FIFTEENTH YEAR — TUESDAY MORNING JUNE 12 1894.---SIX PAGES — ONE CENT.

IN THE THICK OF THE FIGHT.

MANY POLITICAL MEETINGS WERE HELD LAST EVENING.

Sir Oliver Mowat at the Junction—Mr. Howland at the Auditorium—No Opposition to the Patron in Stormont—Mr. Biggar Endorsed by West Hastings Reformers.

A throng of fair women, an orchestra playing sweet music, a hall lavishly decorated with flowers, were the distinguishing features of the Liberal meeting at Toronto Junction last night.

Kilburn Hall is spacious, but it seemed as if all the ladies of Toronto's western suburb wished to see and hear the "Little Premier." There were some men in the hall, besides those on the platform, but they had to content their souls with perches around the rear fringe of the seats or standing-room in the aisles. Of the audience which crowded the hall fully two-thirds were ladies, attired in fetching summer gowns.

The Premier's Supporters.

Ex-Mayor Pears, President of the Reform Association, was in the chair, and on the platform beside Sir Oliver and Candidate W. J. Hill were E. F. B. Johnstone, Q.C., Dr. Gilmour, R. W. Campbell, H. H. Dewart, Archibald Campbell, M.P., H. E. Irwin and others.

H. E. Irwin of Weston was the first speaker and at great length extolled Sir Oliver's "progressive legislation" and gave a history of the Premier's political career. During his address Sir Oliver entered and was given a warm reception.

West York's Liberal Candidate.

W. J. Hill was given a good reception. He said that the constituency should select as its representative a man who had had experience in municipal affairs. Mr. Hill was modest and remarked that he sometimes thought the Liberals of West York might have selected a better standard-bearer. And a cruel man in the audience shouted, "That's what everybody else thinks."

Mr. Hill emphatically denied that he was or ever had been a member of the P.P.A., and insisted that he was not that kind of a man. Mr. Hill extolled Sir Oliver's policy and displayed an abiding faith in his own chances of success.

The Premier's Speech.

Sir Oliver's reception was as warm as the temperature of the hall, which had to use a ladder in its upward climb. Sir Oliver patted Mr. Hill and Dr. Gilmour on the back, with pretty phrases of commendation.

The Premier attacked the Conservative platform with regard to biennial sessions. It was one of the planks of responsible government that there should be annual sessions. It would be a calamity if the Agricultural Department were without a minister who could give to the farmers all his attention.

The speaker started in to speak of Separate Schools and drifted into a discussion of the number of Catholics in the employ of the Government. He returned to the British North America Act and said that there were only two ways in which it could be changed—by the Imperial Parliament or by a successful rebellion against British authority.

Neither Reproached Nor Approached.

In regard to the much-talked-of demands of the Catholic Church Sir Oliver Mowat denied that he had ever heard of any demands from an ecclesiastic of the church or had never communicated with them with regard to the passage of any legislation with regard to separate schools. At great length and with much tediousness of detail Sir Oliver denied that his Government had been subservient to the Catholic church. The whole of the Separate school legislation was gone over, and Sir Oliver closed by urging the election of Mr. Hill.

Conservatives Charged With Villification.

E. F. B. Johnstone, Q.C., said that the Conservatives had villified Sir Oliver Mowat and his colleagues, and had not conducted a clean campaign. Mr. Johnston spoke strongly in favor of the sustaining of Sir Oliver, and criticized Mr. Meredith's political actions.

Dr. Gilmour and Archibald Campbell, M.P., also addressed the meeting, which broke up with cheers for the Queen and Sir Oliver Mawat.

MR. HOWLAND'S CAMPAIGN.

Enthusiastic Meeting in the Auditorium Last Night.

Large and enthusiastic was the opening public meeting in the Auditorium last evening in support of the candidature of Mr. Oliver A. Howland.

The speeches were remarkably effective and the candidate met with the most gratifying reception. For the first time since Confederation Dr. I. H. Cameron made a political speech. He was earnest in his support of Mr. Howland and sanguine of his return.

Mr. W. R. Brock presided, supported by the Mayor and other prominent Conservatives.

Outlived Its Usefulness.

The chairman said Sir Oliver Mowat had dissolved the Legislative Assembly and the electorate would now dissolve the Government. [Cheers.] The feeling was prevalent from one end of Canada to the other that the Government had outlived its usefulness. [Renewed cheers.] The chairman predicted not only the success of Mr. Howland in South Toronto, but the other Conservatives in this city and the transference of the Government from the hands of Sir Oliver Mowat to those of William Ralph Meredith. [Cheers.]

A Generous Tribute.

Mr. C. C. Robinson said that Mr. Howland was eminently worthy to carry the Conservative flag to victory. [Cheers.] From the result of the canvass he felt sure that such would be the case.

Mr. Robinson then stigmatized the grasping of place, power and patronage by Sir Oliver Mowat, who had created and divided offices for the sake of patronage. The young men of South Toronto would show on the 26th June, as they had shown at the registration booths, that they resented being disfranchised by the Government.

His Devious Ways.

Sir Oliver was properly named "Mr. Facing-Both-Ways." He advocated economy publicly and promoted extravagance privately. He dallied alike with the prohibition and liquor parties.

In conclusion Mr. Robinson contrasted the politics of Mr. Mowat and Mr. Meredith, denouncing the former and eulogizing the latter. The self-sacrifice, unremitting industry and high character of Mr. Meredith would be endorsed by the electorate on the 26th June, when from the four pinnacles of Toronto would float the Conservative flag. [Loud cheers.]

Spoke For the Young Men.

Mr. Newsome made a rattling good speech, specially addressed to the young men, whose representative he was. He claimed that the large majority of young men are Conservatives, and predicted the success of Mr. Howland.

Continued on Second Page.

A CONDUCTOR SHOT BY TRAMPS.

Five Tramps Refuse to Leave a Train at Jordan—They Surrender After a Fight.

JORDAN, Ont., June 11.—A serious shooting affair occurred here this afternoon. Train No. 79, local freight, pulled into the siding and five tramps who were stealing a ride were ordered by Conductor Turner to get off. One drew a revolver and fired, hitting Turner in the head twice and once in the shoulder.

The tramps made off to the woods half a mile east, where they were surrounded by a posse of villagers. The tramps began firing, but finally gave in. Turner may recover.

TROOPS MUTINY IN JAMAICA.

Wreck Police Stations and Terrorize the Town of Kingston.

KINGSTON, Jamaica, June 11.—There has been an outbreak among the native troops (Second Battalion of the West India Regiment) stationed here.

The mutinous soldiers terrorized the town for a time, wrecking police stations and wounding many persons. The pickets joined the rioters.

Order was restored to-day.

No International Conference Re Panama.

LONDON, June 11.—In the House of Commons to-day Sir Edward Grey, Parliamentary Secretary to the Foreign Office, in reply to a question by Charles E. H. Vincent, said the Government had not received any communication from France respecting an international conference of the maritime powers with a view of completing the Panama Canal.

Arbitrator Asquith Fixes a Cab Scale.

LONDON, June 11.—Home Secretary Asquith, who was called upon to arbitrate between the striking cabmen and their employers, announced his decision this evening. For the next six weeks, which are the height of the season, he fixed the minimum of the average daily hire of the best cabs at 12s 3d and the maximum at 16s. A permanent scale will be announced later. Some of the cabmen dissent from this decision.

British Anti-Gamblers Lose Their Case.

LONDON, June 11.—The test case of the Anti-Gambling League against the lessees of the Northmpton racecourse has been dismissed by the court on the ground that, although there is illegal betting within the enclosure, the lessees were not aware of it and therefore not responsibl

Colonial Agents Discuss the Estate Duties.

LONDON, June 11.—The Colonial agents met this afternoon with Sir Charles Tupper, Canadian High Commissioner, in the chair, and discussed the proposal to make formal representations to the Government against the estate duties which will affect the colonies. After the meeting several agents called upon the Marquis of Ripon, Secretary for the Colonies.

END OF THE STRIKE IS NEAR.

Ohio Operators and Miners Reach an Agreement.

COLUMBUS, O., June 11.—The conference of operators and miners reached an agreement at 6 o'clock this evening. The 60c and 69c basis is accepted by the miners and the miners will go to work at once. It is agreed that they shall go to work not later than next Monday.

The scale adopted shall bind both parties, beginning June 18, 1894, and continuing until May 1, 1895. Wages shall be paid semi-monthly. An interstate board of arbitration and conciliation, consisting of four operators and four miners, shall consider and determine upon any inequality complained of as between the different fields. President McBride said that, while the settlement was not all that he could wish for, it was the best that the miners could hope for under the circumstances. They were still the victors of the contest. He thought the settlement would be at once ratified all over the district.

Dollar Articles For Fifty Cents.

Quinn's fame for fine neckwear is becoming more and more widely spread as time goes on apace. He is now showing a window of grey neckwear at fifty cents. It seems something worse than a crime to sell such a rich quality of goods for such a ridiculously low figure. We doubt very much if there is another store in this country where such articles could be procured for less than one dollar.

$30,000 Blaze in Buffalo.

BUFFALO, N.Y., June 11.—Fire broke out in Nathan Wolff's furniture store at 632 William-street this morning. Thirty thousand dollars' worth of property was destroyed and four firemen injured.

Destructive Bush Fires in Michigan.

MARQUETTE, Mich., June 11.—Destructive forest fires are raging in the neighborhood of Nestenia. The burning district covers an area a mile wide and five miles long and the destruction to timber is enormous. Salgola, a lumbering town of 400 inhabitants, was completely wiped out.

Lorne Park cottage to rent, furnished, fronting on the lake, nine rooms. Apply James B. Boustead, 12 Adelaide-street east.

No Derby Plug Smoking Tobacco is genuine unless it bears the Derby Cap-shaped tag.

To Cross the Channel On a Water Cycle.

PARIS, June 11.—George Pinkert, the bicyclist who has invented a water cycle, will try to ride on his new machine across the channel from Grisnez to Folkestone, on June 27.

Derby Plug Smoking Tobacco is noted for quality, 5, 10 and 20-cent plugs.

Women Cannot Vote in New Jersey.

TRENTON, N.J., June 11.—The Supreme Court through Chief Justice Beasley, today decided that women had no right to vote in New Jersey, and that wherever they exercised the right of suffrage it was an illegal assumption of power.

Fetherstonhaugh & Co., patent solicitors and experts, Bank Commerce Building, Toronto.

Have you a cough? Try Coughicura. 10c

NUBBINS OF NEWS.

Don Frederico Madrazo, the distinguished painter, died yesterday at Madrid, aged 79 years.

United States Ambassador Bayard has been presented by Lord Rosebery with one of the plates worn by Ladas in the Derby last Wednesday.

The athletic contests between the Yale and Oxford University teams will take place on the Queen's Club grounds at Kensington, July 16.

Victor M. Drake, a veteran journalist, aged 82 years, died yesterday at Goshen, N.Y.

Col. Daniel E. Davenport, the railroad contractor, was found dead in his room at the Grand Hotel, New York, last night. Apoplexy was given as the cause.

The joint conference between the heads of the Knights of Labor and American Federation of Labor began yesterday at the Laclede Hotel, St. Louis.

A despatch from Tientsin says it is reported the Corean rebels are dispersing, having been warned of the approach of an overwhelming body of imperial troops.

CHARLTON'S BILL IS PASSED.

BUT IT WAS AMENDED UNTIL TWO CLAUSES ONLY REMAINED.

The Canals To Be Closed and no Newspapers To Be Sold on Sunday—Warrants Issued for the Turcotte Witnesses—Notice of a Bill to Ratify the French Treaty.

OTTAWA, June 11.—The House has had more fun with itself to-night than has been indulged in for many a long day. It arose out of Mr. Charlton's Sunday bill, and for nearly two hours the bill was referred back to committee over and over again for amendment.

Mr. W. H. Bennett (East Simcoe) fairly convulsed the House by moving an amendment that the owner of any tug leaving port on Sunday be guilty of a misdemeanor and liable to a fine of not less than $100. After a good deal of fun at this poke at Mr. Charlton Mr. Speaker declared the amendment lost.

Mr. Mara of Yale got the first clause amended so as to permit the distribution of newspapers on Sunday, which will cover the Sunday issues of the British Columbia papers.

Mr. George Taylor got in an amendment exempting religious and Sunday school papers.

Mr. Langelier moved that the bill should not apply to the Province of Quebec, which was declared lost, and he then moved the six months hoist, which was also declared lost, but in neither case were the yeas and nays taken.

Only Two Clauses Left and Passed.

Finally at 10 o'clock what was left of the bill was received a third time and passed. There really is not much of the bill left. All the clauses except the first and second were dropped and these two were amended so that all the bill does now is to prohibit the sale of newspapers on Sunday and opening of the canals between 6 o'clock Sunday morning and 9 o'clock Sunday night, but this may be suspended by an order in council.

The Recalcitrant Witnesses to Be Arrested

When the House met this afternoon the Sergeant-at-Arms stated that J. B. Prevost and O. E. Larose, the two witnesses summoned in the Turcotte case to appear at the bar of the House, had not so appeared.

Mr. Speaker then made a statement as to the witnesses having been summoned to appear.

Sir John Thompson moved, seconded by Sir Adolphe Caron, that the Speaker issue his warrant for the arrest of the witnesses.

The motion was carried and the Deputy Sergeant-at-Arms, duly armed with the Speaker's warrant, left for Quebec this afternoon to bring the witnesses before the House. Rumor, however, has it that his journey will be in vain, as the witnesses are said to have left Quebec for the United States.

Brodeur's Motion Defeated.

The greater part of the afternoon session was taken up with a debate on Mr. Brodeur's motion for a committee of the House to enquire into the irregularities which occurred at the civil service examination at Montreal last November. The motion was finally defeated by a vote of 40 for and 68 against.

Coatsworth's Bill.

After Mr. Charlton's bill was disposed of the House went into committee on Mr. Coatworth's bill respecting cruelty to animals, but did not make much progress and after about an hour's talk the committee rose and reported progress.

House adjourned at 11.

The French Treaty.

Mr. Foster to-night gives notice of a bill respecting the treaty between Her Britannic Majesty and the President of the French Republic.

To Knock Out "Knocking Down."

Sir John Thompson to-night gives notice that he will move in committee of the whole on the bill amending the Criminal Code to add the following as section 393 A: "Everyone is guilty of an indictable offence and is liable to three years' imprisonment who, being or acting in the capacity of a train conductor or other agent or employe of a railway company authorized to sell tickets or take up tickets or collect fares from passengers while traveling on any train operated by such company, fraudulently allows any person to travel on such train for any distance without either paying the proper fare for that distance, or producing a ticket or other evidence that such person is entitled so to travel for that distance, or wilfully omits either to punch or otherwise mark any ticket traveled on so as to mark that it has been traveled on."

SHRINKAGE OF THE GOLD RESERVE.

It Has Now Reached a Point Little Above Sixty-Eight Millions.

WASHINGTON, June 11.—The engagement of $1,000,000 in gold for export from New York to-morrow reduces the reserve in the Treasury to $68,400,000. The "10 days" Treasury statement issued to-day shows receipts only $1,605,035, the lowest for any 10 days since 1892, and less by $1,000,000 than the corresponding period of June, 1893. So far this month the expenditures have exceeded receipts by $2,200,000, and for the fiscal year $73,200,000.

Free Trip to the Orphans.

The managers of the steamer Greyhound are giving the orphans of Dovercourt a free trip to Lorne Park, Wednesday, June 13, at 2 o'clock. It will now be in order for some of the charitable citizens to furnish ice cream, cake, etc., for the little ones.

What Some Hotelkeepers are Doing.

On account of the great popularity of the celebrated Mount Clemens Sprudel Water, some hotelkeepers and others are selling mineral waters that are bottled in Toronto for Sprudel. Now everyone knows Sprudel is bottled fresh at the spring, and that if it was shipped in casks and bottled in Toronto it could be sold at half the price, and everyone ought to know that, unless mineral waters are bottled at the spring, they stand a good chance this hot weather of being loaded with bacteria.

Athlete Cigarettes have no rivals.

Antipodean Delegates Arrive.

VICTORIA, B.C., June 11.—Six Australian and New Zealand delegates to the Intercolonial Conference to be held in Ottawa arrived here on the Arawa last evening. They were met by the Board of Trade and were entertained by the latter.

Plumbing.

W. J. Burroughes & Co., first-class plumbing; steam and hot water heating. 353 Queen-street west. Established 1878. Telephone 134. e

Have you a cough? Try Coughicura, 10c.

Athlete Cigarettes—more sold of this brand than all other cigarettes combined.

Niagara on-the-Lake.

The Queen's Royal Hotel, Niagara-on-the-Lake, opens June 9. Very low rates of two dollars per day, or ten dollars a week are offered for the month of June. e

Tobacco chewers will find Beaver plug just the thing for spring use. Try it. ed

TO HARNESS NIAGARA FALLS.

Plans of the Canadian Niagara Power Company Approved by the Park Commissioners—Work To Be Pushed.

NIAGARA FALLS, Ont., June 11.—One of the most important events in the history of the Province of Ontario took place Saturday. This is the formal acceptance of the plans of the Canadian Niagara Power Company for the development of Niagara's great water power by Queen Victoria Niagara Falls Park Commissioners. Sir Casimir Gzowski, ex-chairman of the Park Commissioners, Chairman J. W. Langmuir and B. B. Osler of Toronto, with Commissioner Wilkes of Brampton, Ont., and Commissioner Orchard of Drummondville, Ont., were at the Clifton House and the plans were delivered by William B. Rankine of New York, secretary and treasurer of the Canadian Company.

A large corps of engineers were sent to the side of the high bluff under Loretto Convent and Carmelite monastery to stake out the site for the new power house.

This will be a big stone structure similar in size and dimension to the power house on the U.S. side. It can eventually be extended 1200 feet and furnish power enough to run every wheel in the whole province.

The work of constructing the inlet canal, the wheel pit and tailrace tunnel will be pushed and the company expect to be able to furnish power within a year for three 5000 horsepower turbines.

Col. A. D. Shaw, President of the Canadian Niagara Power Company, was not present, but the plans were signed by Mr. Stetson, as vice-president, and Mr. Rankine, as secretary and treasurer of the company.

Sir Casimir Gzowski, the chairman of the Park Commission, takes a deep interest in this matter of power development, as it was while under his official regime that the original contract was signed with the Canadian Niagara Power Company, giving them the right to take and use the water of the river within the park.

DETERMINED TO DIE.

A Laborer at Newtonbrook Wilfully Poisons Himself.

A farm laborer named R. Kells, employed by Mr. Gray of Newtonbrook, committed suicide on Saturday by taking Paris green. The deceased had been a resident of Newtonbrook about two months, having removed from Toronto with his wife and two children He was of unsteady habits.

A Previous Attempt Futile.

About a week previous he had attempted to commit suicide, according to the statement of his wife, but the dose he took was too large and the effect was that he was made sick. His second attempt proved successful.

The deceased was a man of about 50 years of age and had been married the second time, leaving a child of about 4 months.

On Saturday in the presence of his wife he took a dose of Paris green, and to prevent her taking the poison from him he locked himself in a room. On the arrival of Dr. Nelles, some three or four hours later, Kells was dead.

The Inquest.

At the instance of Mr. Gray an inquest was held by Coroner Nelles yesterday. The post-mortem examination was made by Drs. Bond and Langstaff.

After examining a number of witnesses the jury found that the deceased had committed suicide.

It is stated that the deceased has a son and two daughters living in Hamilton.

THE NEW DURHAM SENSATION.

Startling Testimony Promised at the Inquest To-Night.

NORWICH, Ont., June 11.—At the inquest on Tuesday it is said that village constable William Allan will make some important disclosures. He will tell of the strange and determined effort of Mrs. Hartley to prevent him from sitting up with her husband a night or two before he died, and just before he became so alarmingly ill as to puzzle the doctors.

Allan, it is said, also had a conversation with Henry Ling, with whom it is said Mrs. Hartley was on intimate terms, and he told the constable that he "would give $500 to be out of this scrape."

Poisoned Herself and Five Children.

BRISBANE, Queensland, June 11.—A woman living at Maryborough gave a dose of carbolic acid to each of her five children and then took a dose of the poison herself. The woman and four of the children died. The physicians saved the fifth.

Two Buffalo Boys Drowned.

BUFFALO, N.Y., June 11.—Fred Davis and Wesley Lonsbury, 15 and 13 years old, went swimming in a pond near Chaffee Sunday afternoon. Their bodies were found Monday morning.

Fell Into the Canal at Perth.

PERTH, Ont., June 11.—This morning about 8 o'clock a young boy about six years of age, son of D. McDonald, stonecutter, fell into the canal. A man jumped in to save him, but as he could not swim he was nearly drowned and had to be helped out. The boy sank and men dragged the canal until 1 o'clock, when the body was found.

Father and Mother See a Son Drowned.

POINT LEPREAUX, N. B., June 11.—Delber Mawhinney, an 11-year-old boy, was drowned while gathering dulse. He slipped on the rocks and fell in eight feet of water. His father, mother and two younger brothers witnessed the mishap.

Drowned Near Regina.

REGINA, June 11.—John Atkinson, a farmer's son, was drowned in the C. P. R. dam Sunday morning.

Killed by a Dream.

ANTIGONISH, N. S., June 11.—Michael Boudreau of Petit de Grat, 91, is dead. He was killed by a dream. He dreamt that he was in the barn and attacked by an ox. The impression was so vivid that he got up in his sleep and made his way through the window of his room in his effort to escape the ox of his dream. He received injuries which caused his death.

THE NEW SOO CANAL.

Possibility of Its Being Opened for Traffic Next Month.

SAULT STE. MARIE, June 11.—It is well within the region of possibility that the new canal may be opened next month, although a great deal of work will have to be done afterwards in the way of filling, levelling, etc. The gates are now lying in the lock, the power tubes are almost completed and work on the sockets for guard gates is well advanced.

His 60th Anniversary.

Sixty years ago to-day Alexander Manning first set foot in "Muddy York." He has been a good citizen ever since, and no man has done more to build up Toronto than he. Mr. Manning is in his 70th year, but is still vigorous and hearty.

Two Killed, Four Injured in a Row.

CHICAGO, June 11.—Two men were killed and three men and one woman seriously injured in a row that followed the attendance at a dance by Poles and Bohemians in a hall at 48th and Goodspeed-streets last night.

Do you ever suffer from indigestion? If so, try Adams' Pepsin Tutti Frutti. Its good effect will surprise you.

APTLY NAMED.

PATRON (clinging hard to his nose): Well, by gum, Mister, Principal Grant was right; it is a strong box!

"THE REPUBLIC OF HAWAII."

The Executive Convention Approves the Constitutional Convention.

VICTORIA, B.C., June 11.—Advices from Honolulu of June 3 say the constitutional convention has been occupied by its organization for the past two days. In the draft of the constitution prepared by the Executive Convention the Government is called "The Republic of Hawaii." There is a president, no vice-president, cabinet of four ministers, an advisory council of 15 member, and a legislature.

The president is to be elected for the term of six years, and cannot succeed himself. He is to be chosen by a majority of both Houses, sitting together, but the majority must also include a majority of the Senate.

The first regular session of the Legislature is to be held on the third Wednesday of February, 1896, and biennially thereafter.

THE HOOPER TRIAL.

A Bench Warrant Issued For the Arrest of Miss Stapely.

THREE RIVERS, June 11.—At the trial of Hooper, charged with the attempted murder of his wifes, the plan of the surroundings where the tragedy is alleged to have occurred were put in. A young man named Grenier said Mrs. Hooper came to his sister's house on the morning of Sept. 11 and stated that she had been thrown into the river. A bench warrant has been issued for Miss Stapely of Ottawa, who is wanted as a material witness.

SHORTAGE OF WHEAT.

The Supply Will Be Exhausted Before the New Crop Is In.

DULUTH, Minn., June 11.—It is now considered that there is good grounds for belief that by the first part of August there will not be wheat enough at the head of the lakes to supply the mills. The amount in store at the present time is scarcely 7,000,000 bushels. The amount now left in farmers' hands is not estimated at enough to be worthy of mention. For the past three weeks millers have been drawing upon the elevators for their supplies, the receipts by rail being far short of the amount necessary for their consumption. Of the 7,000,000 bushels now in store the mills will use, at their present rate of consumption, over 3,000,000 bushels, and as the shipments approximate about 2,000,000 per month the supply is more than likely to be exhausted before the new crop begins to move.

Apples $50 a Barrel in Chicago.

CHICAGO, June 11.—What few good apples there are in Chicago are held at $50 a barrel, a price high beyond all precedent. As there are 400 apples in a barrel this makes the price 12 1-2 cents each. One firm has all the stock there is in the city.

Unique State of Affairs in Newfoundland.

ST. JOHN'S, Nfld., June 11.—Intense excitement prevailed here to-day. The revenue bill expires at midnight, and the Government will collect the duties to-morrow without necessary legal authority, but they declare that this is amply provided for in the Customs Management Act. Some of the Whiteway supporters threaten to contest the matter and bringing actions before the courts. They will pay the duties under protest and then institute proceedings. If the Whitewayites win the cases cannot be heard for months; meanwhile the indemnity bill may be passed, and there is no likelihood of any disturbances or breaches of the peace.

The investment annuity policy of the North American Life Assurance Company, Toronto, Ont., provides that at death, or if on the endowment plan, at the maturity of the endowment period, the company will pay the amount of insurance in 20 or 25 equal annual instalments, the first of such to be paid on the occurrence of the event, or at the end of the endowment period. A much lower rate of premium is chargeable on this than on the other plan of insurance, on account of the payment of the face of the policy being extended over a period of years.

For full particulars as to this and the other excellent plans of the company, apply to the head office, North American Life Assurance Company, 22 to 28 King-street west, Toronto, Ont., or to any of the company's agents. 246

Beaver Tobacco is the "old reliable gentleman's chew." Don't forget it. ed

How Much for the Farmer

when fancy bread is sold at 5c per loaf, choice butter 16c, new laid eggs at 10c per doz., at the market, 77-81 Queen west? 246

THE TARIFF GOES WITH A RUSH.

Several Important Schedules Passed by the Senate in Short Order.

WASHINGTON, June 11.—The progress made by the Senate to-day in the consideration of the Tariff bill was not only exceptionally good, but was "amazing" to those Senators who did not know what was going to happen. Schedule H, the spirits and wines schedule, got through in less than three hours. Then came the cotton schedule, which had been looked forward to as the one around which the fight would rage longest and fiercest. But it was the unexpected that happened. Paragraph after paragraph was put through without question and without discussion. Ten pages of the bill were rushed through in 30 minutes.

The jute section, which was next in order, had not such smooth sailing.

There were some amusing and interesting passages in a discussion over the collar and cuffs paragraph, but the committee amendment was carried without its opponents being numerous enough to second a call for the yeas and nays. Then the jute section was finished and the wool section taken up for to-morrow.

Mr. Sherman gave notice of an amendment to the tariff bill, putting raw wool on the dutiable list at 40 per cent.

THE RUSH FOR STRAWS.

How Dineens' Opening Was Attended—The New Styles.

We'll take it for granted that you want a straw hat. Of course you do. What reasonable man would attempt to live through the summer heat (of which we are now having a foretaste), without a light straw hat, that cool and comfortable article of headgear which is worn by everyone of taste!

The new straws are of a very neat design, and all who have seen them are captivated by the sensibility and gracefulness of the style, in all the varieties affected by the well-dressed man.

Having decided to buy a straw hat, you will next look for the exact style that will best suit you. Your selection will be a matter of no difficulty if you go to the famous establishment of W. & D. Dineen, King and Yonge-streets. There you will find every style that can be worn with propriety, make of the best material and, better than all, at a reasonable price.

The opening days of the great June sale have proved even more successful than was anticipated. At all hours crowds are to be seen at Dineens', corner King and Yonge and 254 Yonge.

Cheer up by using Adams' Tutti Frutti to aid digestion. The most celebrated physicians use it and recommend it.

Temperance Drinks.

Champagne Cider, 75 cents per dozen pints and $1.25 quarts. Sprudel Ginger Champagne, the most delicious of all temperance beverages, $3 per dozen quarts; bottles to be returned. William Mara, 79 Yonge-street. Telephone 1708.

D. Ritchie & Co., manufacturers of Athlete Cigarettes—our production is over three-quarters of the consumption of cigarettes in Canada.

The Arlington, corner King and John, is a large nearly new and very attractive hotel of great elegance in all its appointments, with a cuisine and service of superior excellence; also the most comfortable, coolest and brightest hotel in Ontario. W. G. Havill, manager.

Toronto Railway Change of Routes.

On and after Tuesday, June 12, 1894, in addition to the Carlton and College cars running into High Park, the Dundas cars will also run in on a headway of 8 minutes.

BIRTHS.

THOMAS—At 471 Sackville-street, on Sunday, June 10th, the wife of Phillip James Thomas, of a son.

MARRIAGES.

McGINTY—MOHAN—June 11th, by Rev. Father Barrett of St. Patrick's Church, Mr. E. L. McGinty of Toronto to Miss Mary Minnie, eldest daughter of John and Elizabeth Mohan, Hollywood, County Monaghan, Ireland.

DEATHS.

FOSTER—On the 11th inst., Catherine Foster, in the 74th year of her age.

Funeral from 346 Carlton-street at 2.30 p.m. Tuesday, 12th inst. Friends and acquaintances kindly invited to attend.

THEIR ANGRY PASSION ROSE.

EXCITING MEETING OF THE BOARD OF WORKS YESTERDAY.

Wordy War Between Aldermen Hewitt and Allen, Gowanlock and Lamb—Rejection of the Island Water Project—No Outsiders for City Work—Offending Foremen to Be Dismissed.

Ald. Lamb presided at the meeting of the Board of Works. There was an animated discussion on the trespass of the Toronto Ferry Company on city land on the Esplanade to the extent of 15 feet. The City Engineer was instructed to remove the obstruction if the company does not sign a satisfactory agreement within 10 days, maintaining the rights of the city and the public to the diagonal strip in question.

Works Approved.

The committee approved of a granolithic sidewalk in Spadina-avenue between St. Patrick and Clyde-streets, on the south side of Wellesley-street from Church to Jarvis and on the north side of Queen-street between Yonge and Berkeley-streets; and an asphalt pavement in Beverley-street between Queen and College-streets.

The recommendation for a brick pavement in Arthur-street between Bathurst and Palmerston-avenue was referred back in order that the Engineer may report on the desirability of laying street car tracks in Arthur-street from Bathurst to Dundas.

Island Water Supply.

On consideration of the offer of the Ontario Waterworks Construction and Supply Company to supply water on the terms already published in The World, the chairman said he did not approve of a private company doing that which the city could do as economically and effectively.

Ald. Gowanlock endorsed the offer of the company.

Ald. Sheppard was strongly opposed to any private company supplying water either at the Island or elsewhere.

Ald. Allen said the terms of the proposed agreement were worse than those of the canal company.

Reviled the Community.

Ald. Hewitt favored the company if the scheme could be carried out for $30,000 and an option be given to the city for purchase. Toronto was becoming a moss-back community, and was going wild and crazy on single tax and other fads. Citizens were all for theory; here was something practical. The experiment should be supported.

Ald. Allen and Ald. Sheppard replied to Ald. Hewitt. Ald. Allen said the proposal of the company was a wild-cat scheme. It was entirely one-sided and should be refused.

Ald. Bates concurred with Ald. Hewitt.

In reply to Ald. Gowanlock, who maintained that outsiders could do the work cheaper than the city, Ald. Sheppard said such a statement was an insult and a slur on Toronto. He objected to giving franchises to private companies for work the city could do.

Ald. Thompson maintained that the City Waterworks Department was a failure. He endorsed this private venture.

Ald. Burns said the arguments in favor of the company were utterly ridiculous and out of all reason.

A Lively Rhetorical Fracas.

Ald. Allen moved that the report be referred back, and that the Engineer be instructed to report the cheapest mode in which Island residents may be supplied with water.

Ald. Hewitt twitted Ald. Allen with being "a know-nothing," the Engineer had already reported.

Ald. Allen took umbrage, and retorted that he did not, like Ald. Hewitt, sneak around after companies. He would scorn to do this.

Ald. Hewitt retorted: You know nothing about any companies. Ald. Allen said he did not wish to know about them in the way Ald. Hewitt did.

Then the alderman from No. 1 advanced to Ald. Hewitt, and appeared as if about to strike his confrere from No. 2. Ald. Hewitt said he was not afraid of Ald. Allen, he was used to such tactics.

Several members were on their feet, when the chairman interposed, and the wordy wrangle, which had nearly led to blows, subsided.

The Mayor strongly protested against the private company's scheme.

Ald. Burns moved, in amendment to Ald. Allen's motion, that the company's proposition be not entertained.

This was carried by 10 to 1, Ald. Gowanlock being the only dissentient.

The report on the proposed new conduit and improvements in the Toronto water supply was deferred for a special meeting.

Outsiders on City Works.

Ald. Bates moved that a clause be inserted in all city contracts requiring the employment of residents, and instructing the City Engineer to dismiss any foreman who employed outsiders in preference to city residents. The alderman maintained that citizens were starving whilst strangers were being brought into the city on various works.

Ald. Bailey strongly supported the motion, giving names of strangers thus employed. Nothing but the summary dismissal of a few foremen would remedy this evil.

The proposition was agreed to.

On motion of Ald. Hewitt the City Engineer was instructed to bring in a report on the cost of a city supply of water to the Island.

In reference to a report on the quality of lubricating oils at the Waterworks, Ald. Gowanlock fell foul of the chairman, and the retort uncourteous, if not the lie direct, was bandied.

When you ask for Derby Plug Smoking Tobacco, 5, 10 and 20 cent plugs, be sure that the retailer does not induce you to buy any other brand in order that he should make larger profits.

Sultan of Morocco Reported Murdered.

LONDON, June 11.—Advices received here report that the Sultan of Morocco died on June 7th, and that the army proclaimed his son, Mulai Abdul, his successor. Private advices say the Sultan was murdered.

The latest advices from Morocco say an uprising is expected throughout the country as a result of the Sultan's death.

It is ascertained the Sultan died en route between Marakesh and Rabat. The cause of his death is not yet definitely stated.
