Address to Miss L. Guy, Catalina.

On Sept. 5th, after Mass the ladies of the Sacred Heart League, Bonavista, presented Miss Guy, who was about to leave for New York, with the following address:—

Dear Miss Guy.—We, the promoters of the League of the Sacred Heart, Catalina, hear with deep regret of your departure from us. For many years you have been our Treasurer, the duties of which office you filled with great fidelity. Your services around the church will be sadly missed, for your attentions as organist of the choir were only excelled by your zeal and devotion for the glory of God and the beauty of His sanctuary. We wish you every blessing in the land of the Stars and Stripes, and we ask you to accept the accompanying gift as a token of our appreciation.

Signed on behalf of the promoters,

MARY E. LANE, President.

JULIA SCANLAN, Secretary.

Miss Guy suitably replied. She thanked the promoters for their address and purse and assured them that although leaving the Parish, any church work would still have her hearty co-operation. As for her successor in office she felt sure that the new Treasurer would merit the same loyalty and support as was shown to her.—COM.

Bonavista, Sept. 14, 1922.

Annual Report

OF THE S.P.A. INSPECTOR FOR 1921.

Little Inspector when landed from train, schooners and steamers	1010
Horses inspected when landed from train, schooners and steamers	70
Sheep inspected when landed from train, schooners and steamers	500
Horses examined before being shipped by train and steamer	30
Number of horses sent for different complaints	51
Number of horses shot owing to old age, broken legs, etc.	38
Number of stables visited	57
Number of Dogs destroyed	23

There were also several crates of pigs and poultry examined. I find here that poultry and pigs are altogether stowed too many in a crate, and would like to see something done to prevent this.

I would also like to say that Messrs. Kennedy and Holwell Brothers and the Furness Withy have taken the greatest care in the landing of cattle.

Also that Messrs. Bartlett and Godden at the Red Cross Wharf have shown all kindness possible.

Mr. Neal at Neal's Wharf has never refused a reasonable request made to him.

Also Mr. Duff at the Railway Station has always been particularly anxious that plenty of food be put in the cars for the cattle.

I have had several sick animals taken away on slovans and have reported them to Inspector Lawlor, who has given them his particular attention and had some destroyed which were not fit for food.

I visited Lester's stables repeatedly where a number of horses are kept. They have there a Hospital for Sick Horses, where two watchmen are kept day and night. All working horses get an extra feed of oats at 9 o'clock every night. Every horse which I have ordered in for any complaint they have always sent them in.

On the whole the stabling conditions around St. John's are fairly good.

During the year an inspection trip to Port aux Basques, Port au Port, Bonne Bay, Bishop's Falls, Grand Falls, Botwood and Badger was made looking after lumber camp horses, etc., and I cautioned all horsemen there in connection with the handling of animals. Also made a trip to Conception Bay in the interests of the Society, as well as another special trip to Whitbourne on behalf of those who cannot speak for themselves."

JONAS BARTER,
Chief Agent S.P.A.

Labrador Herring Fishery.

By passengers who arrived by the train from the Straits we learn that the Labrador herring fishery by the bank method has been practically a blank. Less than three hundred barrels have been put up, and some of these were taken during the last few days of August. The herring were plentiful during the last half of August, but had passed off the coast by the time the season for packing them by the bank method had opened. The herring seem to be working south and messages received on Monday stated that five barrels to the net were taken at Current Island that day.—Western Star.
