Fine Colored Plaid Silks.

Not many left; they were $1 00 in price; we are clearing now at, yard **39c**

FOREIGNERS IN PERIL

British and Americans in Danger From Manchurian Russians.

Berlin, May 11.—The correspondent of the Frankfurter Zeitung at Mukden, Manchuria, continues to send reports of the trepidation of American and British residents there owing to the hostility displayed by the Russians.

"It is a source of great astonishment to me," says the correspondent, "that the Americans and Britishers here tolerate the treatment of the Russians. But many of them are engaged in business here, and should they protest to their respective countries, woe to them! They would be compelled to leave this section within 24 hours after the Russians are apprised that these foreigners have objected to their actions. Were they to remain here longer than a day, the wrath of the Russians would be so great that not a mother's son of the Americans or Britishers would escape.

"It is an extremely easy matter for the Russians to stir up charges against aliens. And, moreover, they would be upheld in their contentions by the authorities, who would lose no time in sending a substantiation of the charges of their subordinates to the Czar.

"Let me say that if there is a reverse to Russian arms near these borders, the Czar's representatives, in their unrestrictive fury, will not hesitate to fertilize the soil of Manchuria with the blood of every foreigner here."

NOT A DEATH SENTENCE.

Bright's Disease Once More Yields to Dodd's Kidney Pills.

Lochiel, Ont., May 9. — (Special).—That Bright's Disease is no longer a death sentence has been fully proved by Miss Johann Mayor, of this place. In an interview Miss Mayor says:

"I had Bright's Disease in its worst stages. Two doctors gave me up, telling me I had let the disease go too far. I had begun to think I could not endure life much longer, when I started to use Dodd's Kidney Pills and it is owing to them I am at work today, a strong healthy girl."

Dodd's Kidney Pills always cure Bright's Disease. How sure it is they will cure all the earlier stages of Kidney Disease.

PARKER LOSING GROUND

Has Now Only an Even Chance for Democratic Nomination.

Washington, May 10. — Judge Parker is still the most likely winner of the Democratic presidential nomination, but he is far from being assured of the prize. The St. Louis convention is only sixty days away, and Democratic opinion has not as yet sufficiently crystallized to indicate unmistakably what its action is to be. The most that can be said is that Judge Parker is in the lead, and that his chances are better than those of any other man. But he is not as strong as he was three weeks ago, when the New York Democratic convention declared for him. And it is an open question whether or not he can gain enough between now and the meeting of the convention to make sure of the victory. The best judgment here is that it is Parker against the field, with about an even chance between them. It is apparent that Judge Parker's interests have been handled badly. Several mistakes have been made by those who are managing his affairs, and in one of these blunders he himself had a hand. This was the blunder of the platform. The document put forth by the New York Democratic convention has hurt Parker tremendously. It was so weak, vapid and platitudinous that it became at once an object of attack. It confirmed the suspicion, already rife, that Judge Parker was a man without positive convictions, or at least that he was trying to slip into the leadership of the party without taking the risks involved in a frank statement of his views. From the moment that platform was issued Judge Parker has been losing ground, and largely on account of it.

IT SPEAKS FOR ITSELF.

Hedrite is packed only in small red enamelled tin boxes containing 1 dozen tablets each, and is sold by all dealers or mailed. Price 25c. Sample and humorous booklet sent free. The Herald Remedy Co., Montreal.

IN FERMENT OF UNREST

Russia's Western Provinces On the Verge of a Revolution.

Berlin, May 11.—Latest advices from the western provinces in Russia indicate that the revolutionists are actively preparing to take up arms against the Czar. The Government agents, who have been trying to ascertain who the leader of the revolutionary party is, have a complete and detailed report of the conditions in the fermenting districts.

From best information they have succeeded in discovering the whereabouts of the revolutionary leader, and the first trouble is expected when Russian troops arrive in Western Poland to arrest him.

The bellicose movement is spreading throughout Russia, and an outbreak in one place is certain to lead to others in several cities.

In Lodz and the vicinity numerous factories have been closed owing to the threatening attitude of the workers, who parade the streets nightly in celebration of the brilliant Japanese land victories.

In Warsaw itself meetings of thousands of Polish workers are reported, evidently arranged by the revolutionaries.

The other day a member of the revolutionary party having died in the city jail, the news of his death spread through the city like wildfire. Thousands of workingmen assembled in front of the citadel to attend the funeral. They began calling out seditious cries and singing Polish revolutionary songs.

The fire brigade was ordered out to disperse the crowds with their hydrants, but the fire brigade had to disperse overpowered by the crowd, which had now assembled in vast numbers.

It was not until the authorities had declared that there would be no funeral that the crowds dispersed.

DR. A. W. CHASE'S CATARRH CURE ... 25c. is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

At Cherbourg—Graf Waldersee, from New York.

At Hamburg—Blucher, from New York.

At Bremen—Kron Prinz Wilhelm, from New York.

OSLER REPLIES TO MR. SCOTT

Denies He Made Enormous Profits From Building of N. W. T. Roads.

Ottawa, May 10. — In the House today Mr. Osler replied to the statement made by the member for Assiniboia that as a promoter of the Qu'Appelle, Long Lake and Saskatchewan Railway and the Calgary and Edmonton Railway, he made enormous profits. Mr. Osler said he took over the financing of the roads after several ineffectual attempts had been made to construct and place them on a paying basis. He made the arrangements in London and was elected a director to look after the money invested. He declared that all his firm received was a small fee. He denied that the land was originally worth three dollars an acre, as had been stated, declaring that seven or eight years after the period of which he spoke, the land which was received as a subsidy could be had in the open market at 25 cents an acre.

Mr. Clarke also spoke defending Mr. Osler, and Mr. Davis repeated his statements of yesterday in support of Mr. Scott.

Mr. Oliver declared that the builders of these roads received $22,634,000 the cost of which by their own showing was $6,600,000.

Dr. Sproule complained that the debate was a waste of time.

After Mr. Clancy had objected to the moral tenor of the discussion the matter was dropped.

The Militia Measure.

The resolution of the Militia Minister, increasing the salary of the Paymaster-General to $3,200 per year, was passed.

Sir Frederick Borden said this office was no longer a civil one, but came under the G. O. C.

Mr. Clarke asked that the pay of G. O. C.'s be increased. The Minister of Militia promised that this would be done. At present they receive from $1,600 to $1,700 a year, with allowances, which at times, brought it up to $2,400.

The resolution to increase the salary of privates caused some discussion. It was objected that as it stood it was not retroactive as to time of service, and men who had served for years would be in the same position as new recruits. To meet this obvious unfairness the resolution was amended, on motion of Sir Wilfrid Laurier, to read that "officers, warrant officers, and non-commissioned officers of the militia other than the permanent force, shall be entitled to pay at rates prescribed by the Governor-in-council; and that the pay of privates shall be at the rate of 50 cents a day, which may be increased as may be prescribed by regulations approved by the Governor-in-council, but not to exceed a maximum of one dollar a day."

The bill to incorporate the Canadian Artillery Association was given its first reading. Its main object is to enable the association to hold property without the intervention of a trustee.

Are You Troubled By Sleeplessness?

OVER-WROUGHT NERVES CAUSE THE TROUBLE — BUILD UP, FORTIFY THE NERVOUS SYSTEM WITH FERROZONE—THEN YOU WILL SLEEP SOUNDLY.

There is probably no remedy that soothes the nerves and drives away those long nights of wakefulness like Ferrozone. Every person whose sleep is restless should take Ferrozone, like Mr. J. H. McGaw, who writes from Saskatoon, as follows:

"I was bothered with insomnia last summer to such an extent that my health almost broke down. I was frightfully nervous. If it had gone on much longer I would have been a physical wreck. I read about Ferrozone, and concluded it was the sort of remedy I needed. I bought six boxes, and took one tablet with every meal. A change was at once noticeable. I no longer labored under such great mental excitement, and was able to take things more quietly. Ferrozone improved my digestion, I picked up in spirits, in strength, and in a comparatively short time sleep came the minute my head touched the pillow. Ferrozone completely rehabilitated my system, and has made me a different sort of man altogether."

FERROZONE BRINGS RESTFUL SLEEP

Don't wait until your condition becomes nervous prostration; it's hard to cure. Take Ferrozone regularly and the cause of your sleepless nights will be removed. It always cures insomnia.

Ferrozone is the greatest health-giver, the most valuable tonic, that money can buy. It will bring you lasting strength, vigor and health, at small cost. Only Ferrozone can do this, so be sure that no dishonest dealer substitutes something represented "just as good." No other remedy is so good as Ferrozone, price 50 cents per box, or six boxes for $2 50, at all druggists, or N. C. Poison & Co., Kingston, Ont.

A CONSPIRACY CHARGE

Fraud Alleged in the Sale of Patent Refrigerators.

Chatham, Ont., May 11. — On a charge of conspiracy in conection with the sale of Arctic cream freezers to a number of farmers, Messrs. J. C. and P. E. Watterworth were yesterday committed for trial. They were bailed at $500 and $250 and will appear at the next sitting of the criminal court.

It is alleged that in the selling of the freezers they claimed that all manner of farm produce could be preserved for any length of time without the use of ice, the method being to fill up a hollow compartment in the refrigerator with water. It is said the prospective purchasers would be asked to sign a trial order, which it is alleged eventually turned out to be a note payable in six months. It is alleged these were presented to various banks or brokers and discounted.

When you think you have cured a cough or cold, but find a dry, hacking cough remains, there is danger. Take

Shiloh's Consumption Cure The Lung Tonic

at once. It will strengthen the lungs and stop the cough.

Prices: 25c 50c $1. S. C. WELLS & Co. LeRoy, N.Y., Toronto, Can. 205

STYLE No. 312—This is a straight-front corset for those who do not go to extremes. It is right in style, but moderately so. Medium length, stripped.

We have been making E. T. Corsets for a quarter of a century, and to this is due much of the perfection of fit and style we give.

Every E. T. Corset is carefully examined before it leaves our factory. Smaller defects than you would notice will throw a corset out. That is why we can guarantee

E. T. Corsets

A N. W. T. MURDER

Boy Beats His Sick Sister Until She Dies.

Rosthern, N. W. T., May 11. — The body of Victoria Schuster, the 10-year-old girl murdered by her brother, John, aged 12, at Dead Moose Lake, a month ago, was brought to Rosthern last Saturday afternoon. At the inquest on Monday, John Schuster, father of the child, stated that he knew nothing of the occurrence until told by his daughter Margaret. He was absent at the time. Margaret and Andrew, children of John Schuster, testified to prisoner first striking Victoria, who was ill in bed, with a whip, and then attacking her with a poker. He had also previously beaten her with a whip and a piece of wood in the absence of her father. He threatened Margaret with a beating if she told the father. The prisoner was asked the usual question, but replied that he had nothing to say in regard to the evidence.

ROOM FOR THE WOMEN

Female Emigration to Canada Encouraged by British Society.

London, May 11. — Miss Broomfield, of the British Women's Emigration Association, addressing the Manchester branch of the National Union of Women Workers on emigration to Canada, said that contrary to reports circulated by the labor party there was opportunity for women. One of the recent estimates the association received from the Canadian Manufacturers' Association stated there were 4,406 vacancies for women workers in Canadian factories. Miss Broomfield, in concluding, reminded her audience that the present chances for British workwomen in our richest and soberest colony would not always be offered, for the people of other nations were finding their way there.

Railway Taxation Commission.

Toronto, May 11.—The Ontario cabinet yesterday afternoon discussed the appointment of the commission to investigate railway taxation in the United States, but nothing definite was decided upon. It is probable that only one member of the Legislature will be on the commission, the others being professional gentlemen, who have studied this and kindred subjects.

Not Sufficient Postage.

London, May 11. — A large number of letters from Canada, addressed to continental countries, are insufficiently paid. A Canadian returned from Egypt and Italy shows that the majority of letters to Egypt, France and Italy have only a two-cent stamp instead of a five, showing that no attention seems to be paid to their weight by Canadian writers. The same may be said of Canadian letters to England. Hundreds come weekly prepaid single weight instead of double; it also applies to American letters. The estimated surcharges caused by the neglect of Canadian correspondents, costs the receivers hundreds of pounds annually.

Another Thousand Coming.

London, May 11. — The Lake Manitoba sailed yesterday with 1,000 emigrants, settlers for the Northwest, skilled mechanics for Ontario, and 100 carefully-selected domestic servants from the north of Ireland and Scotland, in charge of Mrs. Sandford, of Winnipeg.

That Frisky Elevator.

Toronto, May 11. — The elevator in the House of Commons took another tumble at 1 o'clock yesterday. When the railway committee finshes business members are in the habit of rushing for the elevator, and often it gets overcrowded. This time it had nearly reached the first floor when it took a drop and landed in the basement. Some of the members got a fright but no one is much the worst for the experience.

A Brakeman Killed.

Beeton, Ont., May 11. — A. E. Early, a G. T. R. brakeman, while shunting at Beeton yesterday accidentally fell off a car and was dragged 100 yards beneath the car, which ran over his right leg above the knee, almost severing it. Early died shortly afterward.

Drowned at Toronto.

Toronto, May 11.—Homer Joncas, a French-Canadian, aged about 25, was drowned in the bay while starting for a sail yesterday afternoon. He was a cigar packer in the employ of the Spanish Cigar Company, and had been in Toronto about a year and a half. A sister lives in Montreal employed in a corset factory on St. Catharines street. Joncas came here from Montreal.

Poor Fruit Crop.

Toronto, May 11. — It is learned at the Bureau of Industries at the Parliament buildings here that the prospects for the fruit crop this season the very poor. The remarkably severe winter and the prevalence of mice have proved disastrous to the orchards. Reports from the Niagara districts indicate a scarcity of peaches. Many of the orchards have been ruined by the frosts. Grapes, plums and peaches have also suffered. In Lincoln a fruit grower lost 200 trees out of a lot of 2,000.

THE WEATHER TODAY- Fine and cool.

MISS SEXTON, well-known to our customers as an expert Corset Fitter and Demonstrator, will have charge of our Corset Department, commencing today and continuing for one week. It will be to the advantage of ladies to call and have a corset talk with Miss Sexton. To talk with her does not mean that you have to buy.
