SHIRLEY DAVIDSON DROWNED ON RIVER ST. LAWRENCE

Miss Hingston, His Companion Also Lost Her Life—Went Yachting and the Skiff Was Upset—Bodies Not Recovered

MONTREAL, Aug. 5.—On Saturday, Mr. Shirley Davidson, civil consulting engineer of the firm of Davidson and VonAueburg, came with his cousin, Mr. E. A. Davidson, a nephew of the late Sir William Hingston, to spend the week-end quietly at Varenes, a summer resort on the St. Lawdence.

Sunday morning, at about 11 o'clock, Mr. Shirley Davidson and Miss Aileen Hingston, daughter of the late Sir William, went sailing in a skiff. They cruised about in the bay and then started to sail around an inland in front of Lady Hingston's residence. The wind which was light and steady at first, gradually diminished till there was about a dead calm. At lunch time Miss Hingston and Mr. Davidson had not appeared, but no uneasiness was felt. It was thought that owing to lack of wind it had been necessary to paddle the skiff. Later, though they had not put in an appearance, it did not occur to anyone that anything could have gone wrong. Mr. Davidson being such a well known master in the art of sailing. Finally a boat reported having found the skiff empty. An alarm was raised and boats sent in different directions to the islands near-by.

It was hoped that the missing boat might have reached one of the islands and been unable to return to the main shore, but hope gradually faded away. The effort to find them did not slacken until dark.

Through the night, parties were out searching for any trace of the unfortunate ones, but without avail. Before daybreak a number of neighbors assembled and a systematic search was organized. The members of the missing family and other searchers are at a loss to explain the sad occurrence. The skiff was not capsized but was found drifting erratically with the sail up and paddles in their places.

The only theory that could seem possible is that a sudden lurch of the boat caused Miss Hingston, who was at the tiller, to lose her balance and fall in the water. Mr. Davidson, an exceptionally good swimmer, probably dived in to help her, as although able to swim, she could not have stayed up many minutes. The skiff was then carried out of reach by the wind, and owing to the swift current they were unable to reach the shore. Mr. Davidson was a few years ago one of the best known hockel players in Canada being a member of the famous Victorias.

—*—

Mr. Davidson is well known in this city and made many friends from his first visit here, when he sailed with success the yacht Cibou and took to Sydney the Coronation cup. He has visited the city on a number of occasions since the time of the yacht race and was always welcomed by Commodore Thomson and members of the R. K. Y. C.

PLANTED THE BRITISH FLAG ON ISLE ROYALE

Militia Captain Takes Possession of Land in Lake Superior Now Held by the United States.

DULUTH, Minn., Aug. 4.—A despatch from Port Arthur, Ont., last night says:

Canadians, led by Captain S. C. Young, of the 96th Regiment last night started in a naptha launch for Isle Royal, in Lake Superior, with the intention of hoisting a British flag on the island and formally declaring the territory a part of the British empire and a portion of Canada.

Isle Royale has been held since early in the last century by the United States, but Canadians resist the supposition that the island is rightfully held by the United States. Captain Young has not applied for, nor has he received governmental sanction for the expedition.

WASHINGTON, D. C., Aug. 4.—No advices have been received at the state department concerning the reported Canadian expedition to Isle Royale in Lake Superior with the intention of hoisting the British flag and formally declaring that territory as a part of Canada. According to officials of the state department there never has been any question between Canada and the United States as to the United States' ownership of the island.

CHICAGO, Ill., Aug 4.—A special to the Record-Herald, from Port Arthur, says that Captain S. C. Young has returned from Isle Royale and says he was successful in planting the British flag without opposition.

Th C. P. R. liner Lake Michigan landed passengers at Quebec this morning.

There will be a change of programme in the West End Nickel this evening.

HAYWOOD GIVEN A GREAT RECEPTION IN DENVER

Thousands Turned Out to Meet Him and He Shook Hands Until His Arm Was Tired.

DENVER, Col., Aug. 5.—The celebration tendered William Haywood, who recently was acquitted of connection with the murder of Ex-Governor Steunenberg, of Idaho, on his return here from Boise, last night, was considerably curtailed by the lateness of the hour. Plans for a great gathering of persons at the station to be followed by an open-air meeting was abandoned, and, instead, a committee of one hundred labor unionists, was on hand to welcome him. A crowd of several thousand persons, despite the lateness of the hour, was also on hand. When Hay wood stepped from the train, supporting his invalid wife, a great cheer went up from the crowd. A rush for the gates was made and the police were obliged to use force before the gates could be opened. A space less than three feet wide was opened. As Haywood walked up this file, hundreds of hands were stretched towards him, but his solicitude for his wife caused him to resist the desire to grasp the many hands extended. Continuous cheering greeted him and his face was all smiles. When Haywood saw his wife seated in a carriage, he stood in the seat of the open carriage and waved his hat at the cheers. The crowd joined with him and for several minutes the roar of cheers continued. Half a hundred men started to unhitch the horses and attach a rope so that they could draw the conveyance up the street. Haywood requested that they forego this expression of sympathy and they desisted. Then the horses pulling Haywood's carriage started away at a brisk trot.

Haywood on arrival at the Albany Hotel, responded to demands for a speech by saying that he would "tell them all about it later" and asked to be allowed to retire for the night. Haywood referred to a prediction that he said the mine owners had made that he would come back to Colorado in a pine box. "I am very much alive, you see," he said, "this great reception is the happiest moment of my life. My cup of happiness would be complete if Moyer and Pettibone were by my side. One thing I am convinced of, and the last eighteen months have definitely taught me, is that when unions stand together, you cannot break them."

Haywood then shook hands with the people until exhaustion compelled him to retire.

WARSHIPS ARE HEADING TOWARDS CASABLANCA

British, French and German Ships Going to Preserve Peace and Protect the Europeans.

GIBRALTAR, Aug. 5—The British armored cruiser Antrim sailed for Casa Blanca today, to watch over British interests at that port.

PARIS, Aug. 4—The government received today through the French Charge d'Affaires at Tangier the excuses of the Moroccan governing board for the troubles at Casablanca and its usual assurances that orders have been given to the governors of the various ports that they will be held responsible for the security of foreigners. But these platonic assurances will not affect the programme of the government in elaborating with Spain and for which active preparations are proceeding.

The second naval division, consisting of the cruisers Guyedon, Gloire and Jeanne d'Arc, sailed from Toulon today for Morocco. The entire coast of that country probably will be patrolled by French and Spanish fleets until the international police are installed.

TANGIER, Aug. 4—Up to noon today no further advices had been received from Casablanca. The arrival there of the French cruiser Galilee last Wednesday made a good impression, but the Europeans were still greatly excited as 2,000 Arab horsemen were in sight of the city. The commarder of the Galilee offered to bombard the town, but the foreign consuls prevented this action. All of the foreign business houses and banks are closed and business is at a standstill. The Italian cruiser Etna, with the Italian minister aboard has arrived at Casablanca.

The marriage takes place at four o'clock this afternoon in St. John the Baptist church, of W. C. Little, of the Metropolitan Life Insurance Co. to Miss Margaret J. Daisle. Rev. Father Chapman will perform the ceremony.

The executive committee of the Firemen's Tournament will meet this evening at 7.30 o'clock sharp.

Francis Bustin, the young daughter of Mr. and Mrs. Stephen B. Bustin, died at Hatfield's Point this morning. She was about 14 years of age. The body will arrive in the city this evening.

SATURDAY TRAGEDY AT BUCTOUCHE

Moncton Policemen Suspended, Ask for Investigation

Prospectors on Caraquet Shore Report a Rich Find of Coal—Man Robbed in the Railway Town.

MONCTON, Aug. 5.—By falling backwards off a wharf at Buctouche Saturday evening, W. D. Johnson, forty-six years old, either had his skull fractured or was drowned in the waters of the harbor. With two or three friends he was sitting on the edge of the wharf about nine o'clock in the evening when he tumbled over backwards, his head striking the side of a scow moored to the wharf. He descended into the water and never rose. The body was recovered some hours later. He was an unmarried man and was at one time a conductor on the Moncton and Buctouche Railway. Later he was employed as a lumber surveyor by the Sumner Lumber Co., of this city. He was well known in Moncton.

Two Moncton policemen have been suspended charged with a serious breach of rules. They were suspended for five days and have asked for an investigation.

John McElween has reported to the police of being robbed of a check and a sum of money besides, in a west end boarding house. The total amount is about thirty-one dollars.

A rich coal strike is reported from Caraquet shore, by prospectors who have been working for Milledge Vanbuskirk and John Ferron, of Harcourt. They report having struck an eight foot seam and the employers have sufficient faith in the report to purchase a large acreage of land in the vicinity where the strike is reported.

DUCHESS OF MARLBOROUGH DOING SOME GOOD AT LAST

She Has Gone in for Charity and Has Established Several Institutions.

LONDON, Aug. 5.—The Daily Mirrow publishes a story of the benefactions of the Duchess of Marlborough in behalf of the wives and children of convicts. The Duchess, it says, has taken two houses in London, which are being comfortably and tastefully furnished. One will be for the wives of prisoners serving sentences and the Duchess hopes to find room for about 20 women, who will be taught laundry work and plain sewing. The Bishop of London is to dedicate the two homes, probably in September.

Another charity which the Duchess already has in progress is a home where mothers whose husbands are serving sentences may take their babies and leave them from 8 in the morning until 6 in the evening.

The Duchess goes there every day, and, it is stated, to complete her work, she is giving up her visit to America this year.

NEW YORK WORRIED BY AN EPIDEMIC OF CRIME

NEW YORK, Aug. 5.—The fact that twice yesterday mob vengeance held sway and lynching was narrowly averted has added to the seriousness of the situation in this city caused by the series of crimes in which women and young girls are the victims. The mob attacks reveal a state of public exasperation approaching frenzy, which it is feared, may easily lead to serious disorder. Prompt action by the police alone saved the two men accused on Sunday from summary justice and probably, in the case of George Kastner, a Russian bookbinder, around whose neck a mob had the rope, when the police reached the scene in force. It is noteworthy that the old man attacked, Louis Conconela, was innocent of any attempt at crime, and indicates how readily a mistake can be made in time of public agitation or excitement. The police are bending every effort to give adequate police protection and many men in plain clothes have been scattered about the city, particularly in the congested quarters, the scene of most of the assaults. The first organized body to take up the question is the Central Federation Union, which has appointed a committee to call on the mayor with a demand that he take action that will put a stop upon attacks of children.

LATE SHIP NEWS.

Arrived Today.

Str. Peters Jebson, 2274, Nieuwejear, Boston, bal. J. H. Scammel & Co.; Str. Activ, 296, Eide, New York, master; Str. Symra, 1921, Tapstad, Sydney, coal master.

Coastwise—Schr. Harry Morris, St. Martins; Dolphine, St. Martins; Nellie Annapolis; Dora, Parrsboro; Jannie Palmer, Apple River; Bessie G., River Hebert; Hustler, Windsor.

Cleared.

Schr Alice Mann, 120, Woods, Boston, lumber; Str. Calvin Austin, 28,53, Thomson, Boston via ports; Schr Golden Ball 254, Shanklin, City Island.

Coastwise.—Schr. Annie Blanche, Wolfville; Prince Rupert, Digby; Emily Advocate; L. M. Ellis, Freeport; Str. Shenandoah, London via Halifax

SETTLEMENT OF COAL-STEEL CASE URGED BY EARL GREY

He Suggests Peace to James Ross and J. H. Plummer—Case Will Be Long Drawn Out—More Technical Evidence Heard Today

SYDNEY, N. S., Aug. 5.—The sixth day of the trial of the issues between the Coal and Steel Companies began at ten o'clock this morning, with the court and counsel refreshed in appearance after the temporary exertions of the week. So far nothing has transpired to remove the original impression that the investigation will be a protracted one, and that the issues between the two companies will be examined minutely by counsel of both plaintiffs and defendants.

This view of the matter is borne further out by arrival in the city of a number of new witnesses and the service of subpoenaes upon local gentlemen connected with both companies who may be in a position to give material evidence at the point at issue.

Before the beginning of the cross examination, Arthur P. Scott, the Steel Company's head chemist, Mr. McInnis, K. C., of counsel for the plaintiffs, called attention to certain inaccuracies in the typewritten transcript of the stenographer's report.

Mr. Scott said he was a chemist at the Steel Company but has not been acting in that capacity with any other industrial concern. He has been chemist for the Steel Company since 1904, but was connected with the department since 1900. Asked with regard to the analysis of the Port Hood coal, witness stated that sulphur was 7.07 per cent. and the ash 12.48 per cent, screened coal. Another sample showed 5.98 per cent. sulphur and 13.24 per cent. ash. One sample Inverness coal showed 5.86 per cent. sulphur and 12.16 per cent. ash and another 7.43 per cent. sulphur and 12.46 per cent. ash. Various samples of Drummond showed 2.16 per cent. sulphur and 10.88 ash, 2.16 sulphur, 16.32 ash, 3.70 sulphur, 20.36 ash, and of Acadia 0.92 sulphur, 12.48 ash, 0.95 sulphur, 13.62 ash, 1.17 sulphur, 12.94 ash, 1.12 sulphur, 13.72 ash, 1.16 sulphur, 14.56 ash.

He presumed that these coals were used in the ordinary course of the Steel company's business, but did not know positively. The greater part of the ash was silicia and aluminum.

The Governor General and party, instead of continuing their journey to Halifax on the Minto, left this morning at 10.30 by special train for that city. It is understood that while here His Excellency made representations to both Mr. James Ross and to Mr. J.H. Plummer, of the Steel Company, to the effect that in the public interests a settlement of the difficulty now engaging the attention of the court would be desirable.

STRENUOUS LIFE TOO MUCH FOR THE MEN OF CHICAGO

Death Rate is Increasing Among Them While the Women Seem to be Living Longer Than Usual.

CHICAGO, Aug. 5.—The strenuous life is killing the men of Chicago at a tremendous rate, while the women of the city are increasing their longevity by the simple life. In the weekly official health bulletin, issued yesterday, Health Commissioner Evans declares that a few centuries will see Chicago an Adamless Eden. He drew his conclusions from the death rate in Chicago for 20 years and especially the last few months, when five members of the stronger sex died for every two of the fairer. Dr. Evans makes the startling statement that during the last seven months of 1907 in Chicago about 12,000 men succumbed as compared to 8,300 women. He says that in the last year the ratio of difference in the death rate between men and women has been 30, against less than 10 per cent, twenty years ago. The cause of this is attributed by physicians to the strenuous life. Contributory are the quick lunch and carelessness. The men, he says, are living at a rate that is 30 per cent. faster than that of the women. "They work harder. They take less care of themselves than of their wives and daughters. They court danger. They dissipate more. They exhibit a carelessness begotten of familiarity with danger." The remedy, according to an eminent physician, lies in the return to the simple life of our fathers.

A CHILD MURDERED IN SASKATCHEWAN

Body of a Seven Year Old Girl Found in a Hole Several Miles From Her Home.

WOLSELEY, Sask., Aug. 5—Word was brought into Wolseley at 3 o'clock on Saturday afternoon of the murder of Rosie Hoor, the seven year old daughter of Mrs. Hoor, a German living about 17 miles south of here. The child was missed at 9 o'clock on Friday morning and the body was found by her mother and grandmother, Mrs. Hess, about 9 o'clock on Saturday morning in a hole 6 feet deep and 3 feet long at the edge of a slough, in the thick bushes, two miles from any dwelling. The body was roughly crushed into the hole and only covered with the sod taken out. One arrest has been made.

JULY FAILURES IN CANADA WERE NOT NUMEROUS

Insolvencies in the Dominion of Canada were neither numerous nor large in July, but also compared with an unusually favorable statement in the same month last year. Total commercial defaults were 89 in number and $418,138 in amount of liabilities, against 64 failures last year, when the amount involved was $295,621.

Manufacturing suspensions numbered 35 and liabilities were $207,759, whereas in the same month last year there were only 17 for $69,103.

Trading defaults were 54 in number and $210,379 in amount, against 46 failures last year for $225,918.

There is much improvement in comparison with the report two years ago, when there were 103 failures for $777,-220, of which 24 manufacturing defaults supplied $290,829 and 77 trading failures involved $462,192.

Liabilities were still larger in 1904, amounting to $1,040,640, although the number was only 78.

Hence, the unfavorable comparison with last year's figures becomes most gratifying when the comparison is carried back of that abnormally solvent period throughout the Provinces.

TRYING TO SETTLE THE SOCIETY LEAGUE GAMES

The executive committee of the Inter-Society League met on Saturday night and tried to come to some agreement as to how the league should finish. After considerable discussion the meeting adjourned without anything definite being done. There are a number of games to be played yet before the winner of the cup can be chosen. The regular schedule has finished but the half dozen games are postponed ones. The followers of the league teams are anxious to see the league finish up properly and not fall through without every game being contested. There is said to be a deadlock between St. Josephs and St. Peters. The latter want nine inning games and the St. Josephs want the short evening games. At all events the fans have no games to look at on the Shamrock grounds, as a result.

TURKISH TROOPS MASSACRE PERSIAN WOMEN AND CHILDREN

A Strong Force Destroyed a Village, Killing Seventy of the Helpless Inhabitants.

TEHRAN, Persia, Aug. 5.—The excursions of Turkish troops across the northwest frontier of Persia, which for some time have been in abeyance have broken out. A serious riot has occurred near Urumiah, 6,000 Turkish troops with artilleryhaving crossed the frontier and destroyed Mavaneh, seventy-eight villagers, 68 of whom were women and children, mostly Christians, were killed. Subsequently the Turks drove a small force of Persians from a nearby camp and installed themselves in it. A large body of Persian cavalry subsequently joined the Turkish invaders and the combined force is said to be threatening Urumiah, a centre of missionary activity, which has a population estimated at between 30,000 and 50,000 persons, including many Christians. It is considered probable that Russia and Great Britain will be appealed to bring pressure to bear upon Turkey in order to stop the raid.

BURNS AND JOHNSON TO FIGHT SEPT. 9TH

For a Purse of $25,000 and the Heavy Weight Championship.

NEW YORK, Aug. 5.—Charlie Harvey, who acts as eastern representative of James Coffroth, the Western fight promoter, announced last night that he had received a telegram from Coffroth saying that he had matched Jack Johnson and Tommy Burns to fight 45 rounds at Colman on September 9, for a purse of $25,000.

The battle will be the big attraction at Colman on Admission Day, when a tournament of sports will be held at various places in California, and will also be for the heavyweight championship of the world.
