross actually succeeded in obtaining a pardon. The forgery, however, was discovered before the Colonel was beyond reach, and he was reconsigned to prison quarters.

ARRESTED.—The Buffalo police are after those engaged in bringing victims to the "slaughter house" lately broken up in that city. They have just returned from Michigan with Aaron Barrett, supposed to be the man who seduced the Hamilton girl, and personating an officer, took her to the house aforesaid. He is said to be a wealthy man, residing at Alabama Centre, Genessee Co., and the girl Hamilton lived in his family two years. He was committed to jail, but of course procure bail.

GUELPH POLICE COURT.

BEFORE THE MAYOR.

Monday, June 30.

Benjamin Ker was charged with being drunk and disorderly and fined $3 and costs.

Wednesday, July 2.

BEFORE THE MAYOR.

John Toomey was brought up for being drunk and fighting on McDonald Street. Fined $3 and costs.

Friday, July 4th.

BEFORE THE MAYOR.

Patrick Kilcher, from Galt, was fined $1 and costs, for being drunk and disorderly.

Saturday, July 5.

BEFORE THE MAYOR.

Ann Dolan was brought up for disorderly conduct on the Market Square on Friday Evening, and sent to comfortable quarters on Woolwich street for twenty-one days, in default of payment of fine.

Catherine Dolan for an assault on last defendant was also sent up for twenty-one days in default of payment of fine.

Jonathan Wilkinson was charged with assaulting Charles Warren.

Charles Warren was charged with absenting himself from his master's service.

Both cases were settled between the parties out of court, and allowed to be withdrawn, each paying their own costs.

MR. DONALDSON TO BE RECALLED.—It has been intimated to the Kingston *News*, that Mr Donaldson, the emigration agent of the Canadian Government, at present stationed in the North of Ireland; is about to be recalled. The Government are understood to regard some of his acts with disfavor.

☞ The oldest members in the Legislative Assembly are the following:—Mr Sandfield Macdonald, the new Premier, first returned to Parliament in 1841; Mr George Sherwood, ex-Receiver-General, first elected in 1841; Mr John A. Macdonald, first elected in 1844; Mr L. T. Drummond, first elected in 1844.

☞ Vancouver Island is half as large as Ireland; British Columbia is three and a half times as large as Great Britain.

BRITISH HOTEL

GUELPH.

THE Proprietor begs to announce that he has completed and fitted up the largest and most

COMMODIOUS STONE STABLE

IN THE TOWN OR COUNTY,

Capable of accommodating 70 Horses.

This Stable has entrances level with the Sidewalks on both the Market Square and McDonnel Street, and is the only one in Guelph through which loaded teams can pass from street to street. Such accommodation has been long wanted in connection with the "British Hotel," and J. O'NEIL having purchased the premises, has fitted all up complete for the convenience of the public. The prices charged at the "British" are not higher than at other Hotels in Town.

The "British Hotel" is the only place in town from which

STAGE PASSENGERS

proceeding in any direction can have their choice of seats.

Stages leave the "British" twice a day for Elora, Fergus, Arthur, Mount Forest, Durham, and Owen Sound, and Daily to Dundas and Hamilton by the Brock Road.

There is in connection with the Hotel, the best and cheapest

Livery Stable in Canada West.

It is the only Livery in Guelph that can furnish a good "Turn Out," and the charges, in most cases, will be found 25 per cent lower than elsewhere.

The Proprietor invites the public to visit the "British," and judge for themselves of the accommodation on the premises, the superiority of the Livery, and the moderate charges.

JAMES O'NEIL,
Proprietor.

THE COMMON SENSE

CHURN.

THE Subscriber has bought the right to manufacture and sell this Churn in the County of Wellington. He begs to call the attention of the Farming Community to it. It is the best yet invented, is simple in its operation, and can at all times be depended upon to produce butter. Five minutes after the cream is put in.

The Churn can be seen at his shop near the Eramosa Bridge, also numerous Certificates as to its excellence from parties living in the district.

Guelph, April 12, 1862. 3m-445

GUELPH BATHS.

J. THORNE,

Professor of Hair Cutting, Wig Making, Manufacturing Perfumer, &c.,

BEGS respectfully to return his sincere thanks to the inhabitants of Guelph and vicinity, for the kind support he has received during his short time in town, and having decided on remaining in Guelph, and being desirous of increasing the comfort of his patrons, he has added to his establishment

NEW BATHS,

Hot, Cold, Shower or Tepid.

A thing much needed, and highly recommended by the Medical Profession.

J. T. having in his arrangement of the Bathes studied the Comfort of both

Ladies, Gents, and Children,

Regardless of Trouble or Expense,

Now makes a strong appeal to the inhabitants to carry out that which will establish the same, namely

Support! Support! Support!
